1. Which of the following procedures is correct when applying for a mobile driver’s license?

① Applications can be made using any app.

② Applications must be made using a smartphone under the applicant’s name with identity verification.

③ Applications can only be made at the traffic civil service office of a police station.

④ A mobile driver’s license cannot be issued at a driver’s license test center.

■ Answer : 2

2. According to the Road Traffic Act, which of the following is NOT true about driver's license issuance?

① A driver’s license must be issued within 30 days of passing the driver's license test.

② A driver’s license cannot be issued in English.

③ A mobile driver’s license can be issued.

④ A lost driver’s license can be reissued.

■ Answer : 2

3. What is the validity period for an international driver's license issued by the commissioner of the City/Do (Province) police agency from the date of issuance?

① 1 year

② 2 years

③ 3 years

④ 4 years

■ Answer : 1

4. According to the Road Traffic Act, which of the following is a prerequisite for driving an emergency passenger vehicle with prescribed seating capacity of no more than 15 persons?

① Class I driver’s license for ordinary motor vehicles; 3 hours of traffic safety education

② Class I driver’s license for special motor vehicles (large towing vehicles); 2 hours of traffic safety education

③ Class I driver’s license for special motor vehicles (recovery vehicles); 2 hours of traffic safety education

④ Class II driver’s license for ordinary motor vehicles; 3 hours of traffic safety education

■ Answer : 1

5. What is the period of validity of a learner's permit according to the Road Traffic Act?

① 6 months from the date of issuance

② 1 year from the date of issuance

③ 2 years from the date of issuance

④ 3 years from the date of issuance

■ Answer : 2

6. According to the Road Traffic Act, which of the following should NOT be indicated in a driver's license regarding the special conditions for allowance of driver's license?

① A: Manual transmission

② E: Deaf sign and convex mirror

③ G: Specially produced and approved car

④ H: Right direction indicator

■ Answer : 1

7. A vehicle with total weight of 780 kg is to be towed with an 11-seater passenger vehicle. Which of the following driver's license(s) must the driver hold?

① Class I driver's license for ordinary motor vehicles and for small towing vehicles

② Class II driver's license for ordinary motor vehicles and Class I driver's license for small towing vehicles

③ Class I driver's license for ordinary motor vehicles and for recovery vehicles

④ Class II driver's license for ordinary motor vehicles and Class I driver's license for recovery vehicles

■ Answer : 1

8. Which TWO statements are correct regarding the types of vehicles that can be driven by specific types of driver's license?

① An asphalt distributor may be driven by a driver holding a Class I driver's license for large motor vehicles.

② A dump truck may be driven by a driver holding a Class I driver's license for ordinary motor vehicles.

③ A 250 cc two-wheeled vehicle may be driven by a person holding a Class II driver's license for ordinary motor vehicles.

④ A motorcycle may be driven by a person holding a Class II driver's license for small motor vehicles.

■ Answer : 1, 4

9. One intends to drive a 12-seater passenger vehicle. Which of the following driver's license types must one obtain to do so?

① Class I driver's license for large towing vehicles

② Class I driver's license for recovery vehicles

③ Class I driver's license for ordinary motor vehicles

④ Class II driver's license for ordinary motor vehicles

■ Answer : 3

10. Which of the following people can obtain a Class II driver's license for ordinary motor vehicles?

① Those who are blind in one eye but possess visual acuity of 0.5 in the other eye

② Those who cannot differentiate red, green, and yellow colors (color blind)

③ Those who are 17 years old

④ Those who are deaf

■ Answer : 4

11. Which of the following is a correct definition (standard) of a "motorcycle" under the Road Traffic Act?

① Displacement of up to 50 cc; maximum rated output power of up to 0.59 kW

② Displacement of less than 50 cc; maximum rated output power of less than 0.59 kW

③ Displacement of up to 125 cc; maximum rated output power of up to 11 kW

④ Displacement of less than 125 cc; maximum rated output power of less than 11 kW

■ Answer : 3

12. According to the Road Traffic Act, which of the following are the qualifications for taking a test for Class I driver's license for a large motor vehicle? (Excluding experience in driving a two-wheeled vehicle)

① A person who has been driving a vehicle for at least 6 months and who is 18 years or older

② A person who has been driving a vehicle for at least 1 year and who is 18 years or older

③ A person who has been driving a vehicle for at least 6 months and who is 19 years or older

④ A person who has been driving a vehicle for at least 1 year and who is 19 years or older

■ Answer : 4

13. Which of the following is an incorrect description of postponing the driver's license aptitude test under the Road Traffic Act when traveling abroad?

① You must submit an application to postpone the aptitude test before leaving the country.

② You cannot have an agent apply for a postponement of the aptitude test on your behalf after you leave the country.

③ You must provide supporting documents of your departure such as an E-ticket to apply for a postponement of the aptitude test.

④ If your application is approved, you must take the aptitude test within three months of your return.

■ Answer : 2

14. A person who fails the road driving test may retake the test ( ) after the date of failure. Which of the following belongs in ( )?

① 1 day

② 3 days

③ 5 days

④ 7 days

■ Answer : 2

15. What are TWO inappropriate explanations for the "Good Driving Mileage" system?

① It is a system that provides practical incentives to those who comply with and practice traffic laws.

② If a driver receives a suspension order, the penalty can be deducted from the accumulated points.

③ Those who have not paid the traffic penalty or administrative fine can participate in the no-violation, no-accident pledge of the mileage system.

④ In case of causing a traffic accident or violating traffic laws during the pledge period, the person cannot take the pledge again.

■ Answer : 3, 4

16. Which of the following is NOT the correct definition of personal mobility devices (PMDs) in motorcycle form?

① The ascent angle is less than 25 degrees.

② The device must weigh less than 30 kg.

③ The term "bicycles, etc." means bicycles and personal mobility devices.

④ The motor should not operate when driving at a speed of 25 km/h or more.

■ Answer : 1

17. Below are explanations of the standard for personal mobility devices (PMDs) according to the Road Traffic Act. Which one is correct?

① For vehicles with a motor, the motor should stop when the device reaches or exceeds a speed of 20 km/h.

② It includes electric bicycles that cannot move solely by motor power (PAS: Pedal Assist System).

③ It is a vehicle with maximum rated output power of 11 kW or less, which weighs less than 35 kg.

④ The weight of the vehicle should be less than 30 kg.

■ Answer : 4

18. Which TWO actions would cause someone to be barred from acquiring a driver's license for 2 years? (If given a penalty more severe than a criminal fine)

① Driving without a license three times

② When taking a driver's license test on behalf of another person.

③ When charged for assaulting a police officer during an inspection, resulting in the revocation of one's license.

④ When causing three or more traffic accidents while driving under the influence of alcohol.

■ Answer : 1, 2

19. According to the Road Traffic Act, which of the following is NOT true about an English driver's license? (Limited to countries that have ratified the Geneva Convention or the Vienna Convention)

① When driving in a country where an English driver's license is recognized, it is possible to drive without a separate notarized translation.

② The English driver's license can be used regardless of the length of stay in a country where an English driver's license is recognized.

③ You should bring your Korean driver's license, an international driver's license, and your passport in a country where an English driver's license is not recognized.

④ It is a license wherein the content of the driver's license is written in English on the back of the driver's license.

■ Answer : 2

20. Under the Road Traffic Act, a motorcycle is defined as a two-wheeled vehicle with maximum rated output of ( ) or less when powered by electricity. Which of the following belongs in ( )?

① 11 kW

② 9 kW

③ 5 kW

④ 0.59 kW

■ Answer : 1

21. Which of the following is the correct definition of "line of curbstones" as stipulated in the Road Traffic Act?

① A line indicating the direction of the thoroughfare for vehicles and horses

② A line for guiding vehicles to drive in a single line through a set part of the road

③ A line consisting of rocks or other material for distinguishing roadways from sidewalks

④ A line indicating separate lanes

■ Answer : 3

22. Which of the following statements regarding personal mobility devices under the Road Traffic Act is correct?

① It is possible to drive a PMD with more riders than the permitted capacity.

② A person over the age of 65 who has returned his/her driver's license can drive a PMD.

③ A person over the age of 13 can drive a PMD without a driver's license.

④ When using a crosswalk, you must get off the personal mobility device and push or carry it while walking.

■ Answer : 4

23. According to the Road Traffic Act, which of the following is the age standard for individuals whose driver's license renewal and aptitude test interval is 3 years?

① Individuals aged 65 or older

② Individuals aged 70 or older

③ Individuals aged 75 or older

④ Individuals aged 80 or older

■ Answer : 3

24. Below are descriptions of the verification process for identifying individuals wishing to obtain a driver's license according to the Road Traffic Act and its Enforcement Decree. Which of the following is NOT correct?

① If the resident registration card has been lost, identification can be performed via the confirmation of application for the issuance of a resident registration card.

② An individual who cannot be verified by either identification certificate or fingerprint information is not permitted to take the test.

③ Fingerprint information may be compared and verified using an electronic method without the applicant's consent.

④ If the applicant refuses to verify his/her own identity, the issuance of a driver's license may be denied.

■ Answer : 3

25. Which of the following government authorities provides special education to those intending to get a license for fuel cell electric buses (FCEBs; seating capacity of 35 or more)?

① Korea Gas Safety Corporation

② Korea Occupational Safety and Health Agency

③ Korea Road Traffic Authority

④ Korea Expressway Corporation

■ Answer : 1

26. Whom must the person likely to have his/her driver's license suspended due to a violation of traffic laws according to the Road Traffic Act request when wishing to receive the recommended special traffic safety education? (Driving under the influence excluded)

① Chairperson of the Korea Road Traffic Authority

② Head of the local government having jurisdiction over one's domicile

③ Head of a driver licensing office

④ Commissioner of a City/Do police agency

■ Answer : 4

27. According to the Road Traffic Act and its Enforcement Decree, if a person who is blind in one eye intends to obtain a Class I driver's license for ordinary motor vehicles, the visual acuity of his/her other eye shall be at least ( ), he/she shall have altitudinal visual range of ( ) degrees and vertical visual range of 20 degrees, and there shall be no scotoma and hemianopia within the central visual range of 20 degrees. Which answer fits in the two ( )s?

① 0.5, 50

② 0.6, 80

③ 0.7, 100

④ 0.8, 120

■ Answer : 4

28. How often is a person between 65 and 75 years of age with a Class I driver's license (excluding persons who have lost sight in only one eye) required to take a regular aptitude test?

① Every 3 years

② Every 5 years

③ Every 10 years

④ Every 15 years

■ Answer : 2

29. When should drivers return their driver's license to the commissioner of the City/Do (Province) police agency? (Select TWO)

① When they have their driver's license revoked

② When they have their driver's license suspended

③ When they are notified that they should take an occasional aptitude test

④ If they fail to take a regular aptitude test for 6 months

■ Answer : 1, 2

30. Which of the following correctly describes the renewal period of a driver’s license under the Road Traffic Act (for drivers under 65 years of age only)?

① Within two months before or after one's birthday in the year that marks the tenth anniversary since passing the driver’s license test.

② Within four months before or after one's birthday in the year that marks the tenth anniversary since passing the driver’s license test.

③ Within six months before or after one's birthday in the year that marks the tenth anniversary since passing the driver’s license test.

④ Within eight months before or after one's birthday in the year that marks the tenth anniversary since passing the driver’s license test.

■ Answer : 3

31. According to the Road Traffic Act, which of the following cannot be issued an English driver's license?

① A person who has passed the driver’s license test and who applies for a driver’s license

② A person who has passed the driver’s license aptitude test and who applies for a driver’s license

③ A person who applies for exchanging a foreign driver’s license with a domestic driver’s license

④ A person who applies with a student license

■ Answer : 4

32. According to the Road Traffic Act and its Enforcement Decree, which of the following is not allowed to be driven with a Class II driver’s license for ordinary motor vehicles?

① A recovery vehicle

② A passenger vehicle with seating capacity of less than 10

③ A passenger car

④ A truck with loading weight of 2.5 tons

■ Answer : 1

33. A person whose driver's license test result becomes invalidated due to cheating shall be prohibited from taking the relevant examination for ( ) from the date of imposition. Which answer fits in ( )?

① 2 years

② 3 years

③ 4 years

④ 5 years

■ Answer : 1

34. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT a valid reason for postponing license renewal or the regular aptitude test?

① If the person is staying overseas

② If the person is unable to move due to an illness

③ If the person is serving as a noncommissioned officer or higher in the Army, Navy, or Air Force pursuant to the Military Personnel Management Act

④ If the person falls victim to a disaster or a calamity

■ Answer : 3

35. According to the Road Traffic Act and its Enforcement Decree, a person who has received an extension of the period for renewal of a driver's license must renew and obtain a driver's license within ( ) of the date such cause or event is terminated. Which of the following belongs in ( )?

① 1 month

② 3 months

③ 6 months

④ 12 months

■ Answer : 2

36. According to the High-pressure Gas Safety Control Act, which of the following are required to take special education?

① Drivers of fuel cell passenger vehicles

② Drivers of large FCEBs (seating capacity of 36 or more)

③ Drivers of fuel cell trucks

④ Drivers of special-purpose FCEVs

■ Answer : 2

37. Which of the following is correct regarding the obligations of a driver who has obtained a conditional driver's license upon installing an ignition interlock device under the Road Traffic Act?

① A person who has obtained a conditional driver's license upon installing an ignition interlock device and who drives without registering it with the commissioner of the city or police agency of his/her municipality will have his/her license suspended.

② A person who has driven a vehicle without an ignition interlock device or with such device that fails to meet the installation standards shall be ordered to take corrective measures within one month.

③ A person who drives a motor vehicle with an ignition interlock device, etc. knowing that the device is less effective as it was dismantled, tampered with, or otherwise for maintenance will have his/her license suspended.

④ After the period of license disqualification due to drunk driving, a person may only drive a vehicle with an ignition interlock device from the time of obtaining a conditional driver's license upon installing an ignition interlock device.

■ Answer : 4

38. What is the standard for penalties imposed on a driver who knowingly uses a fake petroleum product as vehicle fuel?

① An administrative fine between KRW 50,000 and 100,000

② An administrative fine between KRW 500,000 and 1 million

③ An administrative fine between KRW 2 million and 20 million

④ No penalties

■ Answer : 3

39. Which of the following is NOT correct regarding charging stations of electric vehicles (EVs)?

① Common-use chargers refer to chargers installed in rest areas, large marts, and public offices.

② For the charging method of EVs, there are slow-charging methods using alternating current and fast-charging methods using direct current.

③ Only pre-registered vehicles can use common-use chargers.

④ If one possesses land or lot, one can install a personal charging facility.

■ Answer : 3

40. Which of the following is NOT a problem that can occur in cars when refueling with fake petroleum products?

① Increased engine noise due to corrosion and damage of the fuel supply device

② Reduced power and fuel efficiency due to damage to the injector that injects fuel

③ Reduced power due to reduction of engine friction caused by increased lubricity

④ Power-downs due to damage to the high-pressure fuel pump supplying fuel

■ Answer : 3

41. Which TWO items should you check before getting in a vehicle?

① Condition of tire wear

② Whether there are obstacles in front of or behind your car

③ Whether the dashboard readings are working properly

④ Whether the brake pedal works normally

■ Answer : 1, 2

42. What is the color generally displayed on the inspection screen when the life of a maintenance-free (MF) battery expires?

① Yellow

② White

③ Black

④ Green

■ Answer : 2

43. Which of the following CANNOT be considered a fake petroleum product for use as vehicle fuel?

① Gasoline mixed with methanol

② A product that contains less than 5% high-grade gasoline mixed with normal gasoline

③ Diesel oil mixed with kerosene

④ A product with less than 5% water mixed with diesel

■ Answer : 4

44. Which of the following is not the correct method of checking for hydrogen gas leaks?

① Measurement using a flammable gas detector

② Confirmation through soapy water

③ Confirmation by smelling gas

④ Confirmation using a hydrogen detector

■ Answer : 3

45. Which of the following is NOT correct regarding the safety rules for hydrogen vehicles?

① Switch off the vehicle power before charging.

② Smoking should be done at a distance from the vehicle.

③ When hydrogen gas leaks, request the safety supervisor from the charging station for a safety check.

④ After a traffic accident involving the collision of a hydrogen vehicle, drive the vehicle after undergoing a gas safety inspection.

■ Answer : 2

46. Which of the following is not necessary when checking for leaks in hydrogen vehicles?

① Connection between valve and container

② Regulator

③ Gas hose and pipe connection

④ Boost inverter of fuel cell

■ Answer : 4

47. Which of the following is NOT an appropriate method of charging an EV?

① When charging, use a charger and an adapter that are compatible with the specifications.

② During charging, do not disconnect the charging connector arbitrarily. End charging with the charging completion button.

③ Be careful not to use the charger with wet hands; prevent water from entering the charging device.

④ When using a portable charger to charge, you can use a household power strip or an extension cord.

■ Answer : 4

48. Which of the following is the correct pairing of light and color?

① Reverse light – Amber

② License plate light – Blue

③ Taillight – White

④ Brake light – Red

■ Answer : 4

49. Which of the following is NOT correct regarding the characteristics of the fuel used in an LPG vehicle?

① It burns in a gaseous state, allowing the engine to operate smoothly.

② LPG for motor vehicles has a distinct odor.

③ It is generally lighter than air and less explosive.

④ It has a lower energy density compared to gasoline or diesel, resulting in lower output and lower fuel efficiency for vehicles equipped with an engine of the same capacity.

■ Answer : 3

50. Which of the following is NOT a cause of reducing the braking force of a vehicle?

① Master cylinder failure

② Defective wheel cylinder

③ Deformation of release fork

④ Occurrence of vapor lock

■ Answer : 3

51. Which of the following is NOT correct regarding the method of driving a vehicle equipped with a driving assistance device?

① When using a driving assistance device, check frequently whether the device is operating while driving.

② In case of a driving intervention warning, wait until the driving assistance device is released before intervening.

③ When fully or partially releasing the driving assistance device, check whether it works.

④ Even if the driving assistance system is in operation, be ready to intervene at short notice.

■ Answer : 2

52. Which of the following is NOT true about a driver-assistance system?

① Lane Following Assist (LFA) is a system designed to assist the driver in driving to stay within the lane on the road.

② Adaptive Smart Cruise Control (ASCC) is a system that automatically adjusts the vehicle speed to maintain a safe distance from vehicles ahead.

③ Active Blind Spot Detection (ABSD) is a system that assists drivers in changing lanes by warning them of vehicles in their blind spots.

④ Autonomous Emergency Braking (AEB) is a system that prevents the wheels from locking up and reduces the braking distance.

■ Answer : 4

53. Which of the following is incorrect regarding provisions on autonomous driving systems?

① The Road Traffic Act stipulates that "driving" does not include the use of an autonomous driving system in accordance with the original use of motor vehicles and horses.

② The prohibition of using a mobile phone does not apply to drivers driving a vehicle operated under an autonomous driving system.

③ The traffic penalty for a driver who fails to respond promptly to the take-over request from the autonomous driving system is a fee of KRW 40,000.

④ An "autonomous driving system" encompasses a variety of automated apparatus, software, and peripheral devices that allow a vehicle to move by recognizing and judging the surroundings and road information without the manipulation of the driver or a passenger.

■ Answer : 1

54. Which of the following is NOT a crucial component of an FCEV?

① A fuel cell

② A traction motor

③ An engine

④ A battery

■ Answer : 3

55. What is the rotational force (instantaneous force) generated from the crankshaft of an internal combustion engine of a vehicle?

① Torque

② Fuel economy

③ Displacement

④ Horsepower

■ Answer : 1

56. According to the Act on the Promotion of and Support for Commercialization of Autonomous Vehicles, which of the following is NOT true about autonomous vehicles?

① The types of autonomous vehicles can be divided into fully autonomous vehicles and semi-autonomous vehicles.

② Fully autonomous vehicles refer to vehicles that can operate solely on autonomous driving systems without the need for a driver or any intervention from the driver or passengers.

③ Semi-autonomous vehicles refer to vehicles that cannot operate solely on autonomous driving systems or which require continuous attention from the driver or passengers, necessitating their intervention.

④ Autonomous vehicles are limited to passenger vehicles, and this law does not apply to buses or trucks.

■ Answer : 4

57. Which two statements are NOT correct regarding the management of EVs?

① The valid period for the vehicle inspection of non-commercial passenger vehicles is 6 years.

② When driving long distances, check and charge the battery in advance.

③ Refrain from accelerating or suddenly stopping immediately after charging.

④ It is more efficient to use an air heater than a heated seat or a heated handle.

■ Answer : 1, 4

58. According to the Road Traffic Act and its Enforcement Decree, which of the following is subject to regulations regarding the permeability of visible rays through the window glass of motor vehicles (except for children's school buses)?

① Window glass on the side of the back seat

② Front windshield, window glass on the right and left sides of the driver's seat

③ Front windshield, window glass on the right and left sides of the driver's seat, and rear windshield

④ All windows

■ Answer : 2

59. According to the Motor Vehicle Management Act and its Enforcement Decree, a passenger car is a motor vehicle suitably manufactured to transport up to how many people?

① 10 people or fewer

② 12 people or fewer

③ 15 people or fewer

④ 18 people or fewer

■ Answer : 1

60. Under the Motor Vehicle Management Act and its Enforcement Decree, what is the validity period for the initial inspection conducted on a new non-commercial passenger car?

① 1 year

② 2 years

③ 4 years

④ 5 years

■ Answer : 4

61. Which TWO are considered types of vehicles according to the Motor Vehicle Management Act?

① Construction machinery

② Truck

③ Tractor

④ Special motor vehicle

■ Answer : 2, 4

62. What is the color scheme of the license plates attached to EVs and hydrogen fuel cell vehicles used for non-commercial or rental purposes (apart from hybrid vehicles)?

① Black letters on yellow background

② Black letters on blue background

③ White letters on royal blue background

④ Black letters on purple background

■ Answer : 2

63. Which of the following vehicles CANNOT use the Hi-pass lanes?

① A dump truck with loading weight of 16 tons

② A double-decker bus that operates between Seoul and Suwon

③ A fire vehicle with vehicle width of 3.7m in case of a single lane

④ A large recovery vehicle weighing 10 tons

■ Answer : 3

64. Under the Motor Vehicle Management Act, what is the period of validity for the inspection of a small non-commercial van (registered in or after 2001) that is over 4 years old?

① 6 months

② 1 year

③ 2 years

④ 4 years

■ Answer : 2

65. Under the Motor Vehicle Management Act, what is the period of validity for the inspection of a small non-commercial truck that is no more than 4 years old?

① 6 months

② 1 year

③ 2 years

④ 4 years

■ Answer : 3

66. Under the Motor Vehicle Management Act and its Enforcement Decree, what is the standard validity period of a temporary driving permit issued when purchasing a new car?

① Within 10 days

② Within 15 days

③ Within 20 days

④ Within 30 days

■ Answer : 1

67. Which of the following is NOT accepted as a reason for change of registration of a vehicle in accordance with the Motor Vehicle Management Act and its Enforcement Decree?

① The main use address of the car has been changed.

② The vehicle's identification number has been changed.

③ Ownership has been changed.

④ The name of the corporation has been changed.

■ Answer : 3

68. Which of the following is NOT a desirable mindset for drivers of autonomous vehicles?

① Since it is an autonomous vehicle, the drivers can drive even under the influence of alcohol.

② The driver must not drive an autonomous vehicle in an exhausted state.

③ Even drivers of autonomous vehicles can take psychoactive medication and drive.

④ The driver may use a mobile phone while driving an autonomous vehicle.

■ Answer : 1

69. According to the Trucking Transport Business Act, the operator of a trucking transport business has to keep operation records in the tachograph for ( ). Which answer fits in ( )?

① 3 months

② 6 months

③ 1 year

④ 2 years

■ Answer : 2

70. Under the Motor Vehicle Management Act and its Enforcement Decree, a person who wishes to register the transfer of a vehicle must finish the registration within ( ) of the date of purchase. What belongs in ( )?

① 15 days

② 20 days

③ 30 days

④ 40 days

■ Answer : 1

71. According to the Motor Vehicle Management Act, the period for regular vehicle inspection is from ( ) days before to ( ) days after the expiration date of the inspection validity. Which of the following fills in the blanks correctly?

① 90, 31 ② 80, 41 ③ 60, 51 ④ 50, 61

■ Answer : 1

72. Under the Guarantee of Compulsory Motor Vehicle Liability Security Act, what is the punishment criterion for a car owner who fails to purchase mandatory insurance? (When the car has not been operated)

① An administrative fine of up to KRW 3 million

② An administrative fine of up to KRW 5 million

③ Up to 1 year of imprisonment or a criminal fine of up to KRW 10 million

④ Up to 2 years of imprisonment or a criminalfine of up to KRW 20 million

■ Answer : 1

73. According to the Motor Vehicle Management Act, what is the registration that needs to be done when the ownership of a car is changed through inheritance or other means?

① New registration

② Transfer of ownership registration

③ Modification registration

④ Cancellation registration

■ Answer : 2

74. According to the Motor Vehicle Management Act and its Enforcement Decree, which of the following is NOT a type of vehicle inspection that a vehicle owner should do?

① Repair inspection

② Special inspection

③ Inspection of tuning

④ Provisional inspection

■ Answer : 2

75. Which of the following processes the registration of transfer for a vehicle sale?

① Korea Road Traffic Authority

② Si, Gun, or Gu district office

③ Korea Transportation Safety Authority

④ City/Do (Province) police agency

■ Answer : 2

76. Which TWO are NOT types of vehicle registration?

① Registration of revision

② Registration of rights

③ Registration of patent rights

④ Registration of cancellation

■ Answer : 2, 3

77. Which of the following is the appropriate permeability of visible rays through the front windshield of motor vehicles (other than children's school buses)?

① 40%

② 50%

③ 60%

④ 70%

■ Answer : 4

78. What is the proper sequence of applying brakes while driving?

① Identify hazard → make judgment → order action → apply brakes

② Identify hazard → order action → make judgment → apply brakes

③ Make judgment → identify hazard → order action → apply brakes

④ Order action → identify hazard → make judgment → apply brakes

■ Answer : 1

79. Which of the following is NOT a required condition for an airbag?

① Tensile strength and heat resistance at a high temperature

② Tensile strength and heat resistance at a low temperature

③ Rupture strength, wear resistance, flexibility

④ Maximizing the impact energy in contact with a driver

■ Answer : 4

80. Which of the following is correct regarding the precautions to take when getting in and out of a car?

① When getting in or out, check if there is a car coming from behind.

② Get out of the car immediately after completely opening the door.

③ When a person exits a vehicle from the back seat, the driver should look straight forward.

④ When leaving the driver's seat temporarily, you need not turn off the car's engine.

■ Answer : 1

81. According to the Road Traffic Act, which of the following correctly connects the situation and the proper action that drivers must take?

① School zone - Honk to inform children of the vehicle passing by.

② Railroad crossing - Increase speed to pass quickly when a crossing barrier is about to go down.

③ Intersection without signals - When turning right, drive slowly along the right side of the road and turn right.

④ Night driving - Adjust the headlights to high beam to caution drivers coming from the opposite direction.

■ Answer : 3

82. Which of the following statements about overtaking is correct under the Road Traffic Act?

① Inside tunnels, overtaking is allowed during daytime but banned during nighttime.

② Drivers can overtake the car ahead either on its left or on its right after turning on the headlights and honking.

③ Overtaking is not allowed on bridges or at intersections.

④ A driver may stop, proceed slowly, or overtake a vehicle as directed by a police officer.

■ Answer : 3

83. Which of the following is NOT a desirable driver attitude?

① Because the traffic situation is not changing, there is no need to make plans ahead.

② Equip the vehicle with a fire extinguisher to take action immediately in case of fire.

③ Remove lighters and other flammable items from the vehicle.

④ Drive courteously, especially for novice drivers.

■ Answer : 1

84. Which of the following is the most appropriate driving behavior for a driver?

① Drowsy driving entails the risk of a traffic accident, so it is important to stop the car on a roadside to rest when you are drowsy.

② Novice drivers should continuously drive in the overtaking lane on an expressway.

③ Install and operate a device that interferes with the functions of traffic regulation equipment.

④ Upon identifying a risk to traffic safety, inform others with emergency lights.

■ Answer : 4

85. Which of the following is NOT a desirable driver attitude?

① Always drive while obeying traffic rules, such as driving under the speed limit.

② Drive on the shoulder in the event of traffic congestion.

③ Compliance with traffic laws and regulations is a mutual commitment among drivers.

④ Put pedestrian safety first before increasing the vehicle speed.

■ Answer : 2

86. In case of an accident, which of the following is NOT considered the responsibility of the driver?

① Criminal liability

② Administrative liability

③ Civil liability

④ Notification liability

■ Answer : 4

87. Which of the following is NOT a correct response by a driver to a traffic accident while driving on an expressway?

① Take first-aid measures depending on the severity of a passenger's injury.

② Turn on the hazard lights to alert trailing drivers of the danger.

③ Control the traffic at the rear part of the vehicle until a police officer arrives.

④ Move to a safer place to prevent secondary accidents.

■ Answer : 3

88. Which of the following actions is the correct behavior of a driver driving a passenger vehicle with an infant?

① An adult in the passenger seat sits with an infant and wears the same seat belt.

② A seat belt is enough for an infant sitting in the back seat; an infant safety harness is not necessary.

③ To appease a crying infant while driving, it is OK to let the infant sit together with the driver in the driver's seat and wear the same seatbelt.

④ When riding with an infant, always use an infant safety harness with a seat belt fastened, regardless of the road taken by the driver.

■ Answer : 4

89. Which TWO are the responsibilities of a driver?

① Stop the vehicle if there is risk of a traffic accident involving children.

② You must slow down when riding over a puddle so as not to splash others.

③ Apply dark tinting since the brightness of vehicle windows is not regulated.

④ Drive at a reduced speed when pedestrians are crossing a crosswalk.

■ Answer : 1, 2

90. Which of the following are desirable behaviors when driving on a freeway? (Select TWO)

① If you are drowsy or exhausted from driving, pull the vehicle over on the shoulder to take a rest or a nap.

② You can watch entertaining videos while driving.

③ You should take a rest and ventilate the vehicle regularly to stay awake.

④ You should constantly check for hazards along the route before departure and even while taking a rest.

■ Answer : 3, 4

91. Which of the following is NOT desirable regarding a driver's necessary preparation for safe driving?

① Control your body condition so that your attention is not diverted.

② Wear clothes that are comfortable and suitable for driving.

③ Prepare emergency signaling devices such as flare.

④ In order to save fuel, preheat the engine by turning it on 10 minutes before departure.

■ Answer : 4

92. Which TWO are correct regarding concentration while driving?

① Continuously chatting with a passenger while driving improves the driver's concentration.

② It is better to remove stickers that can block the driver’s view.

③ Concentration while driving has nothing to do with safe driving.

④ TVs or DMBs should be installed where they can be seen only by passengers in the back seat.

■ Answer : 2, 4

93. According to the Road Traffic Act, if an infant is on board a vehicle (except for two-wheeled vehicles), using an infant safety harness is required. Which of the following is the age criteria for an infant?

① 8 years or below

② Below 8 years

③ Below 6 years

④ 6 years or below

■ Answer : 3

94. According to the Road Traffic Act, which of the following is NOT true about regulations and proper operation of PMDs?

① The driver must turn on headlights and daytime running lights when driving at night.

② Among the PMDs, not more than one person can drive an electric kick scooter.

③ A personal mobility device includes self-balancing scooters, electric kick scooters, electric bicycles, electric unicycles, and mobility scooters.

④ An electric bicycle powered by a motor can carry two persons.

■ Answer : 3

95. Which of the following is true regarding wearing a seat belt before driving a vehicle (excluding two-wheeled vehicles)?

① If the passenger is a child under 13 years old and is not wearing a seat belt, the driver will be slapped with an administrative fine of KRW 100,000.

② If the passenger is 13 years old or above and is not wearing a seat belt, the driver will be slapped with an administrative fine of KRW 30,000.

③ Only the driver and front passenger are obligated to wear seat belts when driving on general roads.

④ All passengers are obligated to wear seat belts, but a child under 3 years old can be placed on the lap of the guardian.

■ Answer : 2

96. Which of the following is a good driving attitude for accident prevention?

① Using indicators to make sure that the others know the driver's path of travel

② Frequently making sudden maneuvers and braking

③ Driving to get through traffic as advantageously as possible for oneself

④ Retribution for aggressive driving by other drivers

■ Answer : 1

97. Which of the following actions is NOT desirable for a driver?

① Drive according to the flow of traffic within the speed limit.

② If you are a novice driver, use the shoulder on the expressway and do not interfere with the traffic flow.

③ Do not fight without stopping your car on the road first.

④ A student license holder should drive with a companion according to the law.

■ Answer : 2

98. According to the Road Traffic Act, which of the following best describes "yielding"?

① When driving continuously at slow speed, the driver must yield the lane by moving to the far left side of the road.

② When an emergency vehicle is approaching from behind, the driver must proceed quickly.

③ At an intersection without a traffic light, the driver must yield the right of way to vehicles approaching from the left.

④ Vehicles driving on a road with a yield sign must yield the lane to vehicles on other roads.

■ Answer : 4

99. According to the Act on the Promotion of Transportation Convenience of Mobility Disadvantaged Persons, who among the following are NOT considered "mobility disadvantaged persons"?

① The elderly

② Pregnant women

③ Persons accompanied by infants

④ Persons with pets

■ Answer : 4

100. Under the Act on the Promotion of Transportation Convenience of Mobility Disadvantaged Persons, which of the following is not considered a “pedestrian safety facility” for mobility disadvantaged persons?

① Speed reduction facility

② Bicycle lane

③ Transportation information facilities such as public traffic information system

④ Traffic signal for pedestrians' right of way

■ Answer : 2

101. According to the Road Traffic Act, which of the following cases requires driving at a slow speed?

① When the traffic signal at the intersection is flashing in red

② Upon passing an intersection where traffic is not controlled and is frequent

③ Upon passing an intersection where traffic is not controlled

④ Upon changing lanes near an intersection

■ Answer : 3

102. What is the best way of proceeding when turning left at a congested intersection?

① If possible, enter the intersection while following the car in front.

② You may enter the intersection if the traffic light is green.

③ If there is space available, you may enter the intersection even if the traffic light is red.

④ Do not enter the intersection even when there is a green arrow.

■ Answer : 4

103. Which of the following is the correct method of entering a travel lane from an acceleration lane of an expressway?

① Stop temporarily to check the traffic flow, and then quickly enter the expressway.

② Stop temporarily before entering the expressway and abruptly enter when there are vehicles passing on the road.

③ Enter the expressway even if there is not much space to enter, in consideration of the vehicle behind.

④ Use the acceleration lane, maintaining a certain speed, and enter the expressway when enough space is secured.

■ Answer : 4

104. Vehicle A is moving slowly on the right side of the expressway's main lane. In this case, what is the best method of entering the main lane?

① Slowly increase the speed and enter, but make sure you do so after Vehicle A passes.

② Accelerate and enter using an empty roadside.

③ Stop at the end of the acceleration lane and enter after Vehicle A passes.

④ Continue driving on the acceleration lane at the same speed as Vehicle A.

■ Answer : 1

105. Which of the following is the most appropriate driving behavior when a driver notices a child crossing the road without a guardian?

① Repeatedly honk so that the child can cross quickly.

② Ensure the safety of the child crossing the road by moving slowly.

③ Temporarily stop and ensure the safety of the child crossing the road.

④ Ensure the safety of the child crossing the road by passing quickly.

■ Answer : 3

106. What is the safest driving method when entering an intersection with no traffic lights and where both the left and right sides are not visible?

① Drive slowly depending on the surrounding situation and pass through the intersection after checking that it is safe.

② Enter while honking and flashing headlights, and drive slowly while passing through.

③ Make a temporary stop to make sure that it is safe, and then pass through the intersection according to right-of-way standards.

④ Since a vehicle entering the intersection first has priority, quickly pass through the intersection while checking the surroundings.

■ Answer : 3

107. Which of the following would cause the biggest safety hazard when turning left at an intersection?

① A pedestrian crossing a crosswalk on the right side of the intersection

② A motorcycle approaching at high speed from the rear in the right roadway

③ A passenger car turning right from the left side of the intersection

④ A bicycle turning right from the opposite side

■ Answer : 4

108. Under the Road Traffic Act, which of the following describes the safest attitude for a person driving a personal mobility device?

① When passing on a sidewalk, drive away from pedestrians.

② When driving after drinking alcohol, special attention is required.

③ If there are a crosswalk and a bicycle crossing, use the bicycle crossing.

④ When driving the device on a crosswalk, avoid pedestrians on the crosswalk.

■ Answer : 3

109. Which of the following is correct regarding the traffic safety policy referred to as Safety Speed 5030?

① Within 50 km per hour on the automobile road and 30 km per hour on the back road in a residential area in a city

② Within 50 km per hour on the main road in a city and 30 km per hour on the back road in a residential area in a city

③ Within 50 km per hour on the automobile road and 30 km per hour in a school zone

④ Within 50 km per hour on the main road in a city and 30 km per hour on the bicycle track

■ Answer : 2

110. According to the Road Traffic Act, what are TWO situations or locations where driving at slow speed is required?

① An intersection without any traffic signals

② A road with children crossing without a guardian

③ A road where you see a blind person crossing using a white cane

④ The start of a winding road

■ Answer : 1, 4

111. Which of the following are the proper ways of driving around a roundabout? (Select TWO)

① Vehicles already in the roundabout have priority.

② Enter a roundabout as quickly as possible.

③ Turn on the hazard lights when entering a roundabout.

④ The driving direction in a roundabout is counterclockwise.

■ Answer : 1, 4

112. Which TWO statements are correct regarding driving on an expressway?

① All passengers must wear seat belts on an expressway.

② A vehicle driving on an expressway must yield to merging vehicles.

③ When driving on an expressway, you are not obliged to yield even if an emergency vehicle approaches.

④ A vehicle breakdown sign (including a safety tripod sign) must be carried in the vehicle.

■ Answer : 1, 4

113. Which TWO descriptions are correct?

① The road surface marking for the "yield" instruction is indicated as a white " △ " sign.

② Cars driving in a lane with the yield mark must yield to cars driving in other lanes.

③ On a road, you must give a lane change signal 30 m before changing lanes.

④ In order to maintain smoother traffic flow, you must narrow the distance with the car in front of you by increasing your speed.

■ Answer : 2, 3

114. Which TWO statements are correct regarding yielding at an intersection with no traffic control?

① When turning left, you must yield to vehicles going straight or turning right at the intersection.

② If you are about to enter the intersection, you are not required to yield to any vehicles that are already inside the intersection and which are turning left.

③ If you are about to enter the intersection, you must not yield to any vehicles that are about to enter the intersection from a narrower road.

④ When multiple vehicles assigned the same priority are about to enter the intersection at the same time, the vehicles on the right have the right of way.

■ Answer : 1, 4

115. According to the Road Traffic Act and its Enforcement Decree, which TWO statements are NOT correct regarding personal mobility devices (PMDs)?

① The electric motor must not operate when traveling at speeds of over 25 km/h, and the device must weigh less than 30 kg.

② Anyone aged 13 or older may operate one without a license.

③ A motor-driven bicycle powered solely by a motor is classified as a personal mobility device under the law.

④ Personal mobility devices may freely use both bicycle lanes and sidewalks.

■ Answer : 2, 4

116. Which of the following drivers is most likely to cause an accident?

① A driver who is focused only on driving

② A driver with a habit of sudden starts, sudden braking, and sudden lane changes

③ A driver who keeps a safe distance from bicycles and two-wheeled vehicles

④ A driver who is a patient

■ Answer : 2

117. Which of the following is NOT desirable driving behavior?

① Keep in mind that a police officer's hand signals overrule traffic lights.

② Stay updated with the ever-changing traffic laws and regulations.

③ Upon identifying an emergency vehicle, immediately stop the vehicle regardless of your location, and make way.

④ Watch out for potholes when driving on a road where heavy rainfall is common or during the rainy season.

■ Answer : 3

118. You are about to enter an uncontrolled intersection to drive straight through. When a vehicle turning left from the opposite lane has already entered the intersection, what is the correct way of driving?

① Yield to the other vehicle already in the intersection.

② Straight traffic takes the right of way over turning traffic. Drive through.

③ Ignore the vehicle in the intersection; check both sides and quickly drive through.

④ If your lane is wider than that of another vehicle in the intersection, you have the right of way.

■ Answer : 1

119. According to the Road Traffic Act, which of the following is NOT true about the passenger capacity of personal mobility devices?

① An electric kick scooter can carry one person.

② A self-balancing scooter can carry one person.

③ An electric bicycle powered by a motor can carry one person.

④ The traffic fine for violating the passenger capacity of a personal mobility device is KRW 40,000.

■ Answer : 3

120. Which of the following is a good attitude for a driver?

① Respect for communication and safety

② Giving precedence to cars over people

③ Prioritizing his/her own car over others' vehicles

④ Accidents are a product of bad luck, not unlawful driving

■ Answer : 1

121. According to the Road Traffic Act, which of the following is incorrect regarding drivers who have been issued a conditional driver's license requiring the installation of an alcohol ignition interlock device?

① When intending to drive a vehicle, the driver must install an alcohol ignition interlock device and register it with the commissioner of the city or provincial police.

② Driving a vehicle that is not equipped with an alcohol ignition interlock device is prohibited.

③ Driving a vehicle with an alcohol ignition interlock device that does not meet the installation standards is permitted.

④ The driver must submit the driving records of the vehicle with the alcohol ignition interlock device to the commissioner of the city or provincial police at least twice a year.

■ Answer : 3

122. According to the Road Traffic Act, which of the following correctly describes the penalty imposed on a driver who cannot operate a vehicle properly due to fatigue (including drowsy driving)?

① No penalty

② Criminal fine of up to KRW 100,000 or detention

③ Criminal fine of up to KRW 200,000 or detention

④ Criminal fine of up to KRW 300,000 or detention

■ Answer : 4

123. Fatigue affects a driver's driving performance. Which of the following correctly describes the influence of fatigue on a driver?

① The response time of a driver to stimuli in his/her surroundings quickens.

② The vision of the driver deteriorates and his/her view widens.

③ A driver's ability to recognize objects and drive safely deteriorates.

④ A driver's driving performance becomes more meticulous and planned.

■ Answer : 3

124. Which of the following is NOT a correct explanation of the punishment criteria for drunk driving?

① In case of the first violation, if the blood alcohol concentration is 0.2% or more, imprisonment for 2 to 5 years or criminal fine of KRW 10 million - 20 million

② Refusing a field sobriety test once may result in imprisonment with labor for 1 year or more but not more than 5 years, or criminal fine of KRW 5 million or more but not more than KRW 20 million

③ In case of a second violation involving a blood alcohol concentration of 0.05%, imprisonment for up to 1 year or criminal fine of up to KRW 5 million

④ Upon the first violation at a blood alcohol level of at least 0.08% but less than 0.2%: imprisonment with labor for at least 1 year but not more than 2 years or criminal fine of at least KRW 5 million but not more than KRW 10 million

■ Answer : 3

125. If you drive when you are tired, you will not be able to sense correctly the speed at which you are driving. Which of the following is correct?

① On a narrow road, you will feel as if you are going slower than you actually are.

② On roads with wide-open views, you will feel as if you are going faster than you actually are.

③ You could underestimate the speed of a car coming toward you from far away and end up in an accident.

④ There is no possibility of you mistaking a car stopped ahead on an expressway to be moving.

■ Answer : 3

126. Which TWO may affect free running distance when driving a car?

① Driving on a rainy day

② Driving under the influence of alcohol

③ Driving when the vehicle has insufficient brake fluid

④ Driving when tired

■ Answer : 2, 4

127. Which TWO statements are correct regarding penalties imposed on drunk drivers?

① Fully inebriated drivers with a blood alcohol concentration of 0.08% or higher will have their driver's license revoked and receive punishment in accordance with the law.

② Those who refuse to take the alcohol breathalyzer test or who have caused fatalities or injuries while driving with a blood alcohol concentration of 0.03% or higher will have their driver's license revoked and receive punishment in accordance with the law.

③ Those who are caught driving with a blood alcohol concentration of at least 0.03 percent but less than 0.08 percent will have their driver's license suspended for 120 days and receive punishment in accordance with the law.

④ In a case wherein the driver causes an accident for the first time resulting in property damage while driving with a blood alcohol concentration of at least 0.03 percent but less than 0.08 percent, his/her driver’s license is revoked.

■ Answer : 1, 2

128. Which TWO statements are correct regarding drunk driving?

① If a person disagrees with the result of a breathalyzer test, he/she may undergo the test again.

② The Road Traffic Act does not contain any provision for punishing acts that interfere with alcohol testing.

③ A person who interferes with an alcohol test after riding a bicycle while drunk may be subject to punishment.

④ A driver of a motor vehicle who refuses to comply with a police officer's request to take an alcohol test, despite being reasonably suspected of being intoxicated, will have his/her driver's license revoked.

■ Answer : 3, 4

129. Which of the following are true about drowsy and/or fatigued driving? (Select TWO)

① If drowsy while driving, you must consume more caffeine and change lanes more often to avoid monotonous driving.

② Your alertness improves on roads with fewer variations and potential hazards, thereby reducing the risk of drowsy driving.

③ Avoid driving if you have taken cold medicines since they may cause drowsiness.

④ Alcohol deactivates certain cerebral functions and increases the chance of drowsiness.

■ Answer : 3, 4

130. What penalty is a driver subjected to if caught by the police while driving in a physical state of being unable to drive normally (due to illness or fatigue)?

① Administrative fine

② Suspension of the driver's license

③ Detention or criminal fine

④ No penalty

■ Answer : 3

131. Under the Act on Special Cases Concerning the Settlement of Traffic Accidents, what is the correct legal responsibility of a driver who causes a traffic accident resulting in injury or death while driving a vehicle in a condition of impaired normal driving due to drug or other substance abuse?

① The driver will be criminally charged despite being covered by liability car insurance and even after having settled with the accident victim(s).

② The driver will be exempted from criminal charges if he/she is covered by car insurance.

③ The driver will be exempted from criminal charges if he/she is covered by comprehensive insurance.

④ The driver will be exempted from criminal charges if he/she is covered by comprehensive insurance and he/she has settled with the accident victim(s).

■ Answer : 1

132. Driver A, with blood alcohol concentration of over 0.03%, is rear-ended by Driver B while waiting at a red light. What happens next?

① Since drunk driving is a serious offense, Driver A should be penalized.

② Although Driver B needs to be penalized for the accident, Driver A is also penalized separately for drunk driving.

③ Driver A is the victim in this accident and will not be subject to administrative penalties.

④ Driver B receives no demerit points regardless of the cause or result of the accident.

■ Answer : 2

133. According to the Road Traffic Act, a driver with blood alcohol concentration of ( ) or more is prohibited from driving. Select one of the following to fill in the brackets:

① 0.01% or higher

② 0.02% or higher

③ 0.03% or higher

④ 0.08% or higher

■ Answer : 3

134. Which of the following are TWO correct descriptions with regard to fatigued driving and driving under the influence of drugs?

① Fatigued driving is not likely to lead to falling asleep at the wheel.

② Fatigued driving is dangerous because it leads to poor focus, judgment, and reflexes.

③ Driving under the influence of drugs and causing an accident resulting in injury are subject to punishment.

④ If your driver's license is revoked because of a hit-and-run event while driving under the influence of drugs, it is possible to get the license back after three years.

■ Answer : 2, 3

135. Which of the following is NOT an appropriate method of preventing retaliatory driving?

① Turn on the emergency flashers in case of emergency braking.

② Turn off the head-beam headlights when a car approaches from the opposite direction.

③ Turn on the high-beam headlights when driving at high speed.

④ Wait for three seconds if the vehicle in front does not start moving right away.

■ Answer : 3

136. Which of the following is NOT an appropriate way of reporting retaliatory driving?

① Calling 120

② Calling 112

③ Reporting to the smartphone app Safety e-Report

④ Reporting the incident to the Cyber Police Agency

■ Answer : 1

137. According to the Road Traffic Act, drivers of ( ) are prohibited from driving their motor vehicles and the like in a row or side by side without good cause and in a manner that endangers other persons and causes danger to traffic. Anyone who violates this provision will be punished by ( ). Choose the correct pair for the parentheses.

① self-balancing scooters - imprisonment with labor for not more than 1 year or criminal fine of not more than KRW 5 million

② two-wheeled vehicles - imprisonment with labor for not more than 6 months or criminal fine of not more than KRW 3 million

③ special-purpose vehicles -imprisonment with labor for not more than 2 years or criminal fine of not more than KRW 5 million

④ motorcycles - imprisonment with labor for not more than 6 months or criminal fine of not more than KRW 3 million

■ Answer : 3

138. You may be subject to a penalty according to the Criminal Act if you overtake a vehicle over the centerline or perform any retaliatory driving such as sudden braking. In this case, what is the correct punishment that will be imposed on you?

① You will be sentenced to imprisonment for up to 7 years or criminal fine of not more than KRW 10 million.

② You will be sentenced to imprisonment for up to 10 years or criminal fine of not more than KRW 20 million.

③ You will be sentenced to imprisonment for a limited term of more than 1 year.

④ You will be sentenced to imprisonment for a limited term of more than 18 months.

■ Answer : 1

139. If a passenger vehicle driver responds to a lane-change dispute by suddenly braking in front of the pursuing vehicle, leading to a subsequent collision with an unaware cargo truck and resulting in injury to the cargo truck driver, legal repercussions may arise under the provisions of the Criminal Act for engaging in retaliatory driving. What is the appropriate punishment standard for this? (The cargo truck driver is not seriously injured)

① You will be sentenced to imprisonment for a limited term in the range of 1 year - 10 years.

② You will be sentenced to imprisonment for a limited term in the range of 1 year - 20 years.

③ You will be sentenced to imprisonment for a limited term in the range of 2 years - 10 years.

④ You will be sentenced to imprisonment for a limited term in the range of 2 years - 20 years.

■ Answer : 1

140. Which of the following is not subject to legal action for reckless driving under the Road Traffic Act?

① Violating the maximum speed limit

② Violating a prohibition of crossing the road, making a U-turn, or moving backward

③ Cutting in a lane

④ Honking continuously

■ Answer : 3

141. A driver of a motor vehicle (excluding personal mobility devices) threatening another driver by committing the acts below in a repeated manner will be punished for reckless driving. Which of the following is NOT an example of reckless driving?

① Violation of traffic signals or instructions

② Violation of prohibitions on crossing, making a U-turn, and driving backward

③ Creating noise without reasonable cause

④ Violating a designated lane of an expressway

■ Answer : 4

142. According to the Road Traffic Act, which of the following is the correct punishment for reckless driving?

① Notice for payment of traffic penalty of KRW 60,000

② Administrative fine of KRW 30,000

③ Imprisonment for up to 6 months or criminal fine of not more than KRW 2 million

④ Imprisonment for up to 1 year or criminal fine of not more than KRW 5 million

■ Answer : 4

143. What is the most incorrect action by the driver when a vehicle's cargo (including the driver's vehicle) falls into the lane while driving on an expressway?

① Stop the vehicle in a safe place while checking for vehicles behind.

② Report the case promptly to the relevant authorities such as expressway management agency.

③ Stop the vehicle in a safe place and check the cargo loading status.

④ Conduct retaliatory driving against the driver who dropped the cargo.

■ Answer : 4

144. According to the Road Traffic Act, which of the following cannot be construed as reckless driving for a motorcycle (excluding personal mobility devices)?

① The driver repeatedly ignored traffic signals three times.

② The driver committed successive violations of exceeding the speed limit and disobeying instructions.

③ The driver committed successive violations of ignoring traffic signals and crossing the centerline.

④ The driver committed successive violations of crossing the centerline as well as the duty to protect pedestrians.

■ Answer : 4

145. Which of the following is correct regarding reckless driving and retaliatory driving?

① A motorcycle driver who generates noise without just cause to threaten many unspecified drivers can be penalized for retaliatory driving.

② The driver of a passenger car who drives over the centerline and exceeds the speed limit repeatedly to threaten many unspecified drivers can be penalized for reckless driving.

③ The driver of a large truck who intentionally overtakes a car and brakes suddenly can be penalized for reckless driving.

④ A bus driver who repeatedly violates the legal way of overtaking a car, thereby increasing the risk of traffic accident, can be penalized for retaliatory driving.

■ Answer : 2

146. Causing harm to the life and safety of others by repeatedly driving over the centerline or causing risk in the traffic flow are ( ) according to the Road Traffic Act. Which of the following fits in ( )?

① joint risky behavior

② reckless driving

③ violent driving

④ retaliatory driving

■ Answer : 2

147. A driver of a motor vehicle (excluding personal mobility devices) threatening another driver by committing the acts below in a repeated manner on a general road will be punished for reckless driving. Which of the following is NOT an example of reckless driving?

① Violating a designated lane on a general road

② Driving over the centerline and violating the prohibition on sudden braking

③ Not complying with the safe distance, violating lane-changing prohibitions

④ Improperly overtaking a car on a general road

■ Answer : 1

148. A driver of a motor vehicle (excluding personal mobility devices) threatening another person by repeatedly committing a series of two or more of the acts below will be punished for reckless driving. Which of the following is NOT an example of reckless driving?

① Not keeping the eyes forward; operating a video display device while driving

② Exceeding the speed limit while overtaking a car on his/her right side

③ Not securing sufficient safe distance and repeating sudden braking

④ Exceeding the speed limit to obstruct a trailing car that is attempting to pass by

■ Answer : 1

149. A driver of a motor vehicle (excluding personal mobility devices) threatening another driver by repeatedly committing the acts below will be punished for reckless driving. Which of the following is NOT an example of reckless driving?

① Violation of traffic signals and instructions, driving over the centerline

② Not securing sufficient safe distance, violating the prohibition on sudden braking

③ Violating the prohibition on obstructing attempts to pass, improperly overtaking a car

④ Violating the prohibition on passage, using a mobile phone while driving

■ Answer : 4

150. Which of the following is an act of reckless driving for which you can be penalized?

① Stopping or parking on the roadside of an expressway

② Driving while under the influence of alcohol

③ Driving in an exclusive lane on a general road

④ Driving over the centerline

■ Answer : 4

151. Which of the following is NOT considered reckless driving for which you can be penalized?

① Violation of a traffic signal

② Violation of speed limit

③ Violation of prohibition on driving motor vehicles in poor condition

④ Violation of prohibition of changing course

■ Answer : 3

152. A driver was arrested for causing special injury under the Criminal Act using vehicles, etc. (retaliatory driving). What is the administrative action for this person's driver's license?

① Cancellation of driver's license

② Suspension of driver's license for 100 days

③ Suspension of driver's license for 60 days

④ No actions to be taken

■ Answer : 1

153. According to the Road Traffic Act, what do you call the offense when the drivers of two or more cars (excluding personal mobility devices) drive side by side or in tandem on a road without valid reason, causing danger to other people?

① Dangerous collective conduct

② Intersection tailgating

③ Cutting in

④ Disorderly conduct

■ Answer : 1

154. According to the Road Traffic Act, which of the following is NOT subject to penalty for reckless driving?

① A driver who repeatedly brakes suddenly, causing danger in traffic

② A driver who continually fails to maintain a safe distance from other drivers

③ A driver who repeatedly overtakes other vehicles in an illegal manner on the expressway

④ A driver who turns off his/her headlights and parks on the shoulder of the freeway at night, posing a danger to others

■ Answer : 4

155. Which of the following is NOT a desirable driving habit?

① Turn off the engine while refueling.

② Unless there is an urgent situation, do not apply the brake suddenly, instigating other vehicles to do the same.

③ To predict potential hazards and practice defensive driving, observe the speed limit and keep a safe distance.

④ To ensure driving stability, tire pressure should be 10% higher than the recommended standard regardless of the season.

■ Answer : 4

156. A driver was arrested for committing special violence under the Criminal Act using vehicles, etc. (retaliatory driving). What is the administrative action for this person's driver's license?

① Cancellation of driver's license

② Suspension of driver's license for 100 days

③ Suspension of driver's license for 60 days

④ No administrative actions

■ Answer : 2

157. According to the Road Traffic Act, which of the following is NOT true about a pedestrian?

① A person using a handcart (not motorized) that is 1 m or less in width is not considered a pedestrian.

② A person using a rollator that is 1 m or less in width is considered a pedestrian.

③ A person riding a bicycle is not considered a pedestrian.

④ A person using a walking frame that is 1 m or less in width is considered a pedestrian.

■ Answer : 1

158. Which of the following is NOT a desirable attitude for a driver using a drive-thru store?

① Follow the safety instructions of the attendant at the drive-thru store.

② Follow the instructions on the signage installed at the drive-thru store.

③ Stop by encroaching upon a crosswalk while waiting in line for the drive-thru store.

④ Exercise caution while navigating the entrance and exit areas of the drive-thru store, paying attention to safety facilities.

■ Answer : 3

159. Which of the following is NOT true about a driver's duty to protect pedestrians?

① A traffic penalty will be imposed on the driver who fails to slow down or stop on a pedestrian-first road and obstructs the pedestrians.

② The duty to protect pedestrians also applies to drivers driving on a place other than a road.

③ A driver who sees pedestrians crossing a crosswalk must come to a full stop before he/she reaches the crosswalk.

④ The driver must slow down when driving across a crosswalk in a school zone with no traffic lights.

■ Answer : 4

160. Which of the following is NOT true about a driver's duty to protect pedestrians?

① A driver who sees pedestrians crossing a crosswalk must come to a full stop before he/she reaches the crosswalk.

② The driver must slow down while keeping a safe distance when passing by pedestrians on a narrow road with no markings.

③ If a crosswalk in a school zone has no traffic lights, the driver has no duty to stop if there are no pedestrians crossing.

④ The driver should not obstruct pedestrians crossing an intersection with no traffic lights.

■ Answer : 3

161. Which of the following is NOT true about pedestrian-first roads?

① On a pedestrian-first road, pedestrians can only walk along the right edge of the road.

② Drivers are obligated to exercise various forms of pedestrian protection such as slowing down and coming to a complete stop.

③ A driver who fails to fulfill his/her duty to protect pedestrians is subject to a traffic penalty of KRW 40,000 and a penalty of 10 points based on the standards for passenger vehicles.

④ If deemed necessary for pedestrian protection, the chief of a police station can limit the vehicle speed to 20 km/h or less.

■ Answer : 1

162. While driving at 50 km/h on a city road, you find a pedestrian jaywalking. Which of the following is the most appropriate measure to take?

① Brake suddenly because the pedestrian is crossing the road.

② Go past the pedestrian by predicting his/her movement.

③ Slow down your car, turn on the emergency flashers to notify the car behind you, and stop safely.

④ Slightly increase the speed to pass while warning the pedestrian by honking.

■ Answer : 3

163. According to the Road Traffic Act, which of the following is NOT true about a driver's duty to protect pedestrians?

① The driver must slow down while keeping a safe distance when pedestrians are passing through a safety zone set up on the road and when he/she passes by pedestrians on a narrow road with no markings.

② A driver who sees a pedestrian jaywalking must stop the vehicle at a distance for the pedestrian to cross the road safely.

③ A driver who is driving on a road with no centerline and where the roadway and sidewalk are not distinguishable must slow down or stop for pedestrians to travel safely.

④ If a crosswalk in a school zone has no traffic light, the driver has to slow down in front of the crosswalk (a stop line if there is any) even if there are no pedestrians crossing.

■ Answer : 4

164. According to the Road Traffic Act, a child below the age of 13 should wear protective gear for safety when riding ( ). Which of the following does NOT fit in ( )?

① Scooter

② Unicycles

③ In-line skates

④ Skateboard

■ Answer : 2

165. Which of the following is correct regarding the duty to protect pedestrians?

① There is no need to protect a drunken pedestrian who is jaywalking.

② It is okay to impede the passage of a pedestrian crossing a road with traffic signals.

③ When the green light for pedestrians is flashing, a car can proceed.

④ When turning right at an intersection with traffic signals, the driver shall not impede the passage of a pedestrian who is obeying the signal.

■ Answer : 4

166. Which of the following persons or processions can pass through the center of a road?

① A parade for an important social event

② A person riding a large animal such as a horse or a cow

③ A person cleaning or repairing the road

④ A funeral procession holding flags or banners

■ Answer : 1

167. Which of the following is the safest way of driving a motor vehicle when passing through a crosswalk without traffic lights?

① Even if there are no pedestrians crossing, the driver should carefully check the front and the surroundings and reduce speed.

② Since there are no pedestrians crossing, proceed without taking any action.

③ When there are no pedestrians crossing, proceed quickly.

④ Honk while driving through to alarm the pedestrians.

■ Answer : 1

168. If a vehicle is stopped on the railroad crossing due to vehicle failure while passing through, which of the following is NOT proper behavior by the driver?

① Immediately evacuate all passengers.

② Use emergency signal devices.

③ Notify a railway official.

④ Quickly check the cause of the vehicle's failure.

■ Answer : 4

169. A vehicle is about to go across a sidewalk to enter a building. Which of the following is the correct sequence?

① Slow down → turn on the turn signal → enter quickly

② Stop → honk → enter quickly

③ Slow down → check both sides → enter slowly

④ Stop → check both sides → enter slowly

■ Answer : 4

170. According to the Road Traffic Act, which of the following is an INCORRECT description of safe pedestrian crossing?

① Do not walk right in front of or behind cars to cross the road.

② You must cross the road by using a crosswalk or such facilities even if you have a disability.

③ Do not cross the road at a section marked with a safety sign or one that specifically instructs pedestrians not to cross.

④ When there is no crosswalk, cross the road at its shortest section.

■ Answer : 2

171. Where does "disappearance"—a phenomenon wherein pedestrians or objects on roads vanish temporarily from the driver’s sight—occur most frequently?

① Edge of the opposite lane

② Right side of the driver's lane

③ Around the centerline of the road

④ Right edge of the road

■ Answer : 3

172. Which of the following is correct regarding safe pedestrian crossing?

① Pedestrians must walk quickly around the front or rear of vehicles to cross the street.

② Disabled pedestrians must cross the road using road-crossing facilities where such facilities are present.

③ Where a sign prohibiting road crossing is present, pedestrians must cross the road quickly.

④ On a road with no crosswalk, pedestrians must cross using the shortest line of travel possible.

■ Answer : 4

173. Which of the following is the correct part of a footpath that pedestrians should walk on?

① The right side

② The left side

③ Along the middle

④ No pedestrian traffic rules on the sidewalk

■ Answer : 1

174. A vehicle is about to drive across a crosswalk in a school zone with no traffic lights. Which of the following are the correct actions of the driver? (Select TWO)

① When there are pedestrians crossing, the driver must drive across the crosswalk slowly and ensure pedestrian safety.

② When there are pedestrians crossing, the driver must stop the vehicle and wait until all pedestrians have crossed.

③ The driver must drive across the crosswalk slowly regardless of pedestrians crossing.

④ The driver must stop the vehicle regardless of pedestrians crossing.

■ Answer : 2, 4

175. According to the Road Traffic Act, which of the following are TWO correct explanations of pedestrian protection?

① A cyclist walking his/her bicycle is not considered a pedestrian.

② A vehicle that is the first to enter an intersection where there is no traffic control has the right of way over pedestrians.

③ The commissioner of the City/Do (Province) police agency can install a pedestrian-only road for pedestrians for their protection.

④ Baby carriages are allowed on the exclusive road for pedestrians.

■ Answer : 3, 4

176. Which of the following are TWO good pedestrian behaviors?

① A pedestrian using a road must always walk using the left side of the road.

② A pedestrian taking part in a parade for a special social event can walk in the middle of a road.

③ A disabled person who is unable to use road-crossing facilities can cross a road anywhere.

④ A pedestrian must take the longest route to cross the road if there are no road-crossing facilities.

■ Answer : 2, 3

177. Which of the following is the traffic penalty imposed on the driver of a passenger car for illegal driving on a sidewalk?

① KRW 30,000

② KRW 40,000

③ KRW 50,000

④ KRW 60,000

■ Answer : 4

178. According to the Road Traffic Act, which is a case of violations by passenger vehicle drivers related to pedestrian safety and which have a different traffic penalty amount compared to other cases? (Excluding specific zones, e.g., school zones)

① Interrupting pedestrians crossing the road when the walk signal is lit

② Entering a pedestrian-only road

③ Throwing an object onto the road from a moving vehicle

④ Failing to protect children, visually impaired, etc.

■ Answer : 3

179. Which of the following is the right attitude that a driver should adopt toward pedestrians?

① Jaywalkers need not be protected.

② There is no need to pay attention to pedestrians on the side of the vehicle.

③ It is the pedestrians' responsibility to dodge vehicles.

④ The driver must prioritize pedestrian safety.

■ Answer : 4

180. According to the Road Traffic Act, the part of the road marked with road safety signs that allow pedestrians to cross the road is called ( ).

① Sidewalk

② Roadside area

③ Crosswalk

④ Pedestrian-only road

■ Answer : 3

181. Which of the following is NOT appropriate behavior on the part of a driver toward pedestrians?

① Watch out for children in areas with the "school zone" sign.

② Drive slowly to protect pedestrians who are about to cross a crosswalk.

③ Pedestrians crossing the road illegally must also be protected.

④ Stop if there is a child crossing the road without a guardian.

■ Answer : 2

182. Which of the following is an INCORRECT method of crossing the road for a pedestrian?

① Pedestrians must take the shortest route when crossing a road without a crosswalk.

② Pedestrians must not cross the road around the front or rear of a vehicle.

③ Pedestrians can climb over a lane partition placed to prevent illegal crossing on the road.

④ Pedestrians can walk on the road if the sidewalk is closed for construction.

■ Answer : 3

183. Which of the following is NOT classified as a person corresponding to one who is visually impaired?

① Infant or child

② An individual who is unable to walk without a prosthetic limb

③ An individual who has trouble maintaining bodily balance

④ A deaf person

■ Answer : 1

184. The driver of a passenger car who commits a violation of a traffic signal between ( ) and ( ) in a school zone receives double the demerit points. Which of the following belongs in the pair of brackets?

① 6 AM, 6 PM

② 7 AM, 7 PM

③ 8 AM, 8 PM

④ 9 AM, 9 PM

■ Answer : 3

185. What is the administrative fine imposed on the driver of a 4.5-ton truck parked illegally in a silver zone between 10 AM and 11 AM?

① KRW 40,000

② KRW 50,000

③ KRW 90,000

④ KRW 100,000

■ Answer : 3

186. Which of the following is an INCORRECT method of traveling for a pedestrian?

① Walk on the left side of a sidewalk.

② Pedestrians are allowed to use any part of the pedestrian-first road.

③ Pedestrians must walk on the sidewalk on roads where the sidewalk and roadways are separated.

④ For roads without a clear distinction of the sidewalks but have a centerline, pedestrians must use the roadside area to walk.

■ Answer : 1

187. Which of the following is NOT permitted to travel on a roadway?

① Cleaning or maintenance personnel working on roads

② A person driving a large animal such as horse or cattle

③ A person who is pushing a stroller

④ A funeral procession

■ Answer : 3

188. What are the grounds for the penalty faced by a driver who stops over the stop line when the traffic light has turned red?

① Violation of intersection thoroughfare

② Failure to stop

③ Violation of traffic signal

④ Violation of slow driving

■ Answer : 3

189. Which of the following is the right method of driving when you spot a visually impaired person crossing the road with a guide dog?

① Keep going if stopping or parking is not allowed in the area.

② Stop momentarily.

③ Stop and help the person go back the way he/she came.

④ Protect the person by honking.

■ Answer : 2

190. According to the Road Traffic Act, the driver of any type of vehicle must ( ) before reaching a crosswalk in a school zone with no traffic lights, regardless of pedestrians crossing. Which of the following best fills the parentheses?

① slow down

② stop

③ slow down or stop

④ reduce speed

■ Answer : 2

191. Which of the following is correct regarding the protection of pedestrians crossing roads?

① You have no responsibility to protect pedestrians on sections of a road other than an intersection.

② You have no responsibility to protect pedestrians crossing the road illegally.

③ You have to protect pedestrians even when they are crossing the road illegally.

④ You have no responsibility to protect pedestrians crossing a one-way road illegally.

■ Answer : 3

192. Who is NOT allowed to drive on the road according to the Road Traffic Act?

① A person using a wheelchair to aid his/her movement

② A person marching on the streets for an important social event

③ A person cleaning or doing maintenance work on a road

④ A person carrying an object that can hinder pedestrian thoroughfare, such as a ladder

■ Answer : 1

193. Which of the following is the best method of crossing the road for a pedestrian when the green light at the crosswalk is flashing?

① A pedestrian who is not yet in the crosswalk must wait for the next green light to start crossing.

② Stand still in the middle of the crosswalk.

③ Cross the road without waiting for the next signal.

④ The pedestrian can start crossing the road as long as the light does not turn red.

■ Answer : 1

194. According to the Road Traffic Act, which of the following is correct regarding pedestrians using the sidewalk?

① A person who rides a two-wheeled vehicle up to 125cc on the sidewalk can be considered a pedestrian.

② A person riding a bicycle can be considered a pedestrian.

③ A person who uses a wheelchair can be considered a pedestrian.

④ A person who rides a 49cc motorcycle can be considered a pedestrian.

■ Answer : 3

195. According to the Road Traffic Act, which TWO correctly describe the rules for a pedestrian-only road?

① The driver of a motor vehicle or a horse allowed on a pedestrian-only road must travel at the same speed as the pedestrians.

② In principle, the driver of a motor vehicle or a horse may use a pedestrian-only road.

③ The driver of a motor vehicle or a horse may not be allowed to enter a pedestrian-only road if and when deemed necessary by the chief of police.

④ If there is a possibility that pedestrians could be exposed to danger, the driver of a motor vehicle or a horse on a pedestrian-only road must stop and remain stationary.

■ Answer : 1, 4

196. When a cargo falls from a vehicle and injures a pedestrian, necessitating a two-week period of hospitalization, which two penalties among the following will be imposed on the driver?

① Criminal offense charges are imposed on the driver regardless of the victim's wishes to file charges.

② No charges are filed if the driver comes to an agreement with the victim.

③ No charges are filed if the driver has a full-coverage insurance policy.

④ The driver is charged with a criminal offense regardless of the presence of a full-coverage insurance policy.

■ Answer : 1, 4

197. According to the Road Traffic Act, which of the following is the most appropriate method of crossing a road without a crosswalk for a pedestrian?

① Cross the road right behind a passing vehicle.

② Cross the road quickly when there are no cars passing by.

③ Cross anywhere as there is no crosswalk.

④ Cross the road using the shortest distance.

■ Answer : 4

198. According to the Road Traffic Act, which of the following is NOT a correct explanation of how to traverse a crosswalk?

① A person may cross the crosswalk while pushing a personal mobility device.

② A person may cross the crosswalk while on a motorized chair.

③ A person may cross the crosswalk while riding a bicycle.

④ A person may cross the crosswalk while pushing a stroller.

■ Answer : 3

199. According to the Road Traffic Act, which of the following methods of passage used by motor vehicles or horses is NOT correct?

① When the roadway and sidewalk are separated, be sure to use the roadway.

② Drive slowly just before crossing a crosswalk, check left and right, and cross in a manner that does not impede the passage of pedestrians.

③ Be sure to use the right-side roadway.

④ When it is a one-way road, you can drive in the center or left portion of the road.

■ Answer : 2

200. According to the Road Traffic Act, which of the following guidelines for the protection of pedestrians is NOT correct?

① When a pedestrian is using the crosswalk, the driver must make a temporary stop before the crosswalk.

② The driver shall not impede the passage of pedestrians who are crossing the road according to the signals or directions given by a police officer.

③ A driver shall not impede the passage of pedestrians who are crossing the road at an intersection.

④ When a pedestrian is crossing a road without a crosswalk, the driver must drive slowly while maintaining a safe distance.

■ Answer : 4

201. Which of the following is the correct method of passing through a crosswalk for a vehicle if traffic signals for both vehicles and pedestrians are out of order?

① If a pedestrian is crossing, pass through at a slow speed.

② If there are no pedestrians on the crosswalk, do not slow down but be sure to pass through quickly.

③ The driver need not drive slowly, as the crosswalk has lost its function due to the breakdown of the signal lights.

④ If a pedestrian is crossing, make a temporary stop just in front of the crosswalk.

■ Answer : 4

202. According to the Road Traffic Act, which of the following is the most appropriate method of using a road with no clear distinction of a sidewalk but has a centerline for a pedestrian?

① Walk along the center of the roadway.

② Walk along the right side of the roadway.

③ Walk along the roadside area.

④ Use all areas of the road to walk on.

■ Answer : 3

203. According to the Road Traffic Act, which of the following is the correct method of passing for a motor vehicle or a horse that is permitted to pass through a pedestrian-only road?

① If there are any pedestrians, proceed slowly.

② Proceed while honking.

③ Drive at the walking speed of pedestrians or make a temporary stop.

④ If there are no pedestrians, proceed quickly.

■ Answer : 3

204. According to the Road Traffic Act, which of the following is a section of road where boundaries are indicated by a line or curbstones, safety signs, or any similar artificial structures that allow pedestrians to pass through?

① A sidewalk

② A roadside area

③ A crosswalk

④ A bicycle crossing

■ Answer : 1

205. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT the correct method of crossing when pedestrian signals are flashing?

① Pedestrians should not start crossing.

② Pedestrians in the middle of the crossing should quickly finish crossing.

③ Pedestrians should stop crossing and return to the sidewalk.

④ Pedestrians should stop crossing and wait in place for the next signal.

■ Answer : 4

206. According to the Road Traffic Act, which of the following is a situation wherein the driver of a motor vehicle must drive slowly?

① When seeing a person crossing a crosswalk with a bicycle

② When driving past a pedestrian along a back road

③ When seeing a pedestrian crossing a crosswalk

④ When seeing a pedestrian crossing a road with no crosswalk

■ Answer : 2

207. According to the Road Traffic Act, raised crosswalks are installed on roads where it is necessary to limit the speed to ( ) km/h or less. Which of the following is correct?

① 10

② 20

③ 30

④ 50

■ Answer : 3

208. According to the Road Traffic Act, which of the following is NOT a circumstance that requires stopping temporarily while driving?

① When a child crosses the road without a guardian

② When the vehicle traffic light is flashing a red light

③ When a child is sitting or standing on the road

④ When the vehicle traffic light is flashing yellow

■ Answer : 4

209. According to the Road Traffic Act, which of the following is the correct way of driving when the pedestrian signal at a diagonal crosswalk is green?

① When intending to go straight, you must stop just before the stop line.

② If there are no pedestrians, you can increase your speed and turn right.

③ If there are no pedestrians, you can increase your speed and turn left.

④ You can proceed in the direction where pedestrians are not crossing.

■ Answer : 1

210. According to the Road Traffic Act, which of the following is the correct term for the action of a driver to bring his/her motor vehicle to a complete stop temporarily?

① Driving slowly

② Stopping

③ Parking

④ Making a temporary stop

■ Answer : 4

211. According to the Road Traffic Act, which of the following is not permitted to be used by an electric wheelchair for medical purposes?

① Bicycle-only roads

② A roadside area

③ A sidewalk

④ The edge of a road

■ Answer : 1

212. Which of the following is the most appropriate way of turning left at an intersection without any traffic control?

① On general roadways, turn on the direction indicator immediately before the intersection and turn left.

② Slow down and follow the centerline of the road, and turn left by going around the central island in the outer lane of the intersection.

③ Turning left on the outer lane of the intersection is not allowed even when permitted by the commissioner of the City/Do (Province) police agency.

④ You must slow down. You may or may not stop at your discretion as you enter.

■ Answer : 4

213. According to the Road Traffic Act, the width of a lane installed shall be ( ) m or wider. In such cases where an unavoidable need is recognized, such as for the installation of a left turn-only lane, it may be set to ( ) cm or wider. Which combination of answers fits in the two parentheses?

① 5, 300

② 4, 285

③ 3, 275

④ 2, 265

■ Answer : 3

214. In which of the following cases is a vehicle allowed to overtake another vehicle on a road whose right side is narrower than 6 m?

① When the left side of the road cannot be checked

② When the traffic in the opposite direction may be impeded

③ When the car ahead proceeds at a low speed and a safe distance can be secured from other cars

④ When overtaking is prohibited or restricted as indicated by safety signs, etc.

■ Answer : 3

215. According to the Road Traffic Act, which of the following lanes indicates the direction of traffic with a signal apparatus on the road where the traffic volume of both directions varies greatly depending on the time, in order to optimize the number of lanes available for the direction with the greatest traffic volume?

① The reversible lane

② Bus-only lane

③ The acceleration lane

④ The overtaking lane

■ Answer : 1

216. According to the Road Traffic Act, the driver of any type of vehicle trying to make a ( ) must be in the right-most lane and slow down to make a ( ) at an intersection. In this case, the driver trying to make a ( ) must stop the vehicle according to the traffic signal or take caution for pedestrians and bicycle riders. Which of the following best fills the parentheses?

① right turn – right turn – right turn

② left turn – left turn – left turn

③ right turn – left turn – right turn

④ left turn – right turn – left turn

■ Answer : 1

217. According to the Road Traffic Act, which of the following is correct regarding a change of lane?

① Because it can be dangerous on a bridge, a change of lane is often restricted by solid white lines.

② Broken white lines mark traffic lanes where a change of lane is limited.

③ Do not change lanes in an area where lane change is prohibited, even if there is roadwork or other such obstructions that prevent you from traveling further.

④ It is not against the law to change lanes in an area where lane change is prohibited, provided that it is done safely.

■ Answer : 1

218. Which of the following falls under the violation of "tailgating," an act of obstructing passage by other cars by not allowing them to pass even when the traffic light has changed after entering an intersection with a green light?

① A violation of means for passing through intersections

② A violation of a temporary stop

③ A violation of means for changing lanes

④ A violation of measures for preventing congestion

■ Answer : 1

219. Which of the following is correct regarding an acceleration lane on an expressway?

① An acceleration lane allows vehicles on an expressway to change lanes so that they can take an exit.

② An acceleration lane allows the vehicles entering an expressway to increase their speed.

③ An acceleration lane allows increasing speed for vehicles trying to overtake other vehicles on an expressway.

④ An acceleration lane is designed to lessen the effects of the lowered speed of large vehicles when driving uphill.

■ Answer : 2

220. Which of the following is the most appropriate action to take when a driver realizes that he/she incorrectly entered an expressway after he/she has already entered it?

① Pull over, turn on the emergency flashers, and call the expressway patrol for help.

② Take the next exit as he/she has already entered the expressway.

③ Turn on the emergency flashers and slowly reverse the vehicle back to the entry point to exit the expressway.

④ If there are two or more lanes, make a U-turn to exit the expressway.

■ Answer : 2

221. According to the Road Traffic Act, which of the following is an INCORRECT match between the type of lane and the color painted on the lane?

① Yellow color for separating bidirectional traffic in a safety zone

② Blue color for bus-only lanes

③ Pink, light green, or green colors for guide lines on the lane

④ White color for the outer line of the speed limit mark installed within a school zone

■ Answer : 4

222. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct type of vehicle that may be driven in the left-side lane on roads other than expressways?

① Passenger cars and compact, small, and mid-sized buses

② Large passenger vehicles

③ Trucks

④ Special-purpose cars and two-wheeled vehicles

■ Answer : 1

223. Which of the following road markings allow a driver to make a U-turn? (Given that there is a U-turn sign)

① Yellow solid line on the center of the road

② White solid line on the center of the road

③ White broken line on the center of the road

④ Blue solid line on the center of the road

■ Answer : 3

224. Below are the classifications of traffic by type of lane according to the Road Traffic Act and its Enforcement Decree. Which of the following is INCORRECT?

① With regard to the ordering of lanes, the lane next to the median lane of a road is regarded as the first lane.

② If a person drives at a slow speed, possibly impeding the normal traffic of other cars, he/she must switch to the lane right of the one he/she was originally in.

③ On a road with one-way traffic, the right side of the road is regarded as the first lane.

④ In principle, all vehicles on an expressway with two lanes in one direction must drive in the second lane.

■ Answer : 3

225. Under the Road Traffic Act, if the visibility distance is less than 50 m due to heavy rain, the speed of a vehicle must be reduced by ( ) of the maximum prescribed speed. Which fits the parentheses?

① 50/100

② 40/100

③ 30/100

④ 20/100

■ Answer : 1

226. According to the Road Traffic Act, which two correctly describe the criteria for vehicles that may drive on exclusive lanes for high-occupancy vehicles?

① Passenger cars with 3 or more persons

② Trucks with 3 or more persons

③ Buses with 3 or more persons

④ Two-wheeled vehicles with 2 or more persons

■ Answer : 1, 3

227. According to the Road Traffic Act, when installing a lane on a road where the sidewalk and the road are not separately demarcated, which of the following is to be installed on both sides of the road for pedestrians to pass through safely?

① Safety area

② Lane change restriction line sign

③ Roadside

④ Roadside area

■ Answer : 4

228. Which of the following is the correct method of passing through an intersection with two left-turn lanes?

① Passenger cars must use only the first lane to turn left.

② Passenger cars must use only the second lane to turn left.

③ Large buses must use only the first lane to turn left.

④ Large buses must use only the second lane to turn left.

■ Answer : 4

229. According to the Road Traffic Act, which of the following is INCORRECT regarding the method and speed to be followed by motor vehicles and horses?

① If there is another vehicle coming straight from the opposite direction when you attempt to turn left at an intersection with no traffic lights, you shall yield the route to the vehicle coming straight.

② A vehicle making a stop on a road with no distinction between the roadway and the sidewalk should stop at a distance of at least 50 cm from the right edge of the road.

③ A vehicle signaling its intent to turn right at an intersection shall not be impeded from proceeding by the trailing vehicle.

④ The minimum speed on exclusive roads for motor vehicles is 40 km/h.

■ Answer : 4

230. Which of the following is the maximum allowed speed for a truck with a 3-ton loading weight driving on an expressway with four lanes in one direction where the maximum allowed speed is 100 km/h?

① 60 km/h

② 70 km/h

③ 80 km/h

④ 90 km/h

■ Answer : 3

231. In which of the following situations are motor vehicles and horses NOT allowed to pass along the left side of a road?

① When a restriction of overtaking is indicated by safety signs, etc.

② When the road is designated for one-way traffic

③ When the right side of the road is not available for passage due to road construction, etc.

④ When the right side of the road is not wide enough for the passage of motor vehicles and horses

■ Answer : 1

232. Which of the following is the most inappropriate method of passing an intersection and a Dilemma Zone?

① Before entering the intersection, check the traffic conditions in advance, keep a safe distance, and drive at reduced speed anticipating all situations and defensively.

② Entering the intersection at a red light leads to a signal violation.

③ If the front wheel enters the stop line when the traffic light changes from green to yellow, check the traffic conditions and proceed quickly out of the intersection.

④ Under the Road Traffic Act, if a dilemma zone is recognized and the traffic signal changes to yellow before a vehicle enters the intersection, the driver is not required to stop just before the intersection.

■ Answer : 4

233. Which of the following is correct regarding the driving distance between vehicles?

① Free running distance is the distance traveled by a vehicle from the point when the brake is pressed after detecting danger until the point at which the brake starts to work.

② Stopping distance is the distance necessary to avoid a rear-end collision with the car in front of you if it makes an abrupt stop.

③ Safe distance is the distance traveled by a vehicle from the point the brake is applied to the point at which the vehicle comes to a complete stop.

④ Braking distance is the distance between the moment the driver detects danger and the moment the car comes to a full stop.

■ Answer : 1

234. In which of the following areas is overtaking a vehicle possible?

① Intersection

② Centerline (yellow broken line)

③ Inside the tunnel (white solid line)

④ On the bridge (white solid line)

■ Answer : 2

235. According to the Road Traffic Act, which of the following is the most appropriate method of slowing down at an intersection?

① Proceeding at a low speed such that the vehicle can be stopped immediately

② Proceeding while maintaining a speed of 30 km/h

③ Proceeding at such a low speed that no accident occurs

④ Proceeding at a speed that enables the driver to avoid any sudden stops by the vehicle in front

■ Answer : 1

236. Below are various explanations of the punishment criteria for driving a vehicle (except for personal mobility devices) in violation of the maximum speed on the road. Which of the following is correct?

① Anyone who drives three or more times at a speed of over 100 km/h above the speed limit is subject to a criminal fine of up to KRW 5 million or detention.

② Anyone who drives three or more times at a speed of over 100 km/h above the speed limit is subject to imprisonment for up to one year or a criminal fine of up to KRW 5 million.

③ Anyone who drives twice at a speed of over 100 km/h above the speed limit is subject to a criminal fine of up to KRW 3 million.

④ Anyone who drives at a speed of over 80 km/h above the speed limit is subject to a criminal fine of up to KRW 500,000 or detention.

■ Answer : 2

237. Which of the following is the correct method of turning right at an intersection with no traffic lights?

① Turn right as fast as possible.

② Wait until the vehicles entering the intersection ahead of you pass by, and then turn right.

③ When a vehicle coming from the opposite direction is turning left, turn right at the same time with caution.

④ There is no need to be mindful of other vehicles when turning right from a wide road onto a narrow one.

■ Answer : 2

238. A driver intends to turn right at an intersection with traffic signals but no auxiliary signals for vehicles. According to the Road Traffic Act and its Enforcement Decree, which of the following is not correct?

① If the traffic signal has turned red, a temporary stop must be made in front of the stop line regardless of the signal light for pedestrians at the crosswalk.

② If the traffic signal has turned green, a right turn may be made without making a temporary stop in front of the stop line.

③ When the vehicle signal is a left-turn signal, you must come to a complete stop just before the stop line regardless of the pedestrian signal at the crosswalk.

④ Regardless of the traffic signal, a right turn may be made without making a temporary stop when other vehicles are not impeded.

■ Answer : 4

239. At an intersection, which of the following is the most correct method of turning left/right?

① When turning right, quickly pass through the intersection while carefully checking for pedestrians and bicycles that stop or proceed according to the signal.

② When turning left, you must pass through the outside of the intersection center.

③ When turning right, reduce speed in advance while driving along the right edge of the road.

④ When turning left at an intersection without traffic signals while a pedestrian is crossing the road, quickly pass in front of the pedestrian.

■ Answer : 3

240. Which of the following correctly describes the stopping distance?

① The distance from the point at which a driver pushes the brake pedal to where the vehicle comes to a complete stop

② The distance that allows a driver to avoid colliding with a vehicle ahead when it makes a sudden stop

③ The distance traveled by a vehicle from the point at which the driver detects danger and steps on the brake pedal to the point at which the vehicle makes a complete stop

④ The distance from the point where a driver senses danger and presses the brake pedal to the point where the brake function actually starts to work

■ Answer : 3

241. What is the correct way of passing through an intersection?

① When the red traffic light is flashing, drive slowly.

② When the yellow traffic light is flashing, drive through as quickly as you can.

③ Do not overtake other vehicles at an intersection.

④ When approaching the intersection, always use high-beam headlights.

■ Answer : 3

242. The following describes a Hi-pass lane. Which is correct?

① A Hi-pass lane is always found in lane 1; drivers intending to take it must change lanes accordingly and pass through the toll road safely.

② Since the Hi-pass lane for trucks is exclusive to trucks and is colored blue, there is no need to slow down to pass through the toll road.

③ Drivers must reduce speed in advance since the speed limit of a multi-lane Hi-pass toll road is 30 km/h.

④ Drivers must observe the speed limit of a multi-lane Hi-pass toll road. If the Hi-pass device malfunctions upon entry, drivers can pay the toll upon exit.

■ Answer : 4

243. What is the maximum speed for a passenger car traveling on an expressway under the Road Traffic Act?

① 60 km/h

② 70 km/h

③ 80 km/h

④ 90 km/h

■ Answer : 4

244. According to the Road Traffic Act, which of the following speed limits can be placed on a general road in residential, commercial, and industrial areas?

① Within 20 km/h

② Within 30 km/h

③ Within 40 km/h

④ Within 50 km/h

■ Answer : 4

245. Which of the following is the policy that limits the maximum speed in the city center to 50 km/h while lowered to 30 km/h on back roads (including residential areas) in order to reduce traffic accidents?

① New Deal Policy

② Safety Speed 5030

③ Campaign for Unity in Order to Reduce Traffic Accidents

④ Intelligent Transportation System (ITS)

■ Answer : 2

246. Which of the following are the two correct actions a driver may take when making an unprotected left turn at an intersection?

① Turn left when there is no oncoming traffic during a green light.

② Turn left at any time if there is no obstruction from oncoming vehicles, regardless of the signals.

③ During a two-way green signal, turn left safely without obstructing oncoming vehicles.

④ Making an unprotected left turn during a red light and causing an accident are subject to punishment for violation of the Highway Code's safe driving obligations.

■ Answer : 1, 3

247. You are driving in a city that operates an exclusive median bus lane system. Which of the following are safe ways of driving? (Select TWO)

① You should continuously honk to prevent other vehicles from cutting in front of you.

② You should drive with caution as pedestrians on the right may try to jaywalk.

③ You should slow down as pedestrians may cross the road from the bus station on the left.

④ You should drive and pass through a median bus lane as quickly as possible before the traffic light turns red.

■ Answer : 2, 3

248. According to the Road Traffic Act, which of the following are TWO safe methods of changing lanes?

① Change lanes as quickly as possible.

② You can change lanes only in those sections marked with solid white lines.

③ Change lanes without obstructing traffic.

④ You can change lanes only on a road marked with a white broken line.

■ Answer : 3, 4

249. Which of the following are the TWO correct methods of turning right safely at an intersection?

① Use the turn indicator at least 30 m before where you want to turn right.

② Move into the right-hand lane carefully if there is a solid white line on the road.

③ Turn right after checking your left side to make sure that there are no other vehicles headed in the same direction as you.

④ Turn right quickly while paying attention to the traffic in the area.

■ Answer : 1, 3

250. Which of the following are the TWO correct methods for a passenger car driver to overtake another vehicle?

① Make sure that there is enough space on the left before overtaking.

② Overtaking must be done within the speed limit of the road being traveled.

③ If it is safe to do so, overtaking another vehicle on its right hand side is acceptable.

④ After passing a vehicle on its left, move back into the lane when the vehicle that you just passed is no longer visible in the rear-view mirror.

■ Answer : 1, 2

251. What are TWO safe driving methods when driving on the road?

① Park the vehicle in a safety zone if possible.

② When the traffic lights turn yellow, stop inside the intersection to observe the traffic signal.

③ Maintain sufficient distance to prevent a collision with the vehicle ahead if it brakes suddenly.

④ When overtaking another vehicle, pass along its left side.

■ Answer : 3, 4

252. Which of the following is not a motor vehicle that is required to install or place a fire extinguisher?

① A passenger car with 5 or more seats

② A bus

③ A truck

④ A two-wheeled vehicle

■ Answer : 4

253. According to the Road Traffic Act, which of the following measures must be taken when an emergency vehicle driving with an emergency siren on approaches?

① When an emergency vehicle approaches an intersection, drivers of other vehicles must stop at the left edge of the intersection.

② On the road other than the intersection, other vehicles should yield so that emergency vehicles can pass first.

③ Drive faster than the emergency vehicle.

④ Stop temporarily and wait until the emergency vehicle passes.

■ Answer : 2

254. Which of the following is the safest measure to take when a fire truck approaches with flashing red lights and siren while you are trying to turn right at an intersection?

① Temporarily stop, avoiding the intersection.

② Stop right where you are.

③ Slow down, and turn right.

④ Pass through the intersection quickly and continue driving.

■ Answer : 1

255. According to the Road Traffic Act, which of the following privileges does NOT apply to emergency vehicles?

① Speed limit of motor vehicles

② Restriction of overtaking

③ Restriction of cutting in

④ Ensuring pedestrian safety

■ Answer : 4

256. Emergency vehicles should be properly outfitted, and they should convey that they are undertaking an emergency operation by turning on their sirens or flashing lights. Which of the following vehicles is exempted from this obligation?

① Vehicles cracking down on illegal parking

② Fire trucks

③ Ambulances

④ Police cars cracking down on violations of speed limit

■ Answer : 4

257. In order for fire trucks and ambulances to be granted a special privilege to overtake other vehicles or drive at a speed exceeding the limit in a no-passing zone, which of the following is the measure that the drivers of those vehicles should take?

① Drive while honking.

② Equip the cars in a manner required for safe driving according to the Motor Vehicle Management Act and turn on the sirens or flashing lights.

③ Drive with the headlights on.

④ Those vehicles can be granted such privileges without taking additional measures.

■ Answer : 2

258. Which of the following is necessary for a general vehicle to be recognized as an emergency vehicle when transporting a patient in critical condition?

① The car should be authorized by the chief of the district police station.

② The driver should turn on the headlights or emergency lights.

③ The car does not need to get special permission because it is transporting a patient in critical condition.

④ The car must be escorted by another vehicle.

■ Answer : 2

259. According to the Road Traffic Act, which TWO are considered emergency vehicles?

① A fire truck going to a repair shop for repairs

② A vehicle transporting patients who are injured or in a critical condition, or transporting blood for transfusion

③ An ambulance transporting a patient discharged from a medical institution

④ A vehicle authorized by the commissioner of the City/Do (Province) police agency to transport urgent postal mail, etc.

■ Answer : 2, 4

260. According to the Road Traffic Act, which of the following are TWO things that an ambulance driver is allowed to do while operating an emergency vehicle in an emergency situation?

① Continue to operate the vehicle after a traffic accident without administering first aid to the injured.

② Continue to operate the vehicle even if it obstructs pedestrians from crossing.

③ Drive along the center or along the left side of the road.

④ Cut in front of other vehicles on a congested road.

■ Answer : 3, 4

261. According to the Road Traffic Act, what is the reason a fire truck driver who is operating a vehicle for its original purpose cannot be granted exceptions as an emergency vehicle?

① Not wearing a seat belt

② Drunk driving

③ Crossing of the centerline

④ Violation of traffic light

■ Answer : 2

262. The regular traffic safety education provided for drivers of emergency vehicles shall be taken every ( ) years. Which of the following best fits in ( )?

① 1

② 2

③ 3

④ 5

■ Answer : 3

263. Which of the following is NOT true about an exception for emergency vehicles under the Road Traffic Act?

① They may overtake other vehicles at a location where passing is prohibited.

② They may cut in front of other vehicles even where cutting is prohibited.

③ They may pass the crossroad even though there is a pedestrian crossing it without regard for their safety.

④ They may drive faster than the speed limit prescribed for the road.

■ Answer : 3

264. Stopping and parking are prohibited within ( ) meters of fire-extinguishing water supply system, emergency firefighting equipment, and firefighting systems under the Road Traffic Act. Which of the following best fills the parentheses?

① 5

② 6

③ 8

④ 10

■ Answer : 1

265. Which of the following can be designated as an emergency vehicle by the commissioner of the City/Do (Province) police agency at the request of the organization or the person intending to use the vehicle?

① A fire truck

② A gasworks vehicle used for emergency gas leak repair

③ An ambulance

④ A blood bank vehicle

■ Answer : 2

266. Which of the following CANNOT be designated as an emergency vehicle by the commissioner of the City/Do police agency at the request of the organization or the person intending to use the vehicle?

① A police car used for traffic control

② A vehicle used for delivery of urgent mail

③ A vehicle used for emergency work such as repair of phone lines

④ A civil defense vehicle used for emergency restorations

■ Answer : 1

267. According to the Road Traffic Act, which of the following is NOT a situation wherein an emergency vehicle can flash its warning lights for non-emergency matters?

① When a fire truck is on patrol for fire prevention, rescue, and emergency activities

② When a fire truck is being driven to the workshop for urgent repair

③ When a vehicle commissioned for civil defense activities participates in a drill relevant to its usual emergency responsibilities

④ When a police vehicle is on patrol for crime prevention and control

■ Answer : 2

268. According to the Road Traffic Act, which of the following actions by an emergency vehicle on an emergency rescue mission is considered an offense?

① Driving at 100 km/h on a general road with two lanes in one direction

② Overtaking a vehicle inside a tunnel where lanes are marked with a solid white line

③ Cutting in front of a vehicle at an intersection to turn right

④ Failing to report or take the necessary actions in the event of a traffic accident resulting in personal injury because the vehicle is on an emergency rescue mission

■ Answer : 4

269. Which of the following is NOT an instance wherein an emergency vehicle can use a warning light for non-emergency purposes?

① A fire truck on a round of patrol for fire prevention

② A road maintenance vehicle on a round of patrol to prevent traffic accidents

③ An ambulance used in emergency response training

④ A police car on a round of patrol for crime prevention

■ Answer : 2

270. Which of the following are the TWO correct methods of yielding to an emergency vehicle on the road?

① All vehicles must pull over to the left side of the road.

② If the emergency vehicle is climbing up a narrow slope and you are facing it, the emergency vehicle must pull over to the right to make way for you.

③ Near an intersection, pull over at some distance from the intersection.

④ When an emergency vehicle approaches from a place other than an intersection or its vicinity, the roadway shall be yielded so that the emergency vehicle can take priority.

■ Answer : 3, 4

271. Which TWO are considered emergency vehicles?

① A vehicle being guided by a police car for emergency purposes

② An investigation vehicle used for non-investigatory purposes

③ A tow truck returning after completing a rescue activity

④ A vehicle transporting patients who are injured or in critical condition, or transporting blood for transfusion

■ Answer : 1, 4

272. Which of the following is NOT true about the duty of a school bus driver/operator?

① A school bus driver must turn on the hazard lights only when children and infants are getting on or off the bus.

② A school bus driver must make sure that all children and infants on board are wearing seat belts before moving the bus.

③ In case parents or guardians are on board together with the children, a school bus operator may post a sign indicating the accompaniment of parents/guardians.

④ In case parents or guardians are on board, there is no need to write safety operation records.

■ Answer : 4

273. In which location should the driver come to a full stop, regardless of the existence of pedestrians?

① A road with no centerline among the roads where the roadway and sidewalk are not distinguishable

② Front of a crosswalk in a school zone with no traffic light

③ Pedestrian-first road

④ A place other than a road

■ Answer : 2

274. A school bus for children is driving in the first lane of a road with two lanes in one direction with markings to show that it has children or infants on board. Which of the following is the safest course of action?

① Do not overtake the bus even if the second lane is empty.

② Overtake the bus using the second lane.

③ Honk to send a signal to make way.

④ Check the situation of the traffic in the opposite direction, and overtake the bus by crossing the centerline.

■ Answer : 1

275. Which of the following is correct regarding school zones?

① Areas in front of kindergartens or middle schools are designated as school zones.

② Mayors and other officials can limit or prohibit vehicles from entering a school zone.

③ For the purposes of a school zone, children are defined as those under 12 years old.

④ A school zone can limit vehicles to a speed of 30 km/h.

■ Answer : 4

276. Under the Act on Special Cases Concerning the Settlement of Traffic Accidents, what is the appropriate punishment for a driver's negligence resulting in injury to a child while driving at 40 km/h within a school zone?

① Only if demanded by the victim will the offender be subjected to criminal punishment.

② Regardless of the victim's request, criminal punishment will be imposed.

③ When insured by comprehensive insurance, the driver will not face criminal punishment.

④ An agreement with the victim can prevent criminal punishment.

■ Answer : 2

277. Which of the following is the allowed seating capacity for a vehicle to be registered as a school bus for children? (1 child is considered 1 passenger)

① 11-seater or larger

② 16-seater or larger

③ 17-seater or larger

④ 9-seater or larger

■ Answer : 4

278. What is the correct number of demerit points for the driver of a passenger car who has violated the speed limit by exceeding the maximum speed by 25 km/h at around 08:30 am in a school zone?

① 10 points

② 15 points

③ 30 points

④ 60 points

■ Answer : 3

279. How many demerit points are imposed on the driver of a passenger car who overtakes a school bus for children that is driving on a road with an indication that it has children or infants on board?

① 10 points

② 15 points

③ 30 points

④ 40 points

■ Answer : 3

280. According to the Road Traffic Act, how many hours of safety education are required for persons subject to education regarding school buses for children?

① 1 hour or more

② 3 hours or more

③ 5 hours or more

④ 6 hours or more

■ Answer : 2

281. According to the Road Traffic Act, who are considered children and infants?

① Those 13 years old or below are considered children.

② Those who are below 6 years old are considered infants.

③ Those who are below 15 years old are considered children.

④ Those who are below 7 years old are considered infants.

■ Answer : 2

282. Which of the following is the correct amount of traffic penalty that would be imposed on the driver of a passenger car who commits a traffic signal violation in a school zone at around 13:00?

① KRW 50,000

② KRW 70,000

③ KRW 120,000

④ KRW 150,000

■ Answer : 3

283. Which of the following is the safest method of driving on a road where a child is playing alone without a guardian?

① The child should not be there in the first place. Just drive on.

② Honk to scare the child away and drive past.

③ Stop temporarily.

④ Keep an eye on the child and speed away.

■ Answer : 3

284. According to the Road Traffic Act, which of the following is a correct action taken by a driver when a child is crossing in a crosswalk?

① Upon noticing a pedestrian crossing the crosswalk, check for safety and pass slowly.

② In the case of a crosswalk on a general road with no traffic light, the driver can pass the stop line as long as he/she does not enter the crosswalk area.

③ In the case of a crosswalk on a general road with no traffic light, the driver can drive slowly behind crossing children.

④ Pedestrian crossing signs are placed on both ends of a crosswalk, and all drivers must come to a full stop before reaching the crosswalk.

■ Answer : 4

285. If a school bus for children makes a stop at a road with one lane in one direction and switches on the flashers to indicate that infants are getting on and off the bus, which of the following is the correct behavior for a driver approaching from the opposite direction?

① Stop temporarily, check that it is safe, and drive on slowly.

② Drive past at a reduced speed to ensure safety.

③ Continue to drive on.

④ Drive on while honking.

■ Answer : 1

286. Which of the following is the most appropriate behavior when a driver hits a child?

① A driver of a two-wheeled vehicle asked if the child was injured or not, but the child did not say anything. So the driver decided that the child was not injured and kept driving.

② The driver of a passenger car stopped the vehicle immediately, visually checked the child, and concluded that the child was not injured and so kept driving.

③ The driver of a truck saw the child who was knocked over but got up immediately. Upon concluding that the child was not injured, the driver kept driving.

④ A cyclist saw the child who was knocked over but quickly got up and ran. The cyclist reported the case to the police station and waited at the scene.

■ Answer : 4

287. A vehicle just hit a child who suddenly emerged from an alleyway. The child appeared unharmed and claimed that he was fine. Which of the following is the correct action taken by the driver?

① The driver can leave since this is a crime that is not prosecuted against objection.

② The driver can leave since the child was not hurt, so this is not considered an accident.

③ The driver must call the parents of the child and take other necessary measures before leaving the scene.

④ Since the fault lies with the child, the driver can just take the child's contact information and leave.

■ Answer : 3

288. Who is responsible for the designation and management of school zones under the Road Traffic Act?

① Police chief

② Mayor, etc.

③ Commissioner of the City/Do (Province) police agency

④ Superintendent of Education

■ Answer : 2

289. Which of the following are TWO correct statements about school zones?

① A school zone refers to a section of a road located within 100m of the main gate of an elementary school.

② A traffic penalty can be imposed for cars that are stopped or parked illegally in a school zone between 8 AM and 8 PM.

③ The length of the green signal of traffic lights installed in a school zone is based on the fastest walking speed of an average child.

④ The demerit points applied to drivers who fail to consider pedestrian safety are doubled in school zones between 8 AM and 8 PM.

■ Answer : 2, 4

290. Which of the following are true about the special protection for school buses? (Select TWO)

① The method of overtaking a school bus for children is the same as the method prescribed for overtaking other kinds of vehicles.

② When children are getting on or off the bus, a car coming from the opposite direction on a road without a centerline should check that it is safe and drive slowly.

③ When children are getting on or off the bus, a car coming from the opposite direction on a road with one lane in one direction should stop momentarily, check that it is safe, and drive slowly.

④ When children are getting on or off the bus, vehicles in the same lane and adjacent lanes should stop momentarily, check that it is safe, and drive slowly.

■ Answer : 3, 4

291. Below are descriptions of a thoroughfare of bicycles. According to the Road Traffic Act, which of the following is INCORRECT?

① The rider of a bicycle must pass along a bicycle track at a location with a separate bicycle track.

② The rider of a bicycle must pass along close to the right side of the road at a location where no bicycle track is constructed.

③ The rider of a bicycle may pass along the roadside area (excluding a section where thoroughfare for bicycles is prohibited with safety markings).

④ A rider of a bicycle who intends to cross the road at a crosswalk may do so while riding the bicycle.

■ Answer : 4

292. Which ministries are responsible for jointly establishing the procedure and criteria for designating priority zones under the Road Traffic Act?

① A school zone is jointly designated by the Ministry of Interior and Safety, Ministry of Health and Welfare, and Ministry of Land, Infrastructure, and Transport.

② A silver zone is jointly designated by the Ministry of Interior and Safety, Ministry of Land, Infrastructure, and Transport, and Ministry of Environment.

③ A priority zone for persons with disabilities is jointly designated by the Ministry of Interior and Safety, Ministry of Health and Welfare, and Ministry of Land, Infrastructure, and Transport.

④ A priority zone for people with mobility impairments is jointly designated by the Ministry of Interior and Safety, Ministry of Environment, and Ministry of Land, Infrastructure, and Transport.

■ Answer : 3

293. Which of the following is the correct method of driving considering the protection of school buses for children?

① If you are facing and approaching a school bus for children on a road with one lane in one direction, you must stop before reaching the bus, check that it is safe, and drive on slowly.

② If a school bus for children has switched on flashers indicating that children are getting off, you must take another lane and drive past the bus quickly.

③ If there is no centerline and you are facing and approaching a school bus for children, you must keep driving at the same speed.

④ You can overtake a school bus for children, even if it has signs indicating that children are on board.

■ Answer : 1

294. Which of the following are TWO correct statements regarding the registration of school buses for children?

① To operate a school bus, one must report to the Korea Road Traffic Authority beforehand and receive a report certificate.

② A school bus for children must be a vehicle with maximum passenger capacity of nine or more (1 child is considered 1 passenger).

③ If applying to renew the registration of a school bus for children because the old one needs to be replaced, one must submit the old registration together with the renewal form.

④ The registration certificate of a school bus for children must be attached in a place where it will be easily visible on the top left side of the windows.

■ Answer : 2, 3

295. Which of the following is the correct method of facilitating the safe boarding and disembarking of a child for a driver operating a school bus for children?

① Flashers must be used to ensure safety while the child is boarding the vehicle.

② If traffic is congested, turn off the flashers momentarily and allow the child to board.

③ Drop off children around the school bus and leave immediately.

④ Fastening a seatbelt is not required in a school zone.

■ Answer : 1

296. According to the Road Traffic Act, which of the following is NOT true about school zones?

① The traffic penalty for a parking violation is the same as that for the silver zone.

② A "slow" sign can be installed in school zones.

③ Parking and stopping are prohibited within a school zone.

④ One will face a criminal penalty for causing an accident that leaves a child injured, regardless of any settlements.

■ Answer : 1

297. A child crosses a street in a school zone with an infant. Which of the following is the correct driving behavior?

① Stop temporarily to protect children and infants.

② Slow down as a child crosses the street while protecting the infant.

③ Drive fast as the child and infant are on the opposite side of the road.

④ Since children and infants walk slowly, keep a safe distance and drive while avoiding them.

■ Answer : 1

298. According to the Road Traffic Act, which of the following is correct regarding school zones?

① If a car accident occurs while a child is jaywalking, the driver is exempted from all liability.

② If a cyclist hits a child while driving, only civil liability exists as a bicycle is not a vehicle.

③ Upon seeing a child suddenly running onto the road, stop the vehicle instead of reducing the speed.

④ The chief of a police station may set the speed limit of a vehicle at 50km or less per hour.

■ Answer : 3

299. Which of the following are true about school zones and driving in these zones? (Select TWO)

① A school zone may limit the vehicle speed to 30 km/h if necessary to ensure children's safety. Drivers must observe the speed limit when driving in a school zone.

② In a school zone, drivers of motor vehicles, motorcycles, and trams must observe the speed limit and come to a full stop when children are crossing.

③ Roads near alternative or international schools are not designated as school zones; therefore, drivers must slow down when driving in these areas as children may be jaywalking.

④ Speed limit and pedestrian crossing signs can be placed with priority in school zones. Drivers must slow down when a child is standing by the centerline.

■ Answer : 1, 2

300. Which of the following is NOT a violation of the special protection duty for school buses (on a one-lane road)?

① Passing through without stopping when children or toddlers are getting off.

② Slowing down and passing through before reaching the bus, when approaching from the opposite direction.

③ Blowing the horn and passing through while children or toddlers are getting on or off.

④ Not overtaking a school bus displaying the child transport sign while driving.

■ Answer : 4

301. According to the Road Traffic Act, which of the following is true about a child and an infant and the responsibilities of a school bus driver?

① Those 13 years old or below are considered children, and a school bus driver must ensure safety when children are getting on and off the bus.

② A school bus driver must make sure that all children, except infants, have put on their seat belts prior to departure.

③ A school bus driver must safely drop off a child at the destination demanded by the child.

④ Those who are below 6 years old are considered infants, and a school bus driver must turn on the hazard lights when an infant is getting on and off the bus.

■ Answer : 4

302. According to the Road Traffic Act, which of the following is true about the operation of the yellow and red strobe lights installed on a school bus for the purpose of allowing children or infants to get on or off the bus?

① The red indicator light(s) must be flashing when stopping the bus.

② The red indicator light(s) must be flashing when braking.

③ The yellow indicator light(s) must be flashing when attempting to stop on the road.

④ Both yellow and red indicator light(s) must be flashing when parking.

■ Answer : 3

303. Which of the following is NOT a law that is the basis for designating a school zone?

① Early Childhood Education Act

② Elementary and Secondary Education Act

③ Act on the Establishment and Operation of Private Teaching Institutes and Extracurricular Lessons

④ Child Welfare Act

■ Answer : 4

304. Below are descriptions related to school zones. Which of the following is NOT true?

① Traffic accidents in these areas may be excluded from the special exemption provided under the Special Traffic Accident Act.

② The speed limit for vehicles can be set at 30 km/h or less.

③ The traffic penalty and demerit points are three times higher than those on general roads.

④ Parking and stopping are prohibited.

■ Answer : 3

305. According to the Road Traffic Act, which of the following children is NOT walking in a safe manner?

① A child walking on the edge of a roadway that is clearly separated from the sidewalk

② A child walking on the edge of a one-way road while facing the oncoming traffic

③ A child walking on the edge of a roadway that does not have a clear separation from the sidewalk while facing the oncoming traffic

④ A child walking on the right-hand side of a sidewalk

■ Answer : 1

306. According to the Road Traffic Act, which of the following is NOT correct regarding the protection of children?

① If a child is crossing a road without a crosswalk, drivers must drive slowly.

② If a child is standing in a safety zone, drivers must drive slowly while maintaining a safe distance.

③ If a child is walking in a narrow alley, drivers must drive slowly while maintaining a safe distance.

④ If a child is crossing a crosswalk, drivers shall make a temporary stop in front of the crosswalk.

■ Answer : 1

307. According to the Road Traffic Act, which of the following correctly describes the driver's duty regarding the special protection of school buses?

① If a school bus for children with a red flasher being operated passes next to your lane, it is necessary to stop temporarily.

② You cannot overtake any school bus for children passing on the road.

③ If you violate this duty, you will incur 15 demerit points on your driver's license.

④ This duty does not apply when a school bus for children stops on a road with one lane in one direction with its red flasher activited.

■ Answer : 1

308. According to the Road Traffic Act, which of the following constitutes a situation wherein a child's guardian is slapped with an administrative fine?

① A guardian who lets a child ride a bicycle on the roadway

② A guardian who lets a child ride an electric scooter in a playground

③ A guardian who lets a child ride an electric scooter on the roadway

④ A guardian who lets a child ride a bicycle in a playground

■ Answer : 3

309. What are the criminal penalties under the Act on the Aggravated Punishment, etc. of Specific Crimes for causing injury to a child in a child protection zone while driving?

① Imprisonment with labor for at least 1 year but not more than 15 years or a criminal fine of at least KRW 5 million but not more than KRW 30 million

② Imprisonment with labor (or for an indefinite term) for at least 5 years

③ Imprisonment with labor for not more than 2 years or a criminal fine of not more than KRW 5 million

④ Imprisonment with labor for not more than 5 years or a criminal fine of not more than KRW 20 million

■ Answer : 1

310. Which of the following is NOT correct regarding the duty of a person who operates a school bus for children?

① When children are getting on a school bus, an adult guardian must be designated.

② After completing the trip, the operator must confirm that all children and infants have disembarked from the school bus.

③ It is necessary to prepare and keep a record of seat belt wearing and confirmation of the accompanying guardian.

④ A record of confirmation of wearing seat belts and accompanying guardians must be submitted to the supervisory authority of the facility operating the school bus every quarter.

■ Answer : 2

311. Which of the following is the punishment imposed on the operator when an “accompanying guardian sign” is attached even though there is no adult guardian on a school bus for children?

① A criminal fine of up to KRW 200,000 or detention

② A criminal fine of up to KRW 300,000 or detention

③ A criminal fine of up to KRW 400,000 or detention

④ A criminal fine of up to KRW 500,000 or detention

■ Answer : 2

312. Which of the following is true about the definition of the senior driver sign under the Road Traffic Act?

① A senior driver sign indicates that the vehicle is driven by a licensed driver aged 65 or older.

② The background of the sign should be blue and the text should be yellow.

③ The front side should be made of rubber magnet for removal, and the back side should be made of reflective paper.

④ Attach it to the front of the vehicle in a visible location that does not interfere with safe driving.

■ Answer : 1

313. Which of the following is NOT an authority that a commissioner of the City/Do (Province) police agency or a police chief can exercise in a silver zone?

① Prohibiting or restricting the passage of vehicles and horses

② Designating and operating a back road as a one-way street

③ Setting a speed limit of 30 km/h for horses and vehicles

④ Designating an on-road parking lot for the elderly on a road next to the gate of a house

■ Answer : 4

314. According to the Road Traffic Act, which of the following may be prohibited from entering or driving in a silver zone?

① Personal mobility devices (PMD), bicycles

② Truck-mounted drilling rigs and kick scooters for children

③ Motorcycles and rollators with width of 1 m or less

④ Road stabilizers and walking frames with width of 1 m or less

■ Answer : 1

315. According to the Road Traffic Act, which of the following is true about a violation that took place in a silver zone at 10 AM?

① If the driver of a dump truck violates the traffic signal, the traffic penalty is KRW 130,000.

② If the driver of a passenger vehicle obstructs a senior pedestrian, the traffic penalty is KRW 70,000.

③ If a bicycle rider obstructs a senior pedestrian crossing a crosswalk, the traffic penalty is KRW 50,000.

④ If the driver of a cultivator fails to fulfill his/her duty of guaranteeing pedestrian safety, the traffic penalty is KRW 30,000.

■ Answer : 1

316. Which of the following ministries is NOT authorized to enact enforcement ordinances regarding the procedures and criteria for the designation and abolition of senior or disabled protection zones?

① Ministry of Culture, Sports, and Tourism

② Ministry of Interior and Safety

③ Ministry of Health and Welfare

④ Ministry of Land, Infrastructure, and Transport

■ Answer : 1

317. Which of the following officials CANNOT declare a silver zone?

① Mayor of a special metropolitan city

② Mayor of a metropolitan city

③ Governor of a special self-governing province

④ A commissioner of a city/province (-do) police agency

■ Answer : 4

318. Which of the following is true about the general characteristics of senior citizens who are considered people with mobility impairments?

① Their reflexes are slow but they are quick in making decisions from experience.

② They have poor eyesight but high hearing sensitivity.

③ They may not be quick in responding to unexpected situations, but their cognitive ability is heightened in such cases.

④ They lose mobility as their health conditions deteriorate.

■ Answer : 4

319. According to the Road Traffic Act, which of the following is true about the measures that a mayor can take for a silver zone?

① The mayor can restrict or prohibit access by motor vehicles and horses and trams.

② The mayor can prohibit access by buses, but cannot restrict access by trams.

③ The mayor can prohibit access by two-wheeled vehicles, but cannot restrict access by bicycles.

④ The mayor cannot prohibit access by heavy equipment, but can restrict such access.

■ Answer : 1

320. The driver of a passenger car slammed on the brakes after spotting an elderly person crossing a crosswalk without pedestrian signal lights but unfortunately hit him/her, and he/she was hospitalized for two weeks. Which TWO are correct among the following statements?

① The driver is not responsible at all as there were no pedestrian signal lights.

② The driver is subject to civil liability.

③ Only the elderly person is subject to criminal prosecution for crossing illegally.

④ The driver is subject to criminal liability.

■ Answer : 2, 4

321. Which TWO are applicable to the control that a police chief has over a silver zone?

① Prohibition or restriction of vehicle passage

② Prohibition of stopping/parking

③ Installation of a road parking lot

④ Prohibition or restriction of pedestrian passage

■ Answer : 1, 2

322. Which of the following is the correct method of driving when passing by an elderly person in a silver zone?

① Maintain a constant speed and drive by.

② Maintain a safe distance and drive by slowly.

③ Honk and drive by quickly.

④ Flash the headlights and drive by.

■ Answer : 2

323. Which of the following is NOT a road facility that can be installed for the safety of the aged in a silver zone?

① Non-slip facilities, crash barriers

② Speed bumps, non-slip facilities

③ Acceleration lane, silver zone sign

④ Crash barriers, road reflector system

■ Answer : 3

324. Which of the following is NOT a safety precaution to be taken by a driver driving through a silver zone at night?

① Watch out for glare from another car's headlights as you may not be able to see the pedestrians.

② Drive at high speed because there are no elderly people around at night.

③ Drive through while looking out for any elderly crossing the road illegally.

④ Drive carefully because elderly people wearing black can be hard to spot.

■ Answer : 2

325. Which of the following is NOT true about driving across a crosswalk with a traffic light in a silver zone and penalty for violation?

① When the traffic light turns green, the driver of a motor vehicle must look around first and speed up slowly.

② If the driver of a passenger vehicle violates the traffic signal between 8 AM and 8 PM, the traffic penalty is KRW 120,000.

③ A bicycle rider must also wait for all senior pedestrians to finish crossing the street.

④ If a motorcycle rider obstructs pedestrians who are crossing at a crosswalk between 8 a.m. and 8 p.m., a traffic penalty of KRW 90,000 will be imposed.

■ Answer : 4

326. Which of the following statements is INCORRECT regarding a silver zone?

① A traffic penalty is imposed for speeding between 8 AM and 8 PM.

② Green traffic lights for pedestrians are longer that those on general roadways.

③ No road parking lots can be installed.

④ Larger traffic lights are installed so that they can be seen more easily by the elderly.

■ Answer : 4

327. How many demerit points does the driver of a passenger car incur if caught driving at a speed that is 25 km/h faster than the limit in a silver zone at around 11 AM?

① 60 points

② 40 points

③ 30 points

④ 15 points

■ Answer : 3

328. Which of the following is an INCORRECT method of driving when approaching a crosswalk with traffic lights in a silver zone?

① If an elderly person crosses the road after the signals change, wait for the person to finish crossing before taking off.

② Drivers must anticipate signal changes and drive accordingly to ensure safe driving.

③ Drive slowly to come to a safe stop when the signals change.

④ Take extra precautions as the elderly walk at a slower pace.

■ Answer : 2

329. Which of the following is INCORRECT regarding the measures applicable to a silver zone?

① The speed limit can be set to 30 km/h.

② A "caution" sign can be installed as the duration of the pedestrian signal is the same as that of the normal pedestrian signal.

③ Extra traffic safety installations, e.g., speed bumps, can be added.

④ Signal devices must be prioritized for installation and maintenance at crosswalks on arterial roads located closest to the main entrance of the designated facility within the specific zone (e.g., school zone).

■ Answer : 2

330. Which of the following is NOT a behavior for which a traffic penalty is imposed when it occurs in a silver zone between 8 AM and 8 PM?

① Violation of traffic signal

② Violation of parking rules

③ Obstruction of pedestrians in a crosswalk

④ Invasion of the centerline

■ Answer : 4

331. Which of the following is NOT true about a silver zone?

① When driving in a silver zone, look around with caution for any potential hazards.

② A silver zone sign is a road sign that informs drivers of their duty to protect the seniors within the designated zone.

③ A silver zone sign is installed in the center of the road within said zone.

④ If the driver of a passenger vehicle obstructs a pedestrian crossing a crosswalk in a silver zone at 10 AM, the traffic penalty is KRW 120,000.

■ Answer : 3

332. Which of the following statements about senior protection zones under the Road Traffic Act is incorrect?

① The authority to designate, cancel, and manage such zones lies with the mayor, governor, or local administrator.

② The local police chief may designate and operate side streets as one-way roads.

③ The local police chief may restrict traffic within senior protection zones.

④ The mayor or governor may limit the driving speed to 30 km/h or less.

■ Answer : 4

333. Who among the following pedestrians is most likely to comply with the Road Traffic Act?

① A pedestrian who crosses a road without a crosswalk using the shortest possible distance.

② A pedestrian who crosses a road without using a crosswalk, as there are no cars passing by.

③ A pedestrian who crosses a road behind a stopped truck.

④ A pedestrian who walks on the left side of a sidewalk.

■ Answer : 1

334. According to the Road Traffic Act, which of the following driving behaviors by an elderly driver is subject to the highest demerit points?

① Stop the car at the crosswalk and obstruct the passage of pedestrians.

② Notice a pedestrian late and apply the brake so suddenly that the pedestrian almost fell over.

③ Upon spotting a pedestrian who is jaywalking, honk and pass quickly in front of the pedestrian.

④ Overtake the pedestrian by crossing the solid yellow centerline.

■ Answer : 4

335. According to the Act on the Promotion of the Transportation Convenience of Mobility Disadvantaged Persons, which of the following persons is not regarded as a "mobility disadvantaged person"?

① A child

② An elderly person

③ A teenager

④ A pregnant woman

■ Answer : 3

336. Which of the following is NOT correct regarding the general physical characteristics of a senior citizen?

① Slow movement

② Vision deteriorates, but hearing improves

③ Slow reflexes

④ Physical strength is weakened

■ Answer : 2

337. Which of the following is the most desirable driving behavior of an elderly driver?

① Always drive slowly for safety reasons when traveling long distances, regardless of the type of road.

② Drive a vehicle without taking a rest until you reach your destination to save time.

③ Keep an eye on the road situation and drive by complying with the speed limit.

④ Drive mainly at night when there is less traffic.

■ Answer : 3

338. Which of the following is the least related to safe driving by a senior citizen?

① Taking sufficient rest prior to driving

② Periodic checks of health condition

③ Verification of the route to the destination prior to driving

④ Encouraging nighttime driving rather than daytime driving.

■ Answer : 4

339. Which of the following is NOT the correct explanation regarding criminal punishment if a driver of a passenger car causes an injury that will take 3 weeks to heal to an elderly person in the silver zone for failing to look ahead while driving?

① If a driver has comprehensive insurance, he/she is not subject to criminal punishment.

② Criminal punishment is applied when there is a road sign indicating a silver zone.

③ If a victim does not want punishment, a driver is not subject to criminal punishment.

④ If both parties reach an agreement, criminal punishment is not imposed.

■ Answer : 2

340. Which of the following is in the correct range of traffic penalties and demerit points (excluding surcharges) imposed on a car driver who drives above 60 km/h at around 15:00 in a silver zone?

① KRW 60,000, 60 points

② KRW 90,000, 60 points

③ KRW 120,000, 120 points

④ KRW 150,000, 120 points

■ Answer : 4

341. Which of the following is incorrect regarding parking spaces designated for persons with disabilities?

① A vehicle with a tag permitting parking in parking spaces reserved for persons with disabilities may park there even if a disabled person is not riding in the vehicle.

② If a person issued with a tag permitting parking in parking spaces reserved for persons with disabilities uses it in an unlawful manner such as transfer or lending, the tag may be confiscated or reissuance may be restricted.

③ Any act impeding parking in parking spaces reserved for persons with disabilities, such as piling up items or blocking passage, is strictly prohibited.

④ When a vehicle without a parking tag is parked in a parking space reserved for persons with disabilities, an administrative fine of KRW 100,000 is imposed.

■ Answer : 1

342. Which of the following is not an agency that issues a parking tag for parking spaces reserved for persons with disabilities?

① Ministry of Patriots and Veterans Affairs

② Special Self-Governing City Mayor, Special Self-Governing Province Governor

③ Head of Si/Gun/Gu

④ Minister of Health and Welfare

■ Answer : 4

343. Which of the following lights must be turned on when stopping on a road at night (except for two-wheeled vehicles)?

① Headlights and taillights

② Indoor lights and sidelights

③ License plate lights and headlights

④ Taillights and sidelights

■ Answer : 4

344. Which of the following descriptions is most correct regarding the yellow broken line on the edge of a road?

① Both parking and stopping are allowed on the edge of a road marked with yellow broken lines.

② Parking is prohibited, but stopping is allowed on the edge of a road marked with yellow broken lines.

③ Parking is allowed, but stopping is prohibited on the edge of a road marked with yellow broken lines.

④ Both parking and stopping are prohibited on the edge of a road marked with yellow broken lines.

■ Answer : 2

345. According to the Road Traffic Act, which of the following is NOT true about idling and parking restrictions for a personal mobility device?

① An area located within 10 m from the edge of an intersection or an area located within 5 m from the corner of a road

② An area located within 10 m from a crosswalk or an area located within 10 m from the edge of a railway crossing

③ An area located within 10 m from any side of a safety zone or an area located within 10 m from bus stop columns

④ An area located within 5 m from a place where emergency firefighting equipment is installed or an area located within 5 m from a fire-extinguishing water supply system

■ Answer : 1

346. What is the administrative fine for parking a non-EV in the charging area of an eco-friendly vehicle?

① KRW 30,000

② KRW 50,000

③ KRW 70,000

④ KRW 100,000

■ Answer : 4

347. Which of the following correctly describes a Dutch Reach (method of opening the door) when exiting a vehicle?

① When exiting the vehicle, grab the handle with the hand farthest from the window, check if there is oncoming traffic from the rear, and open the door.

② When exiting the vehicle, grab the handle with the hand closest to the window, check if there is oncoming traffic from the front, and open the door.

③ The Dutch Reach prevents the driver from moving the vehicle with a door open.

④ The Dutch Reach is a traffic safety campaign started in the UK.

■ Answer : 1

348. How long can an EV or a plug-in hybrid vehicle park at a charging station after commencing charging?

① 1 hour

② 2 hours

③ 3 hours

④ 4 hours

■ Answer : 1

349. Which of the following statements about parking and stopping on a slope under the Road Traffic Act is incorrect?

① When parking, operate the parking brake and use wheel chocks or blocks to prevent the vehicle from slipping.

② When stopping, if the driver remains seated and directly operates the brake, no additional anti-slip measures are required.

③ When parking, operate the parking brake and turn the steering wheel toward the road.

④ The parking brake alone is insufficient when stopping and leaving the driver's seat temporarily; rubber or plastic must be used to prevent the vehicle from slipping.

■ Answer : 3

350. Which one of the following is the correct amount of administrative fine imposed on those who stack objects on or obstruct the entry to parking spaces reserved for persons with disabilities?

① KRW 40,000

② KRW 200,000

③ KRW 500,000

④ KRW 1,000,000

■ Answer : 3

351. Which of the following are TWO statements correctly describe how a driver should behave?

① The passenger is responsible for his/her safety when exiting the vehicle.

② Even when parking temporarily to buy something, the driver must turn off the engine.

③ Before exiting a vehicle, the driver must turn off the engine and check that it is safe.

④ When parking in an area other than a parking lot, the parking brake must be left released so that the vehicle can be moved if necessary.

■ Answer : 2, 3

352. Which of the following are the TWO safest methods of parking on a steeply sloped road?

① Engage the parking brake and put the vehicle into reverse gear, regardless of the direction of the slope.

② Engage the parking brake and turn the steering wheel toward the roadside (meaning toward the side closest to the vehicle).

③ Engage the parking brake and place a wheel stopper or other device that can prevent the vehicle from slipping in the downhill direction.

④ For manual transmission vehicles, engage the parking brake and leave the gear in neutral.

■ Answer : 2, 3

353. Which of the following are TWO correct statements about stopping/parking?

① When stopping on a road with a separate sidewalk, park at the far right edge of the roadway.

② There is no need to follow the stopping/parking instructions shown on safety signs.

③ In the case of manual vehicles, you may leave the vehicle in 1st or reverse gear without using the parking brake when parking on level ground.

④ On sloped roads, engage the parking brake and place a wheel stopper.

■ Answer : 1, 4

354. Which TWO constitute parking?

① A vehicle remaining stationary after breaking down

② A temporary stop after recognizing a safety hazard

③ A stopped vehicle that is left unattended by the driver so that it cannot be driven immediately, even if it is for less than five minutes

④ Stopping briefly near a subway station to drop off a friend

■ Answer : 1, 3

355. Which TWO constitute stopping?

① A taxi stopping at a taxi stand for the driver to go to the restroom

② A vehicle that is left unattended by its driver who is away to pick up a load to transport

③ The vehicle stops while waiting for a traffic signal.

④ The driver stops the car to ask a passerby for directions.

■ Answer : 3, 4

356. According to the Road Traffic Act, which of the following are TWO locations that allow a motor vehicle to make a stop or park?

① Within 50 m from the main entrance in a school zone

② Within 10 m from a crosswalk

③ Within a distance of 5 m from where emergency fire-extinguishing equipment is installed

④ Within 10 m from a safety zone in all four directions

■ Answer : 3, 4

357. According to the Road Traffic Act, which of the following are TWO locations that allow a motor vehicle to park?

① 5 m from the corner of a road

② At a distance of 7 m or more from where a fire-extinguishing water facility is installed

③ At a distance of 7 m or more from where emergency fire-extinguishing equipment is installed

④ 5 m from a safety zone

■ Answer : 2, 3

358. At an intersection with no traffic control, what is the safest method of turning left?

① Drive slowly and turn left with care even if there are other vehicles that have entered the intersection ahead of you.

② Yield to cars entering from wider roads.

③ Yield to cars passing through straight across, but take the right of way over cars trying to turn right.

④ Go slowly along the centerline of the road beforehand and turn left using the outside center of the intersection.

■ Answer : 2

359. Which of the following INCORRECTLY describes a safe method of using a roundabout?

① Slow down before entering a roundabout.

② Stop temporarily at the yield line and enter slowly.

③ A vehicle entering the roundabout has the right of way, so the vehicle making a turn in the roundabout must yield.

④ Turn counterclockwise.

■ Answer : 3

360. A vehicle that has entered an intersection without traffic lights ahead of you is turning left. What should you do?

① Proceed with caution if you are going to pass straight through.

② If you are going to turn right, do so at low speed.

③ If you are going to go straight through or turn right, yield to vehicles turning left.

④ If you are driving on a narrow road, pass through the intersection at low speed.

■ Answer : 3

361. What is the most appropriate method of turning left at an intersection under the Road Traffic Act?

① Slow down along the centerline and turn left through the inner side of the intersection's center.

② Left turns are allowed at a red light at a signalized intersection if there is an "unprotected left turn" sign.

③ At a signalized intersection, a left-turning vehicle has priority over a vehicle traveling straight ahead.

④ On a one-way road with three lanes, turning left from the right lane is allowed if the traffic is light.

■ Answer : 1

362. Which of the following is the proper method of passing through an intersection without traffic control?

① Drive slowly when it is impossible to check the sides.

② A vehicle turning left has the right of way over a vehicle traveling straight.

③ A vehicle turning right has the right of way over a vehicle traveling straight.

④ You should drive slowly when the intersection is wider than the road you are on.

■ Answer : 4

363. In which of the following locations is the installation of a roundabout recommended for ensuring smooth traffic flow and safety on the road?

① Locations where traffic volumes are not very high, but there are many intersection accidents

② Locations where there are one or more access roads at the intersection with three or more lanes in one direction

③ Locations where the traffic volume at the roundabout exceeds its capacity

④ Locations where the presence of a roundabout in a segment necessary for signal coordination would reduce the effectiveness of coordination

■ Answer : 1

364. Which of the following statements correctly describes a roundabout?

① Roundabouts have more conflicting points than signalized intersections.

② When entering, you must wait at the yield line until there is enough space within the roundabout.

③ Traffic lights are installed at a roundabout to guide vehicles and facilitate traffic flow through the intersection.

④ A vehicle that has already entered a roundabout must yield to an entering vehicle.

■ Answer : 2

365. What is the term used to refer to the road surface markings of white broken lines designed to guide left turns at intersections?

① Turn guidelines

② Extension lines

③ Instruction lines

④ Regulation lines

■ Answer : 1

366. Which of the following are the TWO correct methods of turning left safely at an intersection?

① Watch out for stopping vehicles from the opposite direction.

② Watch out for right-turning vehicles from the opposite direction.

③ Watch out for right-turning vehicles from the same direction.

④ Watch out for left-turning vehicles in the lane to your side.

■ Answer : 2, 4

367. Which of the following are the TWO safest methods of turning left/right at an intersection?

① To turn right, take the rightmost lane of the road and slowly turn right.

② To turn left on a congested road, disregard the turn guidelines on the left and drive quickly.

③ To turn left, drive slowly along the centerline and turn left along the inner part of the intersection.

④ To turn left at an intersection marked with turn guidelines, turn with the left tires passing through the inside of the turn guidelines.

■ Answer : 1, 3

368. Which of the following is a correct guideline with regard to passing through a roundabout?

① A car inside the roundabout has the right of way.

② A car about to enter the roundabout has the right of way.

③ A car exiting the roundabout has the right of way.

④ There are no set rules on who has the right of way.

■ Answer : 1

369. Which of the following is NOT prohibited at a roundabout?

① Stopping

② Parking

③ Driving slowly and stopping temporarily

④ Overtaking

■ Answer : 3

370. Which of the following vehicles are granted the right of way at a roundabout?

① Vehicles moving on the section of the road within the roundabout

② Vehicles trying to turn left before entering the roundabout

③ Vehicles trying to turn right before entering the roundabout

④ Vehicles trying to turn left or right before entering the roundabout

■ Answer : 1

371. Which of the following is an INCORRECT guideline on how to use roundabouts?

① Vehicles must approach the roundabout slowly.

② A car inside the roundabout has the right of way.

③ Vehicles may continually enter the roundabout as there are no signals.

④ Turn clockwise in the roundabout.

■ Answer : 4

372. Which of the following are the most appropriate ways of navigating a roundabout? (Select TWO)

① Before entering a roundabout, come to a complete stop and enter when there are no approaching vehicles from the left.

② At a roundabout, the traffic circulates clockwise.

③ There is no need to use turn signals when entering or exiting a roundabout.

④ Even after entering a roundabout, you should continue to be cautious of other vehicles and proceed with care.

■ Answer : 1, 4

373. Which of the following is a place where you should stop temporarily while driving?

① Near a curve on a road

② Descent on a steep slope

③ Near the top of a slope

④ At an intersection with no traffic control and heavy traffic

■ Answer : 4

374. According to the Road Traffic Act, which of the following is a place where you should stop temporarily?

① An intersection without a traffic control officer where traffic to the left and right cannot be checked

② An intersection where the lights have turned green

③ A busy bridge/tunnel

④ In the vicinity of a curve or the highest point on a slope

■ Answer : 1

375. Which of the following is a place where you should stop temporarily pursuant to the Road Traffic Act?

① Inside a tunnel and on a bridge

② At a busy intersection with no traffic lights

③ On a descending section of a steep hill

④ A curved section of a road

■ Answer : 2

376. Which of the following is NOT correct regarding the variable speed limit section?

① It is an active system that changes the regulated speed in accordance with the situation.

② It uses an electric sign that can display different speeds by changing the numbers.

③ When the maximum speed is set with a variable speed limit sign, it must be followed.

④ When the maximum speed determined by the variable speed limit sign and the maximum speed of the safety sign show different values, the maximum speed indicated by the safety sign must be followed.

■ Answer : 4

377. According to the Road Traffic Act, the driver of ( ) must ( ) in front of a railway crossing and then pass through after confirming that it is safe to cross. Which of the following best fills the parentheses?

① any vehicle - slow down

② any motor vehicle or heavy equipment - slow down

③ any vehicle or tank - stop

④ any vehicle or tram - stop

■ Answer : 4

378. Which of the following is the safest method of driving at an expressway interchange?

① As interchanges tend to be congested, apply sudden brakes to discourage vehicles behind you from following closely and prevent potential accidents accordingly.

② As drivers tend to become less aware of speed at an interchange, stop momentarily before continuing.

③ If the desired interchange has already been passed, use the next interchange.

④ Accelerate quickly to enter an interchange.

■ Answer : 3

379. Which of the following is the most correct action to take when the driver of the vehicle ahead stretches his/her arm horizontally out of the left side of the vehicle?

① Slow down as the front vehicle is expected to turn right.

② Switch to an upper lane as the front vehicle is expected to cross.

③ Overtake the front vehicle as it is expected to make a U-turn.

④ Slow down as the front vehicle is expected to change lanes.

■ Answer : 4

380. Which of the following hand signals is used to indicate your intent to turn right?

① Extend your left arm out to the left and bend your forearm vertically upward.

② Extend your left arm out to the left, parallel to the road.

③ Extend your right arm out to the right and hold it parallel to the road, and wave the extended arm forwards and backwards.

④ Stick your left arm out of the vehicle and bend your forearm downward at an angle of 45°.

■ Answer : 1

381. As a vehicle is about to enter an intersection according to the traffic signal, a police officer gives a hand signal to stop. In this scenario, which of the following is the safest way to drive?

① Stop just before the stop line.

② Decelerate suddenly to slow down.

③ Proceed according to the signal from the traffic light.

④ Enter the intersection slowly.

■ Answer : 1

382. Which of the following is true about overtaking on a road with a combination of dotted yellow and solid yellow centerlines?

① Overtaking is not allowed from either the yellow broken line or the yellow solid line.

② Overtaking is allowed from the side of the yellow broken line.

③ Overtaking is allowed from the sides of both yellow broken line and yellow solid line if it is clear that it is safe.

④ Overtaking is allowed from the side of the yellow solid line.

■ Answer : 2

383. Which of the following is the correct method of driving through a railway crossing?

① Drive through if there are no trains coming.

② Come to a stop, check that it is safe, and drive through.

③ Drive through at a speed above the speed limit.

④ Drive at an increased speed if the crossing gate is about to close.

■ Answer : 2

384. Which of the following is the correct method of turning left?

① Turn on the left turn signal at least 30m (100m on expressways) away from where you want to turn left.

② Turn on the left turn signal at least 10m (100m on expressways) away from where you want to turn left.

③ Turn on the left turn signal at least 20m (80m on expressways) away from where you want to turn left.

④ Turn on the left turn signal when you reach the location where you want to turn left.

■ Answer : 1

385. According to the Road Traffic Act, which of the following is NOT a correct statement regarding the speed of motor vehicles, etc.?

① Separate legal speed limits are applied to various roads depending on whether it is a general road, an automobile road, or an expressway, and on the total number of lanes.

② There are no minimum speed limits on regular roads.

③ You must drive at a reduced speed in poor weather conditions.

④ If the speed limit set by the variable speed limit sign and the speed limit set by a speed limit safety sign are different, the latter must be followed.

■ Answer : 4

386. According to the Road Traffic Act, which of the following is NOT a correct statement regarding the speed of motor vehicles, etc.?

① Speed limits are set because the likelihood of traffic accidents increases at higher vehicle speeds.

② Minimum speed limits are set to maintain the efficiency of automobile roads and expressways.

③ Provisional speed limits can be set by the commissioner general of the Korean National Police Agency, or the commissioner of the City/Do (Province) police agency for road safety and efficiency.

④ For the setting of speed limits on expressways, the commissioner of the City/Do (Province) police agency has jurisdiction; for all other roads, the commissioner general of the Korean National Police Agency has jurisdiction.

■ Answer : 4

387. Which TWO constitute a violation of a traffic signal?

① Stopping over the stop line at a red light

② Entering an intersection when the lights have already turned yellow

③ When there is a yellow flashing light, you must drive carefully while being mindful of other traffic markings or safety signs

④ Stopping temporarily in front of the stop line when the lights are blinking red, before driving through carefully

■ Answer : 1, 2

388. Which of the following are the correct methods of turning right at an intersection on a road with three lanes in one direction? (Select TWO)

① When turning right, you should turn on the turning signal at the intersection just before proceeding to indicate your intended direction of travel.

② Even if the cross light at the right-side crosswalk is green, you can proceed if there are no pedestrians.

③ If the right-turn signal is red, you cannot proceed even if there are no pedestrians.

④ It is safer to turn right from the second lane on a road with three lanes in one direction.

■ Answer : 2, 3

389. According to the Motor Vehicle Management Act, which of the following are true about the criteria for a bus and the precautions when turning left behind a bus? (Select TWO)

① A bus refers to a vehicle with seating capacity of 36 or more persons. When driving behind a bus, you must drive slowly, keeping a safe distance from the bus so that you can see the traffic lights.

② A mini-bus refers to a vehicle with seating capacity of 16 ~ 35 persons. When you are driving behind a mini-bus and the mini-bus driver turns on a turn signal, slow down and catch up to the mini-bus so that other vehicles will not cut in front of you.

③ A van refers to a vehicle with seating capacity of 15 or fewer persons. Since vans are more prone to overturning due to their high center of gravity compared to passenger vehicles, you must keep a safe distance from them.

④ A light van refers to a vehicle with engine displacement below 1,200 cc. Although light vans have the same center of gravity as passenger vehicles, you must keep a safe distance from them.

■ Answer : 1, 3

390. Which TWO correctly describe how to change lanes?

① Change lanes while maintaining speed if the car behind you in the lane you are about to enter is far back enough.

② Slow down when changing lanes if the car behind you in the lane you are about to enter is far back enough.

③ Let the car behind you in the lane you are about to enter pass if it is approaching.

④ Change lanes quickly if the car behind you in the lane you are about to enter is approaching.

■ Answer : 1, 3

391. Which of the following are TWO correct statements about the lines that separate lanes?

① Where a solid line and a broken line run parallel, you cannot change from the lane near the solid-line to the lane near the broken-line.

② Where a solid line and a broken line run parallel, you can change from the lane near the solid line to the lane near the broken line.

③ Where a solid line and a broken line run parallel, you cannot change from the lane near the broken line to the lane near the solid line.

④ Where a solid line and a broken line run parallel, you can change from the lane near the broken line to the lane near the solid line.

■ Answer : 1, 4

392. According to the Road Traffic Act, what does a flashing red light indicate?

① Vehicles and horses must drive slowly while looking out for traffic.

② Vehicles and horses may proceed while looking out for traffic.

③ Vehicles and horses may reverse while looking out for safety signs.

④ Vehicles and horses must temporarily stop right before the stop line and then proceed while looking out for traffic.

■ Answer : 4

393. Which of the following instructions about an intersection with an unprotected left-turn sign is correct?

① You can turn left regardless of the signal as long as you look out for traffic.

② You can turn left at a red light while looking out for traffic.

③ You can turn left at a green light while looking out for traffic.

④ You can turn left at a yellow light while looking out for traffic.

■ Answer : 3

394. According to the Road Traffic Act, which of the following is a correct statement regarding the speed of motor vehicles?

① The minimum speed limit on expressways is 50 km/h.

② Automobile roads have a maximum speed limit, but no minimum speed limit.

③ There are maximum and minimum speed limits on normal roads.

④ The maximum speed limit on expressways with more than two lanes in one direction is the same for all types of vehicles.

■ Answer : 1

395. Which of the following statements regarding overtaking is correct?

① You can overtake a vehicle that is in the process of overtaking another vehicle.

② You must overtake on the right when in a tunnel.

③ Overtaking on a road with one lane in one direction is permitted only in an area with solid yellow lines.

④ Overtaking is prohibited in intersections.

■ Answer : 4

396. Which of the following statements regarding the centerline on a road is correct?

① Overtaking is allowed if the center is marked with a yellow solid line.

② The centerline of a reversible lane is the leftmost yellow broken line in the direction of traffic indicated by traffic signals.

③ A bus stopped on a provincial road with one lane in one direction can be overtaken by crossing the yellow solid centerline.

④ A centerline can be installed on roads at least 4.75 m wide.

■ Answer : 2

397. According to the Road Traffic Act, which of the following vehicles may drive along the second lane ofan expressway with three lanes in one direction?

① Trucks

② Special vehicles

③ Vehicles fitted with construction equipment

④ Small and mid-sized passenger vehicles

■ Answer : 4

398. Under the Road Traffic Act, on an expressway with two lanes in one direction, if the first lane must inevitably be used with speed limit set to less than ( ) km/h due to an increase in traffic volume, vehicles are allowed to drive in the first lane even if they are not overtaking. Which of the following fills in the blank correctly?

① 80 ② 90 ③ 100 ④ 110

■ Answer : 1

399. Which of the following is true about using an expressway shoulder?

① If drowsy while driving, you can pull over on the shoulder to take a rest.

② You can park on the shoulder to appreciate a good sunrise.

③ You can drive on the shoulder when the freeway is congested.

④ The traffic penalty for driving on the shoulder without good cause is a fine of KRW 60,000.

■ Answer : 4

400. According to the Road Traffic Act, on an expressway with five lanes in one direction, up to which lane is considered the left lane based on the standard of traffic flow in each lane? (Assuming smooth traffic flow and no designated lanes or acceleration/deceleration lanes)

① Lanes 1 to 2

② Lanes 2 to 3

③ Lanes 1 to 3

④ The second lane only

■ Answer : 2

401. According to the Road Traffic Act, which of the following is NOT true about a designated lane on an expressway? (Assuming smooth traffic flow and no exclusive bus lanes)

① Lane 1 of an expressway with three lanes in one direction can be used by passenger vehicles, light vans, vans, mini-buses, and buses to overtake other vehicles.

② You can use the lane on the left of the designated lane to overtake another vehicle.

③ All vehicles can use the lane on the left of their respective designated lanes.

④ The penalty for not using the designated lane for drivers of passenger vehicles is 10 points.

■ Answer : 3

402. Under the Road Traffic Act, which of the following statements regarding the method of overtaking by passenger cars on a smoothly flowing three-lane one-way highway is INCORRECT? (No exclusive bus lanes)

① To overtake, a passenger car switches to Lane 1 and continues in Lane 1.

② A large passenger vehicle in Lane 3 switches to Lane 2 in order to overtake.

③ A small van driving in the second lane should move into Lane 1 in order to overtake.

④ A 5-ton truck uses Lane 2 to overtake.

■ Answer : 1

403. Which of the following is an INCORRECT guideline for the use of the right traffic lanes on roadways?

① All vehicles may use the right lane of the designated lane.

② A passenger car overtaking another vehicle shall use the lane to the immediate right of the lane designated by traffic standards.

③ On a general road with four lanes in one direction, a passenger car may drive in any of the lanes.

④ On an expressway with four lanes in one direction, a large truck is to use the lane on the right.

■ Answer : 2

404. Which among the following is permitted to use the exclusive bus lane on a general roadway?

① A 12-seater passenger vehicle carrying 6 passengers

② A passenger vehicle for domestic tourists that is transporting 25 tourists

③ A 12-seater commuter passenger vehicle carrying employees on designated routes

④ A taxi temporarily using the lane so that passengers can board/leave the taxi

■ Answer : 4

405. According to the Road Traffic Act, a passenger car with 9 seats can take the exclusive bus lane on the expressway if ( ) or more people are on the vehicle. Which of the following is correct?

① 3

② 4

③ 5

④ 6

■ Answer : 4

406. What is the standard for driving on an expressway with three lanes in one direction? (Assuming smooth traffic flow and no exclusive bus lanes)

① Passenger cars are to use Lane 1 so they must use only Lane 1.

② A small passenger vehicle whose designated lane is Lane 2 should use Lane 1 when overtaking.

③ Large vans must use the first lane.

④ A truck with maximum load weight of 1.5 tons or less must drive in Lane 1.

■ Answer : 2

407. A passenger vehicle is driving in Lane 2 on an expressway with three lanes in one direction according to the Road Traffic Act. What is the correct lane for overtaking? (Assuming smooth traffic flow and no exclusive bus lanes)

① The first lane

② The second lane

③ The third lane

④ Any of the above

■ Answer : 1

408. Which of the following is NOT correct regarding overtaking according to the Road Traffic Act?

① To overtake another vehicle, you must pass on the left lane of the vehicle in front.

② If the centerline is a yellow broken line, it is possible to overtake when there is no vehicle in the opposite direction.

③ In case of a reversible lane, overtaking is not allowed on the leftmost yellow broken line in the direction indicated by a traffic light.

④ On an expressway with four lanes in one direction, vehicles driving on the right lane can move up to the first lane.

■ Answer : 4

409. Below are explanations of the standard for driving according to the lane under the Road Traffic Act. Which of the following is NOT true? (Expressways with smooth traffic flow and no exclusive bus lanes)

① When proceeding at a low speed, the driver may use the lane to the right of the current lane in which he/she has been driving.

② The first lane of an expressway with two lanes in one direction may be used by all motor vehicles to overtake.

③ On a one-way traffic road, the rightmost lane is considered the first lane.

④ The right lane of an expressway with three lanes in one direction is to be used by a truck to drive.

■ Answer : 3

410. According to the Road Traffic Act, which of the following is true about the standard for driving on an expressway with three lanes in one direction? (Assuming smooth traffic flow and no exclusive bus lanes)

① The first lane is the lane for overtaking a passenger car driving on the second lane.

② The first lane is the driving lane for a van.

③ The roadside is the driving lane for emergency vehicles and tow vehicles.

④ When operating an exclusive bus lane, the first lane is the driving lane for trucks.

■ Answer : 1

411. According to the definition provided by the Road Traffic Act and its Enforcement Decree, which of the following is NOT a type of exclusive lane?

① An exclusive lane for buses

② An exclusive lane for high-occupancy vehicles

③ An exclusive lane for motor vehicles

④ An exclusive lane for bicycles

■ Answer : 3

412. Which of the following describes aquaplaning most appropriately?

① You must change tires with wider widths to reduce the risks associated with aquaplaning.

② Aquaplaning is more common in snow than rain. You must reduce speed.

③ Tires with worn-down treads will experience less aquaplaning due to reduced traction.

④ Underinflation can cause the tires to aquaplane more, especially at higher speeds.

■ Answer : 4

413. Which of the following is the safe method of driving when a vehicle loses control on a frozen road?

① Steer into the skid.

② In the case of a car with manual transmission, shift to high gear.

③ Operate the steering wheel in the opposite direction of the skid.

④ Stop the car using the parking brake.

■ Answer : 1

414. Which of the following is the safest method of driving a vehicle on a foggy road?

① On a curved road or at an intersection, honk to warn other vehicles to make way and proceed quickly.

② In dense fog, keep the high-beam headlights on to secure visibility.

③ On a foggy road, switch on the fog light only.

④ When visibility is secured to some extent, drive slowly while monitoring the guard rail, centerline, and traffic lane to stay aware of the vehicle's position.

■ Answer : 4

415. Which of the following is the safest method of stopping on a snowy/icy road?

① Apply the brake hard.

② Stop quickly using the foot brake and the parking brake at the same time.

③ Use the engine brake only to slow down until the car comes to a complete stop.

④ After slowing down with the engine brake, step lightly on the brake pedal several times.

■ Answer : 4

416. Which of the following is the most desirable attitude for a driver who drives through an underpass on a road in heavy rain?

① All roads are well-drained, so there are no hazards.

② Respond to hazards while listening to disaster information such as disaster broadcasts and checking information boards.

③ Take a rest by stopping at the roadside of the underpass until the heavy rain sides.

④ Drive faster than the designated speed because high speed is required at that moment.

■ Answer : 2

417. Which of the following is the most correct explanation of a frozen/icy road in winter?

① It occurs mainly in tunnels, and the road surface becomes an icy road as the fog particles freeze.

② Black ice often occurs on bridges, at tunnel entrances, and on shady roads.

③ Black ice occurs when snow contaminated with vehicle fumes accumulates on the road surface.

④ When passing through an icy road, reduce speed as much as possible by not operating the steering wheel and braking suddenly.

■ Answer : 2

418. Which of the following is the most inappropriate way to respond when your car has been flooded during localized heavy rainfall?

① Try to escape by opening the door on the opposite side of the rushing currents.

② If the car door won't open, use a sharp object (such as headrest, seatbelt lock, etc.) to strike the edge of the window to break it and attempt to escape.

③ If you cannot break the window, do not panic; call 911 and quickly open the door to escape when the water levels inside and outside of the vehicle become the same (less than 30cm).

④ Once you have escaped, take shelter in the lowest ground or hide under the vehicle.

■ Answer : 4

419. Which of the following is the most appropriate action to take when the brakes are not working on a downhill road?

① Turn the ignition off at once.

② Jump out of the car after shifting to low gear.

③ Reduce speed by zigzagging.

④ Run the car into a guard rail or a wall after reducing speed by shifting to low gear.

■ Answer : 4

420. If you witness a fire caused by a traffic accident while driving inside a tunnel, which of the following is the most appropriate method of responding?

① It is safe to stop your vehicle even if traffic is still flowing.

② If traffic is at a standstill, stop the vehicle and wait inside until the fire is extinguished.

③ If traffic is at a standstill, stop the vehicle and leave the scene with your car keys.

④ If there is a lot of smoke after disembarking, lower your body as much as possible and move in the opposite direction of the smoke following the emergency lighting.

■ Answer : 4

421. Which of the following is the correct explanation when driving on a sharp curve?

① Drive through the curve at the same speed as that before entering the curve.

② After entering a curve, it is better to increase the change gear ratio to reduce the centrifugal force.

③ A rear-wheel drive vehicle may experience understeer on a curved road.

④ In order to reduce oversteer on a curved road, the steering wheel should be turned slightly in the opposite direction of the steering direction.

■ Answer : 4

422. What do you call a problem that occurs when the brakes do not work due to bubbles that form in the brake fluid overheated by excessive braking?

① A standing wave

② A vapor lock

③ A road holding

④ An understeering

■ Answer : 2

423. Which of the following is NOT a proper way of driving in fog?

① Honk when driving around a curve or on a hill.

② If the visibility in fog is less than 70 m, reduce speed to less than half of the speed limit.

③ Try to maximize visibility by turning on fog lamps and high-beam headlights.

④ Even in case of vehicle failure or minor accident, move the vehicle to the side of the road.

■ Answer : 3

424. Which of the following is not a correct explanation of black ice in winter?

① It is a phenomenon wherein a thin ice film forms like a coating on the road surface.

② It is a phenomenon wherein pollutants in the air are mixed with snow and moisture on the asphalt surface, absorbed, and then frozen into black ice.

③ It occurs mainly in places with low temperatures during the winter season, such as on bridges, tunnel entrances, shady roads, and in the shade of mountain corners.

④ It refers to the phenomenon wherein the snow melts and seeps into the sunny road, and the black color of the road is reflected by sunlight and sparkles.

■ Answer : 4

425. Which of the following is NOT true about icy roads during winter months?

① Icy roads are more common on concrete roads than on asphalt.

② Ice melts slower on asphalt roads than on concrete.

③ The friction coefficient of an asphalt surface increases to 1.6 when dry.

④ Under the same conditions, the road friction coefficients of frozen concrete and asphalt surfaces are equal.

■ Answer : 3

426. Which of the following is the least appropriate measure for a driver to take when an earthquake occurs?

① Increase your vehicle's speed and quickly pass through the area.

② If it is impossible to move using a vehicle, park the vehicle to the side and take shelter.

③ Be prepared to move the parked vehicle later by keeping the key in the ignition, and take shelter.

④ Turn on the radio to listen to the disaster broadcast.

■ Answer : 1

427. Which of the following are TWO descriptions of the correct method of driving in strong winds or storms?

① Firmly hold the steering wheel with both hands and stay in your current lane.

② Ignore the gusting winds and speed up.

③ Park near a sign, the traffic lights, or a roadside tree.

④ Be particularly careful in areas vulnerable to strong winds, such as mountainous areas, bridges, and tunnel exits.

■ Answer : 1, 4

428. Which of the following are the TWO most appropriate explanations regarding driving on a gravel road?

① Hold the steering wheel as loosely as possible to minimize impact on the arm.

② Increase speed while driving to ensure that the wheels are in contact with the road surface as much as possible.

③ Slow down to ensure that gravel is not projected onto pedestrians or other vehicles or horses.

④ Slightly lower tire pressure is better for driving than the appropriate level of air pressure.

■ Answer : 3, 4

429. Two vehicles are driving in the rain, and the rear vehicle sees the front vehicle stopping and applies the brakes. Which of the following are NOT correct? (Select TWO)

① Hard braking can cause the vehicle to nose dive due to increased friction between the road surface and tires.

② Free running distance is increased due to reduced friction of the road surface.

③ Aquaplaning and partial braking may occur simultaneously, causing the vehicle to slide out of the lane.

④ The higher the tire wear rate, the shorter the braking distance.

■ Answer : 2, 4

430. A vehicle is approaching near the top of an uphill. Which of the following are TWO are safe ways of driving?

① Increase engine RPM (revolutions per minute) to reduce fuel consumption.

② At the top of the uphill, be sure to stop temporarily before starting.

③ Maintain a safe distance from the front vehicle.

④ Drive in a lower gear than a higher gear.

■ Answer : 3, 4

431. When you drive downhill, which of the following are the TWO safest methods to drive?

① Only use the foot brake because shifting gears is not necessary.

② If an emergency situation occurs, use the parking brake immediately.

③ Use the same gear you used when driving up the slope.

④ Use both the foot brake and engine brake properly.

■ Answer : 3, 4

432. Which of the following statements is the least appropriate regarding safe driving under icy road conditions in winter?

① When driving on roads in winter, you should check the weather information and traffic conditions in advance before driving.

② Extra caution should be exercised when driving through tunnels and bridge sections that are vulnerable to icing.

③ If de-icing agents have been applied before and after snowfall near tunnels and bridges, it is possible to drive at the usual speed limit safely.

④ Some city or provincial police agencies have regulations requiring the use of winter equipment when driving on snowy or icy roads.

■ Answer : 3

433. Which of the following statements about potholes is correct?

① Potholes generally form during torrential rain.

② Driving faster will prevent tire damage from potholes.

③ Sudden braking by larger vehicles is likely to occur near crosswalks when the temperature of the road surface increases.

④ Potholes are readily visible when the road is dry and you can just drive over them.

■ Answer : 1

434. Which of the following approaches to driving in heavy rainfall is the least safe?

① Drive with the headlights and taillights on.

② Turn on the heater in internal air circulation mode.

③ Check the tires for wear to prevent aquaplaning.

④ Maintain double the usual safe distance on wet roads.

■ Answer : 2

435. Which of the following is NOT an appropriate action by a driver while driving on a road during a typhoon accompanied by strong winds and heavy rain?

① Maintain at least double the normal distance from the car in front, as the braking distance is longer.

② Upon passing the flooded area, it is better to pass without stopping.

③ Avoid areas with a high risk of flooding such as riversides and streams when parking.

④ It is safe to park a vehicle by a wall or under a large sign.

■ Answer : 4

436. Which of the following is an INCORRECT method of driving on snowy roads?

① Just clearing the windshield of piled up snow is enough for safe driving.

② The foot brake and engine brake must be used together.

③ For safety, drive at 30km/h or below with snow chains on.

④ Maintain a longer safe distance than usual.

■ Answer : 1

437. Which of the following is NOT safe driving in rain?

① You must reduce speed to less than half of the speed limit depending on the driving condition.

② You must drive with reasonable consideration so as not to splash water on pedestrians.

③ It is not good to drive in idle creep (a state where the tires move either forward or in reverse even when the accelerator and brake pedals are not applied) when it starts to rain.

④ It is safer to drive with the headlights and taillights on even during the day.

■ Answer : 3

438. Which of the following is NOT a safe method of driving on a foggy road?

① Turn on the sidelights, taillights, and headlights to indicate your position to other drivers.

② Turn the high-beam headlights on to indicate your position to oncoming traffic.

③ Maintain a safe distance and reduce speed.

④ If moisture is formed on the windshield, use the wipers to secure visibility.

■ Answer : 2

439. According to the Road Traffic Act, at which reduced speed should a vehicle drive on an automobile road with two lanes in one direction when it is wet due to rain?

① 80 km/h

② 90 km/h

③ 72 km/h

④ 100 km/h

■ Answer : 3

440. Which of the following are TWO are safe methods to drive when lightning strikes?

① Park your vehicle under a large tree.

② Keep windows closed and stay in the car.

③ Keep away from the outer walls of buildings as electricity may conduct down the wet surface.

④ Evacuate the vehicle to avoid being in it if it gets hit by lightning.

■ Answer : 2, 3

441. Which of the following is the most appropriate course of action in the event of an accident?

① It is not necessary to turn on the hazard lights and open the trunk to indicate an emergency situation.

② Take photos of the accident scene within the road and wait inside the vehicle.

③ There is no need to exit the accident scene; wait inside the vehicle.

④ From a safe location outside the vehicle, report the accident to 119 or 112, and state the number of the streetlight or traffic signal post to give a precise location.

■ Answer : 4

442. Which of the following is the right method of avoiding glare caused by the headlights of an oncoming car at night?

① Do not look directly at the headlights but at the road directly in front of your car.

② Do not look directly at the headlights but to the right edge of the road.

③ Squint your eyes and look at the road directly in front of your car.

④ Squint your eyes and look to the left edge of the road.

■ Answer : 2

443. Under the Road Traffic Act, which of the following is not an appropriate action on the part of a driver if the car is unable to operate due to a breakdown on the expressway at night?

① A red flashing signal, electric lantern or spark signal that can be identified from 500 m in all directions must be installed.

② When installing a sign, it must be installed in a location where the driver of a vehicle approaching from the rear can see it.

③ The driver must take necessary measures, such as moving the vehicle off the expressway.

④ The safety tripod sign must be installed 200 m from the point where the broken-down vehicle is located.

■ Answer : 4

444. According to the Road Traffic Act, which of the following describes a situation in which a driver of a non-commercial vehicle is required to turn on the headlights, sidelights, taillights, and license plate lights at the same time?

① When stopping on a road at nighttime

② When stopping on a road with minimal visibility due to fog

③ When the vehicle is being towed away due to a parking violation

④ While driving inside a tunnel

■ Answer : 4

445. Which of the following is the MOST appropriate action in case of vehicle failure on an expressway?

① Turn on the emergency flashing light immediately, stop the car on the road, and notify the insurance company.

② Open the trunk, check the broken part quickly, and call a rescue vehicle.

③ If it is not possible to move, install a safety tripod 500 m in front of the broken vehicle.

④ If the vehicle can move, turn on the hazard lights, pull over to the shoulder, and move to a safe area.

■ Answer : 4

446. Which of the following is NOT true about preventing a tire puncture and measures taken while driving?

① You must regularly check the tires for nails.

② You must regularly check tire pressures and tread depths.

③ If the steering wheel pulls to one side, it is likely that a rear tire is punctured.

④ While keeping the steering wheel straight ahead and in the driving gear state, use the engine brake to induce deceleration.

■ Answer : 3

447. If your vehicle breaks down on an expressway at night, in addition to a safety tripod sign, etc. you must install road flare signals to provide visibility for ( ) and alert other motorists that your car has broken down. Choose the correct one to fill in the brackets.

① 200 m in every direction.

② 300 m in every direction.

③ 400 m in every direction.

④ 500 m in every direction.

■ Answer : 4

448. Which of the following is the correct method of handling a tire that explodes while driving?

① If the vehicle is pulled to one side suddenly, press the brakes to prevent an accident.

② Firmly grasp the steering wheel, drive straight, and avoid sudden braking. Use the engine brake to stop in a safe location.

③ Turn the steering wheel in the direction the vehicle is pulled in.

④ Use the parking brake to stop the vehicle as the brake pedal won't work.

■ Answer : 2

449. In the event of a traffic accident on an expressway, what is the most appropriate measure for preventing secondary accidents?

① First and foremost take photos of the accident for insurance purposes.

② Explicitly let the other driver know that he/she is at fault and claim for insurance accordingly.

③ The vehicle must be stopped at the rightmost edge of the road, and a warning sign must be placed in accordance with the regulations prescribed by the Ministry of the Interior and Safety.

④ Turn on the hazard lights and call the relevant authority inside your vehicle.

■ Answer : 3

450. Which of the following is NOT a correct statement regarding the expressway construction section?

① In the case of construction that blocks a lane, caution is required due to expected congestion.

② In the case of a truck, drowsiness and neglecting to look forward can lead to a major accident.

③ Various types of construction work including moving construction and stationary construction can be performed.

④ The speed limit is set to 80 km/h.

■ Answer : 4

451. Which of the following are the most appropriate actions to take if the Hi-Pass device malfunctions and fails to read? (Select TWO)

① Turn on the emergency flashers, temporarily stop your vehicle, and have a toll ticket issued in a non-automated toll lane.

② Upon reaching the toll gate of your destination, explain where you entered the expressway to the toll collector and pay the toll.

③ Use the Hi-Pass lane and go through the toll gate of your destination, and the toll will be automatically collected.

④ Detach the card from your Hi-Pass device at the toll gate of your destination and hand it over to the toll collector to pay the toll.

■ Answer : 2, 4

452. Which of the following is the safest action in the event of a fire in a tunnel?

① Lock the car's doors to prevent theft and evacuate the tunnel.

② Stay in the car as the tunnel will be filled with smoke from the fire.

③ Switch off the engine, leave the key in the ignition to allow for the car to be moved if necessary, and quickly evacuate to safety.

④ Make a U-turn and drive away from the exit.

■ Answer : 3

453. From a safety perspective, which of the following is the most inappropriate way of driving when passing through a tunnel?

① Before entering the tunnel, remove your sunglasses to allow your eyes to adapt to the light, and turn on your headlights as you would at nighttime.

② If the lanes inside the tunnel are marked with solid white lines, do not change lanes while in the tunnel.

③ Keep a safe following distance from the car ahead, and be ready for sudden stops.

④ Before entering the tunnel, check the road information at the entrance to the tunnel.

■ Answer : 1

454. Which of the following statements regarding braking in an emergency situation that occurs while driving is correct?

① If aquaplaning occurs, the braking force of the brakes gets stronger.

② Utilizing an impact-absorbing barrier in an emergency situation is one way of preventing a fatal accident.

③ If the road surface is wet, the vehicle always slides straight forward upon pressing the brake suddenly.

④ ABS-equipped vehicles have longer braking distances than non-ABS vehicles.

■ Answer : 2

455. Which of the following are the TWO correct safety measures to take during an earthquake?

① Drive as quickly as possible out of the area affected by the earthquake.

② Maintain a safe distance from other vehicles and pull over to the right-hand side of the road.

③ Turn off the engine if you need to get out of the car to take cover.

④ Ignore the earthquake and drive on.

■ Answer : 2, 3

456. You are driving on an expressway and there is ongoing construction ahead. Which of the following are NOT true? (Select TWO)

① Stay cautious when driving toward and by a construction site.

② Drive faster than what is indicated on the construction speed limit sign.

③ Try to refrain from excessive overtaking or cutting in front of cars.

④ Drive at the same speed when approaching the construction site so as not to cause unnecessary traffic disruptions.

⑤ In areas where the speed limit changes, turn on the hazard lights to alert the other vehicles.

■ Answer : 2, 4

457. Which of the following are the TWO correct measures to take when a fire starts inside a tunnel that you are driving in?

① Turn off the engine if you are getting out of the car to evacuate.

② Stand with your back to the wind when using a fire extinguisher.

③ If you are unable to drive out of the tunnel, stop the car as close to the centerline as possible.

④ Take the key out of the ignition if you are getting out of the car to evacuate.

■ Answer : 1, 2

458. Which of the following are the TWO correct statements regarding a vehicle skid?

① Skidding mostly occurs when the brakes are applied suddenly while driving at high speed.

② Skidding mostly occurs when driving at low speed in the rain.

③ Skid marks left on a road surface do not provide any clues as to why an accident occurred.

④ Sudden steering can also cause skidding.

■ Answer : 1, 4

459. Which of the following are the TWO situations wherein a vehicle is most likely to deviate from the road?

① When driving on an uphill road

② When the driver abruptly turns the steering wheel on a curved road

③ When driving on a downhill road

④ When the road surface is slippery

■ Answer : 2, 4

460. If the hood of the car starts generating smoke and catches fire on an expressway, which of the following are the TWO most appropriate measures to take?

① Stop immediately when you notice that there is a problem.

② Move to the roadside, turn off the engine, and evacuate the vehicle.

③ If it is early enough to extinguish the fire, use the fire extinguisher fitted in the vehicle.

④ If you fail to extinguish the fire, call 119 and wait right next to the vehicle.

■ Answer : 2, 3

461. At which point do lanes start decreasing in the zone requiring lane changes for safe passage due to road construction?

① Starting point of a warning zone

② Starting point of a transition zone

③ Starting point of a work zone

④ Starting point of a termination zone

■ Answer : 2

462. Which of the following is the MOST correct description regarding driving at night?

① It is possible to secure a wide view at night if you have the front window tinted.

② On a clear day, the braking distance is longer during daytime than at night.

③ It is better to secure a front view when driving at night with the fog light on rather than headlights.

④ If you look at the light from the opposite vehicle directly, it may be hard to secure a front view due to the glare.

■ Answer : 4

463. Which of the following is a correct statement regarding the glare effect (cases wherein you are unable to see ahead due to the glare from the vehicle's headlights) during nighttime?

① The glare effect will disappear if you turn off your headlights immediately when it occurs.

② The glare effect frequently occurs when two vehicles facing each other both have their high-beam headlights on.

③ The glare effect tends to occur when driving through busy downtown streets at nighttime.

④ The glare effect refers to the condition of momentary invisibility caused by bright lights upon entering a tunnel at nighttime.

■ Answer : 2

464. Which of the following statements regarding a driver's "Hypovigilance in driving" at nighttime is correct?

① Cognitive ability is better than usual.

② Eye movements become more active.

③ It often occurs when driving on congested roads in a city.

④ The eyes become used to a monotonous view and experience a type of sensory paralysis.

■ Answer : 4

465. Which of the following is NOT a measure to be taken by a driver when the sun begins to set and it becomes dark?

① Turn on the sidelights and taillights.

② Drive slower than you would during the day.

③ The eyes need some time to adjust to the darkness after the sun sets.

④ Driving is easier compared to daytime driving because of greater visibility.

■ Answer : 4

466. Which of the following statements regarding the EV charging cable coupler is INCORRECT?

① It should have separate polarity and grounding electrode as it has a structure that cannot be replaced with other wiring equipment.

② The grounding electrode should have a structure that is connected last when starting and separated first upon shutoff.

③ It should have a mechanical device for locking or an attachment/detachment to prevent unintended load shedding.

④ It should have an interlock function that suspends the power supply of charging cable when the connector of an EV is separated from the connection port.

■ Answer : 2

467. Which of the following is the best method of preventing vehicle fires?

① Alter the wiring arrangement to install an amplifier in the vehicle.

② Avoid generating static electricity while filling up in wintertime.

③ LPG vehicles should carry a disposable butane gas tank in preparation for an emergency.

④ A lighter can be stored inside the vehicle in summer.

■ Answer : 2

468. Which of the following is the best method of preventing the risk of collision caused by the sudden braking of a vehicle ahead?

① Step on the brake pedal to slow down.

② Turn the steering wheel sharply to the left and drive over the centerline to avoid hitting the vehicle ahead.

③ Close your eyes to minimize the impact.

④ Turn on both the wipers and the high-beam headlights.

■ Answer : 1

469. Which of the following are TWO phenomena caused by the tires of a vehicle driving at high speed?

① Vapor lock

② Standing wave

③ Fading

④ Aquaplaning

■ Answer : 2, 4

470. Which of the following statements regarding wearing a seat belt is correct?

① Fix the seat belt above the waist to protect against the shock from a traffic accident.

② Firefighters who are dispatched to suppress fire need not wear a seat belt.

③ It is safest for children to take the front seat and wear a seat belt.

④ If a driver does not ensure that children under the age of 13 wear a seat belt, an administrative fine of KRW 30,000 is imposed.

■ Answer : 2

471. Which of the following should you adjust before you start driving in order to minimize injuries to the head and neck?

① Distance of the seat from the pedals

② Angle of the backrest

③ Height of the headrest

④ Seat height

■ Answer : 3

472. Which of the following statements regarding safe driving in a tunnel is correct?

① Turn on the left-turn signal and use the left lane for overtaking.

② The sense of distance from the front vehicle is reduced in a tunnel.

③ When entering the tunnel, be careful of the light adaptation.

④ At the exit of a tunnel, dark adaptation occurs.

■ Answer : 2

473. Which of the following is true about using turn signals?

① It is not a violation to change lanes without signaling if it does not obstruct the other vehicles.

② You must keep the turn signal on for a while after changing lanes.

③ The traffic penalty for failure to signal lane change for passenger vehicles and buses is a fine of KRW 30,000.

④ When changing lanes on an expressway, turn on the turn signal from 30 m before and keep it on until you have completed changing lanes.

■ Answer : 3

474. In which of the following situations is a driver allowed to overtake a vehicle?

① When the vehicle ahead is overtaking another vehicle

② When the vehicle ahead stops or it is driving slowly to prevent a dangerous situation

③ When the vehicle ahead is driving next to another vehicle in the left lane

④ When the vehicle ahead is driving slowly to secure a safe distance from another vehicle

■ Answer : 4

475. Which of the following statements regarding the speed limit of a vehicle trying to overtake another vehicle is correct?

① There is no speed limit applied to a vehicle overtaking another one.

② A vehicle overtaking another vehicle can exceed the legal speed limit of the road by 50%.

③ Vehicles are allowed to overtake other vehicles regardless of the speed limit, depending on the driver's driving skill.

④ Overtaking other vehicles is allowed only when performed within the speed limit of the road.

■ Answer : 4

476. Idling or parking on an expressway is prohibited as it may cause rear-end collisions. Which of the following is <u>NOT</u> true?

① A fire truck can idle or park on an expressway to perform emergency operations.

② You can temporarily idle or park at the instruction of a police officer or to prevent a hazardous situation.

③ Motor vehicles can idle on the toll road to pay their tolls.

④ Only emergency vehicles such as police cars and fire trucks can idle or park at the emergency parking area inside a tunnel.

■ Answer : 4

477. When you sense danger while driving and step on the brake pedal, which TWO will lead to the longest stopping distance? (i.e., the distance from the point where you press the brake pedal to the point where the vehicle actually stops)

① Relatively light vehicle weight

② Relatively higher speed

③ Right after installing new tires

④ Fatigue or drunk driving

■ Answer : 2, 4

478. Which of the following are the TWO correct statements regarding the number of passengers in a vehicle?

① On expressways, it is not allowed to carry more people than the defined number of passengers for the vehicle.

② The number of passengers specified on the vehicle registration certificate is the number of passengers excluding the driver.

③ When permission is obtained from the head of the police station having jurisdiction over the place of departure, the vehicle may operate in excess of the designated number of passengers.

④ If the number of passengers is exceeded, permission must be obtained from the head of the police station having jurisdiction over the destination.

■ Answer : 1, 3

479. When a vehicle driving in front brakes suddenly due to a traffic accident ahead, which of the following are the TWO safest measures to avoid colliding with the vehicle?

① Maintain a longer distance from the vehicle ahead than the stopping distance.

② Turn on the emergency flashers and follow an emergency vehicle.

③ Reduce speed and maintain sufficient distance from the vehicle ahead to prevent a collision.

④ When there is danger, use both the foot brake and parking brake to shorten the braking distance.

■ Answer : 1, 3

480. Which of the following are true about wearing seat belts? (Select TWO)

① The penalty for a driver failing to wear a seat belt is an administrative fine of KRW 30,000.

② Whiplash injuries are more common with two-point seat belts.

③ The penalty for a child under the age of 13 not wearing a seat belt is a traffic penalty of KRW 60,000.

④ There are two, three, and four-point seat belts.

■ Answer : 2, 4

481. Which of the following are the TWO correct statements regarding wearing a seat belt?

① You need not wear a seat belt when driving to a place close by.

② Passengers in a car should wear a seat belt for safety.

③ It is safe to make a child sit in the passenger seat so that the parents can help the child wear a seat belt.

④ Except when there is an emergency, the driver of an emergency vehicle should also wear a seat belt.

■ Answer : 2, 4

482. A person seems to be suffering from a fractured spine after an accident. Which of the following is the most appropriate measure you can take?

① Check if the person is conscious and perform cardiopulmonary resuscitation immediately.

② Move the person to a safe place and call 119.

③ Apply the Heimlich maneuver to prevent upper airway obstruction.

④ Unless urgent, do not move the person. If moving is inevitable, use a spine splint and assist the person in moving to a safe place.

■ Answer : 4

483. When you are involved in a traffic accident, what should you do first to check if an injured person is conscious?

① Check his/her pulse.

② Try to start a conversation or gently pat his/her shoulders.

③ Find the location of any wound that is bleeding heavily.

④ Look into the mouth to check if anything is blocking the airway.

■ Answer : 2

484. Which TWO vehicles are allowed to continue driving while asking a passenger to take actions during a traffic accident?

① A passenger car that is carrying an injured person to a hospital

② A fire truck returning to the fire station after extinguishing a fire

③ A tow vehicle going to the scene of a traffic accident

④ A postal vehicle transporting mail.

■ Answer : 1, 4

485. According to the Road Traffic Act, which of the following are the TWO correct statements regarding a vehicle that is allowed to continue driving despite a traffic accident?

① The ambulance driver who was transporting an urgent patient had the passenger take the necessary measures and kept driving.

② The driver who was traveling to attend an urgent meeting had the passenger take the necessary actions and kept driving.

③ The driver of the vehicle transporting urgent mail made the passenger take the necessary measures and kept driving.

④ The ambulance driver who was transporting urgent medicines had the passengers take the necessary actions and kept driving.

■ Answer : 1, 3

486. Which of the following is NOT appropriate for preventing road kill at night?

① Reduce speed when traveling on national or mountain roads with fewer vehicles or people.

② If you spot an animal on the road, slow down or stop on the shoulder to avoid a collision.

③ If you spot an animal on the road, turn off the headlights and honk lightly to scare it away.

④ To spot animals on the road more easily, drive closer along the shoulder.

■ Answer : 4

487. Which of the following organizations provides free towing service over a set distance in the event of an emergency?

① Korea Road Traffic Authority

② Korea Expressway Corporation

③ Police agency

④ Korea Transportation Safety Authority

■ Answer : 2

488. Which of the following is NOT a proper way to respond after a road kill?

① Do not touch the animal carcass to prevent exposure to potential diseases.

② Call any wildlife rescue center or a local government call center (area code + 120).

③ Load the animal carcass on your vehicle to prevent a secondary accident.

④ There is no need to file a report if necessary measures have been taken to prevent a secondary accident and facilitate traffic flow.

■ Answer : 3

489. Which of the following is true about anger control techniques for preventing road rage and car crashes?

① An anger control technique that is a mindfulness-based practice designed to help you defuse stress is called the STOP technique.

② An anger control technique during which you try to push out the negative thoughts and focus on happy thoughts for 1–2 minutes is called the time-out technique.

③ An anger control technique during which you question your passive recognition of the belief system and distorted thoughts that trigger anger is called the reminiscence technique.

④ An anger control technique during which you repeatedly contract and relax your arms, legs, abdomen, chest, shoulders, and other body parts is called the contract-relax stretching technique.

■ Answer : 4

490. Which of the following is the safest method of driving when the underground road ahead is submerged in water due to heavy rainfall?

① Drive through slowly. You can make it as long as the wheels are not completely submerged in water.

② Get through the water as fast as you can.

③ Take another road to bypass the water.

④ Drive through. If the engine stops, start it back immediately and drive through.

■ Answer : 3

491. Which of the following is NOT a correct description of the actions to take when responding to an emergency situation such as a traffic accident?

① Check the risk.

② Check the response of a patient.

③ Secure the airway and check the breathing.

④ Check the destination and identification of a patient.

■ Answer : 4

492. Which of the following is NOT a correct method of handling a dangerous situation while driving?

① Firmly grasp the steering wheel if it vibrates hard and keep driving.

② If smoke comes out of the vehicle, pull over where it is safe and turn off the engine.

③ If a tire explodes, hold the steering wheel firmly and pull over to a safe location.

④ If the engine stops while crossing a railroad, evacuate the vehicle immediately and contact the authorities.

■ Answer : 1

493. Which of the following are proper ways to take photographs at the scene of an accident? (Select TWO)

① If there is a black box that successfully captured the accident, there is no need to take any photos.

② Photos of spilled engine oil and coolant are not needed as their stains will last a long time on the road.

③ Take photos of the overall accident scene from a distance and work your way toward the point of collision, taking photos along the way.

④ Mark the scene by spray painting or taking photos of the direction of the tires.

■ Answer : 3, 4

494. Which TWO things must be inspected before starting a long-distance drive?

① Cleanliness of the vehicle

② DMB operation status

③ Oils and fluids

④ Tires

■ Answer : 3, 4

495. Which of the following constitutes grounds for revocation of a driver's license?

① When 6 months have lapsed after the expiration date of the regular aptitude test

② When a motorist is booked without detention for assaulting a law enforcement officer (policeman or local government official)

③ When a motorist drives his/her car without affixing a license plate after registration

④ When 2 years have lapsed without renewal of a Class II driver's license for an ordinary motor vehicle

■ Answer : 2

496. If a person notified to pay a traffic penalty fails to make the payment during the first designated period, which of the following is the correct amount that he/she has to pay within 20 days?

① Original traffic penalty + 10% late penalty

② Original traffic penalty + 20% late penalty

③ Original traffic penalty + 30% late penalty

④ Original traffic penalty + 40% late penalty

■ Answer : 2

497. Which of the following is the correct standard for the revocation of a driver's license based on cumulative demerit points?

① 100+ points within 1 year

② 191+ points within 2 years

③ 271+ points within 3 years

④ 301+ points within 5 years

■ Answer : 3

498. Which of the following statements regarding the standards for demerit points based on the effects of a traffic accident is correct?

① As for the personal injury of the driver who will receive an administrative punishment, demerit points will be imposed based on the rules regarding traffic accidents involving personal injury.

② In an accident between a car and a pedestrian, demerit points will not be imposed if the accident occurred due to mistakes committed by both parties.

③ If the accident was unavoidable or had been caused clearly by a mistake of the injured, demerit points will be halved.

④ In an accident between cars, demerit points are imposed only on the driver who committed a serious violation that caused the accident.

■ Answer : 4

499. According to the Road Traffic Act, which of the following statements regarding the administrative fine for parking violations is correct?

① The owner of a passenger car involved in a parking violation should pay an administrative fine of KRW 30,000.

② The owner of a van involved in a parking violation should pay an administrative fine of KRW 70,000.

③ No administrative fine is imposed even if you do not pay the fine within the designated period.

④ For parking violations that continue for more than two hours at the same location, additional administrative fines are imposed.

■ Answer : 4

500. Which of the following is a scenario where the exemption according to the Act on Special Cases Concerning the Settlement of Traffic Accidents is applied because the driver who caused the accident has comprehensive insurance or he/she is insured through a mutual aid association?

① When the driver has violated his/her duty to drive safely, resulting in car damage or minor accident

② When the driver has caused an accident that resulted in loss of human life

③ When the driver has fled the scene after causing an accident without attending to the injured

④ When the driver has violated traffic signals, causing an accident involving minor injuries

■ Answer : 1

501. Seven people riding together in four vehicles on the road and causing harm to others were criminally charged according to the Road Traffic Act. Which of the following is NOT true about their punishment? (Excluding personal mobility devices)

① Imprisonment with labor for not more than 2 years or criminal fine of not more than KRW 5 million

② Immediate license suspension upon apprehension

③ License revocation if detained

④ A penalty of 40 points if prosecuted

■ Answer : 2

502. The driver of an automobile is arrested for reckless driving. Which of the following is the correct administrative disposition on the driver's license?

① Revocation of the driver's license

② 100-day suspension of the driver's license

③ 60-day suspension of the driver's license

④ 40-day suspension of the driver's license

■ Answer : 4

503. According to the Road Traffic Act and its Enforcement Decree, what is the punishment for riding a bicycle while intoxicated?

① No punishment

② Notification of a traffic penalty of KRW 30,000

③ Punished through an administrative fine of KRW 40,000

④ Punished through a criminal fine of not more than KRW 100,000 or by detention

■ Answer : 2

504. According to the Road Traffic Act, what is the punishment for a bicycle rider who is deemed to be intoxicated and who refuses a police officer's lawful request for a field sobriety test?

① No punishment

② Punished through an administrative fine of KRW 70,000

③ Notification of a traffic penalty of KRW 100,000

④ Punished through a criminal fine of not more than KRW 100,000 or by detention

■ Answer : 3

505. Which of the following are the TWO situations subject to criminal prosecution in accordance with the Act on Special Cases Concerning the Settlement of Traffic Accidents?

① A driver without comprehensive insurance reaches a settlement with the victim after causing an accident resulting in property damage.

② A taxi driver who is a member of the Taxi Mutual Aid Association causes a traffic accident resulting in injury or death after driving over the centerline.

③ A driver with comprehensive insurance causes a traffic accident resulting in injury or death after committing a violation of a traffic signal.

④ A truck covered by cooperative insurance causes injury due to careless driving.

■ Answer : 2, 3

506. You fail to pay a traffic penalty for which you have been notified in writing even by its second deadline. Which TWO are applicable?

① You must request a summary judgment immediately.

② Your license will be suspended for 40 days if no summary judgment is reached.

③ An administrative fine will be charged.

④ No summary judgment needs to be requested if you pay the traffic penalty along with an additional 30% as delay penalty.

■ Answer : 1, 2

507. What will happen if the driver of a passenger car causes a traffic accident that damages only parked or stopped vehicles and, even upon becoming aware of the situation, fails to provide personal information to the victims?

① No punishment

② An administrative fine of KRW 100,000 is imposed.

③ A traffic penalty of KRW 120,000 is notified.

④ A criminal fine of up to KRW 300,000 or detention is imposed.

■ Answer : 3

508. According to the Road Traffic Act, what is the correct penalty for a person who drives a passenger car with a blood alcohol concentration (BAC) of 0.03 percent or higher but less than 0.08 percent (for a first offense within 10 years)?

① Imprisonment for up to 1 year or criminal fine of up to KRW 5 million

② Imprisonment for up to 2 years or criminal fine of up to KRW 10 million

③ Imprisonment for up to 3 years or criminal fine of up to KRW 15 million

④ Imprisonment in the range of 2 years - 5 years or criminal fine of KRW 10 million or more (up to KRW 20 million)

■ Answer : 1

509. Under the Road Traffic Act, which set of words correctly completes ㉠–㉢?

- On a steep narrow road, when two non-emergency vehicles come face to face with each other, the (㉠) vehicle must yield by moving to the right side.
- At an unsignalized intersection, a driver turning (㉡) must yield to vehicles traveling straight ahead or turning (㉢).

① ㉠ uphill ㉡ right ㉢ left

② ㉠ uphill ㉡ left ㉢ right

③ ㉠ downhill ㉡ left ㉢ right

④ ㉠ downhill ㉡ right ㉢ left

■ Answer : 2

510. If a driver with a student license drives in inebriated state with blood alcohol content of at least ( ) percent, his/her student license shall be revoked. Which answer fits in ( )?

① 0.03

② 0.05

③ 0.08

④ 0.10

■ Answer : 1

511. Which of the following is the punishment imposed on a driver who has been criminally charged for assaulting a traffic police officer?

① 40 demerit points

② 100 demerit points

③ Revocation of the driver's license

④ Request for a summary trial

■ Answer : 3

512. Each time a driver (if not a victim of a traffic accident) arrests or reports to arrest a driver of a vehicle that has caused a traffic accident involving personal injury and fled, a benefit of ( ) shall be given. Which of the following correctly fills in ( )?

① 10 points

② 20 points

③ 30 points

④ 40 points

■ Answer : 4

513. Which of the following is an incorrect pairing of traffic penalties and violations by the driver of an automobile?

① KRW 120,000 for a speed violation (exceeding 60 km/h)

② KRW 60,000 for a signal violation

③ KRW 60,000 for driving over the centerline

④ KRW 50,000 for a violation of the period or place when/where overtaking is prohibited

■ Answer : 4

514. According to the Road Traffic Act and its Enforcement Decree, what is the traffic penalty imposed on the driver of an automobile parked within 5 m of the transmission valve of a fire department standpipe used for fire-extinguishing purposes?

① KRW 40,000

② KRW 30,000

③ KRW 20,000

④ No penalty is imposed.

■ Answer : 1

515. According to the Road Traffic Act, which of the following violations involves a different criterion for demerit points?

① Driving while neglecting disorderly conduct by a passenger inside the vehicle

② Violating the method of passing a railroad crossing

③ Violation of passage on a shoulder in an expressway

④ Violation of the obligation to present a driver's license, etc.

■ Answer : 1

516. When a driver subject to summary judgment pays the total sum of the due penalty in addition to ( ) of the traffic penalty and submits a document confirming the payment before the announcement of the summary judgment, the police chief is required to cancel the summary judgment on the driver. Select one that fills in ( ) correctly.

① 20/100

② 30/100

③ 50/100

④ 70/100

■ Answer : 3

517. According to the Road Traffic Act, what is the correct penalty for a driver who, despite having reasonable grounds to be considered under the influence of alcohol, refuses to comply with a breath alcohol test legitimately requested by a police officer (for a first offense within ten years)?

① Imprisonment for at least one year but no more than two years, or criminal fine of up to KRW 5 million

② Imprisonment for at least one year but no more than three years, or criminal fine of up to KRW 10 million

③ Imprisonment for at least one year but no more than four years, or criminal fine in the range of KRW 5 million - KRW 10 million

④ Imprisonment for at least one year but no more than five years, or criminal fine in the range of KRW 5 million - KRW 20 million

■ Answer : 4

518. Which of the following is the appropriate penalty for driving a vehicle while covering the license plate?

① Imprisonment with labor for not more than 1 year or criminal fine of not more than KRW 10 million

② Imprisonment with labor for not more than 1 year or criminal fine of not more than KRW 20 million

③ Imprisonment with labor for not more than 2 years or criminal fine of not more than KRW 10 million

④ Imprisonment with labor for not more than 2 years or criminal fine of not more than KRW 20 million

■ Answer : 1

519. According to the Road Traffic Act and its Enforcement Decree, the driver of a vehicle is traveling on an expressway without carrying a vehicle breakdown sign (safety tripod sign) inside the vehicle. What will happen?

① An administrative fine of KRW 20,000 will be charged.

② A traffic penalty of KRW 30,000 will be imposed.

③ A criminal fine of up to KRW 300,000 will be charged.

④ No fine or penalty will be imposed.

■ Answer : 1

520. Which of the following is the correct pairing of traffic penalty and speed range imposed on the driver of an automobile caught speeding on an expressway?

① For exceeding the speed limit by over 60 km/h to 80 km/h: traffic penalty of KRW 120,000

② For exceeding the speed limit by over 40 to 60 km/h: traffic penalty of KRW 80,000

③ For exceeding the speed limit by over 20 to 40 km/h: traffic penalty of KRW 50,000

④ For exceeding the speed limit by less than 20 km/h: traffic penalty of KRW 20,000

■ Answer : 1

521. Which of the following is the correct statement regarding the demerit points applied to a driver who causes an accident?

① When a traffic accident involving one death (within 72 hours) occurs due to the violation of a signal, a penalty of 105 demerit points is incurred.

② Demerit points are also applied for losses suffered by passengers of the victim's vehicle and the driver of the offending vehicle.

③ Demerit points are calculated based on the cause of the accident, casualties if any, and damage to property.

④ If the accident involves two vehicles, no demerit points are applied if both vehicles are responsible for the accident.

■ Answer : 1

522. According to the Road Traffic Act, the medical checkup result report that determines whether a driver is eligible for an aptitude test or not should be the document issued within ( ) of the driver's license application date. Which of the following is correct?

① 1 year

② 2 years

③ 3 years

④ 4 years

■ Answer : 2

523. According to the Road Traffic Act and its Enforcement Decree, if you object to the revocation of your driver's license, when can you submit an application to the Objections Deliberation Committee of the Metropolitan Police?

① Within 90 days of the revocation

② Within 90 days of becoming aware of the revocation

③ Within 60 days of the revocation

④ Within 60 days of becoming aware of the revocation

■ Answer : 3

524. When a person holding a student license practices driving on a road, which of the following is the disposition given to the driver if he/she drives by him/herself without being accompanied by a person with a valid automobile driver's license obtained 2 or more years ago (excluding persons whose driver's licenses are currently suspended)?

① Disposition of notification

② Imposition of an administrative fine

③ Suspension of the student license

④ Revocation of the student license

■ Answer : 4

525. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct punishment if a driver drives a personal mobility device (PMD) without receiving a driver's license for a motorcycle?

① A criminal fine of up to KRW 200,000 or detention, or minor criminal fine

② A criminal fine of up to KRW 300,000 or detention

③ A criminal fine of up to KRW 500,000 or detention

④ Up to 6 months' imprisonment or criminal fine of up to KRW 2 million

■ Answer : 1

526. According to the Road Traffic Act and its Enforcement Decree, which of the following is an incorrect pairing of violations and administrative fines imposed on the employers of drivers of automobiles? (Excluding school zones, silver zones, and priority zones for persons with disabilities)

① Crossing the centerline: Administrative fine of KRW 90,000

② Traffic signal violation: Administrative fine of KRW 70,000

③ Driving on a sidewalk: Administrative fine of KRW 70,000

④ Speeding (not more than 20 km/h): Administrative fine of KRW 50,000

■ Answer : 4

527. According to the Road Traffic Act and its Enforcement Decree, which of the following actions are punishable with demerit points?

① Throwing an object out of a moving vehicle

② Not signaling before a change of lane

③ Driving a vehicle with illegal accessories

④ Violating the intersection traffic rules

■ Answer : 1

528. Which of the following statements regarding a reduction of demerit points through an accident-free and violation-free driving pledge (Good Driving Mileage System) is correct?

① Special points of 40 points are issued.

② Two years without any traffic accidents or violations are required to earn special points.

③ Except in certain cases, if a driver receives a suspension order, special benefit points are deducted from his or her accumulated points.

④ A driver must visit a driver licensing office and submit a written pledge.

■ Answer : 3

529. Which two statements about ignition interlock devices (IIDs) are correct?

① An "ignition interlock device" is a device that prevents a vehicle from starting if the driver is intoxicated, as prescribed by the Minister of Interior and Safety.

② Drivers holding a conditional license with IID restrictions must install the device on their vehicle and register it with the provincial or municipal police agency.

③ The period of the device's installation begins from the date on which the driver's period of disqualification ends.

④ In cases where a person drives a personal mobility device after drinking, if he/she receives another license revocation for drunk driving within five years, he/she must obtain a conditional driving license requiring the installation of an alcohol ignition interlock device.

■ Answer : 1, 2

530. Which of the following is subject to mandatory education on special traffic safety?

① A first-time applicant seeking to obtain a driver's license

② A driver with 30 demerit points

③ A driver who completed proactive driving training

④ A driver whose license is suspended for reckless driving

■ Answer : 4

531. How much is the fine for leaving a passenger car parked for 2 hours or more at an intersection, a crosswalk, or a railroad crossing (excluding child, elderly, or disabled protection zones)?

① KRW 40,000

② KRW 50,000

③ KRW 60,000

④ KRW 70,000

■ Answer : 2

532. Which of the following is NOT a valid reason for revocation of a driver's license?

① Failing to take the regular aptitude test for one year

② Being arrested for retaliatory driving

③ Driving twice at a speed exceeding the speed limit by 100 km/h.

④ Using vehicles to kidnap, induce, or detain another person

■ Answer : 3

533. What is the penalty for a driver who, upon being stopped for drink driving, and who is known to have refused a breathalyzer test 3 years previously, refuses to comply once again?

① Imprisonment with labor for at least 1 year but not more than 6 years, or criminal fine of at least KRW 5 million but not more than KRW 30 million

② Imprisonment with labor for at least 2 years but not more than 6 years, or criminal fine of at least KRW 5 million but not more than KRW 20 million

③ Imprisonment with labor for at least 3 years but not more than 5 years, or criminal fine of KRW at least 10 million but not more than KRW 30 million

④ Imprisonment with labor for at least 1 year but not more than 5 years, or criminal fine of at least KRW 5 million but not more than KRW 20 million

■ Answer : 1

534. What is the penalty for driving with a BAC of between 0.08% and 0.2% (for a first offense within 10 years)?

① Imprisonment for up to 2 years or criminal fine of up to KRW 5 million

② Imprisonment for up to 3 years or criminal fine between KRW 5 million and 10 million

③ Imprisonment for 1-2 years or criminal fine between KRW 5 million and 10 million

④ Imprisonment for 2-5 years or criminal fine between KRW 10 million and 20 million

■ Answer : 3

535. According to the Road Traffic Act and its Enforcement Decree, which of the following are the demerit points given to an automobile driver who flees after causing a traffic accident involving property damage on a road?

① 15 points

② 20 points

③ 30 points

④ 40 points

■ Answer : 1

536. According to the Road Traffic Act and its Enforcement Decree, which of the following is the traffic penalty imposed if measures are not taken to prevent freight from falling off a 4.5-ton truck?

① KRW 50,000

② KRW 40,000

③ KRW 30,000

④ KRW 20,000

■ Answer : 1

537. According to the Road Traffic Act and its Enforcement Decree, which of the following is true about using designated lanes?

① A passenger vehicle carrying 2 or more persons can use the high-occupancy vehicle lane.

② A 9-seater passenger vehicle carrying 6 or more persons can use the exclusive bus lane on an expressway.

③ A 12-seater bus carrying 5 or more persons can use the exclusive bus lane on an expressway.

④ A 16-seater personal vehicle can use all exclusive bus lanes found on roads other than expressways.

■ Answer : 2

538. According to the Road Traffic Act and its Enforcement Decree, which of the following statements regarding the traffic safety education that a person who is 75 years of age or older must receive is INCORRECT?

① Traffic safety education for persons who are 75 years of age or older is provided by the Korea Road Traffic Authority.

② A person who is 75 years of age or older as of the renewal date of the driver's license shall receive education within the period of renewal.

③ If a person who is 75 years of age or older wants to obtain a driver's license for the first time, the period of education is 1 hour.

④ The education is conducted for 2 hours by means of lecture, audiovisual, and self-diagnosis of cognitive ability.

■ Answer : 3

539. According to the Road Traffic Act and its Enforcement Decree, which of the following are the demerit points given if an automobile driver driving over the centerline caused a traffic accident involving one severe injury and one slight injury?

① 30 points

② 40 points

③ 50 points

④ 60 points

■ Answer : 3

540. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct sum of the "administrative fine imposed on a guardian who let a child drive a personal mobility device (PMD) on a road" and "traffic penalty imposed on a driver who drove a PMD under the influence (excluding refusal to take a field sobriety test)"?

① KRW 100,000

② KRW 200,000

③ KRW 300,000

④ KRW 400,000

■ Answer : 2

541. Which of the following statements regarding the criteria for vehicle types with access to exclusive bus lanes on expressways is correct?

① 11-seater vans with at least 6 occupants.

② 9-seater cars with at least 5 occupants.

③ 7-seater cars with at least 6 occupants.

④ All vans regardless of the number of passengers.

■ Answer : 1

542. Which of the following is NOT a place where you must come to a complete stop?

① An intersection where the traffic signal light is flashing yellow

② An intersection where the traffic signal light is flashing red

③ An intersection where traffic is not controlled and it is not possible to check the left and right

④ A busy intersection where traffic is not controlled

■ Answer : 1

543. According to the Toll Road Act and its Enforcement Decree, what is the correct standard for imposing additional tolls on vehicles that pass through tollgates without paying tolls on toll roads?

① An amount equivalent to five times the toll fee can be imposed.

② An amount equivalent to 10 times the toll fee can be imposed.

③ An amount equivalent to 20 times the toll fee can be imposed.

④ An amount equivalent to 30 times the toll fee can be imposed.

■ Answer : 2

544. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT a case wherein a vehicle other than vehicles allowed on an exclusive-lane may pass along the exclusive lane?

① When an emergency vehicle is being operated for the originally intended emergency purpose

② When it is not possible to pass along except by using the exclusive lane due to road damage

③ When a taxi temporarily passes along to take a passenger onboard, provided that it does not impede the traffic of vehicles in the exclusive lane

④ When a package delivery truck temporarily passes along to unload goods

■ Answer : 4

545. According to the Road Traffic Act and its Enforcement Decree, which of the following are the maximum and minimum speed limits, respectively, to be observed in an automobile road?

① 110 km/h, 50 km/h

② 100 km/h, 40 km/h

③ 90 km/h, 30 km/h

④ 80 km/h, 20 km/h

■ Answer : 3

546. Which of the following is NOT true about the enforced collection of tolls on expressways for unpaid tolls?

① Seizure of deposits

② Seizure of virtual assets

③ Public auction

④ Confiscation of license plates

■ Answer : 4

547. Which of the following has a different traffic penalty regarding the violation of laws by a driver (over the age of 13) of a personal mobility device?

① Driving without a driver's license

② Refusing to take a breath test as required by a police officer

③ Driving under the influence of alcohol

④ Driving in a state wherein there is risk of being unable to drive normally due to the influence of drugs

■ Answer : 2

548. According to the Road Traffic Act and its Enforcement Decree, who among the following does NOT qualify for a conditional driver’s license requiring the installation of an alcohol ignition interlock device?

① A person who has violated the drunk driving laws and not more than 5 years have passed since he has had his/her license revoked for driving a motorized bicycle while intoxicated.

② A person who has violated the drunk driving laws and not more than 3 years have passed since he has had his/her license revoked for driving a personal mobility device while intoxicated.

③ A person who has violated the drunk driving laws and not more than 5 years have passed since he has had his/her license revoked for refusing to comply with a police officer’s request to submit to an alcohol test while intoxicated.

④ A person who has violated the drunk driving laws and not more than 3 years have passed since he has had his/her license revoked for interfering with an alcohol test while intoxicated.

■ Answer : 2

549. According to the Road Traffic Act and its Enforcement Decree, the use of a motor vehicle found to be in poor maintenance condition may be suspended within ( ) days of the initial discovery. Which of the following best fits in the ( )?

① 5

② 7

③ 10

④ 14

■ Answer : 3

550. According to the Road Traffic Act and its Enforcement Decree, which of the following are the TWO correct statements regarding the meaning of traffic signals?

① Flashing yellow light: Vehicles and horses can proceed while being careful of other forms of traffic and safety signs.

② Red light: Pedestrians can cross at the crosswalk with caution.

③ Green arrow-shaped light: Vehicles and horses can proceed in the direction that the arrow points.

④ Yellow light: If vehicles and horses have already entered an intersection, they should stop within the intersection.

■ Answer : 1, 3

551. According to the Road Traffic Act and its Enforcement Decree, which TWO belong to the category of "vehicles"?

① Drilling equipment (truck-mounted)

② A road stabilizer

③ A bicycle

④ A stroller

■ Answer : 1, 2

552. According to the Road Traffic Act, which of the following are TWO INCORRECT statements regarding the punishment of a driver (excluding personal mobility device)?

① A person who drives under the influence of alcohol and whose blood alcohol concentration is 0.2% or more – At least 1 year to 2 years of imprisonment or criminal fine of up to KRW 10 million

② A person who committed risky behavior jointly - Up to 2 years of imprisonment or criminal fine of up to KRW 5 million

③ A person who engaged in reckless driving - Up to 1 year of imprisonment or criminal fine of up to KRW 5 million

④ Driving a motorcycle without a license – A criminal fine of up to KRW 500,000 or detention

■ Answer : 1, 4

553. According to the Road Traffic Act and its Enforcement Decree, which of the following are the TWO least appropriate statements regarding acts intended to obstruct alcohol testing?

① A person who is reasonably suspected of being under the influence and who intentionally drinks more alcohol in order to interfere with the police officer's testing is considered to be obstructing the alcohol test.

② A person who has driven a motor vehicle and who commits an act of obstructing the alcohol test may be punished by imprisonment for up to 1 year or criminal fine of up to KRW 5 million.

③ A person who is reasonably suspected of being under the influence and who uses substances such as medicine that may affect the blood alcohol concentration (as prescribed by the Ordinance of the Ministry of Interior and Safety) is considered to be obstructing the alcohol test.

④ A person who is reasonably suspected of being under the influence and who commits an act of obstructing the alcohol test after riding a bicycle is not considered to be obstructing the alcohol test.

■ Answer : 2, 4

554. According to the Road Traffic Act and its Enforcement Decree, which of the following are considered TWO violations of the legal speed limit by passenger cars?

① Driving at a speed of 85 km/h on a general road with two lanes in one direction.

② Driving at a speed of 90 km/h on Seohaean Expressway.

③ Driving at a speed of 95 km/h on an automobile road.

④ Driving at a speed of 75 km/h on an expressway with one lane in one direction.

■ Answer : 1, 3

555. According to the Road Traffic Act and its Enforcement Decree, which of the following are the TWO correct statements regarding roadside area?

① Borders need not be marked.

② It is installed in order to secure the safety of pedestrians.

③ It is installed on roads without separate sidewalks.

④ It is not a road.

■ Answer : 2, 3

556. Which of the following is the correct explanation on the Act on Special Cases Concerning the Settlement of Traffic Accidents?

① If a driver who commits a crime of gross negligence while driving a vehicle has comprehensive automobile insurance, a case cannot be filed unconditionally.

② It is possible to institute public action against a driver responsible for occupational negligence even against the will of the victim.

③ If the driver of a car is subject to criminal punishment, he/she is subject to imprisonment without prison labor for not more than five years or criminal fine of not more than KRW 20 million.

④ If personal injury is sustained due to driving at a speed of 20km per hour above the speed limit, but the driver has comprehensive insurance, a case cannot be filed.

■ Answer : 3

557. According to the Road Traffic Act, which of the following cannot be regarded as a mobility aid chair vehicle (i.e. a vehicle with a width of no more than 1 meter)?

① A manual wheelchair

② An electric wheelchair

③ A mobility scooter

④ An electric bicycle

■ Answer : 4

558. According to the Road Traffic Act and its Enforcement Decree, which of the following statements regarding novice drivers is correct?

① Novice drivers are defined only for Class 1 regular licenses.

② Refers to someone who has received only a motorized bicycle license for which less than 2 years have passed since the date of issuance.

③ If a driver's license is revoked before 2 years have passed after the date of issuing the first driver's license and then reissued, the record of driving before the revocation is added to the driver's driving history.

④ A person with a driver’s license issued no more than two years previosuly is considered a novice driver.

■ Answer : 4

559. Which of the following is correct regarding a motorized bicycle under the Road Traffic Act?

① The term "motorcycle" refers to all two-wheeled vehicles.

② Under the Automobile Management Act, a motorcycle is defined as a two-wheeled vehicle with displacement of up to 250 cc.

③ A car embedding a motor with displacement of 150 cc or more is considered to be a motorcycle.

④ In the case of electricity-powered vehicles, a vehicle using a motor with maximum rated output of 11 kW or less (excluding electric bicycles) is considered to be a motorcycle.

■ Answer : 4

560. Which of the following is NOT considered a traffic accident as defined in the Act on Special Cases Concerning the Settlement of Traffic Accidents?

① A 4.5-ton truck collides with a car and injures its driver.

② Injury of a pedestrian hit by a train on a railroad crossing

③ If a pedestrian crossing a crosswalk is hit by a car that violated the signal

④ Collision of a bicycle with a pedestrian on a sidewalk, resulting in injury to the pedestrian

■ Answer : 2

561. According to the Road Traffic Act and its Enforcement Decree, which of the following is a correct description of the color of road signs installed on sections of the road or in certain places?

① The centerline marking and the safe zone are white.

② Exclusive bus lanes and safety zone markings are yellow.

③ Stop/Parking prohibition signs around firefighting facilities are red.

④ No parking signs, no stopping/parking signs, and safe zones are red.

■ Answer : 3

562. According to the Road Traffic Act and its Enforcement Decree, which of the following is true about overtaking?

① If the vehicle in front of you has another vehicle traveling side by side on its right, you cannot overtake the vehicle in front of you.

② Overtaking is allowed in recently built tunnels, bridges, and intersections.

③ Overtaking is when you approach from behind and pass the vehicle on the left, traveling in the same direction.

④ A passenger vehicle can use the exclusive bus lane on an expressway to overtake another vehicle.

■ Answer : 3

563. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT considered a motor vehicle?

① An automobile

② A bicycle

③ A special vehicle

④ A bus

■ Answer : 2

564. According to the Act on Special Cases Concerning the Settlement of Traffic Accidents, which of the following is considered a speeding-related accident wherein the driver causing the accident can be prosecuted against the stated intention of the victim?

① An accident caused by driving at 110 km/h on an expressway where the speed limit is 100 km/h

② An accident caused by driving at 95 km/h on a general road with three lanes in one direction where the speed limit is 80 km/h

③ An accident caused by driving at 100 km/h on an automobile road where the speed limit is 90 km/h

④ An accident caused by driving at 82 km/h on a general road with one lane in one direction where the speed limit is 60 km/h

■ Answer : 4

565. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct order of horizontal traffic lights in a four-color scheme?

① From the right: red, green arrow, yellow, and green

② From the left: red, yellow, green arrow, and green

③ From the left: yellow, red, green arrow, and green

④ From the right: green arrow, yellow, red, and green

■ Answer : 2

566. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT a required document for the verification of aptitude test requirements?

① A health examination report as per the National Health Insurance Act

② A written diagnosis issued by a doctor in accordance with the Medical Service Act

③ Notice of Physical Examination Results for Military Service under the Military Service Act

④ An eyesight test report issued by the president of the Korean Optometric Association

■ Answer : 4

567. Which of the following can be designated as an emergency vehicle by the commissioner of the City/Do (Province) police agency at the request of the organization or the person intending to use the vehicle?

① A blood bank vehicle

② A police vehicle used for criminal investigation, traffic control, and other emergency police activities

③ A vehicle used for radio wave monitoring

④ A vehicle used for criminal investigation among vehicles belonging to investigation agencies

■ Answer : 3

568. According to the Road Traffic Act and its Enforcement Decree, which of the following are the TWO correct statements regarding emergency vehicles?

① An emergency vehicle used for the control of speeding violations must have a structure defined in the "Standards on the Safe Operation of Vehicles."

② Emergency vehicles used for security services for domestic and foreign VIPs are not required to use a siren or a light bar.

③ A normal vehicle is not considered an emergency vehicle even if its headlights and emergency lights are turned on to indicate that it is being used for emergency purposes.

④ As a rule, ambulances have traffic priority and special status according to the law only when they are using their siren or they have turned on their emergency vehicle lighting.

■ Answer : 2, 4

569. Which of the following are the TWO correct definitions based on those stipulated by the Road Traffic Act?

① A "lane" refers to the part of a road where all vehicles can travel and which is demarcated by a line of curbstones, a safety sign, or a similar artificial structure.

② A "vehicle line" refers to a boundary marked by a safety sign in order to indicate separate roadways.

③ A "roadway" refers to the part of a road marked by a line to have vehicles and horses travel in a single file.

④ A "sidewalk" refers to the part of a road demarcated by a line of curbstones for thoroughfare by pedestrians.

■ Answer : 2, 4

570. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT true about riding a bicycle?

① If a road is divided into a roadway and a sidewalk, bicycle riders must travel on the roadway.

② To turn right at an intersection, bicycle riders must use the rightmost lane and slow down before making the turn.

③ To turn left at an intersection, bicycle riders must use the centerline or leftmost lane and slow down before making the turn.

④ Bicycle riders must use the bicycle lane if there is any.

■ Answer : 3

571. Which of the following is true about the definition of terms under the Road Traffic Act and its Enforcement Decree?

① The term "automobile road" refers to a road designed exclusively for motor vehicles.

② The term "bicycle track" refers to a road where safety signs, fences, or similar artificial structures mark the boundaries to allow only bicycles to pass.

③ The term "motor vehicles, etc." refers to motor vehicles and horses.

④ The term "bicycles, etc." refers to bicycles and electric bicycles.

■ Answer : 1

572. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT true about drivers of personal mobility devices (PMDs)?

① A driver's license is not required to operate a PMD.

② It is not allowed to have more riders than the permitted capacity on a PMD.

③ Drivers of PMDs must wear protective gear to operate the device.

④ Drivers of PMDs must use the bicycle lane if there is any.

■ Answer : 1

573. According to the Road Traffic Act, which of the following persons may NOT use a sidewalk while riding a bicycle?

① A person registered as physically handicapped according to the Act on the Welfare of Persons with Disabilities

② A child

③ A person with a plaster cast due to a bodily injury

④ A person of distinguished service to the state with Disability Rating 1 through 7 according to the Act on the Honorable Treatment of and Support for Persons of Distinguished Service to the State

■ Answer : 3

574. There is a pedestrian walking his/her bicycle to cross the street ahead of you. Which of the following is the safest way to approach?

① Swiftly drive past the pedestrian from whichever side is more open.

② Use the headlights and horn to let the pedestrian know you are approaching.

③ Fully stop the vehicle at a certain distance from the pedestrian.

④ Make the pedestrian stop as you have the right of way.

■ Answer : 3

575. Which of the following is the amount of penalty imposed on a person who rides a bicycle on a narrow road within a school zone where a lane is not installed and who does not slow down while passing by a pedestrian without securing a safe distance?

① KRW 100,000

② KRW 80,000

③ KRW 40,000

④ KRW 20,000

■ Answer : 3

576. Which of the following is not a high-risk personal mobility device/sports equipment stipulated by the Ordinance of the Ministry of Interior and Safety to require children to wear protective gear when riding on the road?

① Kick scooters

② Self-balancing scooters (segway)

③ Roller skates

④ Skateboards

■ Answer : 2

577. According to the Road Traffic Act and its Enforcement Decree, which of the following are the TWO correct statements regarding cycling?

① Unless allowed by a safety sign, two or more cyclists must not ride side by side on a road.

② When crossing a crosswalk, a cyclist must dismount and push his/her bicycle across.

③ A cyclist must not use a sidewalk even if the road is not accessible due to damage, construction, or other interferences.

④ Where there is no bicycle track, a cyclist must ride close to the center of the road.

■ Answer : 1, 2

578. According to the Act on the Promotion of Bicycle Riding, a guardian must not allow a child under the age of ( ) to operate an electric bicycle. Which of the following fills in the ( ) correctly?

① 10

② 13

③ 15

④ 18

■ Answer : 2

579. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT the correct way to ride a bicycle?

① Turn left on the leftmost lane.

② Pass through the sidewalk as there was construction to repair damage on the roadway.

③ When using a crosswalk, get off and drag across.

④ Slow down to prevent pedestrian accidents.

■ Answer : 1

580. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct behavior of a cyclist?

① If the bicycle impedes the passage of pedestrians, slow down or stop temporarily.

② A child riding a bicycle is not allowed to do so on the sidewalk.

③ Dragging a bicycle is not allowed in sections where the passage of bicycles is prohibited.

④ Up to two bicycles can pass side by side in the roadside area.

■ Answer : 1

581. Which of the following is NOT an advisable practice for cyclists (excluding electric bicycles)?

① A child riding a bicycle on a sidewalk

② Cycling on a sidewalk with a safety sign indicating that cyclists are allowed

③ Cycling on a sidewalk because the road is damaged

④ Cycling along the middle of the road as there are no cars around

■ Answer : 4

582. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT true about drivers of personal mobility devices?

① When crossing a crosswalk, get off the device and walk by either carrying or pushing the device.

② If there is no bicycle lane, ride the device on the far right side of the road.

③ A self-balancing scooter is designed to carry more than 1 person.

④ When driving at night, turn on the headlights and tail lights or wear other light-emitting devices.

■ Answer : 3

583. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct method for a cyclist to turn left at an intersection?

① Ride slowly along the right edge of the road before turning left around the edge of the intersection.

② Ride slowly along the left edge of the road before turning left around the edge of the intersection.

③ Ride slowly down the middle of the first lane of the road before turning left through the middle of the intersection.

④ Ride slowly down the far-right lane of the road before turning left through the center of the intersection.

■ Answer : 1

584. According to the Road Traffic Act and its Enforcement Decree, what is the penalty imposed on the driver of a passenger car if he/she is caught driving on an exclusive bicycle track?

① Imprisonment for up to 1 year

② A criminal fine of not more than KRW 3 million

③ Notification of traffic penalty of KRW 40,000

④ No penalty

■ Answer : 3

585. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT true about the criteria for electric bicycles that can travel on bicycle tracks?

① The gross weight of the bicycle, including the weight of attached devices, is less than 30 kg.

② The electric motor must not operate if the speed exceeds 25 km/h.

③ The bicycle must not move solely by the electric motor.

④ Electric bicycle with maximum rated output of more than 11 kW.

■ Answer : 4

586. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT true about riding a bicycle at night?

① Frequently use the bicycle bell or horn.

② Turn on the headlights and tail lights.

③ Wear a reflective vest.

④ Wear a light-emitting device.

■ Answer : 1

587. According to the Road Traffic Act and its Enforcement Decree, which of the following is NOT subject to a traffic penalty if a bicycle rider violates traffic laws?

① Violating traffic lights

② Crossing the centerline

③ Obstructing pedestrians on a crosswalk

④ Exceeding the speed limit

■ Answer : 4

588. According to the Road Traffic Act and its Enforcement Decree, which of the following describe the INCORRECT use of the bicycle lane? (Select TWO)

① A senior person can ride a bicycle on the sidewalk.

② Motorcycles are not allowed on exclusive bicycle tracks.

③ Personal mobility devices are not allowed on exclusive bicycle tracks.

④ According to the Road Traffic Act, exclusive bicycle tracks are not considered roads.

■ Answer : 3, 4

589. According to the Road Traffic Act and its Enforcement Decree, which of the following statements regarding the names of the roads/lanes that can be used by bicycles are INCORRECT? (Select TWO)

① Exclusive bicycle track

② Bicycle priority lane

③ Bicycle and motorcycle lane

④ Bicycle priority road

■ Answer : 2, 3

590. Which of the following driving methods results in the highest fuel efficiency?

① Driving at the highest speed

② Driving at the lowest speed

③ Driving at an economical speed

④ Driving at a safe speed

■ Answer : 3

591. Which of the following is the best approach to eco-friendly, economical driving?

① Accelerate as fast as possible.

② Turn off the engine as you enter a downhill road.

③ Lower the air pressure of tires.

④ Avoid rapid deceleration, if possible.

■ Answer : 4

592. Which of the following correctly describes how an air-conditioner in a vehicle should be used and maintained?

① Turn on the air-conditioner to full and then turn it down to a lower level.

② Replace the coolant every six months.

③ The ideal temperature setting for an air-conditioner is 16°C.

④ Operate the air-conditioner in outer air inflow mode for greater cooling efficiency.

■ Answer : 1

593. Which of the following is the most appropriate method of improving a vehicle's fuel efficiency?

① Always fill up the fuel tank completely.

② When replacing engine oil, replace the oil filter and the air filter as well.

③ When making a stop, step on the brake pedal once with strong force.

④ Frequently use the accelerator and brake pedals.

■ Answer : 2

594. Which of the following is a brake/gear that helps bring down a car's speed when the driver takes his/her foot off the accelerator or downshifts?

① Neutral gear

② Foot brake

③ Parking brake

④ Engine brake

■ Answer : 4

595. Which of the following is the most advisable method of driving in order to improve a vehicle's fuel efficiency?

① Drive with various tools and parts loaded so that you are prepared for a possible breakdown.

② Maintain a steady speed while driving.

③ Perform quick starts, quick acceleration, and quick braking frequently.

④ Drive with your tire pressure reduced by 30 percent for improved fuel efficiency.

■ Answer : 2

596. Which of the following is NOT an eco-friendly, economical way of driving through the improvement of driving habits?

① Keep the vehicle fuel at the full level.

② Start the car smoothly.

③ Keep driving at a constant speed.

④ Comply with the economical speed.

■ Answer : 1

597. Which of the following is an eco-friendly, economical method of driving?

① Reduce air pressure in the tires.

② Start the air-conditioner at a low level

③ Do not replace the oil filter and air filter when replacing the engine oil.

④ Keep the fuel tank filled to about half its capacity.

■ Answer : 4

598. Which of the following is NOT true about an FCEV?

① When the vehicle catches fire, quickly evacuate and move far from the fire for safety.

② If the hydrogen leak detector turns on, immediately park in a safe location and turn off the engine.

③ The driver of an FCEV is not required to take safety education.

④ The driver of an FCEV can manipulate equipment at the hydrogen charging station.

■ Answer : 4

599. Which of the following is the least desirable driving habit in terms of economical driving?

① Do not step on the accelerator pedal when driving downhill.

② Use similar fuels for economic savings.

③ Start slowly and do not stop suddenly.

④ Check the tire pressure regularly.

■ Answer : 2

600. According to the Act on the Promotion of Development and Distribution of Environment-friendly Motor Vehicles, which of the following vehicles is NOT allowed to park in an EV parking space?

① EV

② Solar vehicle

③ Hybrid vehicle

④ FCEV

■ Answer : 2

601. Which of the following is true about an FCEV?

① Hydrogen is highly flammable, and all drivers of FCEVs must complete special education as stipulated in the High-pressure Gas Safety Control Act.

② FCEVs burn hydrogen, causing air pollution.

③ FCEVs are not equipped with safety equipment that is used to prevent explosions in case of an emergency such as fire.

④ The driver of an FCEV must regularly inspect the vehicle to ensure safety and drive safely.

■ Answer : 4

602. Which of the following is the most appropriate method of reducing fine dust from vehicle exhaust gases?

① When starting, step hard on the accelerator pedal.

② Start smoothly instead of accelerating quickly.

③ When driving, accelerate and stop on a frequent, repeated basis.

④ When stopping or parking, keep the engine running.

■ Answer : 2

603. Which of the following is NOT a crucial component of an FCEV?

① A fuel cell stack

② A hydrogen tank

③ An internal combustion engine generator

④ A traction motor

■ Answer : 3

604. Which of the following are the TWO correct descriptions of eco-friendly driving practices?

① It is related to the Kyoto Protocol, which stipulates targets for reducing greenhouse gas emissions.

② Substances that cause air pollution include hydrocarbons, carbon monoxide, carbon dioxide, and nitrogen oxides.

③ To increase the temperature inside the vehicle, start the engine and let it idle for a long time.

④ Inspect the vehicle frequently and replace the engine oil every 2,000km driving distance.

■ Answer : 1, 2

605. Which of the following vehicle types discharges the highest amount of hazardous exhaust gases?

① EV

② Hydrogen fuel cell vehicle

③ LPG vehicle

④ Old diesel vehicle

■ Answer : 4

606. Which of the following is NOT a measure that can help reduce fuel consumption for economical, eco-friendly driving?

① Take your foot off the accelerator pedal before entering an intersection and use the engine brake.

② Do not reduce speed on level roads but keep pressing down on the accelerator pedal.

③ Use the engine brake as necessary while driving downhill.

④ Take advantage of inertia by accelerating before driving onto an uphill road.

■ Answer : 2

607. Which of the following gaseous substances is primarily controlled by a vehicle's Exhaust Gas Recirculation (EGR) system?

① Nitrogen oxides (NOx)

② Hydrocarbon (HC)

③ Carbon monoxide (CO)

④ Carbon dioxide (CO_2)

■ Answer : 1

608. Which of the following is NOT true about an FCEV inspection?

① Hydrogen is a flammable gas; therefore, FCEVs require regular inspection.

② FCEV inspections must be conducted in a well-ventilated area.

③ During an inspection, it is crucial to check for hydrogen leak in the gas pipeline and charging inlet.

④ The driver of an FCEV is not responsible for conducting safety inspections of the vehicle.

■ Answer : 4

609. Which of the following is NOT true about using a hydrogen charging station?

① You are not allowed to smoke near a hydrogen charging station.

② You are allowed to move your vehicle while charging.

③ You must turn off the engine while charging.

④ You must not operate the charger when the station operator is not present.

■ Answer : 2

610. Which of the following is NOT appropriate when charging an FCEV?

① Turning off the engine before charging

② Smoking a cigarette near the hydrogen charging station

③ Not operating charging equipment on your own

④ Starting the engine after charging your car

■ Answer : 2

611. Which of the following is the safest method of driving a loaded dump truck when going down a hill?

① Save fuel by driving in neutral gear.

② Because stepping on the brake pedal several times does not produce the desired braking effect, step on it all at once.

③ Maintain adequate distance from the vehicle driving ahead to guard against sudden stopping.

④ Honk loudly and increase speed.

■ Answer : 3

612. Which of the following is the correct method of preventing traffic accidents caused by poor cargo loading?

① Put a cover over the cargo you are carrying.

② There is no need to check fixed attachments such as spare tires.

③ Keep the cargo tied down loosely so you can get it on and off quickly.

④ There is no need to tie down the cargo if you are not going too far.

■ Answer : 1

613. Which of the following is the LEAST appropriate method of loading freight onto a truck?

① Freight is to be loaded starting at the center of the freight container to the left and right.

② The center of gravity of a truck is in the front, so freight should be loaded starting from the back.

③ Relatively heavier freight is to be loaded on the bottom of the freight container.

④ After loading all of the freight, fix the freight so that it does not fall out of the truck.

■ Answer : 2

614. Which of the following is NOT true regarding the braking characteristics of large and special motor vehicles?

① The characteristics vary depending on changes in load.

② The braking distance changes if the inflation pressure and tread of the tires are not even.

③ The characteristics vary depending on the weight of the vehicle.

④ The actual braking distance shortens with increase in the weight of items loaded inside the vehicle.

■ Answer : 4

615. Which of the following statements regarding a low-floor bus is INCORRECT?

① A low-floor bus can be boarded easily by the elderly or the disabled.

② The floor of a low-floor bus is lower than the floor on normal buses.

③ A ramp is installed at the entrance and exit instead of stairs.

④ The height of a low-floor bus is half that of normal buses.

■ Answer : 4

616. Which of the following is the punishment regulation applicable to a driver who drives a special recovery vehicle (limited to vehicles compliant with the Trucking Transport Business Act) that is not equipped with a tachograph?

① Administrative fine of KRW 100,000

② Traffic penalty of KRW 100,000

③ Administrative fine of KRW 70,000

④ Traffic penalty of KRW 70,000

■ Answer : 4

617. Which of the following is NOT the correct explanation on preventing loads on a truck from falling?

① For cargo that is easy to roll, use fixed neck or cargo support.

② When loading construction equipment, etc., use wires and ropes.

③ When there is space in the front, rear, and on the left and right sides of the loading box, use a detent, etc.

④ Traffic penalty of KRW 50,000 and demerit of 10 points are imposed for violation of fall prevention of the load.

■ Answer : 4

618. Which of the following is mandatory for the driver of a commercial truck registered for a transport business?

① A vehicle maintenance qualification

② A truck operator's qualification

③ A taxi driver's license

④ A Class I driver's license for special motor vehicles

■ Answer : 2

619. Which of the following statements regarding the characteristics of a large truck is correct?

① The turning radius and stability of a large truck can be dramatically affected by different cargo types.

② The stability of a large truck is greatly reduced due to the long wheelbase.

③ The steering wheel recovery of a large truck is better than that of a passenger car.

④ Although a large truck is lightweight, it is larger in size than a passenger car.

■ Answer : 1

620. Which of the following is the appropriate conduct for the driver of a freight business vehicle that must be equipped with a tachometer according to the Road Traffic Act?

① Drive without a tachometer.

② Drive with a tachometer that is not in working condition due to a breakdown.

③ Drive with a tachometer that is used for purposes other than the intended use.

④ Drive with a tachometer that has been regularly maintained to prevent malfunctions.

■ Answer : 4

621. Which of the following is the minimum hearing level required for the acquisition of a Class I driver's license for large motor vehicles (excluding persons using hearing aids)?

① 25 dB

② 35 dB

③ 45 dB

④ 55 dB

■ Answer : 4

622. Which of the following statements regarding the characteristics of a large truck is correct?

① The center of gravity of a large truck varies depending on the load position and height.

② The center of gravity of a large truck does not move up or down.

③ The height of the center of gravity has no effect on the vibration generated by a large truck.

④ Compared to passenger cars, large trucks produce very little vibration.

■ Answer : 1

623. Which of the following statements regarding the driving characteristics of a large truck is correct?

① The stability of a large truck is reduced by the heavy weight and long wheelbase.

② The straight-driving stability of a large truck can be momentarily reduced at high speeds due to vehicle body vibration.

③ The steering wheel recovery of a large truck is better than that of a compact passenger car.

④ The higher driving position in a large truck enables improved field of vision in poor weather conditions.

■ Answer : 2

624. Which of the following statements regarding blind spots and load change when braking a large truck is correct?

① The blind spots are not much different in the case of a vehicle with a hood and a vehicle without it.

② The braking force applied to the front and rear wheels is not influenced by change of load.

③ The blind spot on the left side of the driver is much larger than the one on the right in the case of a large truck.

④ The braking power of a large truck will vary depending on the cargo load.

■ Answer : 4

625. According to the Road Traffic Act and its Enforcement Decree, which of the following vehicles violates the safety standards of a truck's loading capacity?

① Length calculated by adding 2/10 of the vehicle length

② Width within the range of rearview for rear visibility

③ 3.9 m above the ground

④ 105% of payload depending on construction and performance

■ Answer : 1

626. Which of the following is the correct description of a Class I driver's license for special motor vehicles?

① A person holding a driver's license for small towing vehicles may drive a special towing vehicle with 3.5-ton loading weight.

② A driver's license for small towing vehicles may be used to drive a truck with 4-ton loading weight.

③ A driver's license for recovery vehicles authorizes one to drive a 12-seater passenger vehicle.

④ A person holding a driver's license for large towing vehicles may drive a truck with 10-ton loading weight.

■ Answer : 2

627. Which of the following is NOT true about the driving characteristics of large vehicles?

① Despite having a great level of stability due to their heavy weight and long wheelbase, the steering recovery is slow for large vehicles compared to small vehicles.

② Because the driver's seat in a large vehicle is located higher than that of a small vehicle, the driver drives by looking only at the immediate front of the vehicle, so the stability of straight-line travel is improved.

③ Cornering characteristics change significantly depending on the type and load placement of the cargo.

④ The stability of a large vehicle varies significantly depending on the type and load placement of the cargo.

■ Answer : 2

628. According to the Rules on the Performance and Standards of Automobiles and Automotive Parts, the length of a vehicle shall not exceed ( ) meters. Select the correct answer to fill in the ( ).

① 10

② 11

③ 12

④ 13

■ Answer : 4

629. Which of the following is the penalty imposed on the driver of a large bus who fails to control a passenger dancing inside the vehicle?

① Traffic penalty of KRW 90,000 and 30 demerit points

② Traffic penalty of KRW 100,000 and 40 demerit points

③ Traffic penalty of KRW 110,000 and 50 demerit points

④ Traffic penalty of KRW 120,000 and 60 demerit points

■ Answer : 2

630. Which of the following is the traffic penalty imposed on the driver of a 4.5-ton truck for driving with a person in the freight container?

① KRW 50,000

② KRW 40,000

③ KRW 30,000

④ KRW 20,000

■ Answer : 1

631. Which of the following combinations correctly describes which lights of an express bus must be switched on when driving at night on an expressway?

① Headlights, sidelights, taillights, license plate lights, indoor lighting

② Headlights, taillights

③ Taillights, sidelights, license plate lights

④ Taillights, sidelights

■ Answer : 1

632. According to the Road Traffic Act, which of the following is NOT true about getting on or loading in a vehicle?

① The driver must not load more persons than the number prescribed by the Presidential Decree in the vehicle that he/she is driving.

② The driver must ensure the safety of passengers, such as making sure that the doors are properly closed so that no one falls off the vehicle while driving.

③ The driver must tightly fasten or cover all cargo on his/her vehicle to prevent them from falling off.

④ For safety reasons, the driver must place an infant or an animal on his/her lap while driving.

■ Answer : 4

633. Which of the following is NOT true about preventing cargo from falling from trucks?

① Mount a closed container on the truck for transportation.

② For transportation efficiency, a truck must not exceed 120% of the load capacity.

③ Loaded cargo must be securely fastened or covered to prevent them from falling off during hard braking or turning.

④ When loading coils weighing over 7 tons, use a lever hoist to fasten 2 rows or more and use at least 2 anchor points.

■ Answer : 2

634. Which of the following is the trucks' threshold load capacity that determines the scope of load that can be transported by a driver with a Class I driver's license for large motor vehicles and a driver with a Class I driver's license for ordinary motor vehicles?

① Below 12 tons

② Below 10 tons

③ 4 tons or below

④ 2 tons or below

■ Answer : 1

635. In order for a person with a Class I driver’s license for ordinary motor vehicles to be authorized to tow another vehicle with total weight between 705 kilograms and 3 tons, which of the following should he/she additionally possess?

① Class I driver’s license for small towing vehicles

② Class II driver’s license for ordinary motor vehicles

③ Class I driver’s license for large motor vehicles

④ Class I driver’s license for recovery vehicles

■ Answer : 1

636. Which of the following driver's licenses does NOT authorize you to tow a vehicle that weighs less than 750kg?

① Class I driver’s license for ordinary motor vehicles

② Class I ordinary student license

③ Class I driver’s license for large motor vehicles

④ Class II driver’s license for ordinary motor vehicles

■ Answer : 2

637. What is the maximum permitted speed when a passenger vehicle with total weight of 5,000 kg is towing a vehicle with total weight of 1,500 kg on a road that is not an expressway?

① 50 km/h

② 40 km/h

③ 30 km/h

④ 20 km/h

■ Answer : 3

638. Which of the following is NOT a correct description of towing a vehicle?

① When towing a vehicle weighing over three tons, the driver must possess a driver's license to operate a tow truck and a class 1 large towing vehicle license.

② When a motor vehicle with gross weight of less than 2,000 kilograms is being towed by another vehicle whose gross weight is at least thrice that of the towed vehicle, it may travel at a speed of up to 30 kilometers per hour on ordinary roads.

③ When towing a vehicle on a normal road using a vehicle that is not a tow truck, the driver can drive at a speed equal to the speed limit.

④ When towing a vehicle using a vehicle that is not a tow truck, the driver must possess a driver's license for that vehicle.

■ Answer : 3

639. Which of the following is a driver's license that allows the driving of a special motor vehicle with total weight of less than 3.5 tons (excluding recovery vehicles, etc.) and manufactured to perform special tasks?

① A Class I ordinary student license

② A Class II ordinary student license

③ A Class II driver's license for ordinary motor vehicles

④ A Class I driver's license for small motor vehicles

■ Answer : 3

640. According to the Road Traffic Act, which of the following applies to the driver of a small towing vehicle?

① The driver of a small towing vehicle need not fasten his/her seat belt as he/she is on emergency duty.

② The driver of a small towing vehicle is allowed to use a mobile phone for his/her routine work while driving.

③ The driver of a small towing vehicle is required to obtain a Class I driver's license for special licenses (small towing vehicles) and carry it at all times while working.

④ The driver of a small towing vehicle may exceed the speed limit when in transit to an accident site.

■ Answer : 3

641. Which of the following is the lane to be used by a towing vehicle on an expressway with three lanes in one direction? (There is no bus-only lane)

① The first lane

② The second lane

③ The third lane

④ Any of the above

■ Answer : 3

642. Which of the following terms refers to the phenomenon wherein a towed vehicle pushes the tow truck that is in front in a linear motion during rapid deceleration or sudden braking, and the joints are folded as in an “L” shape?

① Swing-out

② Jack knife

③ Hydroplaning

④ Vapor lock

■ Answer : 2

643. Which of the following is NOT a correct description of towing a vehicle according to the Road Traffic Act?

① A driver may tow a two-wheeled vehicle using a large towing vehicle with a Class 1 driver’s license for large motor vehicles.

② A driver may drive a special vehicle for towing that weighs 3.5 tons or less with a small tow truck license.

③ A driver may tow a broken down passenger car using a 10-ton truck with a Class 1 driver’s license for ordinary motor vehicles.

④ A driver may tow a 1,500 kg vehicle using a 5,000 kg vehicle driving at 30 km/h.

■ Answer : 1

644. Which of the following statements regarding a trailer is correct?

① When turning left, a trailer must maintain a turning angle similar to the one used for passenger cars.

② Shift to neutral when driving downhill to prevent sliding.

③ The difference of radius between the inner wheels of a trailer is larger than that of a passenger car.

④ The wheelbase of a trailer is shorter than that of a passenger car.

■ Answer : 3

645. Which of the following is the safest way to drive a trailer truck loaded with cargo, traveling at a speed of 50 km/h on a road with one lane in one direction that curves to the right?

① Slowing down can cause the vehicle to overturn. It is safer to drive at an increased speed into the curve.

② Drive into the other lane to reduce the turning radius.

③ Drive into the curve at the current speed so as not to hold up the traffic behind.

④ Slow down and safely enter the curve to prevent the vehicle from rolling over due to centrifugal force.

■ Answer : 4

646. Which of the following is NOT a type of special vehicle defined by the Motor Vehicle Management Act?

① The towing type

② The rescue type

③ The general type

④ The special-purpose type

■ Answer : 3

647. Which of the following types is NOT classified as a trailer?

① A pull trailer

② A low-bed trailer

③ A semi-trailer

④ A tractor-trailer

■ Answer : 4

648. What is the definition of vehicle weight according to the Regulations on the Performance and Standards of Vehicles and Automotive Parts?

① The weight of an empty vehicle

② The weight of a loaded vehicle

③ The axle weight of an empty vehicle

④ The axle weight of a loaded vehicle

■ Answer : 1

649. When driving a vehicle towed using a camping trailer on the road, which of the following is the phenomenon wherein the towed vehicle shakes like a fish tail due to physical factors such as cross-wind?

① Jack knife phenomenon

② Swaying

③ Hydroplaning

④ Wheel alignment

■ Answer : 2

650. Which of the following must be displayed on the back or right side of a special vehicle for towing?

① Total vehicle weight and maximum permitted cargo weight

② Weight calculated by adding the vehicle's weight and maximum seating capacity

③ Weight calculated by adding the total vehicle weight and maximum seating capacity

④ Total vehicle weight, maximum permitted cargo weight, maximum permitted cargo volume, and cargo manifest

■ Answer : 2

651. Which of the following is the part that connects the tractor and the trailer of a tow truck?

① A coupler

② A kingpin

③ An outrigger

④ A boom

■ Answer : 1

652. What is the length limit prescribed for connected vehicles according to the Regulations on the Performance and Standards of Vehicles and Automotive Parts?

① 13.5 m

② 16.7 m

③ 18.9 m

④ 19.3 m

■ Answer : 2

653. Which of the following is a towed motor vehicle designed for the transport of extremely large cargo as a single or a combined double unit, and equipped with a device for weight balancing?

① A semi-trailer

② A low-bed trailer

③ A module trailer

④ A center-axle trailer

■ Answer : 3

654. Which of the following is a towing vehicle designed in such a way that a towed vehicle is partially loaded so that most of the vehicle weight and its cargo weight are shifted to the towing vehicle?

① A pull trailer

② A semi-trailer

③ A low-bed trailer

④ A center-axle trailer

■ Answer : 2

655. Which of the following statements regarding the characteristics of a trailer is correct?

① The heavy weight of a trailer makes its braking distance shorter than that of passenger cars.

② A trailer has a high risk of rolling over during sudden lane changes.

③ The high seating position of a trailer makes vehicles ahead appear to be closer than they actually are.

④ The large size of a trailer has no impact on the difference of radius between the inner wheels.

■ Answer : 2

656. Which of the following statements regarding the turning and vibration characteristics of a large truck is correct?

① Centrifugal force does not have much influence on the vibration level.

② A vehicle's height of gravitational center does not have much influence on the vibration level.

③ The turning radius and stability of a large truck can change dramatically depending on the cargo type and position.

④ Accidents involving collisions are more likely due to the vibration level of a large truck being lower than that of passenger cars.

■ Answer : 3

657. Which of the following correctly describes a rule that should be followed by the driver of a trailer?

① Routine inspection of the vehicle must take place only at the end of a shift.

② Transport of cargo must not be refused unless there is a valid reason.

③ The vehicle should be kept clean only when carrying high-priced cargo.

④ Be sure to check the placement of covers and packaging used to hold cargo in place when the destination is reached.

■ Answer : 2

658. Which lane is to be used by a recovery vehicle on an expressway with three lanes in one direction?

① The first lane

② The left lane

③ The right lane

④ Any lane

■ Answer : 3

659. Which of the following is the most appropriate method for a recovery vehicle to tow an all-wheel drive vehicle?

① Tow the vehicle from behind using another vehicle.

② Tow by lifting the all-wheel drive vehicle entirely off the ground.

③ The drive system and the towing method are unrelated.

④ The parking brakes of all vehicles being towed must be in braking state.

■ Answer : 2

660. Which of the following describes a special recovery vehicle as defined by the Motor Vehicle Management Act?

① A vehicle that is structurally designed to tow other vehicles

② A vehicle that is structurally designed to tow and salvage other vehicles

③ A vehicle that is structurally designed to salvage and tow a vehicle rendered immobile by a malfunction or an accident

④ A vehicle that is designed to perform special tasks other than the three above

■ Answer : 3

661. According to the Regulations on the Performance and Standards of Vehicles and Automotive Parts, what is the maximum length of a motor vehicle? (Not referring to connected cars)

① 13 m

② 14 m

③ 15 m

④ 16 m

■ Answer : 1

662. Which of the following is the most appropriate action for the driver of a recovery vehicle upon arrival at the scene of an accident?

① Collect the driver's license belonging to the driver of the vehicle that was involved in the accident.

② Immediately upon arrival, tow the vehicle involved in the accident to a maintenance shop.

③ Negotiate the cost of repairs with the driver of the vehicle that was involved in the accident.

④ Check the driver of the vehicle involved in the accident for any injuries, and take safety measures to prevent further accidents.

■ Answer : 4

663. Which of the following is the most desirable action for a recovery vehicle driver?

① Reach the location of a vehicle breakdown as soon as possible and tow the vehicle immediately.

② When towing a vehicle, obey the laws and safely proceed with towing.

③ Drive safely only when the towing cost by distance is expensive.

④ Ignore signals while on the way to the location of a breakdown.

■ Answer : 2

664. Which of the following is the most important consideration when a recovery vehicle is towing a broken-down vehicle from the shoulder to the travel lane?

① On an expressway, pay attention to vehicles maintaining constant speed ahead.

② Ensure the safety of people in the towed vehicle.

③ Watch out for fast-moving vehicles in the main lane.

④ There is no need to pay much attention to tow trucks as they are highly visible.

■ Answer : 3

665. Which of the following is an inappropriate measure on the part of the driver of a recovery vehicle at the scene of an accident with injured persons?

① Check the injured for consciousness.

② Check the injured for breathing.

③ Check the injured for bleeding.

④ Load the crashed vehicle onto the towing vehicle and negotiate the towing cost.

■ Answer : 4

666. Which of the following is a correct description of equipment attached to a recovery vehicle?

① The arm structure hung from the main body of the crane is called a hook.

② The device used to connect the recovery vehicle to a structure when towing is called the PTO switch.

③ The structure attached to the front and rear sides in order to secure stability during tasks is called an outrigger.

④ The device installed on the crane and on which a weighted item is hooked with a wire rope is called a boom.

■ Answer : 3

667. Which of the following is the most appropriate method for the driver of a recovery vehicle to tow a broken down vehicle with an FF layout (Front engine Front wheel drive)?

① Tow by lifting the front part of the vehicle.

② Tow by lifting the rear part of the vehicle.

③ It does not matter which part is lifted.

④ Tow by lifting the entire vehicle.

■ Answer : 1

668. The following are measures that the driver of a recovery vehicle may take at the scene of an accident. Which one is the most advisable?

① Advise the parties involved in the accident to pursue a civil settlement.

② Immediately tow the crashed vehicle without consulting the parties involved in the accident.

③ Just prepare for towing without taking any safety measures, as visibility is good in daytime.

④ Help the driver of the vehicle that crashed to calm down.

■ Answer : 4

669. Which of the following is the most appropriate measure for the driver of a recovery vehicle to take if he/she finds an injured person at the scene of an accident?

① Try to start a conversation or gently tap the injured person's shoulders to check the state of consciousness.

② If the injured person is not conscious, attempt CPR.

③ For a person with a fracture, immediately support the fractured area with a splint and wait until an ambulance arrives.

④ For severe bleeding, position the bleeding area below the heart.

■ Answer : 1

670. Which of the following is not a reason why the driver of a recovery vehicle arriving at the scene of an accident should perform emergency first-aid measures on an injured person(s)?

① To facilitate the speedy transport of the victim

② To protect the life of the injured.

③ To protect the victim's assets

④ To increase the chances of the victim's survival

■ Answer : 3

671. Which of the following terms refers to the phenomenon wherein the rear of a vehicle shakes from side to side during driving or sudden braking?

① Fishtailing

② Hydroplaning

③ Standing wave

④ Vapor lock

■ Answer : 1

672. Which of the following actions is appropriate for the driver of a recovery vehicle?

① Carry a fire extinguisher within the vehicle for early suppression of fire.

② Drive past the centerline to rush to the scene of an accident.

③ In a minor accident, persuade the drivers to settle the issue.

④ Take both the driver and the passenger, and then tow the vehicle involved in the accident.

■ Answer : 1

673. A recovery vehicle was caught driving at 145 km/h on an expressway with a 100 km/h speed limit. Which of the following corresponds to the correct demerit points and traffic penalty?

① 70 demerit points and traffic penalty of KRW 140,000

② 60 demerit points and traffic penalty of KRW 130,000

③ 30 demerit points and traffic penalty of KRW 100,000

④ 15 demerit points and traffic penalty of KRW 70,000

■ Answer : 2

674. Which of the following may be painted or marked on a recovery vehicle?

① Vehicle painting and signs similar to those used on a traffic control vehicle

② Vehicle painting and signs similar to those used on a crime investigation vehicle

③ Vehicle painting and signs similar to those used on an emergency vehicle

④ Indication of the driver's phone number to be called in case of an emergency

■ Answer : 4

675. Which of the following is the most appropriate method for the driver of a recovery vehicle to tow a broken down vehicle with an RR layout (Rear engine Rear wheel drive)?

① Tow by lifting the front part of the vehicle.

② Tow by lifting the rear part of the vehicle.

③ It does not matter which part is lifted.

④ Tow by lifting the entire vehicle.

■ Answer : 2

676. Which of the following is the most desirable way to drive a recovery vehicle when responding to an accident scene?

① Speedy arrival is the foremost priority, so it is acceptable to drive on the opposite side.

② It is acceptable to drive over the speed limit because a recovery vehicle is classified as an emergency vehicle.

③ On a congested expressway, drive along the roadside while honking loudly.

④ Drive safely to prevent more accidents, while striving to get to the scene of the accident as quickly as possible.

■ Answer : 4

677. Which of the following does NOT correspond to the classification of special motor vehicle types under the Motor Vehicle Management Act?

① Vehicle used for towing

② Vehicle used for special operation

③ Vehicle used for recovery

④ Vehicle used for emergency gas recovery

■ Answer : 4

678. Which of the following statements regarding the driving skills test for a Class I driver's license for small towing vehicles is correct?

① The participant is required to score at least 90 out of 100 to pass.

② The participant is required to pass the bent course, curved course, change of direction, and driving tests.

③ The pass criteria for the small towing vehicle test course is within 5 minutes for each course.

④ The participant will lose 5 points every time he or she fails to touch the confirmation line on each test course.

■ Answer : 1

679. When a recovery vehicle is towing a vehicle that has broken down, which of the following lights should the vehicle being towed turn on?

① Headlights and emergency flashers

② Headlights and taillights

③ Taillights, sidelights, and license plate lights

④ Left turn indicator

■ Answer : 3

680. Which of the following is an appropriate action for the driver of a recovery vehicle?

① In some instances, it is permissible for the driver of a recovery vehicle to use a police radio scanner.

② The driver of a recovery vehicle must obey the Road Traffic Act.

③ A recovery vehicle may violate the speed limit when it is on the way to the scene of an accident.

④ In the event of an accident, a recovery vehicle may proceed without regard for traffic signals.

■ Answer : 2

681. Which of the following are incorrect ways to drive in the given situation? (Select TWO)

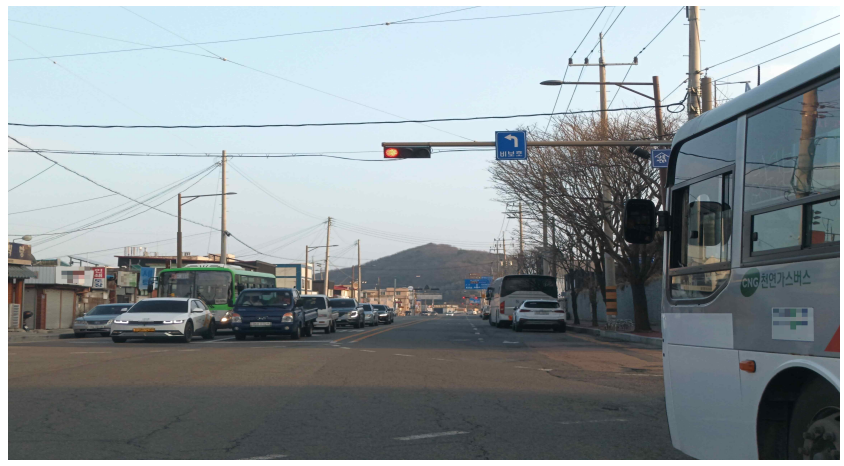
① When intending to go straight, proceed at the green traffic light.

② When intending to turn left, proceed at the green traffic light while paying attention to oncoming traffic.

③ When intending to turn left, proceed at the green left-turn arrow.

④ When intending to turn right from the first lane, stop temporarily before the stop line, and then proceed slowly.

⑤ When intending to turn right, proceed slowly along the far-right lane of the road before making the turn.



■ Intersection on a road with two lanes in one direction

■ Red traffic light

■ Unprotected left-turn sign

■ Approaching the intersection

■ Answer : 3, 4

682. Which of the following are incorrect ways to drive in the given situation? (Select TWO)

① Accelerate as much as possible to pass through the intersection before the traffic light changes.

② Continue driving in the first lane to turn right at the 4-way intersection.

③ You can go straight or turn right at the green traffic light.

④ You should stop your car before the stop line at the red traffic light.

⑤ After stopping before the stop line, you can turn right at the red traffic light.

■ A taxi stand on the right side of the road

■ A road with a series of traffic lights

■ A four-way intersection 30m ahead and a green traffic light

■ A three-way intersection 50m ahead and a red traffic light

■ Answer : 1, 2

683. Which of the following are incorrect ways to drive in the given situation? (Select TWO)

① In the first lane, you can turn right at the green traffic light.

② In the first lane, you can turn left at the green left-turn signal.

③ In the second lane, you can go straight at the green traffic light.

④ In the third lane, you should stop before the stop line and turn right at the red traffic light.

⑤ In the third lane, go straight at the green traffic light and stop at the safety zone installed within the intersection.

■ A road with three lanes in one direction

■ "Turn left" road marking on the first lane, "Go straight" on the second lane, and "Go straight or turn right" on the third lane.

■ You are about to pass through the intersection.

■ The third and fourth lanes across the intersection are under construction.

■ Answer : 1, 5

684. Which of the following are incorrect information that you can learn from the given situation? (Select TWO)

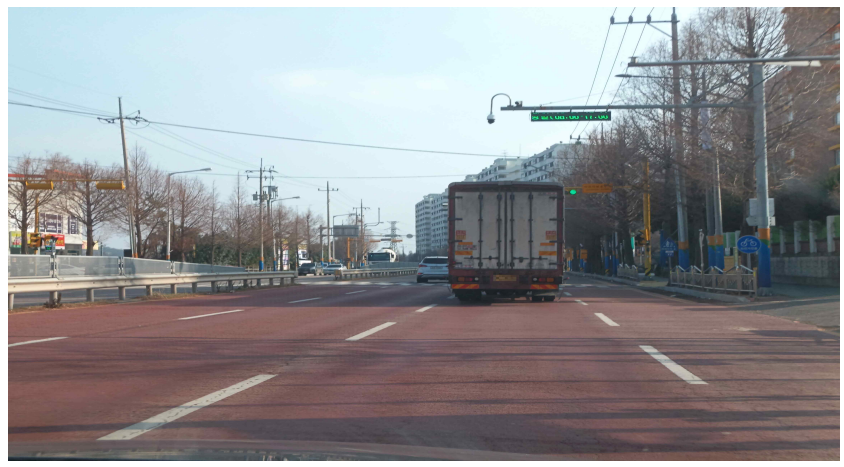
① There is a crosswalk ahead.

② The traffic light ahead is green.

③ There is an exclusive bicycle track on the right side of the road.

④ The road speed limit is 30 km/h.

⑤ The cars ahead are operating their brake pedals.



■ Answer : 4, 5

685. Which of the following pairings of information from the given situation and appropriate driving methods are incorrect? (Select TWO)

① Crosswalk – Pay attention to both sides, be cautious of pedestrians.

② Pedestrians on the roadway – Slow down and drive with caution for safety.

③ Horizontal dual-color traffic lights – Continue driving on the lane marked with a red X.

④ Reversible lane – Lane direction may change depending on the situation.

⑤ Broken yellow centerline – This line cannot be crossed even when trying to overtake a vehicle.

■ The cars on the far right are parked.

■ Answer : 3, 5

686. Which of the following pairings of information from the given situation and appropriate driving methods are incorrect? (Select TWO)

① A crosswalk sign – Drive carefully as there is a crosswalk ahead.

② A section marked with double solid yellow lines on the right side of the lane – Stopping across the sidewalk is permitted.

③ Frozen road surface – Drive at a speed reduced to 20% of the speed limit.

④ A snow removal vehicle ahead – Drive while maintaining a safe distance from the snow removal vehicle.

⑤ A truck stopped on the right side ahead - Drive with caution as pedestrians may unexpectedly come out to the driveway.

■ It had been snowing and the road surface is frozen.

■ A snow removal vehicle is driving ahead while sprinkling sand on the road.

■ The truck on the right side ahead stopped with the right-turn signal on.

■ Answer : 2, 3

687. Which of the following are inappropriate ways to drive in the given situation? (Select TWO)

① If intending to turn left, the bicycle rider must wait for the left-turn signal in the first lane.

② If intending to turn left, the personal mobility device (PMD) driver must wait for the left-turn signal in the second lane.

③ If intending to turn left, the two-wheeled vehicle driver must wait for the left-turn signal in the second lane.

④ If intending to turn right, the passenger vehicle driver must turn right while paying attention to pedestrians.

⑤ If intending to turn right, the truck driver must use the right edge of the road in advance to turn right.

■ A road with five lanes in one direction

■ A sidewalk on the right side of the road

■ The first and second lanes are left-turn lanes.

■ Answer : 1, 2

688. Which of the following are the safest ways to drive in the given situation? (Select TWO)

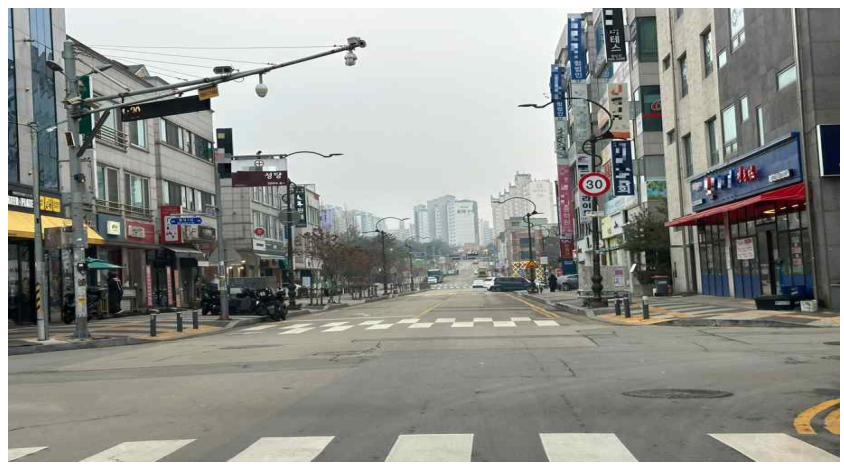
① Drive at a speed of less than 30 km/h.

② To enter the underground parking lot of a commercial building 10 meters ahead on the right, stop temporarily and drive slowly to ensure safety.

③ To enter the underground parking lot of a commercial building 10 meters ahead on the left, stop temporarily and drive slowly to ensure safety.

④ When intending to turn left, turn on the turn signal in advance, drive slowly, and turn left using the outer part of the intersection's center.

⑤ To drive a personal mobility device (PMD) at the downtown area, drive on the sidewalk.



■ An intersection at the downtown area

■ A road with one lane in one direction

■ Entrances to the commercial underground parking lots on the left and right each about 10 meters ahead

■ Answer : 1, 2

689. Which of the following pairings of information and interpretations from the given situation are incorrect? (Select TWO)

① School zone sign – Indicates a school zone where children are especially protected.

② Maximum speed limit sign – Drivers are required to drive at a speed of less than 30 km/h.

③ Crosswalk sign – Drive with caution for pedestrians.

④ Flashing red traffic light – Drive slowly.

⑤ Cars parked on the right side of the road – Take caution as pedestrians may suddenly come out from between parked cars.

■ A four-way intersection

■ Red traffic light flashing ahead

■ Parked cars on the right side of the road

■ Answer : 1, 4

690. In the given road situation, which of the following are the two safest ways of driving?

① Since the traffic signal is red, wait patiently.

② Since the pedestrians are crossing slowly, sound the horn to incite them to walk faster.

③ Stop past the stop line in front of the adjacent vehicle to ensure a smooth change of lane.

④ Anticipate the signal change and accelerate to make a quick start and allow a smooth flow of traffic.

⑤ Stop at the stop line and wait for the signal.

■ The traffic light on the left is red (installed on the left side for special reasons).

■ Pedestrians crossing the crosswalk.

■ Answer : 1, 5

691. In the given situation, which of the following are the two safest ways of proceeding?

① Turn right at the intersection without stopping before the stop line or crosswalk, proceeding slowly.

② Wait until the pedestrian has finished crossing.

③ Sound the horn and turn right quickly if a pedestrian is running into the crosswalk.

④ Stop on the crosswalk to ensure a clear field of vision when turning right.

⑤ Since the traffic signal ahead is red, make sure you stop, let the pedestrians pass, and then turn right slowly.

■ Intersection.

■ The traffic signal ahead is red.

■ Pedestrians crossing the crosswalk.

■ The pedestrian signal is green.

■ Answer : 2, 5

692. Which of the following are the safest ways to drive in the given situation? (Select TWO)

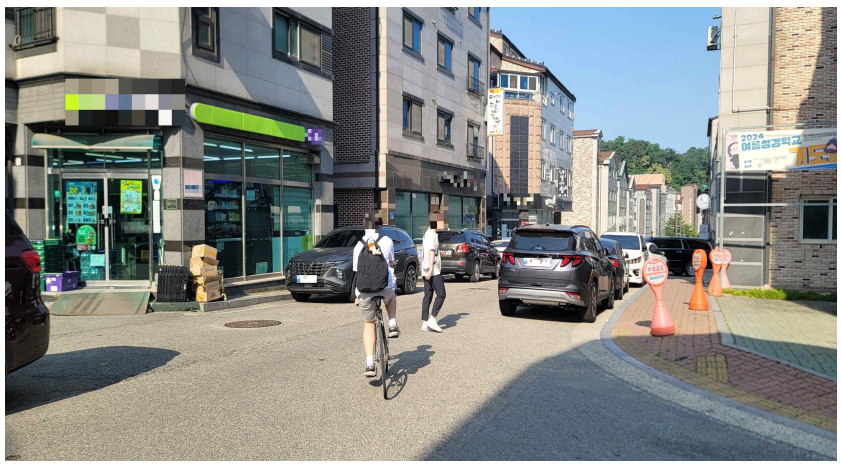
① Drive slowly or stop temporarily before proceeding so that the pedestrians on the road can walk safely.

② Continue driving with caution, as pedestrians may appear between parked vehicles.

③ Drivers are not required to protect pedestrians as it is not a school zone.

④ Parking briefly at the intersection corner is possible when visiting the store on the left.

⑤ Keep honking to pass through, as there are many parked cars and pedestrians on the unlaned roads of residential areas.



■ Answer : 1, 2

693. Which of the following are the safest ways to drive in the given situation? (Select TWO)

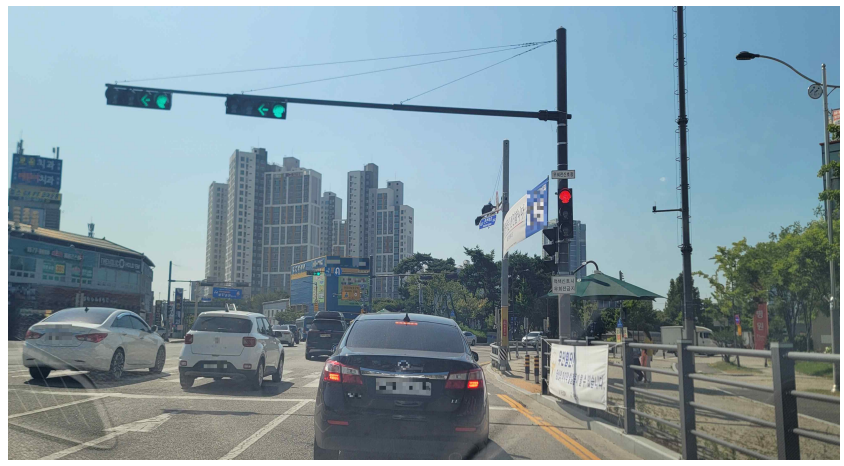
① When intending to drive straight while driving on the right turn only lane, you may change lanes in the section marked with solid white lines.

② Even if the right-turn signal is red, you can make the turn if there are no pedestrians on the crosswalk.

③ The driver must stop as the right-turn signal is red, and turning is allowed only when the light changes to green.

④ If intending to turn right while traveling in a straight lane, turning right is allowed in a lane other than the right turn only lane.

⑤ Even if the right-turn signal is green, you should turn while ensuring safety as there can be pedestrians.



■ A road with four lanes in one direction

■ Green traffic light ahead with green left-turn signal

■ Driving on a right turn only lane

■ The right-turn signal is red

■ Answer : 3, 5

694. Which of the following descriptions about traffic safety signs are correct in the given situation? (Select TWO)

① An automobile road sign means that no vehicles other than a car are allowed.

② An unprotected left-turn sign means you can turn left safely regardless of the traffic light.

③ The double solid yellow lines on the right indicate that parking is possible for a brief time.

④ The blue sign depicting a car ahead on the right side is an instructional sign among traffic safety signs.

⑤ The solid white line before the stop line at the intersection is a mark indicating that there is an intersection ahead.

■ Entrance to an automobile road on the right

■ A road with four lanes in one direction

■ A right turn only lane

■ Green traffic light ahead

■ Answer : 1, 4

695. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Proceed quickly as there are no vehicles in the same direction.

② Slow down before entering the intersection as it is difficult to see the situation ahead on a downhill road curved to the left.

③ Drive while being cautious of vehicles that may come out of the apartment onto the roadway.

④ If a car on the opposite side is turning left, honk as a warning as vehicles going straight always have the right of way.

⑤ Honk and speed up to drive quickly as you pass the apartment driveway when you do not see any pedestrians crossing the area.

■ A downhill road curved to the left with two lanes in one direction

■ Apartment entrance and exit roads on the right

■ A three-way intersection with no traffic lights

■ Answer : 2, 3

696. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Pass through the road quickly, as there are pedestrians on the right side of the road.

② Check the traffic situation via the road mirror for areas that are difficult to see.

③ Look carefully before entering the intersection and drive slowly, as there are vehicles in the alley on the left.

④ Keep honking to warn others when driving on an uphill road that curves to the right as it is difficult to see what is ahead.

⑤ Even if there is a vehicle coming down the road from the opposite direction, the vehicle going uphill has the right of way, so proceed without slowing down.

■ An uphill road curved to the right with no centerline

■ An alley on the left

■ Answer : 2, 3

697. Which of the following are the safest ways to drive in the given situation? (Select TWO)

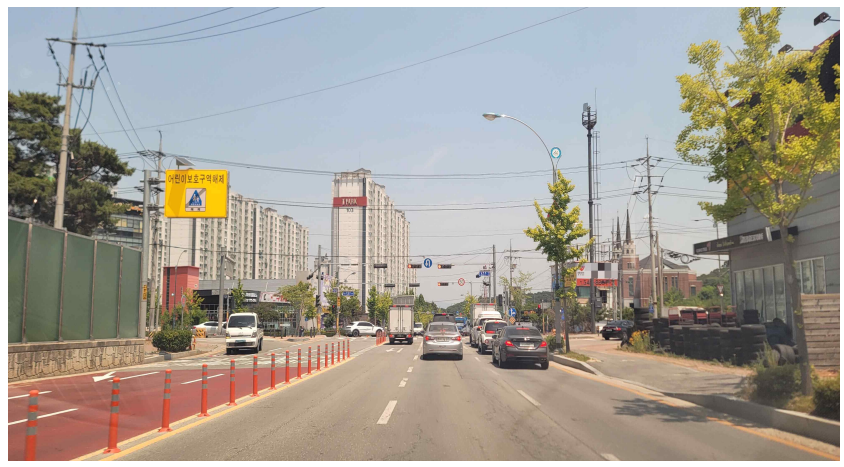
① You should slow down and stop before the stop line safely as the traffic light ahead is red.

② There is no need to pay special attention to children's safety on the current road, as there is a sign indicating the end of the school zone.

③ When intending to turn left, watch out for trailing vehicles in the first lane in advance and change lanes safely.

④ When intending to turn right, use the sidewalk to avoid vehicles waiting for the signal in the third lane.

⑤ Stopping briefly is allowed as the solid yellow line on the right side of the road indicates that stopping is allowed but parking is prohibited.



■ Red traffic light ahead

■ End school zone sign on the left

■ The first lane is for U-turns and left turns

■ The third lane is for going straight and right turns

■ Answer : 1, 3

698. Which of the following are the safest ways to drive in the given situation? (Select TWO)

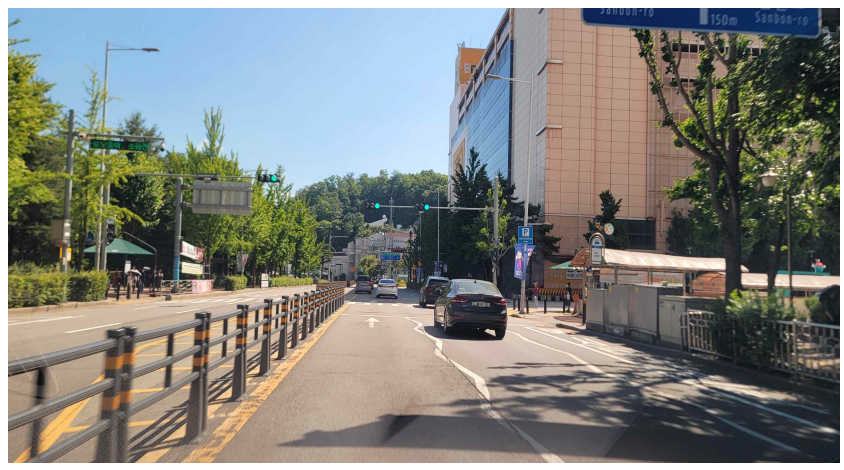
① Making a U-turn at an intersection with three-color traffic lights is allowed even if there is a no U-turn sign, as long as it does not interfere with other vehicles.

② You cannot change lanes as the solid white zigzag line restricts lane changes.

③ You should slow down as the solid white zigzag line means reduce speed.

④ If you want to turn right while traveling in the first lane, turn on the turn signal and move to the third lane at once if there are no trailing vehicles.

⑤ Come to a sudden stop before the stop line and wait, as the traffic signal ahead may change to red even if it is currently green.



■ A three-way intersection ahead

■ Answer : 2, 3

699. Which of the following are the safest ways to drive in the given situation? (Select TWO)

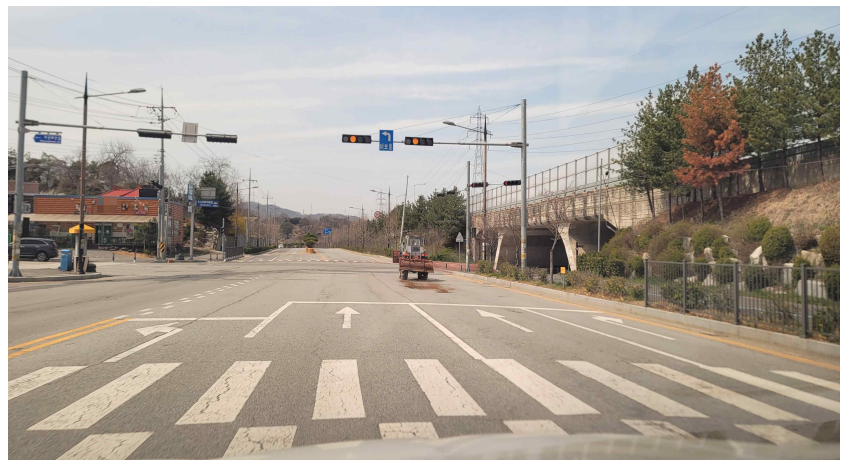
① When intending to turn right, turn right directly from the straight lane as the road is not busy.

② Keep honking and speed up to pass through the intersection as an agricultural machine is driving ahead.

③ Slow down to enter the intersection as it is difficult to see vehicles entering from the underpass on the right side.

④ You can park on the right side of the road as the road has light traffic.

⑤ If there are pedestrians crossing the street, stop temporarily to ensure their safety before proceeding.



■ Flashing yellow traffic light ahead

■ Underpass on the right

■ Answer : 3, 5

700. In the given situation, which of the following are the two safest ways of proceeding?

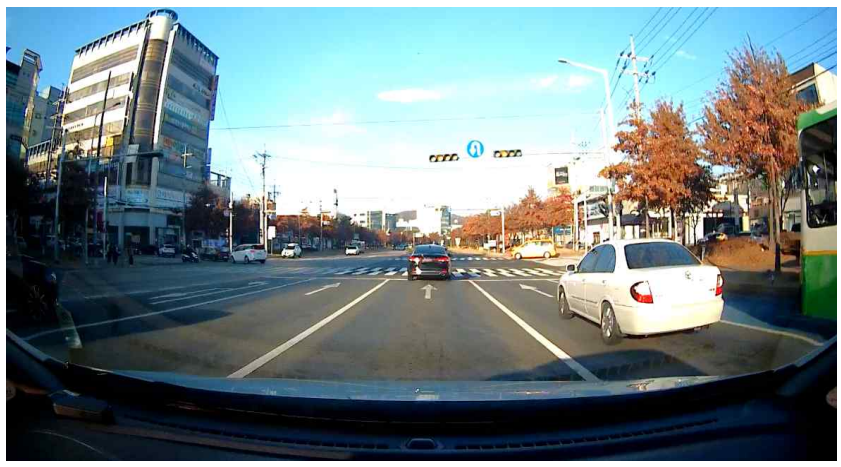
① Slow down gradually and stop immediately before the stop line as the signal is yellow.

② Check the rear of lanes 1 and 2, and if there are no vehicles, switch to lane 1 to make a U-turn.

③ Let the white vehicle and the bus in lanes 4 and 5 pass you before changing lanes to turn right.

④ Do not change lanes as you are driving on a section of road marked by a solid white line.

⑤ Accelerate to follow the vehicle ahead as the signal ahead is yellow.



■ The traffic signal ahead is yellow (and about to turn red).

■ U-turn sign ahead.

■ Vehicle in lane 3, white car in lane 4, bus in lane 5.

■ Crosswalk ahead.

■ Answer : 1, 4

701. Which of the following are incorrect ways to drive in the given situation? (Select TWO)

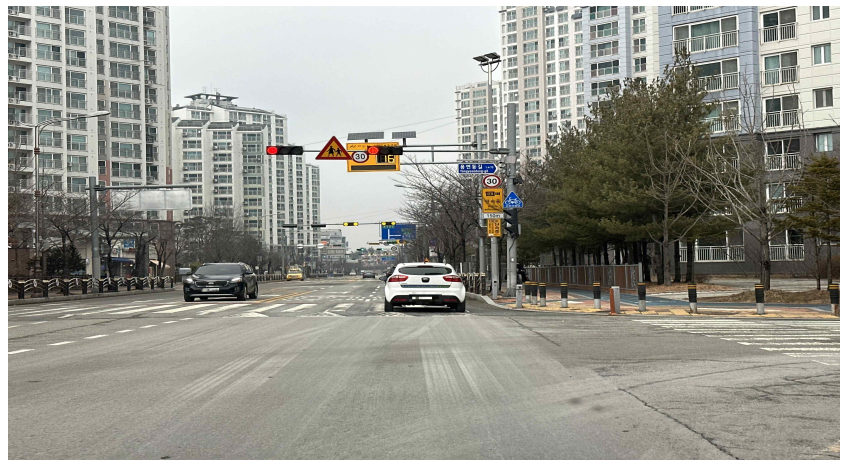
① Stop just before the stop line to travel straight.

② To make a U-turn, make the turn safely from the second lane through the intersection if there are no vehicles ahead.

③ Stop briefly before the crosswalk to drop off a passenger.

④ To turn right, stop before the stop line and slowly turn right.

⑤ If you are using a crosswalk, you must dismount from the bicycle and walk with it.



■ A road with two lanes in one direction

■ Horizontal three-color traffic light on red

■ Answer : 2, 3

702. Which of the following pairings of information and interpretations from the given situation are incorrect? (Select TWO)

① A vehicle parked on the right side of the road - This is a parking violation.

② A pedestrian crossing – There is a crosswalk ahead.

③ Solid yellow line on the right side of the road - Parking is prohibited, but stopping is allowed.

④ Sidewalk - Bicycle riders must ride on the sidewalk.

⑤ Speed bump - It is advisable to slow down.

■ A vehicle parked on the right side of the road

■ Current time is 16:00.

■ Answer : 3, 4

703. Which of the following are correct in the given situation? (Select TWO)

① The driver can use a mobile phone while driving slowly.

② The driver can use a mobile phone during a stop.

③ The driver cannot use a mobile phone but can operate a display device while traveling slowly.

④ The driver is obligated to wear a seat belt in downtown streets.

⑤ Passengers are not obligated to wear a seat belt in downtown streets.

■ Vehicles without autonomous driving systems

■ Answer : 2, 4

704. Which of the following are incorrect driving behaviors for each driver in the given situation? (Select TWO)

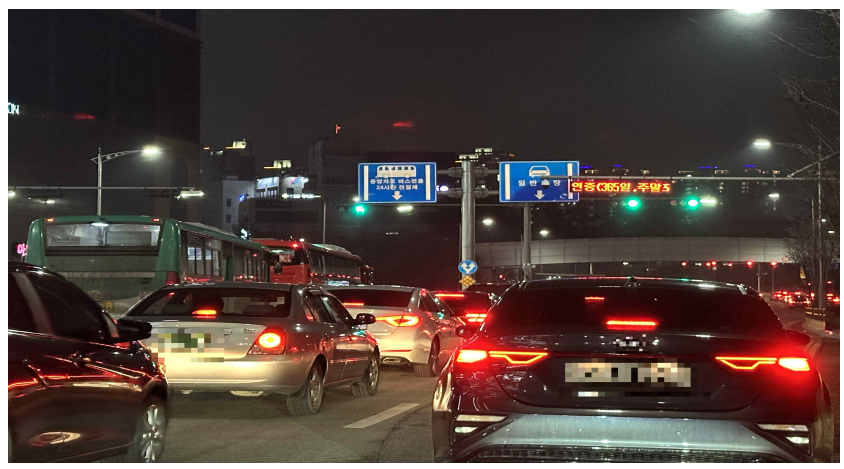
① Bicycle riders - Overtaking other vehicles is allowed on the far right side of the road.

② Electric kick scooter riders - Both the driver and the passenger must wear helmets.

③ Two-wheeled vehicle drivers - Two-wheeled vehicles are allowed to drive on bus-only lanes to avoid congestion.

④ Passenger vehicle drivers - Drive with caution to avoid collision in congested roads.

⑤ Bus drivers - Follow the general traffic light when driving in a lane other than the bus-only lane, instead of following the bus-only traffic lights.



■ Congested roads

■ Roads with exclusive median bus lanes

■ Answer : 2, 3

705. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Drive while keeping in mind that pedestrians may appear from behind parked vehicles.

② Keep your distance from pedestrians on the right and stop temporarily or pass them slowly.

③ Speed up and move quickly when the roads are slippery as the snow has been accumulated.

④ Accelerate 20 percent above the maximum speed on snowy roads.

⑤ Keep honking while driving to avoid sudden changes in pedestrian behavior.

■ An uphill alley in a residential area

■ Answer : 1, 2

706. Which of the following are the safest ways to drive in the given situation? (Select TWO)

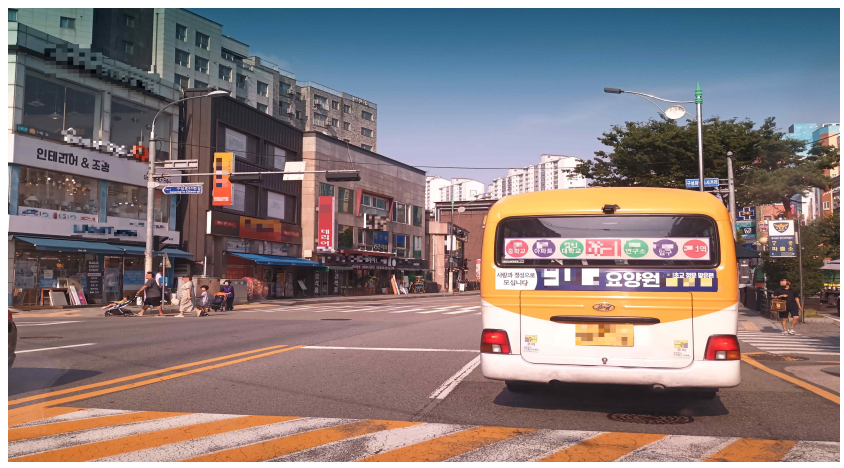
① Honk to induce the bus ahead to increase speed.

② Check your surroundings and move into the first lane.

③ Turn on the hazard lights, and then speed up to switch to the first lane.

④ You need not pay attention to pedestrians who may appear in front of the bus as you are switching to the first lane.

⑤ If there is a vehicle behind in the first lane, do not force yourself to change lanes but wait behind the bus.



■ A road with two lanes in one direction

■ A stopped town bus ahead

■ Driving on the second lane

■ Answer : 2, 5

707. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Keep honking to warn pedestrians and speed up to proceed quickly.

② There is no need to anticipate sudden actions by pedestrians on the left side of the centerline.

③ Proceed at a low speed while carefully checking both sides, as there may be vehicles that suddenly start moving among the parked vehicles.

④ Maintain a distance from pedestrians on the right and drive slowly while paying attention to safety.

⑤ In residential areas, it is generally safer to use the left side of the centerline.

■ A road with one lane in one direction in a residential area

■ Cars parked on the left and right sides of the road

■ Answer : 3, 4

708. Which of the following are the safest ways to drive in the given situation? (Select TWO)

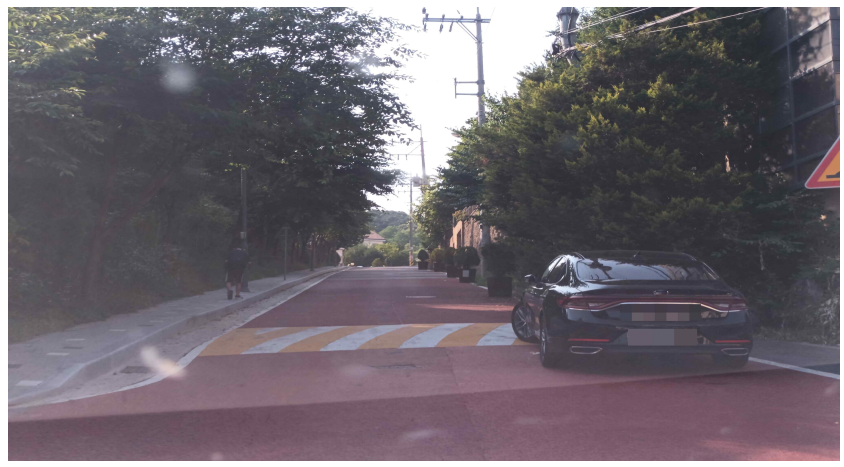
① Keep honking while driving for safety.

② There is no need to be cautious of pedestrians walking on the left sidewalk.

③ Turn on the hazard lights, and then speed up to proceed quickly.

④ Maintain a safe distance from oncoming traffic on the right.

⑤ This is an unlaned road in the residential area, so slow down in anticipation of pedestrians potentially coming out.



■ An unlaned road in a residential area

■ The vehicle on the right is about to move.

■ Answer : 4, 5

709. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Drive slowly or stop temporarily to protect pedestrians crossing the road.

② Proceed quickly as there is no obligation to protect pedestrians who are crossing the road.

③ Anticipate that doors may potentially open on cars parked on the right side of the road.

④ If there is not enough space for parking, parking in the red curb zone on the left side ahead is allowed.

⑤ You can speed up as you need not watch out for people stepping out from behind parked cars.

■ Vehicles parked on the left and right sides of the road

■ Answer : 1, 3

710. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Proceed with caution as vehicles or pedestrians may enter from the right alley.

② Drive as close to the pedestrian as possible on the right side, as there is no centerline.

③ Speed up as there is no speed limit sign.

④ Drive on the right side of the road while constantly honking to signal pedestrians to clear the path.

⑤ Slow down or stop temporarily when you are obstructing the pedestrians' passage.

■ An unlaned uphill road in a residential area with no sidewalks

■ A three-way intersection with an alley on the right

■ Answer : 1, 5

711. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Speed up as the road is not busy.

② Drive within the prescribed speed depending on the weather conditions.

③ Keep a close eye on traffic, as there is ongoing construction ahead.

④ Drive across two lanes as the road surface is slippery.

⑤ Drive closely behind a truck driving slowly.

■ Snowy weather condition

■ Answer : 2, 3

712. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Stop temporarily and check the safety of pedestrians ahead before moving.

② Just proceed as there is no obligation to protect pedestrians who are crossing the road.

③ Watch out for pedestrians behind the white parked vehicle on the right.

④ Honk loudly to prevent pedestrians from crossing the road.

⑤ Make a sudden stop in front of the pedestrian to alert him/her.

■ Answer : 1, 3

713. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Slow down to proceed as there is a construction sign.

② Speed up and drive with the high-beam headlights on to alert the vehicle that crossed the centerline ahead of you.

③ Turn on the hazard lights, and then speed up to proceed quickly.

④ Slow down to avoid an accident and watch out for vehicles from behind.

⑤ Stopping is not allowed at the right-side edge of the road.

■ Construction site on the road ahead

■ White lined zone on the rightmost side of the road

■ A passenger vehicle overtaking a slow-moving truck ahead

■ Answer : 1, 4

714. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Drive while paying attention to the thin ice on the road in winter.

② Parking the car is allowed as the road is not busy.

③ Changing lanes is allowed.

④ Overtaking is not allowed when driving on a bridge.

⑤ Drive closely behind the truck to warn the truck about changing lanes.

■ On a bridge during winter

■ A truck ahead changing lanes from the first to the second

■ Answer : 1, 4

715. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Proceed with caution, as the two-wheeled vehicle ahead may suddenly enter into the middle of the road.

② Speed up as the road is not busy.

③ Maintain a safe distance from the two-wheeled vehicle.

④ Keep honking repeatedly and speed up to overtake.

⑤ Stay close to the two-wheeled vehicle to avoid crossing the centerline.

■ Answer : 1, 3

716. In the given situation, which of the following are the two safest ways of driving?

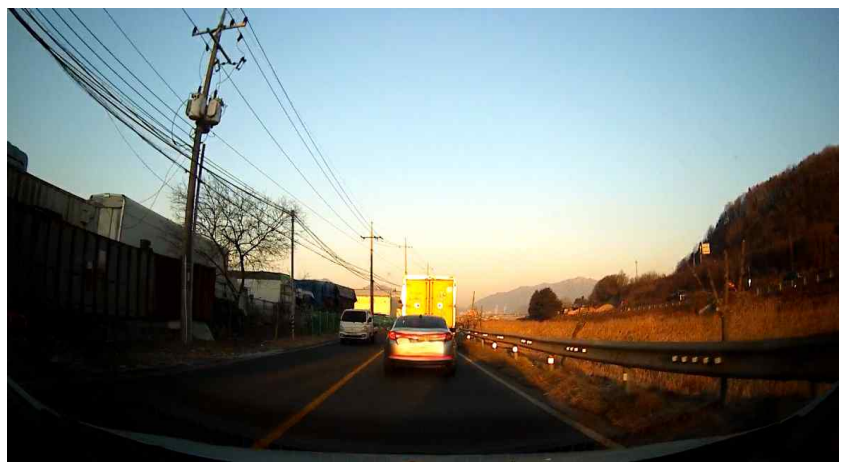
① Since it is darker than during the day at sunset, turn on the high beams and sound the horn continuously while driving.

② Let the vehicles coming from the opposite direction pass so as to secure a clear field of vision, and then overtake quickly.

③ Keep a safe distance from the truck ahead as sudden or unexpected situations may require the truck to make an emergency stop.

④ Do not overtake as overtaking is prohibited due to the solid centerline.

⑤ Sound the horn to incite the vehicle ahead to go faster.



■ Sunrise.

■ Solid centerline.

■ Vehicle ahead and oncoming traffic.

■ Answer : 3, 4

717. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① The yield sign on the right is the one that entering vehicles must follow.

② The driver must overtake to the left side of the car ahead when intending to do so within a roundabout.

③ All vehicles may use the exit to 1 o'clock without restriction.

④ Pass immediately as vehicles traveling through the roundabout have the right of way over vehicles entering the roundabout.

⑤ The driver must turn on the turn signal when exiting a roundabout.

■ Answer : 1, 5

718. Which of the following are traffic safety signs that cannot be observed in the given situation? (Select TWO)

① Crosswalk sign

② No Left Turn sign

③ Roundabout sign

④ No Parking or Stopping sign

⑤ Road Closed sign

■ Answer : 3, 5

719. Which of the following are the safest ways to drive in the given situation? (Select TWO)

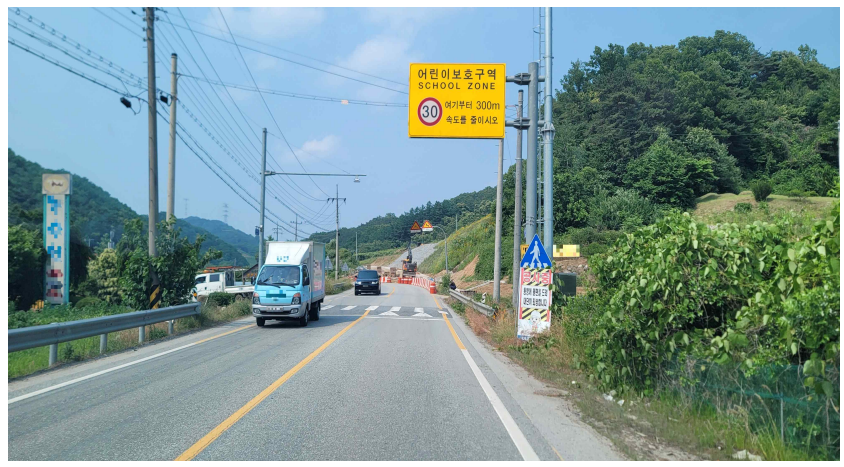
① Drive within the maximum speed limit, and be prepared for sudden hazards as you are driving in a school zone.

② Proceed quickly if there are no work vehicles even if it is a construction site.

③ Turn on the hazard lights, and then speed up to proceed.

④ There is no need to pay attention to the road conditions as the road is not busy.

⑤ At a crosswalk, you must come to a complete stop before proceeding even if no pedestrians are present.



■ Answer : 1, 5

720. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① The pedestrian is trying to walk across the roadway, so stop temporarily before proceeding to ensure the pedestrian's safety.

② Speed up as there is no obligation to protect pedestrians in an unlaned road.

③ If there are vehicles following, turn on the hazard lights to alert them of the dangerous situation.

④ Honk repeatedly to prevent the pedestrian from crossing the road.

⑤ Make a sudden stop in front of the pedestrian to alert him/her.

■ An unlaned road with no centerline

■ A passenger about to cross the road

■ Answer : 1, 3

721. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Keep driving while ensuring the pedestrian's safety, even if the pedestrian is jaywalking.

② Keep driving as there is no need to protect a jaywalking pedestrian.

③ Honk loudly to prevent the pedestrian from jaywalking.

④ Turn on the hazard lights to alert the trailing vehicles of the dangerous situation.

⑤ Stop directly in front of the jaywalker and teach him/her a lesson.

■ A road in front of a shopping center with heavy traffic

■ A jaywalker ahead

■ Answer : 1, 4

722. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① To overtake, wait for the passenger vehicle traveling in the left lane to pass, and then move into the left lane to overtake safely.

② You cannot park on a road over a bridge.

③ You can change lanes from the second to the first.

④ You cannot overtake on a road over a bridge.

⑤ If the vehicle ahead is driving slowly, follow closely behind it.

■ A four-lane (two lanes in each direction) road above a bridge

■ Answer : 2, 4

723. Which of the following are the safest ways to drive in the given situation? (Select TWO)

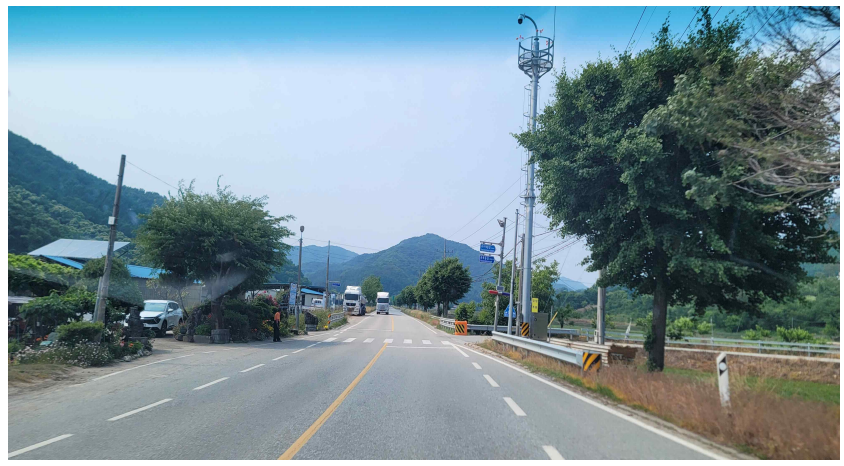
① Honk repeatedly to warn the pedestrian standing on the left side and proceed quickly.

② Proceed without anticipating any potential hazards.

③ Proceed slowly in preparation for a vehicle entering from the right side of the road ahead.

④ Speed up and pass through quickly as the intersection has no traffic lights.

⑤ Stop temporarily before the stop line before the crosswalk.



■ A crosswalk ahead

■ A pedestrian standing on the left side to cross the crosswalk

■ A three-way intersection with no traffic lights

■ Answer : 3, 5

724. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Keep your eyes on the road ahead as the road is under construction.

② The road surface is uneven, so it is safe to proceed quickly without slowing down.

③ Take caution of oncoming traffic and drive slowly.

④ Keep honking to warn the parked construction vehicle on the right and speed up to proceed quickly.

⑤ Maintain your speed until the vehicle approaching from the opposite direction gets closer, and then make a sudden stop.

■ Road under construction

■ Oncoming traffic

■ A construction vehicle parked on the right side of the road

■ Answer : 1, 3

725. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① It is safe to travel in a clockwise direction at a roundabout.

② When entering a roundabout, slow down or come to a complete stop before entering.

③ Within a roundabout, a vehicle that is already inside the roundabout must yield the right of way to a vehicle entering the roundabout.

④ Proceed without turning on the turn signal when exiting a roundabout.

⑤ If a vehicle is signaling to enter a roundabout, the vehicle behind it must not obstruct the progress of the front vehicle.

■ Roundabout

■ Answer : 2, 5

726. Which of the following are the correct ways to change lanes in the given situation? (Select TWO)

① A passenger car driving in the second lane can switch to the first lane.

② A passenger car driving in the first lane cannot switch to the second lane.

③ You can switch from the entry lane directly to the first lane.

④ A passenger car traveling in the second lane cannot switch to the entry lane.

⑤ Lane changes are allowed in all lanes.

■ You are entering the main lane from the on-ramp on the right side of the road.

■ Answer : 2, 4

727. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Stop temporarily on the shoulder and exit.

② Exit at the section marked with both dotted and solid white lines.

③ If you pass the off-ramp, reverse the vehicle and attempt to exit at the intended location.

④ As the road surface is slippery, slow down sufficiently to change lanes safely.

⑤ If you are stuck in traffic, try to exit quickly even if you have to cut in.

■ An automobile road

■ Slippery roads due to snow

■ Trying to switch from the second lane to the off-ramp on the right side of the road

■ Answer : 2, 4

728. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Slow down and check the situation ahead for safety.

② Switch to the right lane from the second lane and proceed after overtaking the truck.

③ Reduce the speed by 10 percent of the maximum speed limit due to the snow.

④ Lane changes are not allowed in sections marked with white dotted lines.

⑤ Check the icy road conditions, and be mindful of the traffic behind you while driving.

■ Snow blowing off the truck ahead

■ Slippery road due to snowy weather

■ Answer : 1, 5

729. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Turn on the left-turn signal, maintain a safe distance, and exit to the right when appropriate.

② Watch out for the traffic ahead and behind you as you exit the off-ramp.

③ If you miss the off-ramp, reverse the vehicle and try to get back to the intended route.

④ You need not use the turn signal if there are no vehicles on the off-ramp.

⑤ Increase the distance between you and the car ahead to avoid skidding.

■ Slippery road due to snowy weather

■ An automobile road

■ You are approaching the off-ramp on the right side of the road.

■ Answer : 2, 5

730. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Switch to the third lane and overtake quickly, as there are no vehicles ahead in that lane.

② Use the high-beam headlights continuously on the truck ahead to make it yield.

③ Tailgate closely behind the slow-moving truck ahead.

④ Overtaking is prohibited in tunnels.

⑤ Do not try to overtake, as there are many vehicles in the left lane.

■ Slippery road due to snowy weather

■ A slow-moving truck ahead in the same lane

■ You are trying to overtake the truck ahead in the second lane.

■ Answer : 4, 5

731. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Since the road is slippery, switch to the third lane and slow down before exiting the tunnel.

② Speed up as you exit the tunnel since you do not know the situation outside the tunnel.

③ Switch to the first lane and speed up, as lane changes are allowed inside the tunnel.

④ Slow down and drive slowly, as the road outside the tunnel may be slippery.

⑤ Be cautious of light adaptation when exiting the tunnel.

■ Slippery road outside the tunnel due to snowy weather

■ Answer : 4, 5

732. Which of the following road safety facilities shown in the given situation and their interpretations are incorrect? (Select TWO)

① Vehicle width limit sign - Restricts the passage of vehicles exceeding the width indicated on the sign (including the width of the loaded cargo)

② No motorcycle or two-wheeled vehicle passage sign - Prohibits the passage of motorcycles and two-wheeled vehicles

③ Automobile road sign - Indicates that the road is an automobile road or a vehicle-only area

④ Traffic light (flashing red light) - You can drive slowly while paying attention to other traffic or safety signs.

⑤ Centerline - Indicates that vehicles should keep to the right side where the sign is posted.

■ 4-way intersection and entrance to a motorway

■ Flashing red traffic light

■ Answer : 1, 4

733. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① You can change lanes without using the turn signal in lanes where lane changes are allowed.

② A car traveling in the first lane can switch to the second lane.

③ You can merge from the on-ramp directly into the first lane.

④ A car traveling in the second lane can switch to the first lane.

⑤ You can switch from the second lane to the entry lane.

■ An automobile road

■ You are entering the main lane from the on-ramp on the right side of the road.

■ Answer : 2, 4

734. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Change lanes to exit on the section marked with a combination of dotted and solid white lines.

② Stop temporarily on the left shoulder and proceed.

③ If you pass the off-ramp, reverse the vehicle to exit at the intended location.

④ Drive to the left off-ramp, taking into account the traffic behind you.

⑤ You can switch to the right lane after entering the off-ramp.

■ An automobile road

■ Exiting to the left off-ramp

■ Answer : 1, 4

735. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① If traffic is congested on the off-ramp, pass through the safety zone to exit quickly.

② When entering the off-ramp, stay close to the vehicle ahead to prevent other vehicles from cutting in.

③ Change lanes to exit on the section marked with a combination of dotted and solid white lines.

④ If you realize you have taken the wrong route after switching to the right off-ramp, go back to the main lane on the left to proceed.

⑤ Turn on the right-turn signal when switching to the off-ramp.

■ An automobile road

■ Switching from the second lane to the off-ramp on the right

■ Answer : 3, 5

736. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① You can switch to the second lane in sections marked with solid white lines before entering the underpass.

② In an underpass, drive with the headlights on at a safe speed while paying attention to the road ahead.

③ You can overtake slower vehicles in the underpass, even in sections marked with solid white lines.

④ Keep a safe distance from the vehicle ahead in an underpass.

⑤ If you enter an automobile road by mistake, reverse safely and proceed.

■ An automobile road

■ Entrance to an underpass

■ Answer : 2, 4

737. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Honk or use the high-beam lights continuously to prevent the truck from changing lanes.

② Yield to the truck to allow it to change lanes safely.

③ Speed up to follow closely behind the truck.

④ Make a sudden lane change into the third lane, regardless of the vehicle behind you, and quickly move away from the truck.

⑤ Drive with caution at a reduced speed while checking the situation behind you using the rear-view and side-view mirrors

■ An automobile road

■ A slow-moving truck in the first lane is switching to the second lane.

■ You are traveling in the second lane.

■ Answer : 2, 5

738. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① To overtake the truck ahead, use the high-beam headlights or honk continuously to make it yield.

② Use the fourth lane to overtake quickly.

③ Drive as closely as possible to the truck ahead before overtaking.

④ Turn on the left-turn signal in advance, maintain a safe distance, and use the second lane to overtake.

⑤ When changing lanes, watch out for vehicles in the left lane and avoid forcing an overtaking maneuver.

■ An automobile road

■ The truck ahead is traveling slowly.

■ You are traveling in the third lane.

■ Answer : 4, 5

739. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Check the location and speed of vehicles in the third lane, and change lanes after ensuring safety.

② Slow down as much as possible when entering the third lane.

③ Make a sudden lane change even if you have not secured a safe distance in the third lane.

④ Turn on the turn signal in advance and check for safety before changing lanes.

⑤ Turn on the turn signal as you begin changing lanes, since other drivers will not yield if the signal is turned on in advance.

■ An automobile road

■ Switching from the second lane into the third lane

■ Answer : 1, 4

740. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Move to the first lane to avoid the lane-changing truck.

② Check the traffic behind you and slow down to avoid colliding with the truck.

③ Speed up as you exit the tunnel, as it is short and you can see the situation outside.

④ Turn on the headlights when entering the tunnel.

⑤ If the truck moves into the third lane and increases its distance from the passenger car ahead, follow as closely as possible behind the car.

■ An automobile road

■ The truck ahead switches from the second lane into the third lane

■ You are traveling in the second lane.

■ Answer : 2, 4

741. Which of the following are incorrect ways to drive in the given situation? (Select TWO)

① Hi-Pass users should switch to the Hi-Pass lane in advance.

② You need not pay attention to oncoming traffic, as there is no need to stop in the Hi-Pass lane.

③ If you intend to pay in cash or card, move to the correct lane in advance.

④ If you intend to pay in cash but find yourself in the wrong lane, reverse to go to the correct lane.

⑤ Maintain your speed within 30 km/h when passing a tollgate.

■ Answer : 2, 4

742. Which of the following pairings of information from the given situation and safe driving methods are incorrect? (Select TWO)

① Falling objects on the road - Turn on the hazard lights to alert oncoming traffic of the hazard.

② First lane - Passenger vehicle drivers are allowed to overtake on weekdays.

③ Colored guide lines on the third lane - This lane is used as an exclusive bus lane on weekdays.

④ Rest area sign - Indicates a rest area ahead on the right.

⑤ A road with three lanes in one direction - Truck drivers can travel in the first lane to overtake.

■ Area near the Cheongju Rest Area on Gyeongbu Expressway on a weekday afternoon

■ An expressway with three lanes in one direction

■ All cars in the photo are traveling at speeds of 90-100 km/h.

■ Answer : 3, 5

743. Which of the following are the most incorrect ways to drive in the given situation? (Select TWO)

① Only buses can travel on exclusive bus lanes.

② Passenger vehicles may use the first lane to overtake the trucks ahead.

③ Maintain a safe distance from the trucks ahead, and be cautious of falling objects.

④ Vehicles traveling in the variable lane must switch to the third lane.

⑤ 5-ton trucks are not allowed to exit onto Oksan IC.

■ An expressway with three lanes in one direction

■ Area near Cheongju and Oksan ICs bound from Seoul on Gyeongbu Expressway on a weekday afternoon

■ The rightmost side of the road is a variable lane.

■ All cars in the photo are traveling at a speed of 90-100 km/h.

■ Answer : 1, 2

744. Which of the following are the incorrect ways to drive in the given situation? (Select TWO)

① Gradually slow down.

② Watch out for construction vehicles ahead.

③ Keep a safe distance from the vehicle ahead.

④ Stop briefly behind the construction vehicle to use your mobile phone.

⑤ If you decide not to stop at a rest area, immediately switch to the third lane with the turn signal on, while keeping an eye on the left side-view mirror.

■ A road with three lanes in one direction, excluding a deceleration lane

■ Completely entered the rest area entrance on the expressway

■ Answer : 4, 5

745. Which of the following are the unsafe ways to drive in the given situation? (Select TWO)

① You cannot pass through a variable lane.

② Drive with caution as there is a foggy area 1 kilometer ahead.

③ Drive on the shoulder to avoid the average speed camera ahead.

④ Trucks may use the second lane to overtake.

⑤ Passengers on trucks are not obligated to wear a seat belt on expressways.

■ An expressway with four lanes in one direction, including a variable lane

■ Answer : 3, 5

746. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① When intending to move to another lane after entering a High-Pass lane, reverse to move to the intended lane.

② If you are not equipped with a Hi-Pass device, you must stop to pay in the Hi-Pass lane before passing through.

③ If you intend to pay in cash or card, move to the correct lane in advance.

④ You need not pay attention to oncoming traffic, as there is no need to stop in the Hi-Pass lane.

⑤ It is safe to maintain speed within 30 km/h when passing a Hi-Pass tollgate.

■ Driving on an expressway

■ Driving on a Hi-Pass lane

■ Answer : 3, 5

747. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Proceed quickly as there is a vehicle notifying about the construction ahead in the first lane.

② Gradually slow down while paying attention to the situation ahead.

③ Turn on the hazard lights to alert oncoming traffic of the hazard.

④ Make a sudden lane change into the third lane to avoid the construction vehicle.

⑤ Honk repeatedly to alert others and pass through, as vehicles traveling on the expressway have the right of way over construction vehicles.

■ An expressway with three lanes in one direction

■ Construction vehicle stopped in the first lane

■ You are traveling in the second lane.

■ Answer : 2, 3

748. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① You can change lanes regardless of the distance between vehicles, as the truck travels at a low speed.

② Maintain a safe distance when changing lanes, as it may interfere with the truck's normal passage.

③ Always accelerate as fast as you can when changing lanes.

④ Check the truck's position and speed before changing lanes carefully.

⑤ Once you have secured a safe distance, there is no need to turn on the turn signal.

■ An expressway with three lanes in one direction

■ A truck traveling in the third lane

■ You are about to change lanes from the second to the third

■ Answer : 2, 4

749. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Parking is prohibited inside a tunnel, but you can make emergency stops in certain areas.

② Wear sunglasses while driving inside the tunnel, even if it is dark.

③ Even if you are in the section marked with solid white lines inside a tunnel, you can change lanes if the traffic flow in both left and right lanes is not congested.

④ Speed up to pass quickly as the speed limit does not apply in a tunnel.

⑤ Slow down and take caution as it can be windy around tunnels.

■ A road with three lanes in one direction

■ Tunnel entrance

■ Answer : 1, 5

750. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Quickly step on the brakes to slow down, as there is a traffic enforcement camera ahead.

② Slow down in advance to drive safely.

③ If you entered a lane by mistake, you may change lanes using the safety zone.

④ Make a sudden lane change into the right lane to avoid a speed camera.

⑤ Maintain your speed within 50 km/h.

■ Near on- and off-ramps of an expressway

■ Answer : 2, 5

751. If the accelerator pedal gets stuck in the driver's seat mat and continues to accelerate, which of the following are the ways to stop safely or slow down? (Select TWO)

① Press the brake pedal as hard as you can.

② Continuously press the hazard light button.

③ Keep honking firmly while driving.

④ Continuously operate the electronic parking brake (EPB).

⑤ Steer the steering wheel strongly to the left and right.

■ Answer : 1, 4

752. Which of the following descriptions regarding the given situation are correct? (Select TWO)

① You can park in a school zone.

② If there are fences installed in a school zone, you need not pay attention as children cannot enter the driveway.

③ School zones can be designated to protect children from the dangers of traffic accidents.

④ Observe the speed limit and drive with caution to ensure the safety of children as there is snow on the road.

⑤ There is no risk of accidents because children are cautious in school zones.

■ A school zone

■ Answer : 3, 4

753. Which of the following are not defined as "actions obstructing parking in a parking space reserved for persons with disabilities" under the Act on the Guarantee of Convenience Promotion of Persons with Disabilities, Senior Citizens, Pregnant Women, and Nursing Mothers? (Select TWO)

① An act of obstructing a parking space reserved for persons with disabilities by stacking objects

② An act of stacking or parking objects in front, behind, or on either side of a parking space reserved for persons with disabilities

③ An act of parking a car without a permit in a parking space reserved for persons with disabilities

④ An act of obstructing a parking space reserved for persons with disabilities by erasing or damaging its lines and signs

⑤ An act of parking a car with a permit in a parking space reserved for persons with disabilities, but the car is not occupied by a person with impaired mobility

■ Answer : 3, 5

754. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Since there are no vehicles in the direction of travel, you can stop on the right side of the road.

② Even if you are driving in a school zone, you need not observe the speed limit if no children are present.

③ Observe the maximum speed limit indicated by the safety sign as you drive.

④ Drive with caution and watch your surroundings, as children may suddenly jump into the road.

⑤ You should speed up and drive as fast as possible to exit school zones.

■ A school zone

■ Answer : 3, 4

755. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Drive fast while continuously honking.

② Slow down sufficiently in advance to drive safely.

③ Drive slowly even if you do not see any elderly people walking.

④ For safety, it is advisable to tailgate the vehicle in front whenever possible.

⑤ Speed up and quickly exit the silver zone as there is a crosswalk ahead.

■ A silver zone

■ Answer : 2, 3

756. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① You should drive at a speed of 30 km/h or less.

② You may drive fast to pass through, as there are no vehicles driving ahead.

③ Parking is prohibited, but stopping is allowed.

④ When passing through a crosswalk, honk and go through it quickly regardless of whether there are children present.

⑤ Be cautious of children who may suddenly appear, even if fences are installed to prevent jaywalking.

■ Driving in a school zone

■ Answer : 1, 5

757. Which of the following actions by a driver or a passenger will not be fined or slapped with a traffic penalty in the given situation? (Select TWO)

① A passenger vehicle must slow down to less than 30 km/h in advance.

② You walked with a two-wheeled vehicle on a sidewalk with the engine turned off.

③ The driver of a personal mobility device failed to follow the instructions of an exemplary driver.

④ The driver of a passenger vehicle parked in a school zone.

⑤ A child without a helmet rides a bicycle on the sidewalk while being watched by a guardian.

■ The left side of the road is a sidewalk.

■ An exemplary driver is giving instructions.

■ Answer : 1, 2

758. Which of the following are true about traffic safety signs in the given situation? (Select TWO)

① The "30" marked on the pavement indicates that the maximum speed limit on the road is 30 km/h.

② The yellow crosswalk markings are incorrect, as all crosswalks should be marked in white.

③ Zigzag solid white lines indicate that you should slow down, and lane changes are allowed in those sections.

④ An indication sign attached to the traffic light means that there is a crosswalk.

⑤ Asphalt paved in red is used only in school zones.

■ A school zone

■ Answer : 1, 4

759. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① As the road curves to the left, it is safer to use the road mirror on the right to see the situation ahead as you proceed.

② It is better to speed up on an uphill road, even if you slightly exceed the maximum speed limit.

③ A yellow solid line is marked along the right side of the road, indicating that parking is prohibited but stopping is allowed.

④ You must stop before passing through crosswalks with no traffic lights, even if there are no pedestrians.

⑤ On roads that curve left, it is safer to stay on the left side even if you cross the centerline.

■ A school zone

■ An uphill road curved to the left

■ A two-lane road

■ Answer : 1, 4

760. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Speed up in advance before the end of the school zone.

② Drive with extra attention to pedestrian safety on unlaned roads with no centerline.

③ Check for pedestrians in crosswalks even outside of a school zone and proceed slowly.

④ Since it is dusk, turn on the high-beam headlights to check the safety ahead and keep honking while driving.

⑤ Parking is allowed as yellow dotted lines on the right side of the road indicate that parking is allowed but stopping is prohibited.

■ A school zone

■ An unlaned road with no centerline

■ Answer : 2, 3

761. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Keep honking to pass a school zone, even if there are no pedestrians.

② Slow down to reduce the risk of an accident, as there may be vehicles crossing the centerline.

③ Crossing the centerline is allowed, as there is an entrance to the parking lot in the building on the left.

④ Slow down further to watch out for pedestrians, as the bus on the opposite side of the road obstructs your view.

⑤ Parking is prohibited at speed bumps in a school zone, but stopping is allowed.

■ A school zone

■ Residential areas to the left and right

■ An uphill road with multiple driveways

■ A road with oen lane in one direction

■ Answer : 2, 4

762. Which of the following are the safest ways to drive in the given situation? (Select TWO)

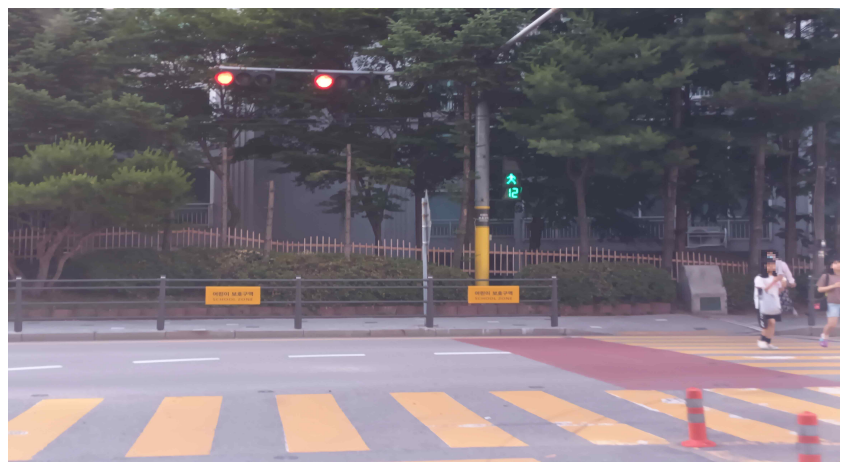
① If the traffic light ahead is red and you intend to turn right, you may pass through the crosswalk ahead without stopping.

② If the pedestrian signal on the right is green and pedestrians are crossing, stop before the crosswalk if you intend to turn right.

③ If the pedestrian signal turns red but the pedestrians are still crossing, honk to rush them.

④ You can turn left regardless of the traffic light as the pedestrian signal on the right is green.

⑤ Drive with extra caution, as pedestrians may be crossing belatedly.



■ A school zone

■ Red traffic light ahead

■ Green pedestrian signal at the crosswalk on the right side

■ A three-way intersection

■ Answer : 2, 5

763. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Pass through the intersection quickly in anticipation of vehicles emerging from the alley on your right.

② Slow down to observe the situation ahead, as the fire truck parked on the opposite side of the road is obstructing your view.

③ In a school zone, stop and proceed only if there are pedestrians in the crosswalk.

④ If you plan to turn right, watch out for vehicles or pedestrians coming out of the alley on your right.

⑤ You should drive within the maximum speed limit, as the speed limit in all school zones is set at 30km/h.

■ A school zone

■ A crosswalk with no traffic lights

■ An intersection leading to an alley on the right

■ A fire truck parked using wheel chocks

■ An uphill road curved to the left with one lane in one direction

■ Answer : 2, 4

764. Which of the following are the safest ways to drive in the given situation? (Select TWO)

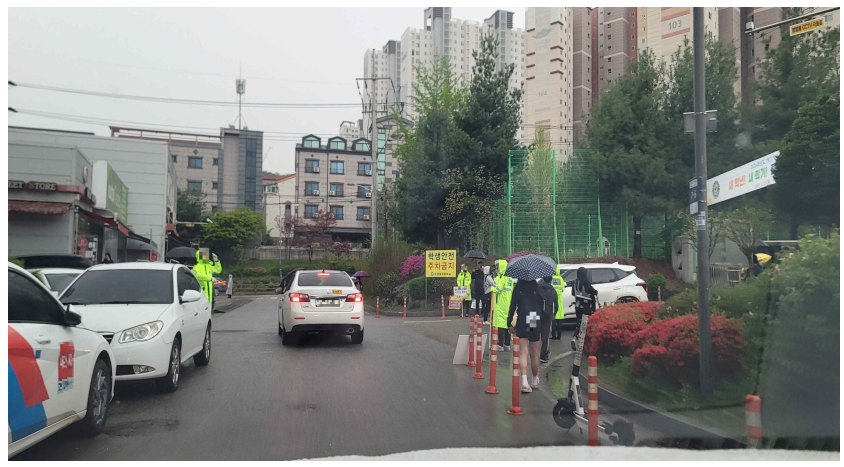
① Drive while being extremely cautious about pedestrians with umbrellas.

② Speed up to pass quickly, as there are many pedestrians around.

③ Even if you are not in a school zone, pay attention to pedestrian safety as you are in front of a school.

④ Proceed slowly as there is an intersection ahead with no traffic lights and visibility is limited on both sides.

⑤ Pedestrians may appear between parked cars, so honk to warn them.



■ Way to school on a rainy day

■ An unlaned road with no centerline

■ Volunteers carrying out traffic safety activities

■ An intersection with no traffic lights

■ School gate on the right

■ Answer : 1, 3

765. Which of the following are the safest ways to drive in the given situation? (Select TWO)

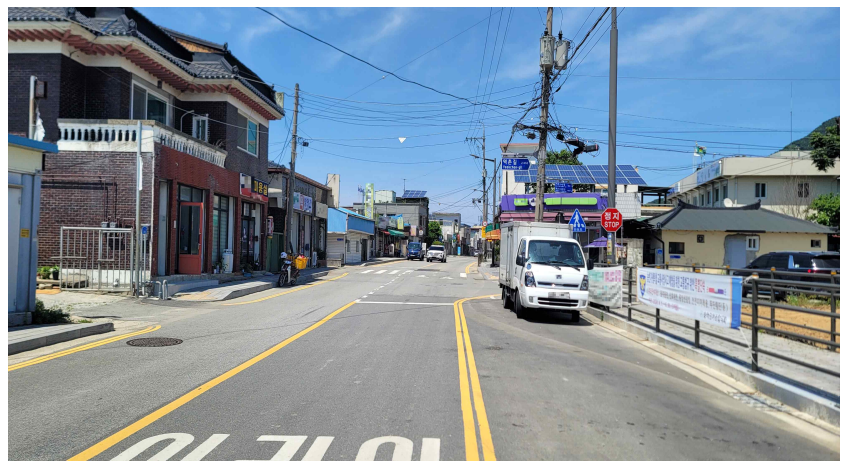
① Keep honking to proceed, even if there are no pedestrians.

② Temporarily stop to watch out for pedestrians and vehicles before entering the intersection, as there is an alley behind a parked truck on the right side.

③ Proceed slowly if there are no pedestrians, as there is no traffic signal at the crosswalk.

④ Slow down to reduce the risk of an accident, as there are vehicles crossing the centerline ahead.

⑤ When intending to turn right, do so without stopping as there is a stop sign on the right, but no traffic light.



■ A school zone

■ A driveway on the left and an alley on the right

■ A crosswalk ahead with no traffic light

■ Answer : 2, 4

766. Which of the following descriptions regarding the exclusive use areas for fire engines under the Framework Act on Firefighting Services are incorrect? (Select TWO)

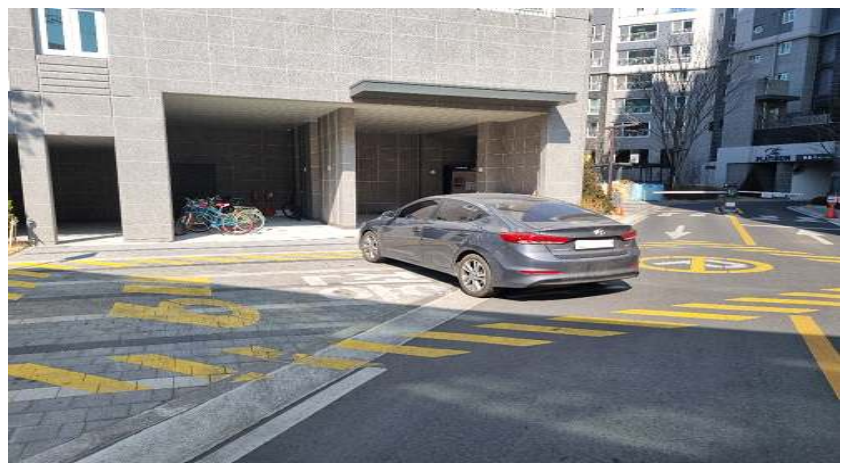
① They are installed in apartment buildings to facilitate firefighting operations.

② No one should park a vehicle in the designated area or block access to it in any way.

③ The owner of an apartment building must install at least one in each building, without exception.

④ Parking as shown in the photo is subject to an administrative fine.

⑤ Removing or damaging the "exclusive use area" sign does not constitute obstruction of the exclusive use area.



■ An apartment building with barricades at the entrance

■ Answer : 3, 5

767. Which of the following descriptions regarding the compulsory disposition of vehicles that obstruct emergency fire engine traffic are incorrect? (Select TWO)

① Illegally parked vehicles that interfere with firefighting activities can be moved.

② Parked vehicles within parking lines that interfere with firefighting activities can be removed.

③ Objects that obstruct the passage of firefighting vehicles can be moved or removed.

④ The driver of a vehicle that has been towed due to illegal parking may claim compensation for any losses.

⑤ The driver of a vehicle parked within a designated parking space but has been towed may claim compensation for damages.

■ An unlaned road in a residential area

■ A fire truck responding to a fire

■ Illegally parked vehicles

■ Answer : 4, 5

768. Which of the following driving methods violate the law in the given situation? (Select TWO)

① Driver B - Drives at 100 km/h.

② Driver A - Drives at 70 km/h.

③ Driver B - Overtakes at an intersection.

④ Driver A - Overtakes at an intersection.

⑤ Driver B - Does not maintain a safe distance with the vehicle ahead.

■ A - Filming vehicle, B - fire truck

■ Vehicle A is behind fire truck B, and it is filming the fire truck through its windshield.

■ Rain is dripping, and the road surface is wet.

■ It is a four-way intersection, and the traffic light is 300 meters ahead.

■ The fire truck is proceeding in the first lane with its strobe lights and siren on.

■ Answer : 2, 4

769. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① If an emergency vehicle is approaching, vehicles must move over to the left or right side of the road to yield the right of way.

② Follow behind the emergency vehicle as it will allow you to travel faster.

③ Speed up to prevent the emergency vehicle from changing lanes.

④ If the emergency vehicle is returning from an urgent business, it does not activate its strobe lights or siren, so there is no need to yield.

⑤ If you see an emergency vehicle behind, speed up so that it cannot overtake you.

■ A road with two lanes in one direction

■ Wet road surface due to rain

■ A fire truck in the second lane

■ Answer : 1, 4

770. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① The right of way can only be yielded in the second lane, so if you are in the first lane, there is no need to watch out for emergency vehicles behind.

② If there is an intersection ahead, avoid it and yield the right of way.

③ Quickly switch to the second lane, turn on the hazard lights, and drive ahead of the emergency vehicle.

④ If you are traveling in front of an emergency vehicle, move to the left or right side of the road and yield the right of way.

⑤ Since you can travel faster if you follow behind the emergency vehicle, switch to the second lane and closely follow behind after the emergency vehicle passes through.

■ A road with two lanes in one direction

■ Saw an emergency vehicle in the second lane through the side mirror on the right

■ Traffic is heavy and congested.

■ Answer : 2, 4

771. Which of the following traffic safety facilities and actions are the most appropriate in the given situation? (Select TWO)

① Crosswalk - You can cross while riding on your bike.

② Bike crosswalk - Ride the bicycle to cross a roadway with a bike crossing.

③ Pedestrian signal - Pedestrians should start crossing quickly when the green traffic light is flashing.

④ Pedestrian signal - If a bike signal is not installed, bicycle riders must follow the pedestrian signal.

⑤ Traffic light - If a bike signal is not installed, bicycle riders must follow the traffic signal.

■ Area near a four-way intersection

■ Bike signals are not installed.

■ You are a bicycle rider riding on a crosswalk.

■ Answer : 2, 4

772. Which of the following are the most incorrect ways to drive in the given situation? (Select TWO)

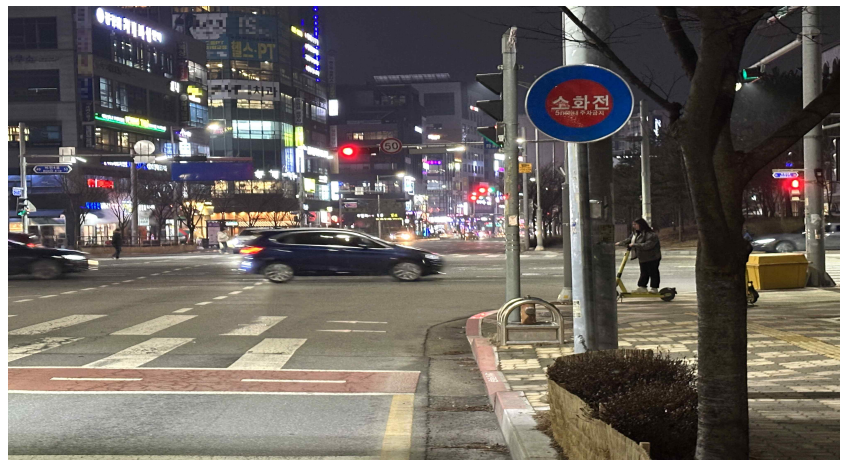
① To turn right, stop just before the stop line, and then turn right.

② When turning right, proceed slowly along the right edge of the road before turning.

③ Drivers turning right must pay attention to pedestrians, bicycle riders, and others who are stopping or proceeding, depending on the signal.

④ If a passenger is getting out of the car, you can stop briefly in front of a fire hydrant.

⑤ On city streets, it is unnecessary to turn on the headlights because the surroundings are well-lit even at night.



■ A four-way intersection

■ A road with three lanes in one direction

■ A person on a personal mobility device on the sidewalk

■ Answer : 4, 5

773. Which of the following are the most incorrect ways to drive in the given situation? (Select TWO)

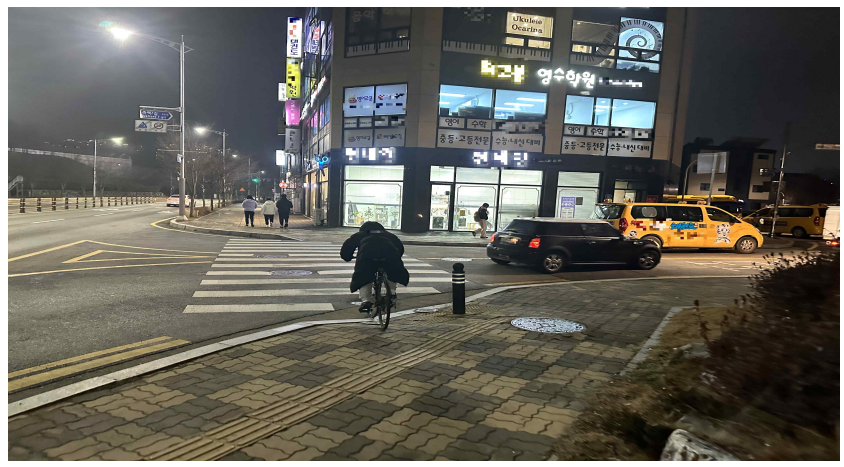
① Bicycle riders may ride their bicycle when crossing a crosswalk.

② A bicycle rider who is a child may ride on the sidewalk.

③ A bicycle rider must wear a helmet.

④ Bicycle riders must turn on their front and rear lights or wear other light-emitting devices when riding on the road at night.

⑤ School buses can park or stop on the left side of the road for the convenience of children getting on and off the bus.



■ A bicycle rider

■ A parked school bus

■ Answer : 1, 5

774. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Drivers need not be particularly careful unless the agricultural machine is in motion.

② Speed up as there are no speed limits on rural roads.

③ Drive carefully as there is a lot of sand and dust on the road.

④ Maintain a safe distance from the agricultural machine by stopping temporarily or slowing down before approaching it.

⑤ Never honk to avoid disturbing the agricultural machine driver.

■ Rural roads

■ Answer : 3, 4

775. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Speed up as there are no speed limits on rural roads.

② Even if there is enough space to pass between your vehicle and the agricultural machine, stop for the safety of the person riding the cultivator.

③ Maintain a safe distance from the agricultural machine by stopping temporarily or slowing down before approaching it.

④ Never honk to avoid disturbing the agricultural machine driver.

⑤ Stopping is prohibited in the roadside areas on both sides of the road, but parking is allowed.

■ A rural road

■ A white car is traveling on the road.

■ Answer : 2, 3

776. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Since the signals are not working, carefully observe the intersection before entering.

② When turning right, honk and overtake the cultivator on its left.

③ Since the cultivator is moving slowly, speed up and turn right ahead of it.

④ If you intend to go straight in the third lane, be sure to check the cultivator's position.

⑤ Anticipate the cultivator going straight, and then quickly switch to the second lane and go straight.

■ A road with three lanes in one direction

■ An intersection with non-functioning traffic lights

■ A cultivator ahead

■ Answer : 1, 4

777. Which of the following are the safest ways to drive in the given situation? (Select TWO)

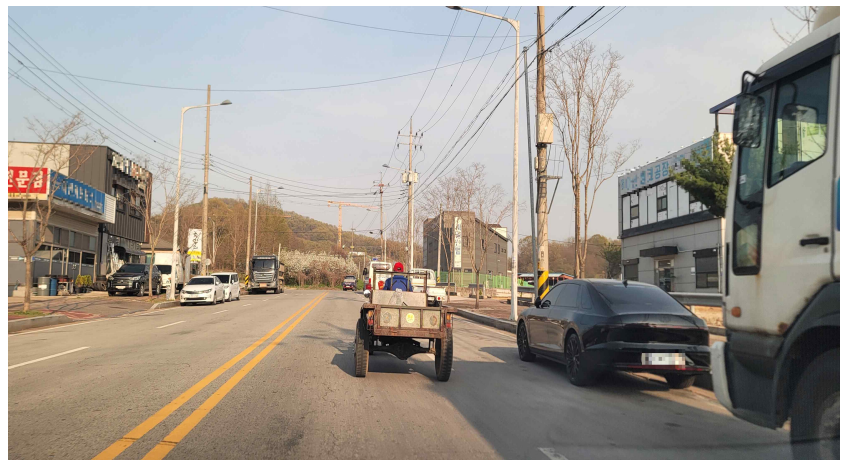
① You can drive over the centerline to overtake the cultivator.

② When the cultivator passes a parked vehicle, use the space on the right side to overtake it at high speed.

③ Even if the cultivator driver signals you to go ahead, maintain a safe distance and follow safely.

④ If the cultivator driver yields by moving to the second lane, proceed to the left of the cultivator without crossing the centerline.

⑤ There is no need to anticipate pedestrians appearing in front of parked vehicles.



■ A road with two lanes in one direction

■ Vehicles parked in the second lane

■ No oncoming traffic

■ Answer : 3, 4

778. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① If you intend to go straight, drive slowly and stop safely behind the vehicle ahead as the traffic light is red.

② When the light turns green, stay in your lane and safely change lanes when there is enough distance.

③ If you switch to the left-turn lane and the light turns green, quickly use the opposite lane to proceed.

④ When following a tractor, you can overtake it on the right side.

⑤ When intending to make a U-turn, you may do so when the traffic light turns red.

■ A road with four lanes in one direction

■ Red traffic light

■ The first lane is for left turns and U-turns, the second and third are for going straight, and the fourth lane is for right turns.

■ Answer : 1, 2

779. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① The tractor has stopped, so you may honk continuously to rush the tractor driver to proceed.

② As soon as the vehicle on the opposite side passes through, cross the centerline and overtake to the left.

③ Drive cautiously, anticipating that the truck on the right may suddenly start moving while it is stopped.

④ If there is space on the right of the tractor, use it to overtake.

⑤ Since the tractor moves slower than cars, maintain a safe distance instead of aggressively attempting to overtake.

■ A road curved to the right with one lane in one direction

■ Wet road surface due to rain

■ A truck stopped on the right side

■ A tractor stopped and the driver is talking to the truck driver on the right.

■ Answer : 3, 5

780. Which of the following are the safest ways to drive in the given situation? (Select TWO)

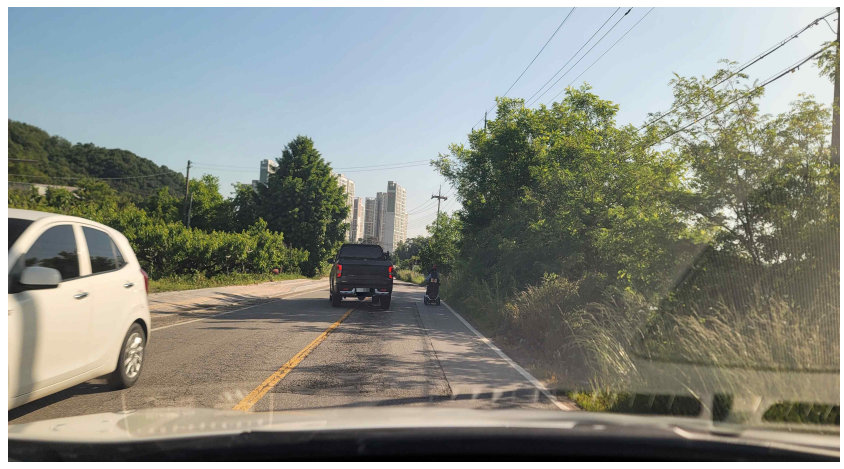
① Maintain sufficient distance from a wheelchair to aid walking, as it is considered a pedestrian.

② Once the truck in front of you has finished overtaking, follow closely behind it to overtake.

③ Follow closely behind the truck, as you cannot see the situation ahead.

④ Honk and request the person using a wheelchair to aid walking to pass on the left sidewalk, as the device must travel on the sidewalk.

⑤ Turn on the hazard lights and proceed slowly to alert the oncoming traffic of the hazard ahead.



■ A road with one lane in one direction

■ A wheelchair to aid walking proceeds ahead on the right side.

■ An overtaking truck ahead

■ Answer : 1, 5

781. Which of the following are the safe ways to drive when you are trying to go straight in the given situation? (Select TWO)

① Do not enter the intersection until the school bus has departed.

② Since the school bus is stopped, you should pass it on the left.

③ Follow the hand signals of the school bus driver and pass it on the left.

④ Enter the intersection and wait behind the school bus.

⑤ Be prepared for pedestrians who may appear behind the oncoming truck.

■ The school bus stopped at the intersection corner.

■ The school bus driver is signaling with hand gestures to the vehicle behind.

■ Answer : 1, 5

782. Which of the following are the safe ways to drive in the given situation? (Select TWO)

① Quickly drive through the intersection while using high-beam headlights to warn the bicycle rider.

② Drive through the intersection at a lower speed but stay cautious as the bicycle may enter abruptly.

③ Anticipate that the bicycle will stay in its lane and drive through the intersection.

④ Quickly drive through the intersection while repeatedly honking to warn the bicycle rider not to do anything dangerous.

⑤ Because the bicycle is on the car lane, pass through while ensuring that the bicycle has sufficient space on the side.

■ A bicycle has entered the car lane.

■ The traffic light has turned green.

■ A vehicle traveling at 40 km/h

■ Answer : 2, 5

783. Which of the following are the anticipated hazards when driving through an intersection in the given situation? (Select TWO)

① The black vehicle in lane 3 can turn right.

② The white vehicle in lane 2 can make a sudden shift to lane 1.

③ A jaywalking pedestrian may suddenly appear from behind the bridge pier.

④ All vehicles must stop since a pedestrian may try to cross the street at the last second.

⑤ The vehicle behind may try to overtake you.

■ A road with bridge piers

■ Vehicles about to move as the light turns green

■ Controlled 3-way intersection

■ Answer : 2, 3

784. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① The traffic light is green, so you can speed up and quickly drive straight through the intersection.

② Turn right from the second lane with the hazard lights on to alert oncoming traffic.

③ Drive cautiously, anticipating a hazard as a vehicle on the third lane ahead may suddenly switch to the left lane.

④ Since the vehicle behind you is tailgating, increase your speed quickly to create a safe distance and swiftly pass through the intersection.

⑤ Gradually increase your speed to pass through the intersection while keeping your eyes open for surrounding traffic.

■ A four-way intersection

■ There are three lanes: first lane (left turn), second lane (straight), and third lane (straight and right turn).

■ You are traveling in the second lane.

■ The traffic light changed from red to green.

■ Answer : 3, 5

785. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① Accelerate quickly after the light changes to pass through the intersection swiftly.

② Turn left with your left-turn signal on, while paying attention to other vehicles.

③ Accelerate sharply within the intersection and switch to the right lane to pass through.

④ Consider why the white car is stopping and proceed slowly, preparing for any hazards.

⑤ Gradually increase your speed to pass through while checking both sides for any vehicles disobeying the traffic signal.

■ A four-way intersection

■ There are three lanes: first lane (left turn), second lane (straight), and third lane (straight and right turn).

■ The traffic light changed from red to green and green left-turn signal.

■ You are about to start moving from the second lane.

■ Answer : 4, 5

786. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① To facilitate smooth traffic flow, wait ahead of the stop line at the red light before turning left.

② There is no need to pay attention to the red vehicle turning right on the opposite side of the road as vehicles turning left have the right of way.

③ Be careful as the blind spots of your car may cause you to lose sight of the two-wheeled vehicle momentarily.

④ Turn left following the white traffic guide lines on the intersection pavement.

⑤ While turning left, turn on the right-turn signal and move directly into the third lane on the left side of the road.

■ A four-way intersection

■ There are four lanes: first and second lanes (left turn), third lane (straight), and fourth lane (straight and right turn).

■ There is a two-wheeled vehicle waiting for the signal beyond the crosswalk on the left side of the road.

■ You are waiting for the signal in the first lane.

■ The traffic signal changed from red to straight and left turn green.

■ Answer : 3, 4

787. Which of the following are the safest ways to drive in the given situation? (Select TWO)

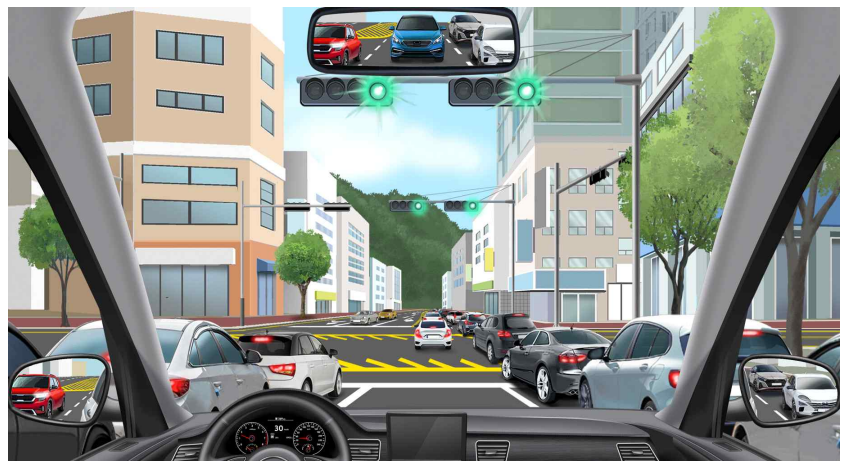
① Stay as close as possible to the car ahead to pass through the busy intersection.

② Be prepared for a vehicle in the third lane to switch to the left lane suddenly.

③ Enter the intersection to maintain smooth traffic flow, regardless of whether the vehicles ahead have stopped.

④ Turn on the hazard lights and safely overtake by moving into the opposite first lane, and then continue straight ahead.

⑤ If it appears that you may not pass through the intersection at the green light, stop just before the stop line.



■ A four-way intersection

■ There are three lanes: first lane (left turn), second lane (straight), and third lane (straight and right turn).

■ The traffic light is green.

■ Traffic congestion ahead

■ You are traveling in the second lane.

■ Answer : 2, 5

788. You want to turn left in the given situation. Which of the following are the TWO most dangerous ways to drive? (Select TWO)

① Turn on the hazard lights, pass through the safety zone to enter the first lane, and turn left.

② Once in the left-turn lane, stay as close as possible to the vehicle ahead and quickly turn left.

③ Take caution of the vehicles behind you as you switch to the first lane.

④ Switch to the first lane from the lane with white dotted lines, and then turn left.

⑤ When switching to the left-turn lane, be mindful of the vehicle directly in front of you.

■ A four-way intersection

■ There are four lanes: first lane (U-turn, left turn), second and third lanes (straight), and fourth lane (straight and right turn).

■ The traffic light changed to green while you were stopping in the second lane.

■ Answer : 1, 2

789. Which of the following are the safe ways to drive in the given situation? (Select TWO)

① Repeatedly honk to warn B not to interrupt the way.

② Continue to drive as B is expected to travel to the left.

③ Stop until B has reached the opposite side.

④ Vehicles have the right of way in places other than roads. Honk to make sure that B does not start crossing the road.

⑤ Drive slowly while passing by B and maintain a safe distance.

■ A vehicle approaching the entrance to an apartment parking lot

■ Answer : 3, 5

790. Which of the following are the safest ways to make a U-turn in the given situation? (Select TWO)

① Make a U-turn within the U-turn area marked by white dotted lines when the signal allows, starting with the car in front of you.

② There is no need to watch out for right-turning vehicles from a left side road onto the main road.

③ You can make a U-turn at any time regardless of the signal, as long as you do not obstruct traffic on the opposite side of the road.

④ There is no need to yield to a car making a U-turn first from immediately behind you.

⑤ Be sure to look before making a U-turn, as there may be cars disobeying the traffic signal on the opposite side of the road.

■ A three-way intersection

■ There are four lanes: first lane (U-turn, left turn), second lane (straight), and third and fourth lanes (straight).

■ You stopped in the first lane waiting for the signal.

■ The traffic light changed from green to left turn green.

■ Answer : 1, 5

791. You want to turn right in the given situation. Which of the following are the safest ways to drive? (Select TWO)

① Turn right while slowing down without coming to a full stop before the intersection stop line.

② Always check for pedestrians at the crosswalk with a traffic light just before the intersection.

③ It is not necessary to check for vehicles going straight from the left to the right side of the road.

④ Be cautious of a two-wheeled vehicle following you as seen in the right side-view mirror.

⑤ It is not necessary to check for pedestrians at the crosswalk with a traffic light immediately after a right turn.

■ A four-way intersection

■ There are four lanes: first lane (left turn), second and third lanes (straight), and fourth lane (right turn).

■ The traffic light is red.

■ You are traveling in the fourth lane.

■ Answer : 2, 4

792. Which of the following are the most dangerous ways to turn right in the given situation? (Select TWO)

① Stop before the stop line and wait for the right-turn signal to change to green.

② Even after the right-turn signal turns green, keep your eyes on the road ahead to ensure safety.

③ Even if the right-turn signal is red, stop temporarily and make the turn slowly if there are no pedestrians.

④ There is no need to pay attention to crosswalks on the right side of the road immediately after turning right.

⑤ Watch out for pedestrians who may suddenly run into the crosswalk from the right sidewalk.

■ A four-way intersection

■ There are five lanes: first lane (U-turn), second and third lanes (straight), and fourth and fifth lanes (right turn).

■ The right turn traffic light changed to red.

■ You are driving in the fifth lane.

■ Answer : 3, 4

793. Which of the following are the desirable ways to drive in the given situation? (Select TWO)

① Slow down and keep a safe distance as the school bus may switch to the right lane.

② The school bus is slowing down, so drive safely to overtake the bus.

③ Keep an eye on the electric kick scooter in lane 3 and switch to the right lane to overtake the school bus.

④ Because you cannot check the front of the school bus, stay in the lane and reduce speed to maintain a safe distance.

⑤ Honk at the school bus driver to inform him/her that the bus is violating the minimum speed limit.

■ A school bus with children on board is traveling at 35 km/h.

■ The school bus driver is not using turn signals.

■ The yellow strobe light and brake lights are on.

■ An electric kick scooter is in lane 3.

■ Answer : 1, 4

794. Which of the following are the biggest risk factors when making an unprotected left turn in the given situation? (Select TWO)

① There may be a vehicle coming at high speed from the opposite second lane.

② A vehicle may be stopped behind a truck in the opposite lane, waiting to turn left.

③ A vehicle behind you may suddenly switch to the second lane.

④ A pedestrian on the left side of the road may cross the crosswalk.

⑤ A truck may make an unprotected left turn from the opposite first lane.

■ A four-way intersection

■ There are two lanes: first lane (left turn and straight) and second lane (straight and right turn).

■ You stopped in the first lane waiting for the signal.

■ The traffic light changed to green.

■ Answer : 1, 4

795. Which of the following are the most dangerous ways to drive? (Select TWO)

① You may collide with a car making a quick left turn in the lane where you are driving.

② You may collide with a car turning right from the road on your right.

③ You may collide with a car turning right from the opposite road.

④ You may collide with a car making a U-turn on the opposite road.

⑤ You may collide with a car trying to turn right from the third lane behind you.

■ A four-way intersection

■ There are three lanes: first lane (left turn and U-turn), second lane (straight), and third lane (straight and right turn).

■ You are driving straight down the third lane at 55 km/h.

■ The light changed to a left-turn signal shortly after you entered the intersection.

■ Answer : 2, 4

796. Which of the following descriptions regarding right-turn traffic at a "lane-reduced roundabout" in the given picture are correct? (Select TWO)

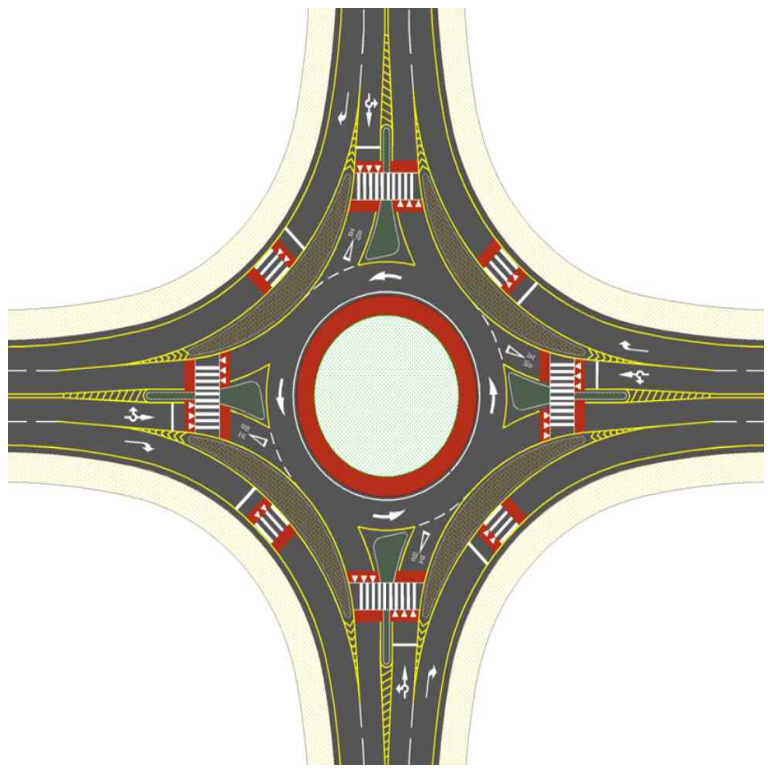
① Enter the roundabout and safely exit the roundabout to the right.

② Turn right while driving slowly in the rightmost lane of the roadway without entering the roundabout.

③ Turning right immediately after entering a roundabout is a "violation of the right of way in an intersection."

④ A vehicle must come to a complete stop at the crosswalk in the right-turn lane, regardless of whether there are pedestrians or not.

⑤ The driver must make a large turn clockwise to turn right after entering the roundabout.



■ A roundabout with reduced lanes

■ Answer : 2, 3

797. Which of the following are the safe ways to drive in the given situation? (Select TWO)

① Drive slowly through the crosswalk to turn right.

② Stop before the crosswalk when trying to turn right.

③ Slowly enter the intersection to go straight, as you have the right of way.

④ Make a full stop before going straight or turning right.

⑤ Make a full stop only when you are trying to turn right.

■ Three-way intersection within a school zone

■ Uncontrolled intersection

■ Intersection with limited visibility

■ Empty crosswalk

■ Answer : 2, 4

798. Which of the following are the safe ways to drive when a vehicle is trying to head in the 12 o'clock direction in the given situation? (Select TWO)

① Stop to yield to the passenger vehicle about to enter the roundabout.

② Turn on the left-turn signal and enter the truck apron.

③ Turn on the right-turn signal and drive in the 12 o'clock direction.

④ If the vehicle misses the chance to get out from the roundabout, it should circle around one more time to exit in the right direction.

⑤ The vehicle is trying to head in the 12 o'clock direction, so turn signals are not required.

■ A vehicle circling inside the roundabout

■ A vehicle about to enter the roundabout from the right

■ Answer : 3, 4

799. Which of the following are the safe ways to drive when trying to turn right in the given situation? (Select TWO)

① Since it is difficult to have clear visibility on the right, come to a stop and then turn right.

② Since there are no pedestrians on the crosswalk, proceed through swiftly.

③ Stop before the stop line to avoid obstructing the movement of oncoming vehicles.

④ Since you entered the intersection first, proceed to turn right.

⑤ Honk to prevent pedestrians from entering the crosswalk.

■ A road with one lane in one direction

■ Illegally parked vehicles

■ Answer : 1, 3

800. You are approaching an intersection while traveling straight from the left lane (first lane). Which of the following are the TWO safest ways to drive?

① There is no traffic in the opposite direction, so overtake the car ahead to the left side.

② Slow down and approach the taxi in the first lane with a safe distance.

③ Honk to stop the taxi and quickly pass to its right side.

④ Continue to switch to the third lane and stop.

⑤ Slow down as you approach the taxi and pedestrians if you are switching to the second lane.

■ Intersection with uncontrolled traffic

■ Parked cars in both directions

■ Passenger vehicle approaching as seen in the right rear-view mirror

■ Answer : 2, 5

801. The driver is driving straight ahead. Which of the following are the TWO safest ways to drive?

① Accelerate to prevent the white vehicle from entering.

② Drive slowly and pay attention as the white car may be driving straight ahead.

③ Traffic is allowed to pass on the left side during road maintenance, so stay on the left.

④ Anticipate that the white car will stop and proceed while paying attention to the vehicles in the opposite direction.

⑤ The red car in the opposite direction may enter the left-turn lane, so stop and observe the situation if necessary.

■ Road maintenance underway

■ White vehicle driving from right to left.

■ Answer : 2, 5

802. When driving on an urban side street, which of the following are the two safest ways of driving?

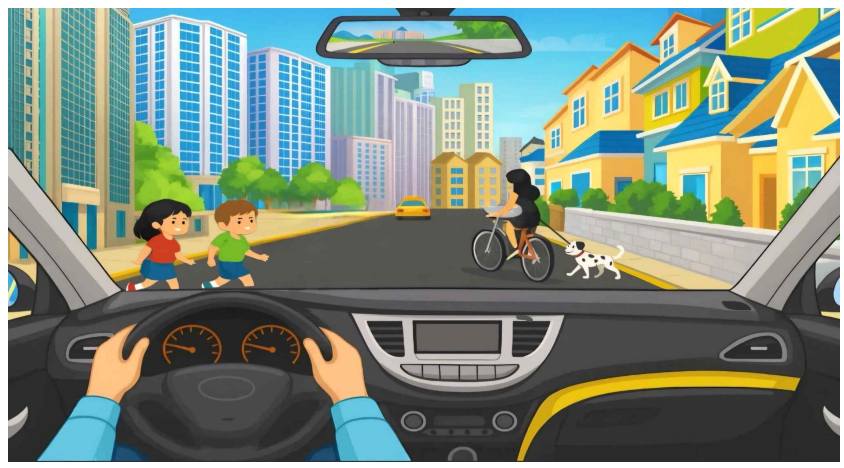
① Watch out for bicycles and dogs being walked, as they may suddenly enter the roadway.

② Honk to let the cyclist know that you want to pass.

③ Children may suddenly come into the center of the road, so slow down.

④ Increase speed to avoid the bicycle and pass by quickly.

⑤ Flash your headlights as a warning signal to the car coming from the opposite direction.



■ Children are crossing the road.

■ A cyclist is walking a dog.

■ Answer : 1, 3

803. Which of the following are the safe ways to drive in the given situation? (Select TWO)

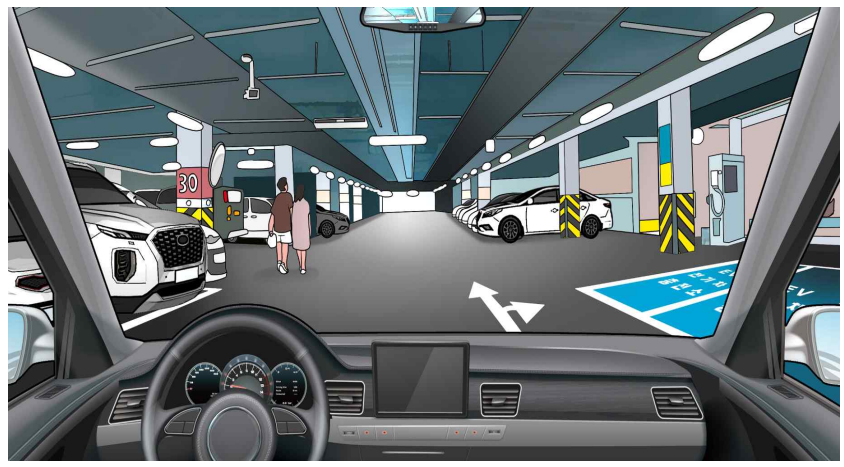
① Slow down as a pedestrian may suddenly appear from between the parked vehicles.

② Drive with caution as a parked vehicle may suddenly move.

③ You can ignore the marking lines in an underground parking lot.

④ Drive while paying attention only to the parking space you want.

⑤ The pillars in an underground parking lot obstruct visibility, so continue honking while driving.



■ Underground parking lot

■ Pedestrians walking in the parking lot

■ Answer : 1, 2

804. You are driving straight at 30 km/h. Which of the following are the TWO safest ways to drive?

① Drive through the crosswalk at no more than 30 km/h to avoid collision with the parked cars.

② Slow down as you approach and stop at the stop line just before the crosswalk.

③ There are no pedestrians on the crosswalk, so proceed at 30 km/h.

④ Keep driving as there are no pedestrians on the crosswalk.

⑤ Drive slowly while paying attention to vehicles entering the road from the right.

■ Vehicles traveling in the opposite direction

■ Vehicles parked on the right side of the road

■ A vehicle stopped in order to enter the roadway.

■ Answer : 2, 5

805. You are about to turn left from an apartment parking lot. Which of the following risks are NOT what you need to prepare for? (Select TWO)

① Area A, which is obscured by an object and cannot be seen

② A white vehicle, which is trying to reverse

③ Possible collision with a recycling bag

④ Playing children who may possibly enter the driveway

⑤ Possible collision with a vehicle behind

■ Person organizing recyclable materials on the left

■ White vehicle on the right with white lights on

■ Vehicle visible in the rear view mirror

■ Answer : 3, 5

806. You are about to turn right while approaching an intersection. Which of the following are the safest ways to drive? (Select TWO)

① The child is crossing to the left, so you use the space on the right to enter and turn right.

② Watch out for vehicles entering from the opposite direction to see if they are turning left.

③ Stop at the stop line just before the crosswalk and wait for the child to complete crossing.

④ Accelerate through the stop line to enter the intersection ahead of oncoming traffic.

⑤ Enter slowly and turn right at the signal with caution.

■ Vehicle traveling from right to left

■ Vehicle traveling straight from the opposite direction

■ Flashing red traffic light

■ Answer : 2, 3

807. You are about to turn left at a T-intersection. Which of the following are the safest ways to drive? (Select TWO)

① Quickly turn left at the left-turn signal.

② Stop before the crosswalk stop line.

③ Enter the crosswalk slowly and turn left while paying attention to the vehicle on the left.

④ Turn left with a safe distance to the side of the person on the right.

⑤ Wait for pedestrians and bicycle riders using the crosswalk to complete crossing.

■ You are about to turn left.

■ The crosswalk ahead has no traffic light.

■ Answer : 2, 5

808. Which of the following are the risks you must pay attention to in the given situation? (Select TWO)

① An electric kick scooter rider may suddenly move to the left to avoid pedestrians ahead of him/her.

② Pedestrians on the right may cross to the left.

③ Driving slowly may cause collision with trailing cars.

④ You may collide with a white car coming from the opposite direction.

⑤ An electric scooter may collide with a pedestrian at a bus stop.

■ Multiple pedestrians walking through the driveway

■ Cars following behind on the right side

■ Answer : 1, 2

809. Which of the following are the safe ways to drive in the given situation? (Select TWO)

① Turn on the left-turn signal and headlights, and then pass safely.

② Pay attention to the signals from the cultivator operator and pass safely.

③ Proceed ahead once the signals from the cultivator operator have ended.

④ Ignore the hand signals of the cultivator operator and follow behind.

⑤ Maintain sufficient safe distance from the cultivator.

■ A vehicle traveling at 25 km/h

■ Four vehicles following behind

■ Answer : 4, 5

810. Which of the following are the safe ways to drive in the given situation? (Select TWO)

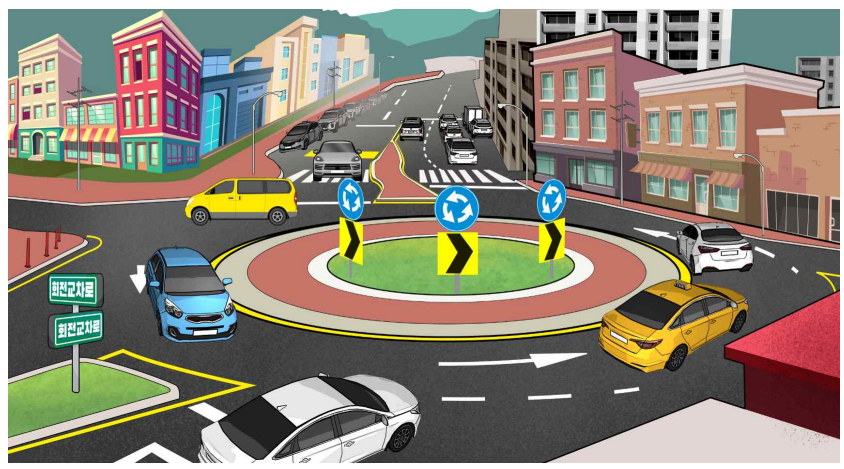
① The entering vehicle must yield to the vehicles already in the roundabout.

② Slow down or stop the vehicle before entering the roundabout.

③ Since the entering vehicle has the right of way, enter quickly and proceed to your intended destination.

④ Enter the roundabout in front of vehicles already inside.

⑤ You can ignore the vehicles around you.



■ Roundabout

■ Vehicle about to enter the roundabout and vehicles already inside

■ Answer : 1, 2

811. You are entering an intersection and trying to go straight. Which of the following are the safest ways to drive? (Select TWO)

① The black car may reverse, so slow down, and be prepared.

② Be careful as the two-wheeled vehicle may change lanes on the left of the black car.

③ Use the empty straight lane in the opposite direction to go straight, and then return to your original lane.

④ Accelerate and pass the stopped black car in a straight line.

⑤ Accelerate and pass the two-wheeled vehicle so that it cannot change lanes in front of you.

■ Intersection without traffic lights

■ Vehicles parked in the third lane on the right

■ Black car stopped in the process of making a U-turn

■ Answer : 1, 2

812. Which of the following are the safest ways to drive in the given situation? (Select TWO)

① The black car driver uses the P space to pass quickly.

② The black car driver stops behind the school bus.

③ The white car driver proceeds slowly while paying attention to the school bus.

④ The white car driver stops before reaching the school bus, and then proceeds slowly.

⑤ The white car driver honks continuously to indicate that he/she is going straight.

■ Black and white cars passing

■ Stopped school bus

■ Answer : 2, 4

813. Which of the following are the TWO safest ways to proceed at the intersection in the given picture?

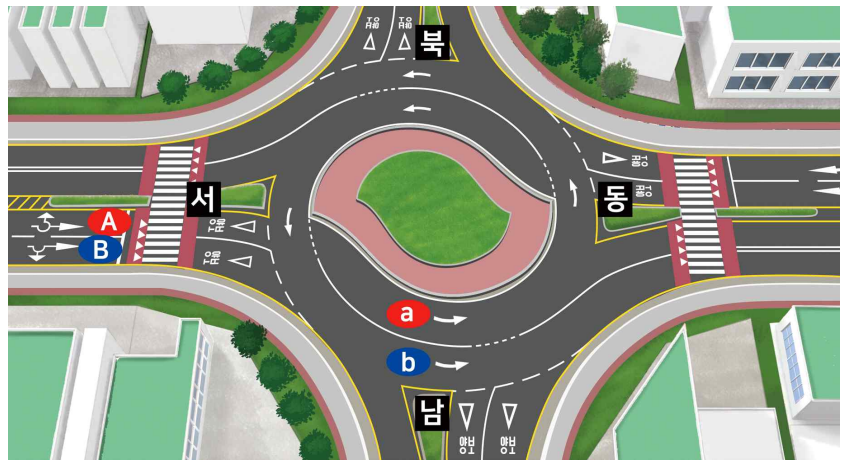
① The driver activated the left-turn signal when he/she was about to enter from lane A.

② The driver entering from lane A immediately entered lane a, made a turn, and proceeded north.

③ The driver activated the right-turn signal when he/she was about to enter from lane B.

④ The driver entering from lane B immediately entered lane b, made a turn, and then switched to lane B and headed north.

⑤ The driver activated the left-turn signal while trying to exit after making a turn inside.



■ Spiral roundabout

■ Answer : 1, 2

814. In the given situation, which of the following are the TWO safest ways to turn right?

① Turn right quickly when the forward-facing green light is on.

② Come to a complete stop and check for safety before turning right, as pedestrians may be crossing on the right.

③ Stop because the dedicated right-turn signal is red.

④ Even if the dedicated right-turn signal is red, you may turn right if it does not interfere with any pedestrians.

⑤ Stop at the stop line and wait until the right-turn arrow signal turns green.

■ An intersection with a dedicated right-turn signal

■ Answer : 3, 5

815. Which of the following are the TWO safest ways to turn left in the given situation?

① Enter the intersection quickly according to the green signal.

② Follow the vehicle in front closely.

③ Since the left-turn lane is congested, use the third lane to turn left.

④ Do not enter the intersection, as you may obstruct traffic by tailgating.

⑤ Slow down in advance to prevent a rear-end collision, as there may be vehicles approaching from behind and trying to enter the intersection.

■ Traffic congestion due to increased left-turn traffic volume

■ Driving in the second left-turn lane

■ Answer : 4, 5

816. Which of the following are the TWO most likely risk factors for a traffic accident in the given situation?

① Truck A attempting to back up

② Pedestrian B crossing behind the truck

③ Vehicle C approaching from the rear

④ Pedestrian D walking on the sidewalk

⑤ Vehicle E attempting to turn right from the left-hand side

■ An intersection with no traffic signals

■ You are stopped on a side road, waiting to go straight ahead.

■ Answer : 1, 2

817. Which of the following are the safe ways to drive in the given situation? (Select TWO)

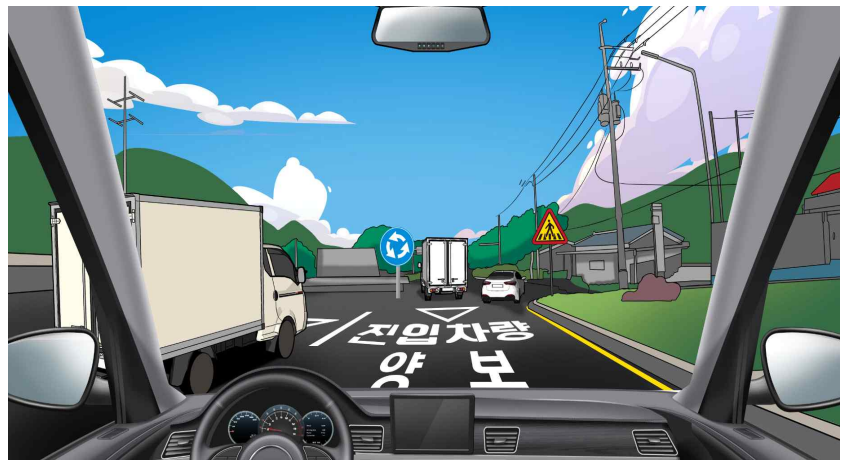
① It is important to enter the intersection first.

② You must drive while focusing only on what is in front of you.

③ You must drive with caution as the truck in lane 1 may switch to lane 2 while entering the intersection.

④ Drive while paying attention to turning vehicles from the left and vehicles entering from the right lane.

⑤ You must keep in mind that entering vehicles have the right of way over the vehicles already in the roundabout.



■ You are about to enter a roundabout.

■ The white truck is also about to enter the roundabout.

■ Answer : 3, 4

818. Which of the following are the TWO safest ways to proceed in the given situation?

① Keep a lookout for a pedestrian suddenly crossing between the vehicles waiting for the green light.

② Enter the intersection quickly before the left-turn signal changes.

③ Speed up to intimidate the jaywalking pedestrian.

④ Turn on the hazard lights and slow down to protect the pedestrian.

⑤ Change to lane 1 suddenly to avoid a collision with the pedestrian.

■ Lanes 1 and 2: Left-turn lanes, Lanes 3 and 4: Straight-driving lanes

■ A pedestrian is attempting to jaywalk between cars.

■ Answer : 1, 4

819. You should have gone to the right, but took the wrong lane. Which of the following are the safe ways to drive in the given situation? (Select TWO)

① Enter the safety zone, turn on the hazard lights, and then turn right.

② Turn on the right-turn signal, enter the safety zone, and then turn right.

③ Accelerate quickly and turn right.

④ Continue straight in the direction of Daegu.

⑤ Use the next interchange or junction that you see.

■ You need to go toward Ulsan and Yangsan.

■ You are trying to turn right at the junction.

■ Answer : 4, 5

820. Which of the following are the TWO safest ways to proceed in the given situation?

① Maintain a greater following distance than usual.

② Apply the brakes very hard before entering the tunnel to slow down in advance.

③ Since there is no snow inside the tunnel, accelerate while driving through it.

④ Drive along the tire tracks of the vehicle in front, as snowy roads are very slippery.

⑤ Shift to neutral to prevent skidding.

■ On a snow-covered road

■ You are about to enter a tunnel ahead.

■ Answer : 1, 4

821. You plan to make a left turn toward the Business City and Terminal. What are the two safest ways to proceed in the given situation?

① Switch to the first lane in advance to prepare for the upcoming left turn as instructed by the navigation.

② As lanes 1 and 2 go into an underpass, let the vehicle to your rear pass, and then safely change to lane 3.

③ Use the SATNAV repeatedly to confirm the route.

④ Quickly change lanes without signaling since your vehicle is ahead of the vehicle to your rear.

⑤ Maintain a safe distance in case the vehicle ahead of you brakes suddenly.

■ Driving at 50 km/h in the second lane

■ Navigation indicates a left turn ahead.

■ A trailing vehicle is driving at 60 km/h in the third lane.

■ Answer : 2, 5

822. Which TWO are most likely to lead to an accident in the given situation?

① A car driving ahead

② An electric scooter suddenly turning left to enter the road

③ A truck preparing to move from the right-hand side

④ A person working on the right-hand side of the road

⑤ A motorcycle ahead on the left-hand side

■ Driving on a rural road during the busy farming season

■ Driving at 60km/h

■ Answer : 2, 3

823. Which of the following are the TWO safest ways to proceed in the given situation?

① Drive close to adult pedestrians because pedestrians-first roads apply only to children.

② Maintain a safe distance from pedestrians while driving.

③ Honk to urge a group of pedestrians walking side by side to walk in a single file.

④ Slow down or stop as needed to avoid interfering with pedestrian traffic.

⑤ You may drive at 20 km/h or faster as long as you do not interfere with pedestrian traffic.

■ Pedestrian priority road

■ Answer : 2, 4

824. Which of the following are the TWO safest ways to proceed in the given situation?

① Quickly switch to the third lane to avoid vehicles that are changing lanes.

② Speed up to prevent vehicles in the first lane from merging.

③ Use the horn and high-beam headlights to prevent vehicles from changing lanes.

④ Yield to merging vehicles by slowing down.

⑤ Slow down in advance as the braking distances are longer on wet roads.

■ Automobile road on a rainy day

■ Congestion in the first lane due to vehicles exiting toward City Hall

■ Answer : 4, 5

825. Which TWO carry the highest risk of causing an accident?

① A bicycle traveling on the right-hand side of the sidewalk

② A car waiting to turn left to enter the building

③ A car driving from the left-hand side of the road toward the right

④ A car parked in an empty lot on the opposite side

⑤ A car reflected on a convex mirror

■ Preparing to turn left from a roadside building

■ Answer : 1, 2

826. Which of the following are the TWO most appropriate ways to proceed in the given situation?

① Yield the right of way to the oncoming delivery vehicle.

② Proceed as the passenger car driver has the priority.

③ Flash the high-beam headlights repeatedly to prevent the other driver from proceeding.

④ Watch out for people getting out of parked vehicles.

⑤ Stop and wait until the oncoming driver gives way.

■ Two-way road without a centerline

■ A delivery vehicle approaching from the opposite direction

■ One person inside the passenger car

■ Answer : 1, 4

827. Which of the following are the TWO safest ways to proceed in the given situation?

① Step on the brakes to express objection to the sudden change of lane of the white car in front of you.

② Slow down and maintain a safe distance to allow the white car to change lanes safely.

③ Switch to the 4th lane to avoid a rear-end collision.

④ Avoid a collision with the white car by rapidly accelerating.

⑤ Make a sudden stop while turning the steering wheel to the left.

■ Lanes 1 and 2 lead into an underpass.

■ Driving at 50 km/h in the 3rd lane

■ Answer : 2, 3

828. You are about to reenter the expressway after taking a break at a rest area. Which of the following are the TWO safest ways to proceed in the given situation?

① Stop briefly and merge into the highway only when there are no approaching vehicles.

② Accelerate quickly and cut across directly into the first lane.

③ Check your left and merge after gaining sufficient speed.

④ Continue driving on the shoulder.

⑤ Do not interfere with the flow of other vehicles.

■ Answer : 3, 5

829. Which of the following are the desirable ways to drive in the given situation? (Select TWO)

① Switch to the first lane and proceed quickly.

② Turn on the hazard lights to alert other drivers to the presence of your vehicle.

③ Since the road is wet, reduce your speed and drive slowly.

④ Match your speed to the speed of the vehicle in front of you and drive while keeping an eye on it.

⑤ Switch to the road shoulder and pass the vehicles in front.

■ An expressway with three lanes in one direction

■ Weather conditions: Foggy day with visibility of 50 m

■ Answer : 2, 3

830. Which of the following are the TWO most appropriate ways to proceed in the given situation?

① Drive as usual since there is not much snow.

② Be prepared in case a truck skids and spins on the snowy road.

③ Drive 10% slower than the maximum speed limit.

④ Turn on the hazard lights and drive slowly.

⑤ Slow down by driving in a zigzag pattern.

■ Less than 20mm of snow has accumulated on the expressway.

■ Answer : 2, 4

831. When passing through an area affected by a fire as in the given situation, which of the following are the TWO proper ways to proceed?

① Speed up and drive away quickly even if it means exceeding the speed limit, to avoid being trapped.

② Turn on the hazard lights and drive carefully due to poor visibility ahead.

③ Use the radio or other sources to obtain information about detour routes.

④ Set the vehicle's air system to external circulation to get fresh air.

⑤ Park on the shoulder and leave the road by climbing over the right-side guardrail.

■ A fire has broken out near the expressway.

■ The road is filled with thick smoke from the fire.

■ Answer : 2, 3

832. Which of the following are the TWO safest ways to proceed in the given situation?

① Honk at the slow-moving trailer to urge it to speed up.

② Switch to the first lane to overtake the trailer ahead safely.

③ Turn on the turn signal in advance when changing lanes.

④ Enter the first lane, which is the driving lane, and maintain a steady speed.

⑤ Increase your speed in the first lane since there is no speed limit.

■ Driving in the second lane on the expressway

■ Answer : 2, 3

833. Which of the following are potential hazards in the given situation? (Select TWO)

① There could be trucks parked ahead, indicating that there is construction.

② The bus in lane 2 may slow down for safety.

③ The bus that just switched to lane 4 may keep going.

④ The vehicle in lane 1 may increase speed.

⑤ A vehicle may cut in front of you.

■ A road with four lanes in one direction

■ A bus switching from lane 3 to lane 4

■ Road construction ahead

■ Answer : 1, 5

834. Which of the following are the safe ways to drive in the given situation? (Select TWO)

① Switch to the right lane, ignoring the combination of broken and solid white lines.

② Turn on the right-turn signal to let other drivers know.

③ Accelerate rapidly when changing lanes to the right.

④ Change lanes right before the exit while slowing down.

⑤ Changing lanes is not allowed if doing so may obstruct other vehicles.

■ Dividing point of an automobile road

■ A driver changing lanes to leave the automobile road

■ Combination of broken and solid white lines

■ Answer : 2, 5

835. Among the vehicles driving on the expressway, which TWO are violating the designated lane rules?

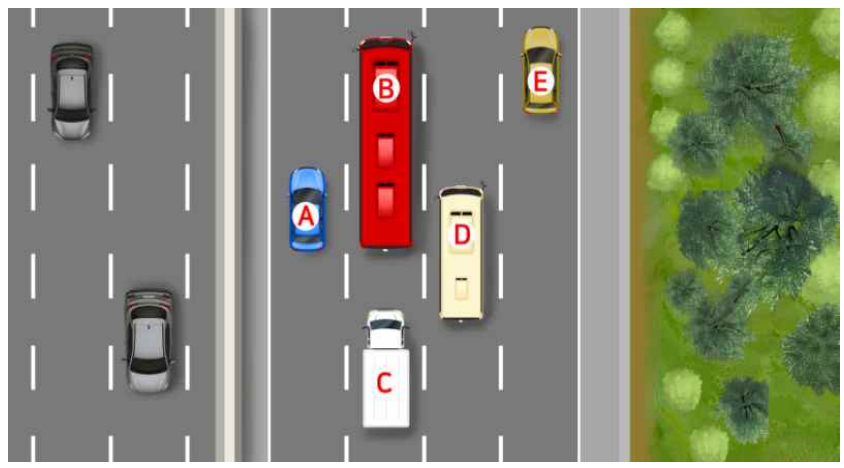
① A (a passenger car overtaking another vehicle)

② B (a large 36-seater bus)

③ C (a 1-ton cargo truck)

④ D (a large 26-seater bus)

⑤ E (a passenger car driving normally)



■ An expressway with four lanes in one direction

■ Answer : 2, 3

836. Which of the following are the TWO safest ways to proceed in the given situation?

① Drive at a speed below 80 km/h because the road surface is wet due to rain.

② Drive carefully and remain aware that your vision may be blocked by water splashing from a large bus on the right when it passes through a puddle.

③ Turn on the hazard lights to inform the driver behind you of your position while driving.

④ Switch to the first lane and continue driving, anticipating that the vehicle ahead on the right may change lanes.

⑤ Make an emergency stop to secure safety if visibility is suddenly blocked by splashing water from puddles.

■ Expressway with speed limit of 100 km/h

■ Visibility less than 100 meters due to heavy rainfall

■ Answer : 2, 3

837. Which of the following are the TWO safest ways to proceed in the snowy road conditions?

① Follow the tire tracks of the vehicle ahead when the lane markings are not visible due to heavy snow.

② Maintain a greater safe distance than usual because braking distances shorten on snowy or icy roads.

③ Be prepared for chain collisions caused by slippage accidents in tunnel entrances and exits, which are frequent freezing zones during heavy snowfall.

④ Reduce your speed by 20% of the speed limit on icy roads.

⑤ Beware of a temporary loss of vision due to adaptation to the dark after passing through the tunnel.

■ You have just passed through a tunnel and checked the situation ahead.

■ Visibility is poor due to heavy snowfall.

■ Answer : 1, 3

838. Which of the following are the TWO safest ways to proceed in the given situation?

① Since there is no snow inside the tunnel, there is no need to slow down.

② The lights on the truck ahead indicate a possible emergency outside the tunnel, so you should be prepared.

③ To avoid a collision with the vehicle ahead, quickly switch to the third lane.

④ Beware of a temporary loss of vision due to light adaption when exiting the tunnel.

⑤ Be prepared in advance for sudden changes in the road conditions between the inside and outside of the tunnel.

■ It is snowing heavily at night outside the tunnel.

■ A safe distance is being maintained from the vehicle ahead.

■ The brake lights and hazard lights of the truck ahead are on.

■ Answer : 2, 5

839. Which of the following are the desirable ways to drive in the given situation? (Select TWO)

① Come to a complete stop before reaching the bicycle.

② Come to a complete stop at the stop line before reaching the crosswalk.

③ Since the distance to the vehicle behind is short, accelerate to increase the distance.

④ Since there are no people on the crosswalk, proceed through it as is.

⑤ Honk continuously and proceed at a low speed.

■ Road with no centerline

■ Illegally parked vehicles on both sides of the road

■ Answer : 1, 2

840. According to the Road Traffic Act, which of the following best describe the road safety facility in the given situation? (Select TWO)

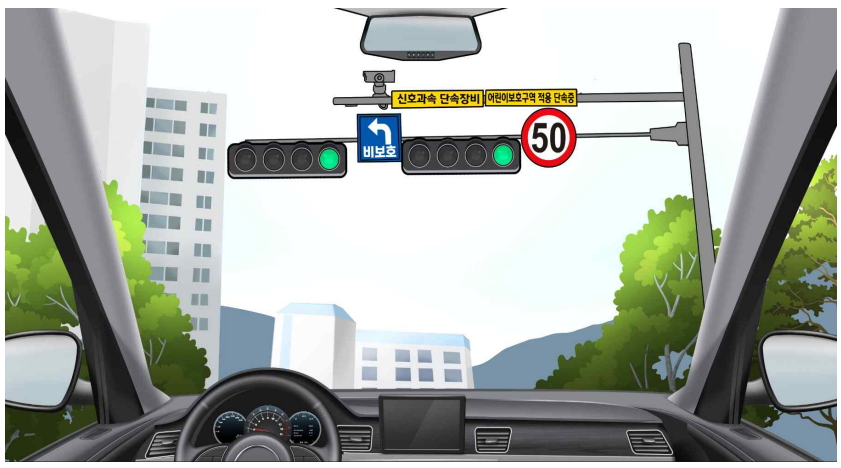
① The speed limit is 50 km/h and it is currently enforced.

② Left turn is only allowed when there is a green arrow.

③ The speed limit in all school zones is 50 km/h.

④ The sequence of a traffic signal is red, yellow, green, and green arrow.

⑤ When the traffic light is green, you can turn left only if there is no vehicle coming from the opposite side of the road.



■ School zone

■ Narrow road on both sides

■ Unprotected left-turn sign

■ Traffic and speed enforcement camera

■ Answer : 1, 5

841. Which of the following are the safe ways to drive through a school zone? (Select TWO)

① Follow the vehicle ahead and drive slowly to pass through Crosswalk A.

② Follow the vehicle ahead but maintain speed to avoid a collision with the rear vehicle.

③ Stop at the stop line in front of Crosswalk A and then pass through.

④ Slow down to pass through Crosswalk B as there are no pedestrians.

⑤ Stop in front of Crosswalk B and then pass through.

■ A vehicle about to drive across an intersection in the school zone

■ Crosswalks and intersection with no traffic lights

■ A vehicle can be seen in the rear by the rear-view mirror

■ Answer : 3, 5

842. Which of the following are safe ways to drive in the given situation? (Select TWO)

① Move into the left-hand lane past the centerline to maintain a safe distance from the mobility aid device.

② Slow down and assess the situation before reaching the electric wheelchair.

③ Accelerate quickly to pass the device before it enters the lane.

④ Sound the horn repeatedly to incite the device to stop and refrain from entering the road.

⑤ Stop temporarily to ensure the device's safety as it is about to enter the road.

■ A road with one lane in one direction

■ Mobility aid device entering the road.

■ Answer : 2, 5

843. Which of the following are the TWO safest ways to proceed in the given situation?

① Be cautious, as a child may suddenly run out from behind the school bus.

② Since there are no pedestrians at the crosswalk ahead without a traffic light, proceed through it slowly.

③ Come to a complete stop before the crosswalk, as children running on the right may suddenly dart out onto the crosswalk.

④ In this zone, only school buses are allowed to park or stop temporarily.

⑤ As children are getting on or off the school bus ahead on the right, stop before passing and then proceed carefully.

■ School zone

■ Behind a school bus is the front gate of an elementary school

■ Answer : 1, 3

844. Which of the following are the TWO safest ways to proceed in the given situation?

① Come to a complete stop before entering the intersection and then proceed.

② Honk and speed up to pass through it quickly.

③ Since an elderly pedestrian in a mobility scooter is waiting, pass through the intersection quickly.

④ Exercise caution as there may be children walking between the parked or stopped vehicles.

⑤ Since the vehicle going straight ahead has the right of way, keep to the left and proceed as is.

■ Driving through a school zone

■ Vehicles are parked or stopped near the entrance of an intersection without traffic lights.

■ Answer : 1, 4

845. Which of the following are the TWO safest ways to proceed in the given situation?

① Maintain a safe distance as the school bus ahead of you may stop.

② Overtake the school bus because slowing down may cause a rear-end collision.

③ Watch out for any children on the left who may enter the crosswalk.

④ Carefully overtake the school bus while watching out for accidents with the parked motorcycle on the left.

⑤ Slowly pass the school bus ahead even though children are getting on or off it.

■ Driving in a school zone

■ Crosswalk in front of a school bus

■ Answer : 1, 3

846. Which of the following are the TWO safest ways to proceed in the given situation?

① Honk continuously to alert others of danger while passing.

② Use headlights to signal "danger" to the school bus driver while passing.

③ Be cautious as children may suddenly run out from between illegally parked vehicles on the right.

④ Come to a complete stop before reaching the school bus on the left, and then pass by it slowly.

⑤ Quickly pass the stopped school bus that is picking up or dropping off children on the right in order to get out of the alley.

■ Driving in a school zone

■ A school bus coming from the opposite direction is operating red flashing lights.

■ Answer : 3, 4

847. Which of the following are the TWO safest ways to proceed in the given situation?

① Make a right turn since there is no risk of collision with the children on the crosswalk.

② Be prepared for children who may dart out onto the crosswalk unexpectedly.

③ Turn right only after the children have finished crossing.

④ Honk to hurry the children crossing the street.

⑤ Stop on the crosswalk to prevent other children from entering the crosswalk.

■ Crosswalk after a right turn

■ The pedestrian signal is flashing green with 5 seconds remaining.

■ The front gate of an elementary school is located on the right-hand side of the crosswalk.

■ Answer : 2, 3

848. Which of the following are the TWO most appropriate ways to proceed in the given situation?

① Drive at a speed of no more than 20 km/h.

② Slow down at the crosswalk and pass through it without stopping.

③ Stop along the right-hand side of the road without obstructing access to the front gate of the school.

④ Proceed with caution as children may suddenly run into the road.

⑤ Park in front of the school gate and wait for your child.

■ In a school zone

■ The traffic signal ahead is flashing red lights.

■ Answer : 1, 4

849. Which of the following are the correct ways to drive in the given situation? (Select TWO)

① Ignore the emergency vehicle violating traffic laws and continue driving.

② Use the high-beam headlights several times to prevent the emergency vehicle from committing violations.

③ Apply the brakes multiple times to signal to the trailing driver.

④ Stop at a distance to allow the emergency vehicle to drive against the direction of traffic.

⑤ Stop in front of the emergency vehicle to prevent it from proceeding.

■ Emergency vehicle with siren and strobe lights turned on

■ Emergency vehicle attempting to go against the direction of traffic

■ Answer : 3, 4

850. Which of the following are the TWO most appropriate ways to proceed in the given situation?

① Speed up in the third lane to get through so that the ambulance can pass through quickly.

② Yield to the ambulance even though the traffic light is green.

③ Check for any trailing emergency vehicles after the ambulance passes.

④ Accelerate and follow the red car through the intersection.

⑤ Honk at the ambulance driver and continue driving through.

■ The traffic signal ahead is green.

■ An ambulance is passing through the intersection.

■ Answer : 2, 3

851. Which of the following are the TWO most appropriate ways to proceed in the given situation?

① Proceed regardless of the fire.

② Quickly switch the air-conditioning system to outside air mode.

③ Park in the driving lane, lock the doors, and run away.

④ Close the car windows to block the intrusion of toxic gases.

⑤ Avoid entering areas with fierce flames and follow the hand signals of the police officer.

■ A wildfire has broken out on your front left side.

■ Visibility is poor due to the wildfire.

■ Answer : 4, 5

852. Which of the following are desirable ways to drive in the given situation? (Select TWO)

① The traffic light is green. Enter the intersection at once.

② Stop before entering the intersection to allow the emergency vehicle to pass because it has the right of way.

③ Sufficiently reduce speed to account for a sudden change of lanes by the vehicle in lane 2.

④ Motor vehicles have the right of way, so just enter the intersection.

⑤ Speed up and enter the intersection before the emergency vehicle does.

■ A road with two lanes in one direction

■ A police car in emergency dispatch with strobe lights and siren turned on

■ Answer : 2, 3

853. Which of the following are the TWO safest ways to proceed in the given situation?

① Continue driving in the first lane according to the "Lane 2 ends" sign.

② Make a sudden stop to avoid the construction area.

③ Switch to the second lane in advance as the road narrows ahead.

④ Turn on the hazard lights to alert others to the construction area.

⑤ Keep driving in the first lane and merge into the second lane right before the construction zone.

■ Road construction ahead in the first lane

■ A temporary barrier is installed on the left-hand side.

■ Answer : 3, 4

854. Which of the following are the safe ways to drive in the given situation? (Select TWO)

① Drive in the left lane to avoid a collision with the bicycle.

② Slow down sufficiently before reaching the bicycle.

③ Accelerate to maintain communication with the trailing vehicle.

④ Slow down in preparation for pedestrians entering the roadway and watch out for pedestrians.

⑤ Drive through the edge of the road to protect pedestrians.

■ A road with one lane in one direction

■ A vehicle can be seen in the rear by the rear-view mirror

■ Answer : 2, 4

855. Which of the following are safe ways to drive in the given situation? (Select TWO)

① To facilitate smooth traffic flow, drive behind the vehicle in front without making any changes.

② Accelerate faster than the bicycle in order to pass through.

③ Come to a stop at the stop line just before the crosswalk.

④ Since the pedestrian has already crossed the crosswalk, proceed quickly.

⑤ Slow down to prepare for the sudden departure of the stopped vehicle.

■ Before entering the crosswalk

■ Vehicle on the left stopped with hazard lights activated

■ Answer : 3, 5

856. Which of the following are the TWO safest ways to proceed in the given situation?

① Drive close to the left-hand side of the bicycle to intimidate and dissuade it from turning left.

② Cross the centerline to overtake the bicycle.

③ Slow down and wait until the bicycle safely moves off the road.

④ Maintain a safe distance because the bicycle may turn left.

⑤ Honk to hurry the bicycle along.

■ Empty rural road

■ Silver zone

■ Answer : 3, 4

857. Which of the following are the TWO safest ways to proceed in the given situation?

① Pass through quickly before the signal turns red.

② Stop at the stop line just before the crosswalk.

③ Be cautious while passing, as there is a raised crosswalk that allows bicycles to cross.

④ Proceed quickly by passing through the safety zone.

⑤ Be careful as children may run out from behind the truck.

■ The traffic signal is about to change from yellow to red.

■ Answer : 2, 5

858. In this situation, which of the following are the two safest ways of proceeding?

① Sound the horn continuously to pass the parked vehicles quickly as they may start to move suddenly.

② Drive slowly and carefully as pedestrians may suddenly emerge from between the parked cars.

③ Sound the horn to encourage the cyclist ahead to pass quickly.

④ Drive carefully and pay attention to the surroundings, taking into account speed bumps, cyclists, and situations with limited visibility.

⑤ Accelerate quickly as there is sufficient distance between you and the cyclist.

■ Side street

■ Parked buses on the right

■ Residents-only parking

■ Cyclist crossing

■ Answer : 2, 4

859. Which of the following are the TWO safest ways to proceed in the given situation?

① Overtake the black vehicle on the right.

② Drive side by side in the same lane as the black vehicle.

③ Immediately switch to the third lane to allow the motorcycle to exit toward Goyang.

④ Slow down and maintain a safe distance because the white vehicle may change lanes.

⑤ Drive up to the section with the white broken line where lane changes are allowed, and then enter the third lane.

■ A black vehicle is driving slowly.

■ A motorcycle is traveling toward Goyang.

■ There is an exit 300 meters ahead.

■ Answer : 4, 5

860. Which of the following are the safe ways to drive when you are trying to switch to the first lane in the given situation? (Select TWO)

① Look at the left side-view mirror to check the vehicles in lane 1.

② Use high-beam headlights to warn the vehicle that you are about to go to lane 1.

③ Quickly switch to lane 1 as the agricultural machine may enter the road.

④ Speed up since it is uphill.

⑤ Maintain a safe distance as the two-wheeled vehicle in front may suddenly switch to lane 1.

■ An uphill curved to the left

■ A two-wheeled vehicle driving straight ahead

■ Agricultural machine about to enter the road

■ Answer : 1, 5

861. Which of the following are the TWO safest ways to proceed in the given situation?

① Park on the right-hand side of the road without obstructing bicycle traffic.

② Drive slowly while watching out for pedestrians as there is a crosswalk ahead.

③ Speeding is allowed when overtaking, so drive at 50 km/h.

④ Switch to the first lane to maintain a safe distance from the bicycle.

⑤ Honk to urge the bicycle to ride closer to the edge of the road.

■ Entering a bicycle-first road

■ Answer : 2, 4

862. You are riding a bicycle. Which of the following are the TWO safest ways to ride?

① Stop in front of the pedestrian ahead.

② Since bicycles have the right of way, honk and overtake.

③ There is a high risk of collision with the pedestrian ahead, so ride in the pedestrian area.

④ Walk the bicycle to avoid a possible collision with the pedestrian on the right.

⑤ Bicycles are not subject to speed limits, so pass through the dangerous area quickly.

■ Riding a bicycle

■ Answer : 1, 4

863. Which of the following are the safe ways for the bicycle rider to cross in the given location? (Select TWO)

① Stay on the bicycle while waiting for the crosswalk light to turn green, and cross the street while riding the bicycle.

② Quickly cross the street as other bicycle riders are crossing as well.

③ Get off the bicycle and wait in a safe location to prevent collision with other bicycle riders.

④ In the case of children or senior persons riding a bicycle, they must cross the street when the crosswalk light is green.

⑤ When the crosswalk light turns green, the bicycle rider must walk his/her bicycle to cross the street.

■ A bicycle rider is waiting on the sidewalk.

■ A bicycle rider is looking at the road.

■ Answer : 3, 5

864. Which of the following are the safe ways to drive in the given situation? (Select TWO)

① Prepare to stop as the pedestrian in the front may rapidly turn left.

② To go straight, slowly enter the intersection as it is currently empty.

③ Prior to entering the intersection, stop to check for vehicles coming from both sides.

④ Honk repeatedly to alert the bicycle riders and pedestrians nearby.

⑤ Drive along the right side of the road to induce the pedestrians to move to the edge of the road.

■ A road with one lane in one direction

■ Illegally parked vehicles

■ A road where the roadway and sidewalk are not distinguishable

■ Answer : 1, 3

865. The driver of an electric kick scooter is trying to turn left. Which of the following are the safe ways to do so in the given situation? (Select TWO)

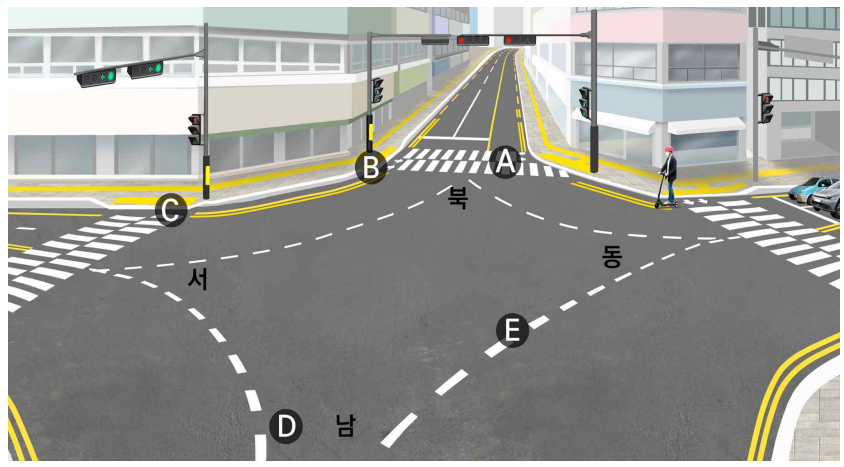
① Use Crosswalk A while riding the electric kick scooter, wait at Point B for the traffic light to turn green, and go in Direction D.

② Use Crosswalk A while pushing the electric kick scooter, wait at Point B for the traffic light to turn green, and go in Direction D.

③ Ride the electric kick scooter, turn left toward the center of the intersection, and go in Direction E.

④ Ride the electric kick scooter going straight to Point B, wait for the traffic light to turn green, and go in Direction D.

⑤ Ride the electric kick scooter going straight to Point C and immediately go to Point B to go straight in Direction D.



■ Traffic signal from east to west: Straight and left-turn signals

■ The crosswalk light for Crosswalk A from east to west has turned green.

■ Answer : 2, 4

866. Where should this crosswalk sign be installed?

① At an intersection with a traffic signal on a paved road with a crosswalk

② On a single paved road with a traffic signal and a crosswalk

③ On a road with a crosswalk where pedestrian crossing is prohibited

④ At an intersection or on a single paved road without traffic signals but which has a crosswalk

■ Answer : 4

867. What does this safety sign indicate?

① The area is designated for kindergarteners, so cars are prohibited.

② There is a designated crossing area/crosswalk for children and infants.

③ The sign should be installed in an area more than 2 km away from a school entrance.

④ Children and infants are not allowed to cross the road.

■ Answer : 2

868. What does this safety sign indicate?

① The road surface ahead is rough.

② There is a tunnel ahead.

③ There is a speed bump ahead.

④ The road ahead is slippery.

■ Answer : 3

869. What does this safety sign signify?

① You should drive with caution and proceed on the right side of the road because there is an obstacle in the middle of the road.

② You should drive with caution because a median strip is about to start.

③ You should drive with caution because a median strip is about to end.

④ You should drive with caution and headlights on because there is a tunnel is ahead.

■ Answer : 1

870. According to the Road Traffic Act and its Enforcement Decree, which of the following correctly describes this road safety sign?

① Regulation sign

② Priority sign for vehicles going straight

③ Road sign for merging with left lane

④ Prohibition on turning left

■ Answer : 3

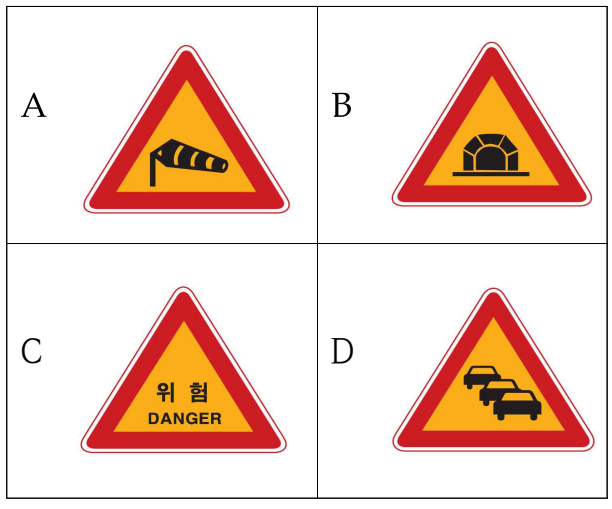
871. Which installation location standard for traffic signs is incorrect?

① Sign A shall be placed on the right-hand side of the road, 50–200 meters before a location prone to crosswinds.

② Sign B shall be placed on the right-hand side of the road, 50–200 m before the entrance to a tunnel.

③ Sign C shall be placed on the right-hand side of the road, 50–200 m before a dangerous area.

④ Sign D shall be placed on the right-hand side of the road, 50–200 m before the entrance to a public parking lot.



■ Answer : 4

872. According to the Road Traffic Act and its Enforcement Decree, which of the following is categorized as a warning sign as in the given picture?

① Uphill sign, usual traffic congestion area sign

② Vehicle width limit sign, keep distance sign

③ Tram-only road sign, bypass sign

④ Unprotected left-turn sign, left-turn and U-turn sign

■ Answer : 1

873. What do these safety sign and supplementary sign jointly mean?

① Beware of a cliff 100 m ahead.

② Beware of construction work 100 m ahead.

③ Beware of a riverside road 100 m ahead.

④ Beware of falling rocks 100 m ahead.

■ Answer : 4

874. What does this safety sign signify?

① A railway

② A bridge

③ Vehicle height limit

④ A cultural asset

■ Answer : 2

875. What do these safety sign and supplementary sign mean when placed together?

① Slow down because there is a road starting ahead where you can pass either side.

② Slow down because there is a road obstacle ahead.

③ Slow down because a median strip starts ahead.

④ Slow down because there is a two-way road ahead.

■ Answer : 3

876. What does this safety sign indicate?

① Detour to the left side of the road.

② Road merges to the right.

③ Road narrows.

④ The right lane ends.

■ Answer : 4

877. What does this safety sign indicate?

① The beginning of a median strip

② Start of a road where you can pass either side

③ The end of a median strip

④ An obstacle on the road ahead

■ Answer : 1

878. What does this safety sign signify?

① A tunnel with two lanes in one direction

② A series of speed bumps

③ A rough road surface ahead

④ A submersible bridge with curves

■ Answer : 3

879. What does this safety sign indicate?

① This is an area with busy bicycle traffic.

② This is a bicycle crossing.

③ This is a bicycle parking space.

④ This is a bicycle-only trail.

■ Answer : 1

880. What is the safe method of driving on a road with this safety sign?

① If the road is snowy, use a high gear.

② If the road is snowy, try not to stop on the way up if possible.

③ Use a higher gear than that on level ground.

④ Trail closely behind a vehicle fully loaded with cargo.

■ Answer : 2

881. What is the safe approach to driving on a road with this safety sign?

① Pass through the crossing slowly when the railroad crossing signal is green.

② Enter the crossing and drive through quickly when the railroad crossing barrier is about to come down.

③ If a warning bell sounds before entering the railroad crossing, increase speed to pass through.

④ Pass through the crossing while frequently changing gears when the railroad crossing barrier is going up.

■ Answer : 1

882. What does this safety sign indicate?

① It is a sign placed at a priority lane, indicating that there is an intersection with a road that is not a priority lane.

② It is a sign indicating an intersection with one-way traffic.

③ It is a sign indicating that there is a point on the road with same-direction traffic where passage in both directions is required.

④ It is a sign indicating the start of two-way traffic.

■ Answer : 1

883. Which explanation for the signs is correct?

① Sign A indicates a rockfall hazard, and is installed where there is a risk of rockfall.

② Sign A is installed at locations where one side of the road is a fall hazard, such as a riverbank, coastline, or valley.

③ Sign B is installed at locations where crosswinds are strong enough to shake an aircraft, requiring caution.

④ Sign B is installed at locations near military airports where vehicle and pedestrian traffic is strictly prohibited.

A

B

■ Answer : 1

884. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct explanation of this road safety sign?

① Auxiliary sign indicating that one side of the road is an area with risk of falling, such as a valley

② Regulatory sign indicating that one side of the road is an area with risk of falling, such as a riverside

③ Caution sign that one side of the road is an area with risk of falling, such as a valley

④ Indication sign indicating that one side of the road is an area with risk of falling, such as a riverside

■ Answer : 3

885. What does this safety sign signify?

① Two-way traffic

② The end of a median strip

③ Pass either side

④ The start of a median strip

■ Answer : 3

886. What does this safety sign signify?

① A roundabout ahead

② Look out for U-turning and left-turning vehicles

③ An intersection without traffic signals

④ A left-bending road

■ Answer : 1

887. Which of the following is the best location to install the safety sign above?

① A left-bending road where lane departure could occur

② A road that easily becomes slippery from snow or rain

③ A winding road where lane departure could occur

④ A steep downhill road where deceleration is required

■ Answer : 2

888. What does this safety sign signify?

① Make a right turn.

② Driving straight through not allowed

③ Right-bending road

④ No right turns

■ Answer : 3

889. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct way of driving in a place where this road safety sign is installed?

① Installed on an automobile road; keep distance of 50m or more between vehicles.

② Installed on a one-way road; keep distance of 50m or more between vehicles.

③ Installed on an automobile road; slow down as the traffic jam section is 50 m ahead.

④ Installed on a one-way road; slow down as the traffic jam section is 50 m ahead.

■ Answer : 1

890. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct explanation of this road safety sign?

① It is an indication sign, and the vehicle's speed should not exceed 50 km/h on average.

② It is a regulatory sign, and the vehicle's speed should not exceed 50 km/h on average.

③ It is an indication sign, and the vehicle's maximum speed should not exceed 50 km/h.

④ It is a regulatory sign, and the vehicle's maximum speed should not exceed 50 km/h.

■ Answer : 4

891. Which of the following is the correct interpretation of this safety sign?

① Pedestrians are allowed to pass.

② Vehicles and horses as well as pedestrians are not allowed to pass.

③ The sign should be installed in the center or to the left of a road.

④ A period for no passing cannot be indicated on the sign.

■ Answer : 2

892. Which of the following is the correct interpretation of this safety sign?

① Two-wheeled vehicles and bicycles are not allowed.

② Two-wheeled vehicles and motorcycles are not allowed.

③ All vehicles and horses except two-wheeled vehicles and bicycles are allowed at all times.

④ All vehicles and horses except two-wheeled vehicles and motorcycles are allowed at all times.

■ Answer : 2

893. Which of the following is the correct interpretation of this safety sign?

① Vehicles are not allowed to enter.

② Vehicles and pedestrians are not allowed to enter.

③ Cargo trucks with dangerous loads are not allowed to enter.

④ Supplementary signs such as informing the "period of no entry" are not allowed to be installed.

■ Answer : 1

894. Which of the following statements regarding this safety sign is correct?

① It should be installed on a road with many cars going straight.

② It should be installed to the left of an area that should not be entered.

③ Where such signs are installed, one must make a U-turn and drive in the opposite direction.

④ The sign means that drivers should use other roads such as the ones to the right or left.

■ Answer : 4

895. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct explanation of this road safety sign?

① It is a regulatory sign that prohibits vehicles and horses from making a U-turn.

② It is an indication sign that prohibits vehicles and horses (except streetcars) from making a U-turn.

③ It is a warning sign that prohibits personal mobility devices from making a U-turn.

④ It is an indication sign that prohibits vehicles, etc. (except personal mobility devices) from making a U-turn.

■ Answer : 1

896. What does this safety sign signify?

① You can park momentarily to load cargo.

② You can stop momentarily to drop off a passenger.

③ The sign is installed at a section where parking and stopping are prohibited.

④ Two-wheeled vehicles are allowed to park.

■ Answer : 2

897. What does this safety sign indicate?

① Vehicle width limit

② Vehicle height limit

③ Secure a safe following distance

④ Height of tunnel

■ Answer : 2

898. What does this safety sign signify?

① Vehicle height limit

② Secure a safe following distance

③ Vehicle width limit

④ Vehicle length limit

■ Answer : 3

899. Which of the following is the correct method of driving on a road with this safety sign?

① You can stop only when there is an oncoming car.

② You must stop even when there are no cars on the road.

③ Stop only when children cross the street.

④ Stop only when there is a red light.

■ Answer : 2

900. Where could this regulatory sign be installed?

① A busy intersection with no traffic control

② Near the top of an ascending road

③ An intersection where there is no traffic control and it is difficult to see the incoming traffic from the left and right sides of the road

④ A railroad crossing with no signal lights

■ Answer : 2

901. What does this regulatory sign indicate?

① Vehicles carrying hazardous materials are prohibited

② Congestion ahead because of a car fire

③ Places where vehicle fires occur frequently

④ Cars prohibited because of danger from wildfire

■ Answer : 1

902. Which of the following vehicles are prohibited from driving in an area that shows this regulatory sign?

① Two-wheeled vehicles

② Buses

③ Passenger cars

④ Motorcycles

■ Answer : 2

903. What does this safety sign signify?

① Park in a single line

② A frequently congested area

③ Drive cautiously at nighttime

④ A change of lane

■ Answer : 2

904. What does this regulatory sign indicate?

① Be careful of the curved road

② Cars are not allowed to enter

③ No overtaking

④ Speed bumps ahead

■ Answer : 3

905. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct explanation of this road safety sign?

① Limit the crossing of a vehicle weighing 5.5 tons or more.

② Limit the crossing of a vehicle weighing over 5.5 tons.

③ Limit the passing of a vehicle weighing 5.5 tons or more.

④ Limit the passing of a vehicle weighing over 5.5 tons.

■ Answer : 4

906. What does this safety sign signify?

① No passenger cars allowed.

② Freight vehicles carrying hazardous loads are not allowed.

③ No buses allowed.

④ No trucks allowed.

■ Answer : 4

907. Which vehicle warning light is incorrect?

① Figure ㉠: Warning light indicating a malfunction in the engine control unit or exhaust emission control system and the related sensors.

② Figure ㉡: Warning light indicating a low level of washer fluid and the need to refill.

③ Figure ㉢: Warning light indicating low tire pressure, requiring inflation to the standard pressure, or indicating tire damage.

④ Figure ㉣: Warning light related to the ABS brake system.

㉠ ㉡

㉢ ㉣

■ Answer : 4

908. Which of the following is NOT true about the criteria for installing these road signs?

① Sign A is placed at the center or on the right side of the road between 50 and 120 m from a tram crossing.

② Sign B is placed on the right side of the road between 30 and 120 m from a roundabout.

③ Sign C is placed on the right side of the road between 30 and 200 m from the starting point of a downhill.

④ Sign D is placed on the right side of the road between 30 and 200 m from where the road becomes narrower.

A

B

C

D

■ Answer : 4

909. Which of the following vehicles are allowed to drive in an area that has this regulatory sign installed?

① Trucks

② Cultivators

③ Tractors

④ Handcarts

■ Answer : 1

910. What does this regulatory sign indicate?

① Minimum speed limit

② Maximum speed limit

③ Safe following distance

④ Safety speed

■ Answer : 1

911. What does this safety sign indicate?

① Go either way

② Do not go either way

③ Median strip starts

④ Median strip ends

■ Answer : 1

912. What does this safety sign indicate?

① You can turn left regardless of the traffic signal when there are no vehicles around.

② You can turn left when the traffic light turns red as long as it does not hinder the passage of other vehicles.

③ You cannot turn left if there is no left-turn signal.

④ You can turn left when the traffic light turns green as long as it does not hinder the passage of other vehicles.

■ Answer : 4

913. What does this safety sign signify?

① Go either way.

② Turn left or right.

③ Median strip starts.

④ Median strip ends.

■ Answer : 2

914. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct explanation of this road safety sign?

① Safety sign directing vehicles to make a U-turn after turning left

② Safety sign directing vehicles to turn left or make a U-turn

③ Safety sign directing that vehicles turning left have priority over vehicles making a U-turn

④ Safety sign directing that vehicles making a U-turn have priority over vehicles turning left

■ Answer : 2

915. What does this safety sign indicate?

① Follow the direction of the arrow when entering a parking lot.

② Make a detour because left turns are not allowed.

③ Indicating to turn with caution as it is a roundabout.

④ Use the left lane.

■ Answer : 2

916. What does this safety sign indicate?

① Traffic moving in the direction of the white arrow has the right of way.

② Traffic moving in the direction of the red arrow has the right of way.

③ Traffic moving in the direction of the white arrow is prohibited.

④ Traffic moving in the direction of the red arrow is prohibited.

■ Answer : 1

917. What does this safety sign indicate?

① A crossing for bicycles is nearby.

② Road crossing by bicycles is prohibited.

③ Road crossing is allowed for bicycles and pedestrians.

④ Watch out for bicycles and pedestrians crossing the road.

■ Answer : 1

918. What does this safety sign indicate?

① The road on the left is a one-way street.

② The road on the right is a one-way street.

③ All the roads ahead are one-way streets.

④ The road ahead is a one-way street.

■ Answer : 4

919. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct way of passing a road where this road safety sign is installed?

① Electric scooters can pass on the road with this sign.

② Electric bicycles cannot pass on the road with this sign.

③ Only bicycles are allowed on the lane with this sign.

④ Vehicles can pass through the lane with this sign.

■ Answer : 1

920. What does this safety sign signify?

① Bicycle thoroughfare only

② A road for bicycles and pedestrians

③ Children must be accompanied by a guardian in a school zone

④ A crossing for bicycles

■ Answer : 2

921. Which of the following is true about using an intersection with this road sign?

① A truck apron cannot be situated on the sides of a traffic island.

② You must always turn on the turn signal when entering and leaving the intersection.

③ You must turn on the turn signal when entering the intersection but not necessarily when leaving the intersection.

④ A vehicle entering the intersection has the right of way to vehicles already making a turn.

■ Answer : 2

922. What does this safety sign signify?

① Two or more bicycles can travel side by side on the bicycle road

② A crossing for bicycles

③ Bicycle thoroughfare only

④ A bicycle parking lot

■ Answer : 1

923. What does this safety sign alert drivers to?

① A crossing for bicycles

② Bicycles have the right of way

③ A road for bicycles and pedestrians

④ Lane separation for pedestrians and bicycles

■ Answer : 4

924. Which of the following is true about this road sign?

① It is a regulatory sign that informs the traffic direction and flow.

② It is a sign that directs vehicles turning right or left or traveling straight.

③ A vehicle that is trying to turn left must use the outermost lane.

④ A vehicle that is trying to turn left must switch to the leftmost lane and slow down.

■ Answer : 4

925. Which of the following statements regarding this safety sign is correct?

① It is a caution sign indicating a no-parking zone for personal mobility devices.

② Motorcycles are allowed to park here temporarily.

③ Cars are allowed to park here temporarily.

④ It is a caution sign indicating the location of a personal mobility device parking area.

■ Answer : 4

926. How many regulatory signs under the Road Traffic Act and its Enforcement Decree are there among these road signs?

① 1

② 2

③ 3

④ 4

■ Answer : 3

927. According to the Road Traffic Act and its Enforcement Decree, which of the following is the correct way of passing a road where this guide sign is installed?

① A special vehicle is not allowed on this road.

② Trucks are not allowed on this road.

③ Only a two-wheeled vehicle with an emergency purpose is allowed on this road.

④ Only a motorcycle with an emergency purpose is allowed on this road.

■ Answer : 3

928. Which of the following vehicles cannot pass through the road where this safety sign is installed?

① Electric bicycle

② Electric two-wheeled parallel vehicle

③ Personal mobility device

④ Motorcycle (excluding personal mobility devices)

■ Answer : 4

929. What does this safety sign signify?

① Children must be accompanied by a guardian in a school zone.

② Pedestrians must use a crosswalk to cross the road.

③ There is an exclusive road for pedestrians ahead.

④ Elderly persons must be protected in a silver zone.

■ Answer : 3

930. Which of the following is the correct explanation of this road safety sign?

① It directs vehicles to go straight and turn left.

② It directs vehicles to turn left and go straight.

③ It directs vehicles to go straight or turn left.

④ It directs that vehicles going straight have priority over vehicles turning left.

■ Answer : 3

931. Which two statements about A and B among the following are incorrect? (Choose two)

A

B

① A is a guide sign indicating a pedestrian-priority road, and B is a road marking indicating a pedestrian-priority road.

② On a pedestrian-priority road, pedestrians can use the entire road.

③ On a pedestrian-priority road, pedestrians have priority so they may intentionally obstruct vehicle traffic.

④ On a pedestrian-priority road, only pedestrians are allowed to use the road.

■ Answer : 3, 4

932. According to the Road Traffic Act, which is the correct explanation of this road safety sign?

① Vehicle traffic is prohibited in elderly protection zones.

② Elderly persons are allowed to walk side by side in the elderly protection zone.

③ Elderly persons are prohibited from walking side by side in the elderly protection zone.

④ Drivers are instructed to protect elderly people in the elderly protection zone.

■ Answer : 4

933. Which of the following statements about the activated left-turn signal shown on the safety sign is incorrect?

① When a vehicle stops within the rectangular marking (detection line) on the road, the sensor is activated and detects the vehicle.

② When there are no left-turning vehicles, extra time can be allocated to the straight-through signal.

③ It helps improve traffic flow, and air pollution is expected to be reduced.

④ To operate it, the driver must stop and press a switch installed on the left-hand side of the road, and then wait briefly.

■ Answer : 4

934. Which of the following is the correct type of this road sign?

① Make a right turn

② Right-bending road

③ Right turns first

④ Right-side vehicles first

■ Answer : 1

935. Which of the following is the correct method of passing an intersection that has this facility for traffic safety?

① You can only turn left when the left-turn green arrow is lit.

② When there is a left-turn signal or a green light for straight traffic, you can turn left without obstructing vehicles coming from the opposite direction.

③ Regardless of the traffic lights, you can turn left without obstructing vehicles coming from the opposite direction.

④ When the yellow light is on, you can turn left, making sure not to obstruct vehicles coming from the opposite direction.

■ Answer : 2

936. Which of the following statements regarding road safety facilities installed on this centerline mark is NOT correct?

① The road safety facility installed on the centerline road marking is a median barrier.

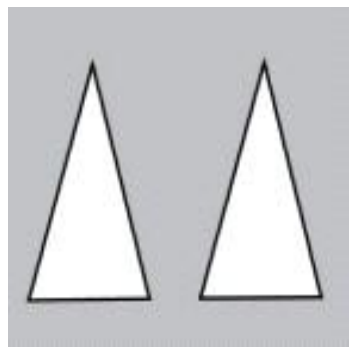
② It is installed for the purpose of giving warning as the place has high risk of traffic accidents.

③ It guides the eyes of the driver by supporting the marking on the road in a place where the driver's attention is required.

④ It is installed to separate the same and opposite traffic flow spatially.

■ Answer : 1

937. What is the meaning of this road surface marking?



① There is a speed bump ahead or an uphill road at the intersection ahead.

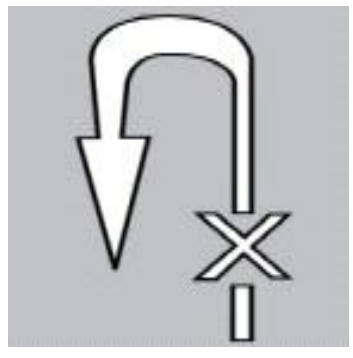
② The road ahead is narrowing.

③ Two cars may pass through at the same time.

④ This is a mountainous road.

■ Answer : 1

938. Which of the following is the correct place for this road surface marking?



① It is installed in the section of a road where reverse driving of vehicles and horses is prohibited.

② It is installed in the section of a road where vehicles and horses are prohibited from making a U-turn.

③ It is installed in the section of a road where reverse driving is prohibited within roundabouts.

④ It is installed in the section of a road where making a U-turn is prohibited within roundabouts.

■ Answer : 2

939. Which of the following is the correct explanation of the red road marking in the given situation?

① The red road marking is used to mark the roadside area that divides the roadway from the sidewalk.

② The red road marking is used to restrict lane changing by vehicles.

③ The red road marking is used to mark an area where pedestrians should be protected.

④ The red road marking is used to mark an area where firefighting facilities are installed.

■ Answer : 4

940. Which of the following is the correct way to drive after seeing the road surface marking in the given situation?

① This is a school zone. You are not allowed to park in this area or idle along the sidewalk to drop off or pick up children.

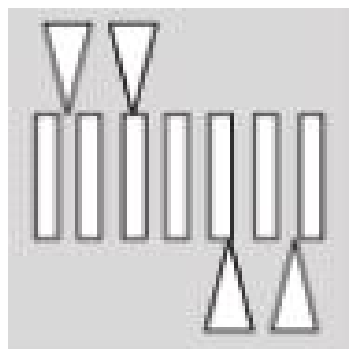
② There is marking that indicates a pedestrian crossing in the school zone. You must reduce speed ahead.

③ This is a school zone and you must drive with caution to watch out for children. The zigzag lines instruct drivers to slow down.

④ It is possible to stop briefly in a school zone regardless of whether it is time-regulated or not.

■ Answer : 3

941. Which of the following statements regarding this road surface marking is INCORRECT?



① A raised crosswalk is present in the area.

② A crosswalk shaped like a block-ladder and a speed bump with height of 10cm.

③ A sign that can be installed to caution drivers.

④ These markings can be installed on all roads.

■ Answer : 4

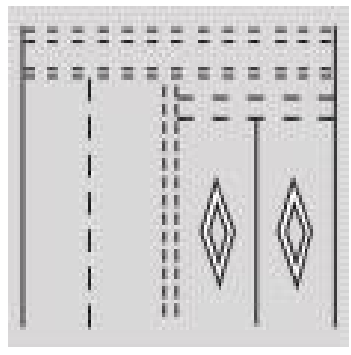
942. What does this road surface marking indicate?

① A safety zone is up ahead.

② Vehicles must yield.

③ A crosswalk is up ahead.

④ Parking is allowed.



■ Answer : 3

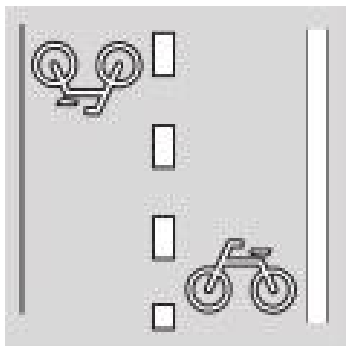
943. What does this road surface marking indicate?

① A bicycle-only lane.

② A crossing for bicycles.

③ Bicycles must be parked at a bicycle parking lot.

④ Two or more bicycles can travel side by side on a bicycle track.



■ Answer : 2

944. What does this road surface marking indicate?

① It indicates a crosswalk.

② It is a sign that prohibits a vehicle from entering and stopping.

③ It is a sign indicating that it is the place to yield.

④ It indicates that there is an uphill slope from the intersection.

■ Answer : 3

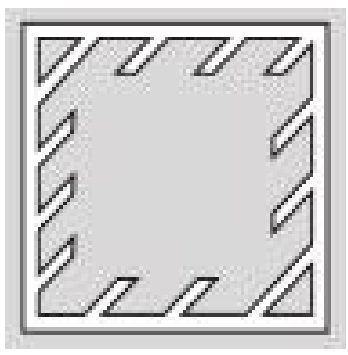
945. What does this road surface marking indicate?

① Vehicles must yield.

② There are obstacles on the road surface.

③ Vehicles must not stop inside the markings.

④ Parking is allowed.



■ Answer : 3

946. What does this road surface marking indicate?

① Bicycle-first road

② Bicycles only

③ Bicycle crossing

④ A cyclist protection zone

■ Answer : 1

947. Which of the following is the correct explanation regarding the road markings installed on the edge of the roadway section as shown in this picture?

① These markings prohibit stopping and mark places where parking is permitted.

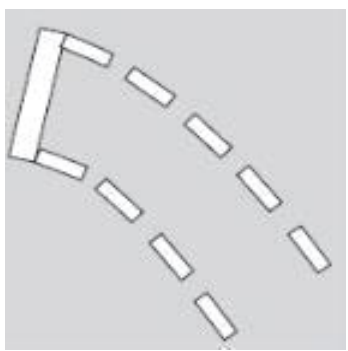
② These markings indicate prohibition of stopping and parking.

③ These markings allow stopping and prohibit parking.

④ These markings indicate that parking is allowed by specifying the area, time, place, and type of vehicle.

■ Answer : 2

948. What does this road surface marking indicate?



① Vehicles turning left at the intersection must wait within the designated area inside the intersection while the lights are red.

② Vehicles turning left at the intersection must wait within the designated area inside the intersection while the lights are yellow.

③ Vehicles turning left at the intersection must wait within the designated area inside the intersection while the lights are green.

④ Vehicles turning left at the intersection must wait within the designated area inside the intersection while the red lights are flashing.

■ Answer : 3

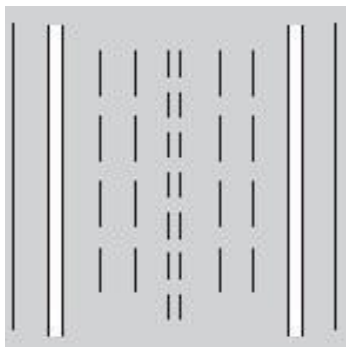
949. What does this road surface marking indicate?

① A roadside

② A direction change restriction line

③ A U-turn area

④ A roadside area



■ Answer : 4

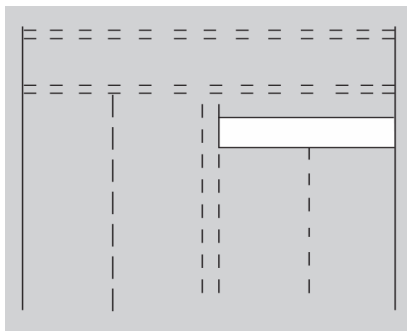
950. What does this road surface marking indicate?

① There is an intersection ahead.

② A stop line indicating where to stop.

③ A raised crosswalk.

④ There is a safety zone ahead.



■ Answer : 2

951. Which of the following is true about this directional sign?

① The road will merge with National Highway No. 6 150 m ahead.

② The name of the intersection is Gunpo.

③ This is the 47th intersection on this freeway.

④ This is a junction that connects two freeways.

■ Answer : 2

952. What does Daejeon 143 km indicate in this road sign found on the expressway sign?

① The remaining distance to Daejeon City Hall

② The remaining distance to the administrative borderline of Daejeon

③ The remaining distance to the center point of Daejeon with respect to its latitude

④ The remaining distance to the first intersection of the Daejeon region

■ Answer : 4

953. Which of the following is NOT true about the U-turn sign in this picture?

① The sign can be placed on the right side of the road where motor vehicles and horses can make a U-turn.

② The sign can be placed at the center of the road where motor vehicles and horses can make a U-turn.

③ This is an indication sign, and a U-turn can only be made when the traffic light is green.

④ The U-turn sign is an indication sign among traffic safety signs.

■ Answer : 3

954. Which of the following is the correct interpretation of these safety sign and supplementary sign?

① No vehicle or two-wheeled vehicle thoroughfare from 08:00 to 20:00

② No vehicle, motorcycle, or two-wheeled vehicle thoroughfare from 08:00 to 20:00

③ No vehicle or motorcycle thoroughfare from 08:00 to 20:00

④ No vehicle or bicycle thoroughfare from 08:00 to 20:00

■ Answer : 2

955. When will a vehicle NOT be towed under this road sign?

① The driver left the vehicle for 4 minutes to go to the restroom.

② The driver left the vehicle for 10 minutes to make a delivery.

③ The driver stopped the vehicle and stayed in the driver's seat for 10 minutes.

④ The driver stopped the vehicle and stayed in the driver's seat for 4 minutes.

■ Answer : 4

956. Which of the following is NOT true about this picture?

① It is an address information facility (basic number sign) installed on a road or a vacant lot where there are no buildings.

② It is a basic number sign installed on the right side of the road, 4.73 km from the starting point of Noksaek-ro.

③ It is a basic number sign installed on the left side of the road, 40.73 km from the starting point of Noksaek-ro.

④ The road name and basic number displayed on the basic number sign allow you to determine the exact location of that point.

■ Answer : 2

957. What do these safety sign and supplementary sign signify?

① Only buses can travel in this lane on Sundays and public holidays.

② Only buses can travel in this lane except on Sundays and public holidays.

③ Only buses can travel in this lane at all times.

④ All vehicles can travel in this lane on days other than Sundays and public holidays.

■ Answer : 2

958. Which of the following is NOT true about this road sign?

① A school bus can idle for the duration indicated on the loading and unloading zone sign in a school zone.

② A school bus can either idle or park for the duration indicated on the loading and unloading zone sign in a school zone.

③ Any vehicle can idle to drop off and pick up children in the school zone.

④ Any vehicle can idle to drop off and pick up children in the school zone, but parking is not allowed.

■ Answer : 4

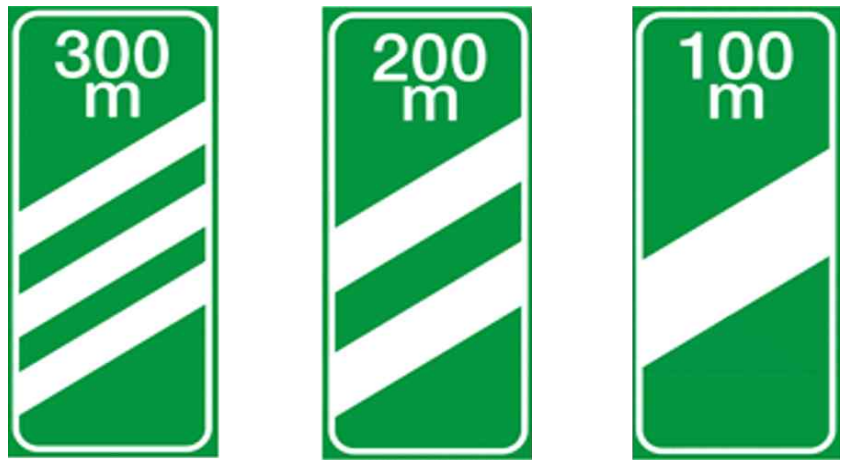
959. Which of the following is the correct name of this road sign according to the Road Sign Regulations?

① Danger zone warning sign

② Speed limit release sign

③ Junction point guide sign

④ Exit deceleration guide sign



■ Answer : 4

960. Which of the following correctly describes this sign?

① This is a street sign that can be used to guide drivers to the left or right.

② "1→" indicates where the road will end.

③ Gangnam-daero is 699 m away.

④ "Gangnam-daero" is the name of the road.

■ Answer : 4

961. What is the meaning of this sign?

① A sign indicating the distance to the national highway and expressway interchange

② A sign indicating the distance from the starting point of the expressway to the current location

③ A sign indicating the distance to the expressway rest area

④ A sign providing distance information to the tollgate

■ Answer : 2

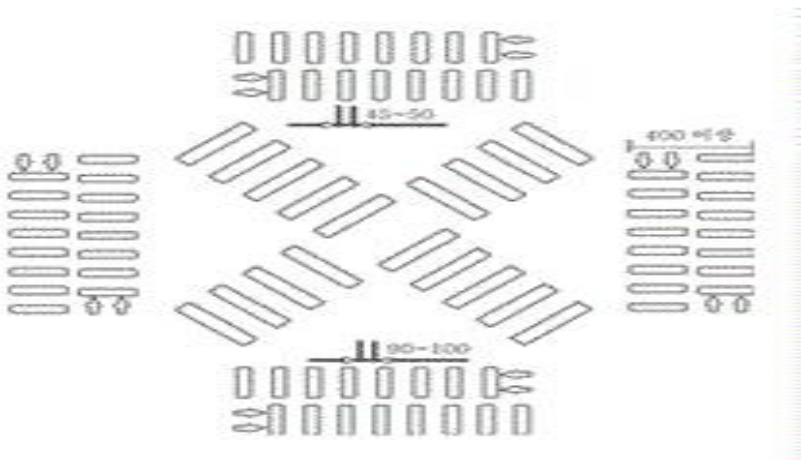
962. Which of the following is NOT true about this road markings?

① It indicates a diagonal crosswalk.

② It is a multi-directional crosswalk.

③ It is placed in school zones, busy sidewalks, and other locations where pedestrian safety and convenience must be secured.

④ Empty spaces within the crosswalk marking are not a part of the crosswalk.



■ Answer : 4

963. Which sign is a building number sign for government offices?

① Ⓐ　② Ⓑ　③ Ⓒ　④ Ⓓ

Ⓐ

Ⓑ

Ⓒ

Ⓓ

■ Answer: 4

964. Which of the following correctly describes this building number plate?

① "Pyungchon-gil" is the name of the road and "30" is the building number.

② "Pyungchon-gil" is the main entrance and "30" is the basic number.

③ "Pyungchon-gil" is the start of the road and "30" is the building number.

④ "Pyungchon-gil" is the road identifier and "30" is the specific address.

■ Answer : 1

965. Which of the following is the correct description of this three-way road name sign?

① Turn left and City Hall is 300 m ahead.

② The road section of Gwangpyeong-ro is designated from west to east.

③ Turn right and Pyeongchon Station is 300 m ahead.

④ "Gwanpyeong-ro" is 300 m ahead.

■ Answer : 4

966. Which of the following describes the most dangerous situation that may arise in the video? (Refer to the website)

① The large vehicle waiting on the right is about to move.

② The yellow vehicle on the other side is attempting to commit a traffic signal violation.

③ The black vehicle turning right on the right is entering the first lane.

④ A situation wherein a white passenger car in the opposite direction turns right without considering the outer wheel clearance.

■ Answer : 3

967. Which of the following describes the most dangerous situation that may arise in the video? (Refer to the website)

① The gray vehicle in front may abruptly stop.

② The yellow vehicle on the other side is trying to make an illegal U-turn.

③ The bus on the left-turn lane may suddenly change lanes to go straight.

④ The white vehicle on the right is trying to overtake your vehicle.

■ Answer : 4

968. Which of the following describes the most dangerous situation that may arise in the video? (Refer to the website)

① The vehicle traveling in lane 1 on the other side is crossing the centerline.

② Pedestrians on the right are suddenly trying to enter the roadway.

③ The vehicle on the other side of the road turned on its headlights to give a warning.

④ The vehicle on the road right to the intersection has violated the traffic signal, and it is driving into the intersection.

■ Answer : 4

969. Which of the following vehicles shown in the video complies with the Road Traffic Act to protect children crossing a road in a school zone? (Refer to the website)

① The red car

② The white truck

③ The blue truck

④ The orange taxi

■ Answer : 3

970. Which of the following describes the most dangerous situation that may arise in the video?

① The vehicle waiting in lane 1 at the intersection is turning left.

② While switching to lane 2, your vehicle is about to collide with a vehicle driving in lane 2.

③ The pedestrian standing behind a billboard suddenly enters the roadway to jaywalk.

④ The pedestrian is about to cross a crosswalk without a traffic signal.

■ Answer : 3

971. Which of the following describes the most dangerous situation that may arise in the video? (Refer to the website)

① The illegally parked vehicle is traveling in lane 1 where parking is prohibited.

② The door of the vehicle parked in the opposite direction is about to open.

③ The vehicle is about to collide with a bicycle traveling in the opposite direction of traffic.

④ The pedestrian crossing the crosswalk suddenly falls down.

■ Answer : 3

972. Which of the following vehicles is driving in compliance with the Road Traffic Act to protect pedestrians crossing at an Intersection? (Refer to the website)
